paragraphs (a) and (b) of this section, the seller's cost of acquisition not to exceed his maximum buying price, at the point of purchase by the government, plus all storage rates actually paid or accrued to a public warehouse plus a maximum amount of 1½ cents per pound on quantity sales of less than 10,000 pounds or a maximum amount of 1 cent per pound on quantity sales of 10,000 or more pounds.

Examples of types of sellers other than retailers and those listed in paragraphs (a) and (b) above: Restaurants, hotels, railroad dining cars, night clubs, etc.

(d) *Provided, however,* That where the transfer and sale in one transaction of poultry contained in one warehouse is requested by the United States Government or any of its agencies from the seller in quantities of 10,000 or more pounds, the seller shall add only the one cent per pound mark-up provided for sales in such quantities and shall not, regardless of the size quantities in which the poultry is sold, add the 1½ cents per pound mark-up permitted for quantity sales of less than 10,000 pounds, if the total of all such sales to the government equals or exceeds 10,000 pounds.

Example. Mr. A, a wholesaler,[2] owns 25,000 pounds of assorted poultry items in X warehouse. The Army requests sale at one time of the entire 25,000 pounds. Mr. A refuses to sell the 25,000 pounds in one transaction, but agrees to sell 9,000 pounds in one transaction, 9,000 in another and the remaining 7,000 pounds in the last transaction. Mr. A may not, nevertheless, add more than 1 cent per pound as to any of the poultry sold in any of the three transactions. In other words, he is limited to the mark-up he could have charged if he had sold the poultry in the quantity or quantities requested by the Army. If the Army had requested 18,000 pounds in one sale and 7,000 in another, Mr. A could charge 1½ cents per pound on the latter transaction, but still would be limited to a mark-up of 1 cent per pound on the former.

This amendment shall become effective December 31, 1943.

2. Section 2 (c) is redesignated section 2 (i).

3. A new section 2 (c) is added to read as follows:

(c) *Permitted increase for labor.* A packer shall figure a permitted increase for labor (1) if he has incurred a wage rate increase with the approval of the War Labor Board or under the Fair Labor Standards Act; (2) if the wage rate increase became effective after January 1, 1943; (3) if prior to November 26, 1943, he applied to the Office of Price Administration, Washington, D. C., for authorization to figure the increase; and (4) if 50% or more of his production of apple butter packed from 1943 fruit was made after the effective date of the wage rate increase. The increase shall be figured by multiplying the sum of the packer's base price and permitted increase for fruit under paragraphs (a) and (b), above, by the figure indicated in the following table for the area in which his factory is located.

PART 1440—PROCESSED FOOD COMMODITIES

[MPR 488,[1] Amdt. 1]

PICKLES AND CERTAIN PICKLED PRODUCTS

A statement of the considerations involved in the issuance of this amendment has been issued and filed with the Division of the Federal Register.*

Maximum Price Regulation No. 488 is amended in the following respects:

1. Section 3 is amended to read as follows:

SEC. 3. *General pricing method*—(a) *Maximum prices for salters, briners and final processors.* In sales of any item by salters, briners or final processors, the seller's maximum price to any class of purchaser is his maximum price under the General Maximum Price Regulation plus the following permitted increases:

(1) *Permitted increase for raw materials.* For salters and briners, the seller's permitted increase for raw materials is 25¢ per bushel, in the case of cucumbers, and 20% of the 1942 cost of the raw vegetable, in the case of cauliflower, onions, and pepper hulls. "1942 cost" means the total amount paid for the particular vegetable divided by the total number of bushels, or other selling unit for which a price is being determined, purchased in 1942.

For final processors, the seller's permitted increase for raw materials is 5% of his maximum price under the General Maximum Price Regulation.

(2) *Permitted increase for labor.* (i) The seller shall add an increase for labor only under the following circumstances:

(a) If he has incurred a wage rate increase with the approval of the War Labor Board or under the Fair Labor Standards Act;

(b) If the wage rate increase becomes effective after January 1, 1943;

(c) If prior to November 26, 1943 he applied to the Office of Price Administration, Washington, D. C., for authorization to figure an increase for labor; and

(d) If, with respect to an item of stock salt made from 1943 fresh vegetables, 50% or more of his 1943 production of the commodity was made after the effective date of the wage rate increase.

(ii) The seller shall figure his permitted increase for labor by adding the permitted increase for raw material to his maximum price under the General Maximum Price Regulation, and multiplying the resulting amount by the percentage figure indicated in the following table for the area in which his plant is located.

Area and States:	*Percentage*
Area I: Maine, New Hampshire, Vermont, Rhode Island, Connecticut, New York, New Jersey, Pennsylvania	2.5
Area II: Delaware, Maryland, Virginia, West Virginia, North Carolina, South Carolina, Georgia, Florida, Kentucky, Tennessee, Alabama, Mississippi, Louisiana, Missouri, Arkansas, Oklahoma, Texas	3.5
Area III: Ohio, Indiana, Illinois, Michigan, Wisconsin, Minnesota, Iowa, Kansas, Nebraska, North Dakota, South Dakota	2.5

Area and States—Continued.	Percentage
Area IV: Idaho, Wyoming, Montana, Utah, Colorado, Nevada, Washington, Oregon, California, Arizona, New Mexico	2.5

(b) *Maximum prices for wagon wholesalers.* In sales of any item by wagon wholesalers, the seller's maximum price to any class of purchasers is his maximum price under the General Maximum Price Regulation plus the difference between the respective supplier's maximum price under the General Maximum Price Regulation and the supplier's maximum price under this regulation.

(c) *Maximum prices for all other sellers.* For all sellers (other than wholesalers and retailers) not specifically mentioned in this section, the maximum price in each case is the supplier's maximum price, as established by this regulation for sales to that seller, adjusted where necessary to include incoming freight.

2. Section 5 (a) (3) is amended to read as follows:

(3) The direct labor cost per unit figured at the October 3, 1942, wage rates, adjusted to reflect any wage increase incurred by him which was made with the approval of the War Labor Board or under the Fair Labor Standards Act and which became effective after January 1, 1943, plus.

This amendment shall become effective December 31, 1943.

PART 1448—EATING AND DRINKING ESTABLISHMENTS

[Restaurant MPR 3-13]

FOOD AND DRINK SOLD FOR IMMEDIATE CONSUMPTION IN DESIGNATED COUNTIES IN THE STATE OF OHIO

In the judgment of the District Director of the Toledo, Ohio, District Office of the Office of Price Administration, the prices of food and beverages sold for immediate consumption in the 19 counties comprising the Toledo District, all located in the State of Ohio, have risen and are threatening further to rise to an extent and in a manner inconsistent with the Emergency Price Control Act of 1942, as amended, and Executive Orders 9250 and 9328.

In the judgment of the District Director of the Toledo District, maximum prices established by this regulation are generally fair and equitable and are necessary to check inflation and to effectuate the purposes of the Act. So far as possible, the District Director of the Toledo District gave due consideration to prices prevailing between October 1 and 15, 1941, and consulted with the representatives of those affected by this regulation.

A statement of the considerations involved in the issuance of this regulation is issued simultaneously herewith.*

Therefore, in accordance with the direction of the President to take action which will stabilize prices affecting the cost of living, and under the authority therewith delegated by the President pursuant to the Act of Congress approved October 2, 1942, entitled "An Act to Aid in Stabilizing the Cost of Living", 77th Congress, Second Session, and under the authority of Executive Order 9250, Executive Order 9328, and the Emergency Price Control Act of 1942, the District Director of the Toledo District hereby issues this Restaurant Maximum Price Regulation No. 3–13, establishing as maximum prices for food and drink sold for immediate consumption the prices prevailing therefor during the seven-day period beginning April 4, 1943, and ending April 10, 1943, in the Counties of Allen, Auglaize, Crawford, Defiance, Fulton, Hancock, Hardin, Henry, Lucas, Mercer, Ottawa, Paulding, Putnam, Sandusky, Seneca, Van Wert, Wood, Williams and Wyandotte.

§ 1448.213 *Maximum prices for food and drink sold for immediate consumption.* Under the authority vested in the Toledo District Director by the Emergency Price Control Act of 1942, as amended, Executive Order 9250, Executive Order 9328 and General Order No. 50, issued by the Office of Price Administration, Toledo Restaurant Maximum Price Regulation No. 3–13 (Food and Drink Sold for Immediate Consumption) is hereby issued.

AUTHORITY: § 1448.213 issued under 56 Stat. 23, 765; Pub. Law 151, 78th Cong.; E.O. 9250, 7 F.R. 7871; E.O. 9328, 8 F.R. 4681; Gen. Order 50, 8 F.R. 4908.

SECTION 1. *Sales at higher than ceiling prices prohibited.* If you own or operate a restaurant, hotel, cafe, bar, delicatessen, soda fountain, boarding house, or any other eating or drinking establishments, you must not offer or sell any "food item" (including beverages) or "meal" within its proper class as set forth herein, at a price higher than the highest price at which you offered the same "food item" or "meal" in such class during the seven-day period beginning Sunday, April 4, 1943 and ending Saturday, April 10, 1943. You must not sell or offer to sell any other "food item" or "meal" at a price higher than the ceiling price which you figure according to the provisions of sections 2, 3, and 4 herein. You may, of course, sell at less than the ceiling prices.

SEC. 2. *How you figure ceiling prices for food items and meals you did not sell in the seven-day period.* You must figure your ceiling price for a food item or meal which you did not offer in the seven-day period, as follows:

(a) If you served the same food item or meal within thirty days prior to April 4, 1943, you may take as your ceiling price the highest price at which you offered the same food item or meal in its proper class during said thirty-day period. In any such case your records, as set forth in section 10 (c) herein, must include the menu or information showing the previous offering of such food item or meal at the higher price.

(b) If you did not sell or offer to sell the food item or meal during the seven-day period, and if you cannot price the food item or meal under the provisions of section 2 (a), then you choose from the food items or meals served in the seven-day period, for which a ceiling price has already been fixed, the food item or meal in the same class which is most similar to the food item or meal you are pricing and then proceed as follows:

(1) Determine the cost of the raw food which you use in preparing the new food item or meal.

(2) From the food items and meals for which you have already established ceiling prices, choose a food item or meal which currently has a raw food cost equal to or less than the raw food cost of the new food item or meal. The word "currently" as used herein means current at the time the pricing of the new food item or meal takes place.

(3) Take as your ceiling price for the new food item or meal your ceiling price for the food item or meal chosen for comparison. The food item or meal chosen for such comparison should be of the same class as the new food item or meal. If, however, you can find no food item or meal of the same class, you may use for comparison the most similar food item or meal of another class having a food cost equal to or less than your food cost for the the new food item or meal.

(c) Once your ceiling price for a food item or meal has been fixed, it may not be changed, except as may be expressly provided herein.

SEC. 3. *Class of food items and meals—*(a) *Classes of meals.*

(1) For the purpose of classification under this regulation, there shall be thirteen classes of meals as follows: breakfast, lunch, tea, dinner and supper on week days; breakfast, lunch, tea, dinner and supper on Sundays; children's breakfast, lunch and dinner.

(2) Where you differentiated in price or otherwise between any of the above classes of meals during the period, April 4 to April 10, 1943, you shall continue to maintain such differential. A meal shall be further classified according to the food item category hereinafter listed in which the main dish of such meal is grouped.

Example. A week day roast pork dinner would be in a different class from a week day roast pork lunch or a Sunday roast pork dinner or a week day vegetable plate dinner, but would be in the same class as a week day pork chop dinner.

(b) *Classes of food items.* (1) For the purpose of this regulation food items as herein referred to shall be classified into the following categories:

34. Liquors, including whiskeys, gins and brandies.
35. Cordials, including fruit liqueurs.
36. All other alcoholic beverages, including mixed drinks, cocktails, highballs, etc.

(2) Where you customarily, during the period April 4 to April 10, 1943, differentiated in price or otherwise as to the serving of the same a la carte food item between any two or more of the following: breakfast, lunch, tea, dinner and supper on week days; breakfast, lunch, tea, dinner and supper on Sundays, and children's breakfast, lunch and dinner, you shall continue to maintain such differentials, and where such differentials exist such food items shall be deemed to be distinguished as to class.

Example. Mashed potatoes offered a la carte for week day lunches would be in the same class of food items as potatoes au gratin offered a la carte for week day lunches but would be in a different class than mashed potatoes offered a la carte for week day dinners or Sunday suppers or in connection with other meal menus if during the base period they were customarily distinguished in price or otherwise.

(c) Your ceiling prices for food items or meals served on those designated legal holidays by Federal Law or by the Law of the State in which the establishment is located may be the same as your Sunday ceiling prices for such establishment.

If you customarily charged more than usual Sunday prices for meals and food items served on Easter, Thanksgiving, Christmas, New Year's Eve, or New Year's Day, you may, notwithstanding the provisions of sections 1 and 2 herein, continue to charge higher prices on those particular days, such higher prices, however, in no event to exceed 115% of your Sunday ceiling prices.

SEC. 4. *No ceiling prices to be higher than the highest price in the base period.* Under no circumstances are you permitted to charge a higher price for a food item or meal which you did not offer in the seven-day period than the highest price at which you offered a food item or meal of the same class during the seven-day period, except that, if, during the thirty-day period immediately prior to April 4, 1943, you served a food item or meal at a price higher than the highest price charged for food items or meals in the same class during the aforesaid seven-day period, then you may continue to sell that same food item or meal at the higher price. In any such case, your records, as set forth in section 10 herein, must include the menu or information showing the previous offering of such food item or meal at the higher prices. The restriction of this section shall not apply to seasonal dessert specialties as specified in section 3, paragraph (b), Class 25.

Example. If during the seven-day period your highest price for a week day dinner was $1.25, in general, that is the highest price you may charge for any week day dinner. If, however, you served a chicken dinner at $1.50 on any week day within 30 days prior to April 4, 1943, then you may continue to serve the same chicken dinner at $1.50 even though that is a higher price than any price charged for the same class dinner during the seven-day period. But you may not add a new meal not served during the 30-day period, at a price in excess of $1.25. Observe the requirement that a supporting menu (or price list) be made available to justify such exception.

SEC. 5. *Substitution of food items in meals.* If you have already determined your ceiling price for a meal you may substitute for any food item other than the entree (or main dish) in that meal any other food item of the same class without refiguring your ceiling price, provided the new food item costs you approximately as much and offers customers about the same value as the food item which it replaces. A meal becomes a "new" meal whenever the entree (or main dish) is changed or a new food item is substituted which costs you less or offers your customers lower value than the food item which it replaces, and you must therefore determine its ceiling price in accordance with the rules established by sections 1 and 2.

SEC. 6. *Prohibition against discontinuing meals at certain prices.* You must not now discontinue offering meals at prices comparable to those charged by you in the seven-day period if by your doing so your customers would actually have to pay more than they did in the seven-day period. You will be in violation of this rule unless:

(a) You continue to offer meals at different prices representative of the range of prices at which you offered meals of the same class during the seven-day period, and unless

(b) You continue to offer on week days at least as many different meals at or below the lowest price charged by you for meals of the same class on any week day that you select in the seven-day period, as you did on that day.

(c) You continue to offer on Sundays and legal holidays at least as many different meals at or below the lowest price charged by you for meals of the same class on Sunday, April 4, 1943.

Example. Thus, you may select any week day in the seven-day period as the base day for week-day meals. If you select Friday, April 9, 1943, to determine the lowest price and the number of week day meals offered at that price, and if on that day you offered six week day dinners, of which two were priced at 85c and one each at 90c, $1.00, $1.10, $1.15 you must continue to offer at least two week day dinners at 85c.

SEC. 7. *Evasion.* (a) You must not evade the provisions of this regulation by any scheme or device, including,

(1) Dropping food items from meals, deteriorating quality or reducing quantity without making sufficient reduction in price so as to maintain the raw food cost ratio at least equal to such ratio prior to the deterioration or reduction.

(2) Withdrawing the offer, or increasing the price of any meal ticket, weekly rate, or other arrangement by which customers may buy food items or meals at

less than the prices they must pay when purchasing by item or meal;

(3) Increasing any cover, minimum, bread-and-butter, service, corkage, entertainment, check-room, parking, or other special charges, or making such charges when they were not in effect in the seven-day period;

(4) Requiring as a condition of sale of an item or meal the purchase of other items or meals.

(5) Discontinuing a no tipping practice without a compensating reduction in your maximum prices.

(6) Reducing the selection of meals offered at table d'hote prices when the food items which you customarily offered in such meals are being offered at a la carte prices which, when added together, total more than the table d'hote price for the complete meal, or give your customers less value for their money.

(b) You will not be considered evading the provisions of this regulation, however, if you do any of the following things, even though you did not do any of those things during the seven-day period.

(1) You may limit your customer to one pat of butter per meal; and when necessitated by the restrictions of the rationing program, you may vary the size of such pats of butter.

(2) You may reduce the quantity of ketchup, chili sauce, or any other condiment which is rationed;

(3) You may reduce the amount of sugar served according to your available supply.

SEC. 8. *Rules for new proprietors and new establishments.* (a) If you acquire another's business subsequent to the effective date of this regulation and continue the business in the same place, you are subject to the same ceiling prices and duties prescribed by this regulation as the previous proprietor. Prior to the commencement of business, however, you may apply to the Toledo District Office of Price Administration for permission to price under paragraph (b) of this section. If such permission is granted it may be subject to such conditions as the Office of Price Administration deems necessary.

(b) If you open an eating or drinking place after the seven-day period, you must fix ceiling prices in line with the ceiling prices of the nearest eating or drinking place of the same type as yours. If you operate a concession in conjunction with a public event and were not in operation during the base period, you shall establish your prices in line with a similar type of eating or drinking place operating during the time of the base period. If the ceiling prices so fixed are too high and threaten to have an inflationary effect on the prices of food and drink, the Office of Price Administration may issue an order requiring you to reduce your ceiling prices. You are subject to the record requirements of section 10 and the posting requirements of section 11 immediately upon the opening of your place.

(c) *Changing type of service.* If you operated an eating or drinking establishment in the same establishment where you operated an eating or drinking place during the period April 4th to 10th, but changed your type of operation, you shall apply to the Toledo District Office of Price Administration for your proper maximum prices.

(d) *Seasonal eating and drinking establishments.* If you are the proprietor of a seasonal eating or drinking establishment you must figure your ceiling prices as follows:

(1) If your establishment was in operation during the base period from April 4–10, 1943, use the rules set forth in sections 2, 3, and 4 of this regulation.

(2) If your establishment was not in operation during the base period from April 4 to April 10, but another establishment of the same type and within reasonable distance was in operation during that period, fix your ceiling prices as a new proprietor under the provisions of section 8, paragraph (a) and (b) herein.

(3) If you cannot price under paragraphs (1) or (2) herein, and your establishment is not yet in operation, you shall apply for approval of maximum prices to the Toledo District Office of Price Administration. Your application must be filed at least 10 days prior to the date on which you plan to commence operations and must include the following information:

(i) Your name and address and the address of your establishment.

(ii) A brief description of your business and the manner of operation.

(iii) A list showing the prices you charged during the previous season as well as the prices you propose to charge during the present or coming season, differentiating between week day, and Sunday and holiday prices.

(iv) The date on which you plan to commence operations.

(v) The names of two establishments similar to yours in your vicinity.

You may then charge the prices listed if they are not disapproved by the Office of Price Administration prior to the date specified for the commencement of operations. The Office of Price Administration may, at any time, after proper investigation and hearing, establish or re-establish such maximum prices for your business as it deems proper and equitable.

(4) If your establishment is already in operation and you cannot price under paragraphs (1) or (2) herein, you shall, within 10 days of the effective date of this order, file application with the Toledo District Office of Price Administration for approval of the prices which you are presently charging. Such application shall include the same information as set forth for applications under paragraph (3) herein. Such listed prices shall be your maximum prices, but shall be subject to modification or adjustment at any time by the Office of Price Administration.

SEC. 9. *Taxes.* If in the seven-day period you stated and collected the amount of any tax separately from the price you charged, you may continue to do so. You may also separately state and collect the amount of any new tax or any increase in the amount of a previous tax on the sale of food or drink or in the business of selling food or drink, if the tax is measured by the number or price of items or meals.

SEC. 10. *Records*—(a) *Filing of menus.* General Order No. 50 required you to file with your War Price and Rationing Board on or before May 1, 1943, a signed copy of each menu or list of your prices in effect during the seven-day period beginning Sunday, April 4, 1943, and ending Saturday, April 10, 1943. If you have not already filed, you must do so immediately. Failure to do so will also constitute a violation of this regulation.

(b) *Filing by proprietors not in operation during the seven-day period.* The proprietor of an eating or drinking place which was not open during the seven-day period (including newly-opened places) shall file menus or a price list in accordance with paragraph (a) above, except that (1) the filing shall be for the seven-day period beginning with the first Sunday that place is open after April 4, 1943 and (2) the filing shall be made within three weeks of such first Sunday.

(c) *Records of the seven-day period.* You must make available for examination by any person during ordinary business hours a copy of each menu used by you in the seven-day period from April 4–10, 1943, or if you are a new proprietor, in the seven-day period referred to in paragraph (b) above. If you did not use menus, or if your menus were incomplete, you must make available for such examination a list of the highest prices you charged in such seven-day period.

(d) *Customary records.* You must preserve all your existing records relating to your prices, costs and sales. You must also continue to maintain such records as you ordinarily kept. All such records shall be subject to examination by the Office of Price Administration.

(e) *Future records.* Beginning with the effective date of this regulation, you must keep for examination by the Office of Price Administration, two copies of each menu used by you each day. If you do not use menus you must prepare, in duplicate, and preserve for such examination, a record of the prices charged by you each day, except that you need not record prices which are the same as, or less than, prices you previously recorded for the same items or meals. Proprietors who operate a number of eating or drinking places in the same city which have customarily been subject to central control may keep the records required by this paragraph for those places at a central office or the principal place of business within the city.

SEC. 11. *Posting.* (a) If you made menus available to customers in the seven-day period April 4 to April 10, inclusive, you shall continue to make them available. All menus shall include prices for meals and food items offered.

(b) Within one week after the effective date of this order:

(1) Your menus must contain in clear and legible printing or writing, the following statement:

All prices listed are at or below our ceiling price, which, by OPA regulation, are the highest prices we charged for the same item or meal from April 4 to April 10, 1943. Our records of prices for such period are available for your inspection.

(c) If you did not use menus during the April 4–10 period, you may either (1) institute the use of menus, abiding by the foregoing requirements, or (2) you must post a price list including prices for all meals and food items offered, near the cashier's desk, if any, or in such other location of your establishment that it may be easily seen and read by customers at the time of purchase. Such price list shall conform to the requirements of paragraph (b) above.

SEC. 12. *Operation of several places.* If you own or operate more than one eating and drinking place, you must do everything required by this regulation for each place separately.

SEC. 13. *Relation to other maximum price regulations.* The provisions of this regulation shall not apply to any sale for which a maximum price is established by any other regulation, including the General Maximum Price Regulation, now or hereafter issued by the Office of Price Administration.

SEC. 14. *Geographical application.* The provisions of this order shall be applicable to all eating and drinking places (as hereinafter defined in section (15) (e)) located in the counties of Allen, Auglaize, Crawford, Defiance, Fulton, Hancock, Hardin, Henry, Lucas, Mercer, Ottawa, Paulding, Putnam, Sandusky, Seneca, Van Wert, Wood, Williams, and Wyandotte, all located in the State of Ohio.

SEC. 15. *Definitions and explanations.* (a) "Person" means individual, corporation, partnership, association, or any organized group of persons or legal successor or representative of any of the foregoing, and includes the United States or any agency thereof, any other government, or any of its political sub-divisions, and any agency of the foregoing.

(b) "Meal" means a combination of food items sold at a single price. Examples of meals are a five-course dinner, a club breakfast, and a blue-plate special. Two or more kinds of food which are prepared or served to be eaten together as one dish are not a "meal." Examples of such dishes are: Ham and eggs, bread and butter, apple pie and cheese.

(c) "Offered" means offered for sale and includes the listing or posting of prices for items and meals even though the items and meals so offered were not actually on hand to be sold.

(d) "Food item" means an article or portion of food (including beverages) sold or served by an eating or drinking place for consumption in or about the place or to be taken out for eating without change in form or additional preparation. It includes two or more kinds of food which are prepared or served to be eaten together as one dish, such as ham and eggs, bread and butter, apple pie and cheese.

Food items, otherwise identical, are not the same for the purpose of establishing maximum prices under sections 1 and 2, when they are items in different classes (see section 3 (b) for "classes of food items"). For example: Lamb chops offered a la carte for dinner or lunch are in class 13 while if offered for breakfast, they are in class 4.

(e) "Eating and drinking place" shall include any place, establishment or location, whether temporary or permanent, from which any food item or meal is sold, except those which are specifically exempted in section 17 hereof. It shall include by way of example, but not by way of limitation, such movable places where food is dispensed as field kitchens, lunch wagons, "Hot Dog" carts, etc.

(f) Unless the context otherwise requires, the definitions set forth in Sec. 302 of the Emergency Price Control Act of 1942 and in the General Maximum Price Regulation, issued by the Office of Price Administration, shall apply to other terms used herein.

SEC. 16. *Enforcement.* Persons violating any provisions of this regulation are subject to the criminal penalties, civil enforcement actions, suits for treble damages and proceedings for suspension of licenses provided for by the Emergency Price Control Act of 1942, as amended.

SEC. 17. *Exemptions.* Sales by the following eating or drinking places are specifically exempted from the provisions of this regulation.

(a) Eating and drinking places operated in connection with special church, temple, synagogue, Sunday School, or other religious occasions.

(b) Eating and drinking places located on board common carriers (when operated as such), including railroad dining cars, club, bar and buffet cars, and peddlers aboard railroad cars traveling from station to station.

(c) Hospitals, except for food items and meals served to persons other than the patients, when a separate charge is made for such food items and meals.

(d) Eating and drinking places operated by any school, college or university which is a non-profit institution (that is, where no part of the net earnings inures to the benefit of any private shareholder or individual), which sells food items or meals on a non-profit or cost basis (or as near thereto as reasonable accounting methods will permit), and substantially all sales of which are made to students, faculty members and employees of such institution. For purposes of this paragraph, persons receiving instruction on the premises of such institution by arrangement with the War Department or the Department of the Navy shall be considered students.

SEC. 18. *Special orders.* The provisions of this regulation to the contrary notwithstanding, the Office of Price Administration may from time to time issue special orders providing for the reduction of the maximum price of any food item or items or meal or meals sold or offered for sale by any seller or sellers when, in the judgment of the Administrator, such action is necessary or desirable to prevent excessive charges, to prevent inflation, to stabilize prices affecting the cost of living, or to carry out the purposes of the Emergency Price Control Act of 1942, as amended, and Executive Orders 9250 and 9328.

SEC. 19. *Adjustments.* (a) The Office of Price Administration may adjust the maximum prices for any eating establishment under the following circumstances:

1. The establishment will be forced to discontinue operations unless it is granted an adjustment of the maximum prices established by this regulation.

2. Such discontinuance will result in serious inconvenience to consumers in that they will either be deprived of all restaurant service or will have to turn to other establishments that present substantial difficulties as to distance, hours of service, selection of meals or food items offered, capacity, or transportation.

3. By reason of such discontinuance, the same meals or food items will cost the customers of the eating establishment as much or more than the proposed adjusted prices.

If you are the proprietor of an eating establishment which satisfies the requirements specified above, you may apply for an adjustment of your maximum prices by submitting to the Toledo District Office of Price Administration an application in duplicate. The application should contain the following information:

(1) Your name and address.

(2) A description of your eating establishment, including the type of service rendered, such as cafeteria, table service, etc.; classes of meals offered, such as breakfast, lunch and dinner; number of persons served per day during the most recent thirty-day period, (in counting the number of persons served, anyone who was served more than once is to be counted separately for each occasion he was served); and such other information as may be useful in classifying your establishment.

(3) The reasons why your customers will be seriously inconvenienced if you discontinue operations.

(4) The names and addresses of the three nearest eating places of the same type as yours.

(5) A list showing your present maximum prices and requested adjusted prices.

(6) A profit and loss statement for your restaurant business for the most recent three-month accounting period, and a copy of your last income tax return if one was filed separately for your restaurant business.

Applications for adjustment under this section may be acted upon by the Regional Administrator or by the District Director who has been authorized to do so by order of the Regional Administrator.

SEC. 20. *Amendments.* You may petition for an amendment of any provision of this regulation (including a petition pursuant to Supplementary Order No. 28) by proceeding in accordance with Revised Procedural Regulation No. 1, except that the petition shall be filed with and acted upon by the Regional Administrator.

SEC. 21. *Licensing.* The provisions of Licensing Order No. 1 of the Office of Price Administration, licensing all per-

sons who make sales under price control, are applicable to all sellers subject to this regulation. A seller's license may be suspended for violations of the license or the regulation. A person whose license is suspended may not, during the period of suspension, make any sale for which his license has been suspended. Under Licensing Order No. 1, a license is automatically granted without application by the seller.

SEC. 22. *Revocation.* This regulation may be modified, amended, corrected, or revoked at any time by the Office of Price Administration.

This regulation shall become effective January 24, 1944, 12:01 a. m.

NOTE: The reporting and record keeping requirements of this regulation have been approved by the Bureau of the Budget in accordance with the Federal Reports Act of 1942.

[1] 8 F.R. 15937, 16250, 16421.

3. The fourth sentence of section 25.1 (e) is amended by substituting the number "50" for the number "48".

4. The first sentence of section 25.1 (f) is amended by deleting the words "Ration for" and substituting therefor the words "Ration for months punched".

5. Section 25.1 (g) (2) is amended by substituting for the phrase "an expired certificate or" the word "a"; and by deleting the phrase "or certificate".

6. Section 25.1 (i) is revoked.

7. Section 25.1 (k) is amended by changing the phrase "paragraphs (i) and (j)" to read "paragraph (j)".

8. Section 25.1 (m) is amended to read as follows:

(m) Upon the expiration of any punch card, or after the full number of points provided by such card has been used by the applicant or members of his family unit to acquire processed foods, the board (or Customs Officer) shall issue a punch card for a subsequent period, but only if the applicant returns the expired card to it. The applicant must, not later than five days after the expiration of a punch card (or duplicate card) issued to him, return it to the board (or Customs Officer), either in person or by mail. However, if the punch card has been lost, destroyed or stolen, and the applicant has not received a duplicate card, a board may waive compliance with this requirement. No new application is required for the issuance of a punch card to replace an expired punch card unless, since the date of the last application, there has been a change in the number of members of the applicant's household related to him by blood, marriage or adoption who wish to acquire processed foods. Acceptance by the applicant of a punch card to replace an expired card shall constitute a representation by the applicant that the number of such persons has not been reduced.

9. Section 25.1 (o) is added to read as follows:

(o) Whenever a punch card is issued, the "Dealer card" portion of that card shall be perforated, and horizontal strips shall be removed from it in the same manner as the "Consumer card" portion issued to the applicant.

10. Section 25.1 (p) is added to read as follows:

(p) An applicant whose punch card has been lost, destroyed or stolen, may apply to the board (or Customs Officer) for a replacement. If the board (or Customs Officer) finds that the applicant's card was lost, destroyed or stolen, it shall issue to him a "Consumer card" portion of a punch card and shall write the word "duplicate" on it. It shall detach the "Dealer card" portion from any duplicate card issued under this paragraph.

11. Section 25.2 (b) is amended to read as follows:

(b) A supplier, who transfers processed foods against a punch card must, at or before the time of his first transfer against that card, sign the "Consumer card" portion of that card and make an exact copy of it on the "Dealer card" portion of the card. He shall detach and retain the "Dealer card".

12. The first sentence of section 25.2 (c) is amended by deleting the words "duplicate white punch card" and substituting instead the words "'Dealer card'."

13. Section 25.2 (d) is amended to read as follows:

(d) No transfer may be made unless the punch card is presented to the transferor. If the punch card is marked "duplicate", no transfer may be made unless the supplier first makes an exact copy of his "Dealer card" on the duplicate "Consumer card" by making the same perforations or deletions of numbers on the duplicate as have been made on the "Dealer card" and removing from the duplicate the same number of strips as have been removed from the "Dealer card". He must also sign the duplicate.

14. The first sentence of section 25.3 (a) is amended to read as follows: (a) Any retailer, wholesaler, processor, country shipper or grower who has been designated by an applicant as the supplier from whom processed foods are to be acquired shall maintain and keep at his place of business the "Dealer card" which he is required by section 25.2 (b) to make out for each such applicant, and the white punch card which he was required to make out for each such applicant prior to January 1, 1944.

This amendment shall become effective January 1, 1944.

NOTE: All reporting and record-keeping requirements of this amendment have been approved by the Bureau of the Budget in accordance with the Federal Reports Act of 1942.

Maximum Price Regulation 445 is amended in the following respects:

1. Section 4.12 (c) of Maximum Price Regulation 445 is amended to read as follows:

*Copies may be obtained from the Office of Price Administration.

[1] 8 F.R. 11161, 11851, 13496, 13500, 13845, 14016, 14400, 15912, 16997, 16928, 17415.

C., on or before October 22, 1943, and such application is filed in accordance with section 4.9 on or before November 10, 1943, this article shall not apply to the processor's sales, offers to sell or deliveries of such bulk or packaged non-current wine made prior to the sixtieth day after the filing of such application or January 10, 1944, whichever is the earlier date, or to sales of that wine which the seller is required by statute, ordinance or regulation to make at a price posted or listed prior to the appropriate date referred to above with a state or other public authority (if the price so posted or listed is greater or less than that established under this article for such sale) until on and after the first effective date for prices so posted or listed at the first opportunity after that date.

2. Section 6.3 (a) (4) is amended to read as follows:

(4) Every broker or agent taking part in a sale of packaged domestic distilled spirits shall be considered the agent of the seller and not the agent of the buyer. In each case the amount paid by the buyer to the broker or agent as a buyer's fee, broker's fee, finder's fee, service charge or other payment plus the amount paid by the buyer to the seller shall not exceed the seller's maximum price plus allowable transportation charges (not already included in the seller's maximum price) actually paid by the seller or by the broker or agent.

3. Section 7.6 (b) is revoked.

4. Section 7.6a is added to read as set forth below, and the headnote of section 7.6a is added in numerical order to the list of sections in sections 1.10, 2.5, 3.6, 4.11, 5.9, and 6.4.

[RO 16,[1] Amdt. 93]

MEAT, FATS, FISH AND CHEESES

A rationale for this amendment has been issued simultaneously herewith and has been filed with the Division of the Federal Register.*

Ration Order 16 is amended in the following respects:

1. Section 5.6 (e) is amended by deleting the last sentence and inserting in lieu thereof, the following:

A wholesaler who does not have enough points at the time of registration must, within one week after the last day of each calendar month (beginning with the month of December 1943), give up to the board with which he is registered the points which he has on hand and in his ration bank account at the end of that month until he has, in this way, given up points equal to his excess inventory. He may, however, keep points equal to 15% of his allowable inventory. (Points for which ration checks are outstanding, points owed by him for acquisitions, during that month, of foods covered by this order and points owed for underdeliveries of foods are not considered to be points which he has "on hand".) He may not, until he has given up points equal to his excess inventory, buy or acquire during any one calendar week foods covered by this order having a point value of more than 15% of his allowable inventory.

2. Section 6.6 (e) is amended by deleting the last sentence and inserting in lieu thereof, the following:

A retailer who does not have enough points at the time of registration must, within one week after the last day of each calendar month (beginning with the month of December 1943), give up to the board with which he is registered the points which he has on hand and in his ration bank account at the end of that month, until he has, in this way, given up points, equal to his excess inventory. He may, however, keep points equal to 25% of his allowable inventory. (Points for which ration checks are outstanding, points owed by him for acquisitions during that month of foods covered by this order, and points owed for underdeliveries of such foods are not considered to be points which he has "on hand".) He may not, until he has given up points in an amount equal to his excess inventory, buy or acquire during any calendar week foods covered by this order having a point value in excess of 25% of his allowable inventory.

This amendment shall become effective January 7, 1944.

Chapter XIII—Petroleum Administration for War

PART 1515—PETROLEUM PRODUCTION AND NATURAL GASOLINE RECOVERY OPERATIONS

[PAO 11, as Amended Jan. 1, 1944]

General order covering the United States, its territories and possessions.

The fulfillment of the requirements for the defense of the United States has created a shortage of materials necessary for the production of petroleum for defense, for private account, and for export; and the following order is deemed necessary in the public interest, to promote the national defense, and to provide adequate supplies of petroleum for military and other essential purposes.

§ 1515.6 *Petroleum Administrative Order No. 11*—(a) *Scope of this order.* Except as otherwise modified by the provisions of any order issued as a supplement to this order, the provisions of this order shall be applicable to the use of material in petroleum production and natural gasoline recovery operations in the United States, its territories or possessions.

(b) *Definitions.* (1) "Person" means any individual, partnership, association, business trust, corporation, governmental corporation or agency, or any organized group of persons, whether incorporated or not.

(2) "Material" means any commodity, equipment, accessory, part, assembly, or product of any kind.

(3) "Petroleum" means crude oil, condensate, natural gasoline, or natural gas.

(4) "Production" means any operation directly incident to the discovery, development, or depletion of a petroleum pool.

(5) "Natural gasoline recovery" means any operation directly incident to the extraction or recovery of natural gasoline and associated hydrocarbons.

(6) "Maintenance and repair" means (without regard to accounting practice):

(i) The upkeep of any structure, equipment, or material in sound working condition or the restoration or fixing of any structure, equipment, or material which has broken down, or is worn out, damaged, or destroyed;

(ii) Any other use of material not exceeding in material cost $500 for any one complete operation which has not been subdivided for the purpose of coming within this definition.

"Maintenance and repair" shall not include the drilling, redrilling, deepening, plugging back, or multiple completion of any well, the initial installation on any well of pumping or other artificial lifting equipment, or the extension or the initial construction or installation of a field gas gathering line.

(7) "Operating supplies" means any material other than material used for maintenance and repair which is essential to and consumed in production or natural gasoline recovery and which is normally carried by an operator as operating supplies or which is normally chargeable to operating expense, including, among other items, chemicals, additives, and blending agents.

(8) "Laboratory equipment" means material or equipment used exclusively for the purpose of controlling, or investigating more effective methods of conducting, production or natural gasoline recovery operations by means of research, technical, or control laboratories. This material or equipment shall not, however, include material for use in the construction of laboratory buildings or other structures.

(9) "Exploratory well" means any well located at least two miles from every other drilling or producible well. However, no well is an exploratory well if it is located in any Restricted Area or in any field which, when drilling of the well is commenced, has been proved to be productive only of gas or condensate or both.

(10) "Pool" means any underground accumulation of petroleum constituting a single and separate reservoir or source of supply within a field.

(11) "Sectionalized land" means:

(i) Land which has been divided into sections by or on behalf of the Federal Government, and generally known as "public land surveys", whether the land is publicly or privately owned; and in other instances,

(ii) Land which has been divided into approximately square tracts similar to sections and which tracts contain about 640 acres (not more than 720 acres nor less than 560 acres) and can be subdivided by quartering into approximately square subdivisions of about 40 acres (not more than 45 acres nor less than 35 acres), or land which has been classified as "sectionalized land" by an authorized official of the Petroleum Administration for War.

A quarter of a quarter section of a "public land survey" or of an approximately square 640 acre tract, as defined above, is called a "quarter-quarter section" in this order.

(12) "Non-sectionalized land" means land other than sectionalized land.

(13) "Lease equipment" means material for use in production to be located within or adjacent to any field, including, among other items, oil treating equipment, salt water disposal facilities and disposal wells, fresh water production facilities and wells, production office facilities, and camp facilities.

However, lease equipment shall not include: an oil, gas, or condensate well; well equipment or pumping or other artificial lifting facilities for an oil, gas, or condensate well; a flow, lead, or gathering line for a gas or condensate well; a crude oil gathering line connecting a lease or field shipping tank or battery where petroleum is first gauged to any other petroleum gathering or movement facility or any refining facility; a vacuum plant or facilities; a cycling plant or facilities; a pressure maintenance plant or facilities; a plant or facilities for the extraction or recovery of natural gasoline or associated hydrocarbons, or for other treatment or processing of natural gas.

(14) "Property interest" means an interest in land which gives the owner of the interest the right to enter on the land and drill for or produce petroleum and obtain title to part or all of the production. Such interest is usually created by a deed or an oil and gas lease, and is commonly called a "working interest".

(15) "Condensate well" means a well which produces or is capable of producing a liquid which is predominantly condensate. However, a well which is completed separately in two or more horizons will be considered a "condensate well" only in the horizon or horizons which produce or are capable of producing a liquid which is predominantly condensate.

(16) "Restricted area" means a field, pool, or area, or any portion thereof, designated as a "restricted area" by an authorized official of the Petroleum Administration for War. Any field or pool, or portion of either, which has been designated by the Petroleum Administration for War as a condensate field and which has not been removed from such classification up to the date of the issuance of this order is declared to be a "restricted area".

(17) "Complete" or "recomplete", wherever used in connection with an oil well, shall include equipping and connecting the well, but shall not include the initial installation on any well of pumping or other artificial lifting equipment; and, wherever used in connection with a gas or condensate well, shall include equipping and connecting in a manner sufficient to test the well, but shall not include connecting the well to a gas gathering line or to a natural gasoline recovery or gas cycling plant.

(c) *General restrictions on use of material.* (1) No material may be used to drill or complete any well in a "restricted area" or to drill any well for gas or condensate in a discovered field, unless:

(i) Drilling was commenced prior to the designation of the area as a "restricted area" and conforms to the applicable provisions of Petroleum Administrative Order No. 11 or to a specific exception heretofore granted authorizing the drilling and completion of the well; or

(ii) Drilling is authorized by a specific exception or other grant of authority as provided for by paragraph (m).

(2) No material may be used in connection with any production or natural gasoline recovery operation other than those specified in paragraph (c) (1), unless the use is authorized by the provisions of this order or by specific exception or other grant of authority as provided for by pargraph (m).

(d) *Authorized uses of material for maintenance, repairs, operating supplies,*

lease equipment, or laboratory equipment. Notwithstanding any other provision of this order, material may be used in production and natural gasoline recovery for maintenance and repair purposes, as operating supplies, for lease equipment, or for laboratory equipment and the installation thereof.

(e) *Authorized uses of material in exploratory operations.* Material may be used for operations directly involved in the search for and discovery of a previously unknown pool by means of geological, geophysical, or geochemical prospecting, the drilling and completion of, and providing additions to, any exploratory well, or the drilling of any core hole. However, if a core hole is drilled less than two miles from any drilling or producible well and the location of the core hole does not conform to the provisions set forth in paragraph (f) for the use of material in development drilling operations, only surface casing or tubing of less than 500 feet in length may be installed in the core hole, and no petroleum may be produced therefrom unless permission has been granted by an authorized official of the Petroleum Administration for War.

(f) *Authorized uses of material in oil development drilling operations.* Material may be used to drill, complete, and provide additions to, any oil well in any discovered field other than a "restricted area," or to drill, complete, and provide additions to, any oil well not in a discovered field but within two miles of a drilling or producible well, if the material is used in accordance with the following provisions:

(1) Where the oil well is located on sectionalized land,

(i) The provisions of paragraph (f) (3) must be complied with, and

(ii) The well must be located on a drilling unit consisting of a quarter-quarter section upon which no other drilling or producible well is located, and

(iii) If a well spacing pattern has been specified for the field, pool, or area by an authorized official of the Petroleum Administration for War, the well must be located within 150 feet of a location which conforms with the specified pattern.

If no well spacing pattern has been specified, the well must be located on the quarter-quarter section within 150 feet of a location which corresponds to the location on a quarter-quarter section of the pattern-fixing well for the field. The pattern-fixing well is the first well (including the discovery well but excluding any well completed as a dry hole) spudded in the field after December 23, 1941, in search of oil, and located on a quarter-quarter section not closer than 300 feet from any line thereof and on which quarter-quarter section no other drilling or producible well is located.

The well spacing pattern for a well not located in a discovered field but located within two miles of a drilling or producible well shall be the same as the well spacing pattern applicable to the nearest drilling or producible well, unless otherwise specified by an authorized official of the Petroleum Administration for War.

An authorized official of the Petroleum Administration for War may specify that no uniform well spacing pattern need be followed in designated fields, pools, or areas.

(2) Where the oil well is located on non-sectionalized land,

(i) The provisions of paragraph (f) (3) must be complied with, and

(ii) The well must be located on a drilling unit consisting of at least 40 contiguous surface acres upon which no other drilling or producible well is located, and

(iii) The distance between any two points farthest apart on the drilling unit upon which the well is located must not exceed a distance of 2,100 feet, and

(iv) No portion of the drilling unit attributed to the well shall fall within 330 feet of any other drilling or producible well located on the same lease or property.

(3) Where the oil well is located on either sectionalized land or non-sectionalized land,

(i) The drilling unit upon which the well is located must not be attributed in whole or in part to any other drilling or producible well, and

(ii) All separate property interests in the drilling unit upon which the well is located must first be consolidated, and

(iii) The well must be located at least 900 feet from every other drilling or producible well, and

(iv) The well must be located at least 330 feet from every lease line, property line, and subdivision line separating unconsolidated property interests, and

(v) The well must be drilled with due diligence to maintain a vertical well bore.

However, a well may be intentionally deviated from the vertical if the surface location of the well (in this case, the place on the surface directly over the bore hole at the lowest level at which the well is open to production) conforms to the other provisions applicable to sectionalized or non-sectionalized land which have been set out above.

Where a well is intentionally deviated from the vertical, a directional survey of the well-bore must be filed with the Director of Production of the District in which the well is located within 30 days after completion of the well.

If any well drilled in conformity with the provisions of this paragraph (f) is completed as a gas or condensate well, it shall not be produced other than for a test period of not exceeding 15 days, and no material may be used to produce the well or provide additions therefor, except as necessary for such testing of the well, until authorization has been granted by an authorized official of the Petroleum Administration for War.

(g) *Computation of acreage attributable to oil wells.* (1) The acreage attributable to any oil well spudded on or before December 23, 1941, shall be determined by assigning to the well an acreage equivalent to that of the existing well density contiguous to the well. In no event need the attributed acreage be greater than 40 acres.

(2) The acreage attributable to any oil well spudded after December 23, 1941, shall be the same as the drilling unit assigned to the well pursuant to Conservation Order M-68, Petroleum Administrative Order No. 11, or any supplement or exception thereto, or any amendment thereof.

(h) *Authorized uses of material for deepening, plugging back or reworking, and recompletion of wells.* To the extent that the use of material for deepening, plugging back, or reworking and recompletion operations in connection therewith, is not prohibited or otherwise limited by the provisions of any exception heretofore or hereafter issued pursuant to Conservation Order M-68, Petroleum Administrative Order No. 11, or any amendments thereof, or by the provisions of any order heretofore or hereafter issued as a supplementary order to Petroleum Administrative Order No. 11, or any amendment thereof, such deepening plugging back, or reworking, and recompletion operations in connection therewith, may be undertaken without obtaining further authorization if the material is used for or in connection with any of the following operations:

(1) Multiple completion of any well in the pool from which the well is producing and in any other pool or pools into or through which casing was set at the time the well was originally drilled;

(2) Multiple completion of any well which has been deepened in accordance with paragraph (h) (5);

(3) Plugging back and recompletion of any well in a shallower pool, or completion of any well in a deeper pool into or through which casing was set at the time the well was originally drilled;

(4) Reworking and recompletion or deepening and recompletion of any well within the pool from which the well is producing or from which it last produced, if

(i) The well, in the reworking or deepening operation, is not drilled into a deeper pool, and

(ii) The operation does not involve drilling or redrilling from a point more than 500 feet above the top of the pool, and

(iii) The length of additional casing or liner used in the operation does not exceed the distance from the bottom of the hole to a point 600 feet above the top of the pool;

(5) Deepening and recompletion of any well in another pool, if, with respect to the pool in which the well is to be deepened and recompleted,

(i) The well is located on a drilling unit consisting of quarter-quarter section of at least 35 surface acres, if located on sectionalized land, or of at least 40 contiguous surface acres, if located on non-sectionalized land, and

(ii) No other well located on the drilling unit is producible from the pool in which the well is recompleted, and

(iii) The drilling unit upon which the well is located is not attributed in whole or in part to any other well producible from the pool in which the well is recompleted, and

(iv) All separate property interests in the drilling unit upon which the well is located are first consolidated, and

(v) No portion of the drilling unit attributed to the well falls within 330 feet of any other well, located on the same lease or property, producible from the pool in which the well is recompleted, and

(vi) The well is located at least 900 feet from every other well producible from the pool in which the well is recompleted, and

(vii) The well is located at least 330 feet from every lease line, property line, and subdivision line separating unconsolidated property interests.

If any well completed or recompleted in conformity with the provisions of this paragraph (h) is completed or recompleted as a gas or condensate well, it shall not be produced other than for a test period of not exceeding 15 days, and no material may be used to produce the well or provide additions therefor, except as necessary for such testing of the well, until authorization has been granted by an authorized official of the Petroleum Administration for War. However, this provision shall not apply to the recompletion of any gas or condensate well in conformity with paragraph (h) (4).

(i) *Authorized uses of material for installation of pumping or other artificial lifting facilities.* Material may be used to install or reinstall pumping or other artificial lifting equipment, including a central pumping power unit, or to install additional tubing or sucker rods, if

(1) The pumping or other artificial lifting equipment is reinstalled on the same well to which it was connected at the time any operation authorized under paragraph (h) was initiated, or

(2) The pumping or other artificial lifting equipment is installed on any well deepened or recompleted in conformity with paragraph (h) (5), or

(3) The pumping or other artificial lifting equipment is installed on or connected to a well located on any lease or tract where the number of wells to which pumping or other artificial lifting equipment is then attached does not exceed an average of one well to every 10 productive acres, or

(4) The pumping or other artificial lifting equipment is installed on a well located on any lease or tract of 10 acres or less whereon no other well is located to which pumping or other artificial lifting equipment is already attached, but in no event may a lease or tract be subdivided or rearranged for the purpose of making this provision applicable, or

(5) The pumping or other artificial lifting equipment is transferred in its entirety from one well to another well located on the same lease or tract, or

(6) The pumping or other artificial lifting equipment is installed on a well which has been drilled pursuant to an exception to Conservation Order M-68, Petroleum Administrative Order No. 11, or any amendment or supplement to either of such orders, which exception contains no prohibition against the installation of pumping or other artificial lifting equipment, or

(7) The additional tubing or sucker rods are installed on a well to which there is already attached pumping or other artificial lifting equipment which has been regularly operated prior to the installation of the additional tubing or sucker rods.

However, in no instance may pumping or other artificial lifting equipment be installed unless it is to be used regularly thereafter in producing the well or wells to which it is connected to the extent permitted by law.

(j) *Authorized uses of material for gas gathering lines and gas lift and booster plants not exceeding 500 h. p.* (1) Material may be used for construction, installation, or extension of a field gas gathering line, if

(i) The cost of material for any one complete operation does not exceed $5,000, and

(ii) The cost of material originally obtained for maintenance and repair purposes through the use of priorities assistance, used in any one complete operation, does not exceed $500, and

(iii) The well or wells to which the line is to be connected were spudded prior to December 23, 1941, or were drilled and completed in conformity with Conservation Order M-68, Petroleum Administrative Order No. 11, or any amendment, supplement or exception to either of such orders, and

(iv) The line does not duplicate in whole or in part the transportation function of any existing line or lines.

(2) Material may be used for construction, installation, expansion, extension, improvement, reconstruction, remodeling, or other similar operation in connection with any gas lift compression plant or field gas booster plant, if

(i) The material to be installed or added does not increase the rated capacity of the plant more than 500 h. p., and

(ii) The cost of material originally obtained for maintenance and repair purposes through the use of priorities assistance, used in any one complete operation, does not exceed $500, and

(iii) No one complete operation is subdivided for the purpose of making this provision applicable.

Where priorities assistance is necessary to obtain more than $500 worth of material for any one complete operation authorized in this paragraph (j), all additional priorities assistance must be obtained through the procedure established in the section of P-98-b covering "Material for Use in Production".

(k) *Authorized uses of material for natural gasoline recovery, gas treating, cycling, pressure maintenance, or gas lift and booster plants exceeding 500 h. p.* Material may be used for construction, installation, expansion, extension, improvement, reconstruction, remodeling, or other similar operation in connection with any natural gasoline recovery operation, gas desulphurization operation, gas dehydration operation, gas cycling operation for condensate recovery, pressure maintenance operation, or in connection with any gas lift compression plant or field gas booster plant where the material to be installed or added increases the rated capacity of the plant more than 500 h. p., if

(1) The cost of material for any one complete operation does not exceed $5000, and

(2) The cost of material originally obtained for maintenance and repair purposes through the use of priorities assistance, used in any one complete operation, does not exceed $500.

Where a person desires to use material in connection with the operations under this paragraph (k), but cannot do so because of the limitations imposed by paragraphs (k) (1) and (k) (2), he must make application both for authorization to use the material and for necessary priorities assistance by completing and filing PAW Form 30. Instructions for filing are given in PAW Form 30, and any communications should be filed in accordance with the same instructions.

(l) *Applications for exception to this order.* Where a person desires to use material in connection with production, other than for the operations listed in paragraph (k), but cannot do so under the provisions of this order or any supplement hereto, he may make an application for an exception by filing the information requested in PAW Form 3 (revised) attached to this order. Instructions for filing applications and any communications in connection therewith are given in PAW Form 3 (revised).

(m) *Exceptions or supplements to this order or to preceding related orders.* Material may be used in connection with any production or natural gasoline recovery operation authorized by,

(1) Any exception to Conservation Order M-68,

(2) Any supplementary order to Petroleum Administrative Order No. 11 issued March 30, 1943, or any amendment thereof, until such supplementary order is revoked, or

(3) Any exception or authorization issued by the Petroleum Administration for War either on its own initiative or in response to an application for exception filed under Petroleum Administrative Order No. 11 issued March 30, 1943, or under the preceding paragraphs (k) and (l) of this order.

(n) *Continuing effect of liabilities.* The amendment of Petroleum Administrative Order No. 11, effected by this order, shall not excuse or condone any violation or affect in any way any liability or penalty incurred because of any violation of Conservation Order M-68, Petroleum Administrative Order No. 11, or any supplement or exception to either of these orders.

(o) *Violations.* Any person who wilfully violates any provision of this order, or who, by any act or omission, falsifies records kept or information furnished in connection with this order is guilty of a crime and upon conviction may be punished by fine or imprisonment.

Any person who wilfully violates any provision of this order may be prohibited from delivering or receiving any material under priority control, or may be subject to other appropriate action.

(p) *Effective date.* This order shall take effect on the date of issuance.

Each agent and general agent shall also be entitled to the compensation provided in § 306.73 when performing any of the services therein described.

(c) Except as provided in § 306.75 (or except as provided in § 306.98 where applicable), each agent, general agent, and berth agent shall compensate all sub-agents performing services which are required to be performed by him under the service agreements from the compensation received by the agent, general agent, or berth agent under the provisions of this section or § 306.73.

§ 306.73 *Compensation for port services in the continental United States.* Except as otherwise provided, the agent, general agent, or berth agent who performs services in continental United States ports in connection with the activities set forth below shall be compensated at the rates set forth below, out of which the agent, general agent, or berth agent, as the case may be, shall pay his sub-agents:

This lump sum fee shall be paid whether or not the vessel is loaded or discharged at a commercial terminal or at an Army or Navy terminal.

All telegrams, cablegrams, and radiograms that pertain directly and exclusively to the business of the United States, dispatched by foreign sub-agents and branch houses, shall be for the account of the United States and the cost thereof shall be included in the voyage accounts. Except as herein provided, communication expenses shall remain a part of the administrative and general expenses of the agents, general agents, and berth agents.

(b) To the extent that the cablegrams, telegrams, and radiograms referred to in paragraph (a) of this section are entitled to Government rate and are exempt from the Federal tax on communications, all agents, general agents, berth agents, and their branch houses and subagents are authorized and directed to certify that such messages pertain exclusively to official Government business and are for the account of the United States, as may be required to entitle such messages to the Government rate and tax exemption.

(c) Postage or express charges incurred in sending ships' disbursements accounts, manifests and other cargo documents to or from the continental United States, or between foreign ports, may be included in the voyage accounts as reimbursable items of expense.

§ 306.95 *Payments on account of recapture.* Each agent, general agent, and berth agent who receives compensation under the provisions of Subparts A, B, C, and D of this order shall submit interim quarterly recapture statements in accordance with the provisions of § 306.96 on or before May 1, August 1, and November 1, of each year, covering the period from January 1 to March 31, June 30, and September 30, respectively. With each such interim statement and with the final statement at the end of the year, the agent, general agent, or berth agent shall remit to the Administrator 90% of the amount indicated in such statements to be recapturable, or, if previous interim remittances have been made during the same calendar year, such amount as when added to such previous interim remittance will amount to 90% of the amount indicated to be recapturable. All interim statements shall be subject to adjustment in the final statement at the end of the year, in accordance with § 306.96, which final statement shall be rendered not later than March 31 of the following year. Such payments as are made in accordance with the provisions of this section are to be considered as payments on account of recapture, as provided under § 306.96.

§ 306.96 *Recapture to eliminate excessive profits.* (a) If the aggregate amount of the compensation accrued to an agent, general agent, or berth agent, except compensation paid to an agent who is not also a general agent, under Subparts A, B, C and D of this order, after deducting therefrom fees paid to subagents for performing services which are required to be performed by the agent, general agent, or berth agent under the provisions of this order, exceeds the sum of:

(1) Such agents' fair and reasonable overhead expense as determined by the Administrator for the comparable period involved, after deducting from such expense (i) sums allowed such agents and their related companies (as defined in Article 13 of the service agreements) in the Administrator's calculation of the hire for vessels chartered to the Administration to cover overhead expenses, and (ii) in instances where such agents or related companies engage in other activities in addition to the conduct of the business of the vessels in connection with which the aforesaid compensation accrued, such proportion of the agents' overhead expenses, as, in the judgment of the Administrator, is properly allocable to such additional activities; and

(2) $15.00 per day per vessel for all dry cargo, tank, and collier vessels operated by a general agent under general agency service agreements; $5.00 per pay per vessel for all dry cargo, tank, and collier vessels operated by an agent under time charter service agreements; and 5 cents per gross ton per month for passenger vessels operated by a general agent under general agency service agreement, as amended by Part II thereof, but not less than $15.00 per day per passenger vessel;

then 90% of such excess shall be recaptured by, and remitted to, the United States. The permissible allowances provided in paragraph (a) (2), are based exclusively on the services rendered as agents and general agents, no such allowance being permitted for services as berth agents.

(b) For the purpose of adjusting earnings under this section, that portion of any salary paid by an agent, general agent, or berth agent in excess of the maximum provided by section 605 (c) of the Merchant Marine Act of 1936 shall be excluded; and all other salaries deemed by the Administrator to be excessive or unreasonable shall be excluded to such extent as they are deemed to be excessive or unreasonable by the Administrator. All agents, general agents, and berth agents, shall file with the War Shipping Administration, lists of salaries as required from time to time.

(c) Pursuant to section 403 (i) (2) of the Sixth Supplemental National Defense Appropriation Act of 1942, as amended, the Administrator hereby determines that the profits accruing from the compensation payable to an agent, general agent, or berth agent, except compensation paid to an agent who is not also a general agent, under Subparts A, B, C, and D of the order, and after recapture as provided in paragraph (a) of this section, are determinable with reasonable certainty, and the Administrator further determines that the recapture provisions of paragraph (a) of this section are adequate to prevent excessive profits, and that based on these determinations said compensation payable after recapture is exempted from renegotiation pursuant to section 403 of said act; *Provided, however,* That in any case where the executive officers of any agent, general agent, or berth agent have not discharged their duties or responsibilities in an efficient or economical manner as determined by the Administrator, the said compensation shall be subject to renegotiation as provided in section 403 of said act.

§ 306.97 *Renegotiation.* The compensation payable under Subpart E of this order, or under Subparts A, B, C, and D of this order to an agent who is not also a general agent, or any other compensation payable under this order which is not subject to the provisions of § 306.96, and the service agreements pursuant to which any of said compensation is payable, are subject to the provisions of section 403 of the Sixth Supplemental National Defense Appropriation Act of 1942, as amended, and payment of said compensation is subject to the following provisions: (a) The Administrator may renegotiate said compensation at a period when the profits can be determined with reasonable certainty, (b) any amount of said compensation which is deemed by the Administrator to represent excessive profits and an amount of said compensation equal to the amount of reduction in said compensation of any sub-contractor under said service agreement pursuant to renegotiation of said sub-contract as hereinafter provided will be re-paid to the Administrator or may be retained by the United States, and, (c) the agent, general agent, or berth agent, as the case may be, will insert in each sub-contract for an amount in excess of $100,000.00 made by said agents under their respective service agreements: (1) A provision for renegotiation by the Administrator and the sub-contractor of the contract price of such sub-contract at a period when the profits can be determined with reasonable certainty, (2) a provision for the retention by the United States or the repayment to the United States of any amount of the sub-contract price which is deemed by the Administrator to represent excessive profits, and, (3) a provision for relieving said agents from any liabilities to the sub-contractor on account of any amounts so retained by or re-paid to the United States.

§ 306.98 *Increases and reductions of compensation under certain circumstances.* (a) If the rates provided in this general order, with respect to an agent, general agent, berth agent, or their foreign sub-agents and branch houses, or with respect to the agents, general agents, or berth agents as a class, are found by the Administrator not to represent fair and reasonable compensation for the services required to be performed by the agent under the service agreements, based on the fair and reasonable average cost of performing such services as determined by the Administrator on the basis of maximum reasonable efficiency and economy of operations, then the Administrator, in his discretion, may adjust such compensation in such amount as he shall determine to be fair and reasonable under the circumstances.

(b) In addition to the compensation elsewhere provided in this order, the Administrator shall provide compensation in such amount as he shall determine to be fair and reasonable under the circumstances for (1) extraordinary services heretofore or hereafter rendered by an agent, general agent, or berth agent, or foreign sub-agent or branch house, which the Administrator finds were not intended to be covered by the compensation provided for in this order, and (2) services required to be performed before delivery or after redelivery or loss of a vessel.

(c) The Administrator reserves the right to make equitable reductions of compensation with regard to any vessel or vessels while idle. No compensation shall be allowed for any period of time lost by reason of the inefficiency of the agent or general agent.

(d) The Administrator reserves the right to exempt specific operations from the scope of this General Order 34, or to amend, modify, or terminate said order.

§ 306.99 *Accounting.* The payment and adjustment of the compensation provided in this Order shall be subject to compliance by the agent, general agent, or berth agent with all and singular the terms and conditions of the applicable service agreements and of such rules and regulations appertaining thereto as have been, or from time to time may be, issued by the War Shipping Administration, including, but not limited to, fiscal regulations precribing instructions to be observed in billing for such compensation.

§ 306.100 *Effective date.* (a) Unless otherwise provided, this General Order 34 shall become effective on January 1, 1944, at 12:01 a. m., except that port services rendered to a vessel that has arrived in port prior to January 1, 1944, shall be completed, and compensated for, in accordance with the applicable provisions of General Order 12, rather than under §§ 306.73 and 306.75 of this order, but all such services rendered to a vessel that arrives in port after midnight December 31, 1943, shall be performed and compensated for in accordance with this General Order 34.

(b) Except as provided in paragraph (a) of this section, General Order 12 is cancelled and superseded by this General Order 34, effective as of December 31, 1943, at midnight.

§ 500.76 *Consignor's certificate.* There shall be endorsed on the shipping instructions issued with respect to any carload freight (other than carload freight which is loaded in compliance with the provisions of paragraphs (a), (b), or (c) of § 500.72 of this order, or any special direction issued by the Director, Division of Traffic Movement, Office of Defense Transportation, under the provisions of § 500.73 of this order, or which is covered by the provisions of paragraphs (a), (b), (c), (d), (e), or (k) of § 500.75 of this order), a certificate executed by the consignor specifying compliance with the provisions of paragraph (d) of § 500.72 of this order, the exemption applicable to such carload freight, or the number of any special permit issued by the chief operating officer or division superintendent of a rail carrier, or the number of any special or general permit issued by the Office of Defense Transportation, authorizing the transportation of such carload freight in the manner offered for transportation. Notices

WAR DEPARTMENT.

WAR DEPARTMENT OPERATIONS OF RAILROADS

To: Lieutenant General Brehon Somervell, Commanding General, Army Service Forces.

1. By Executive Order No. 9412, copy attached,[1] possession and control of all common carriers by railroad referred to therein was taken and assumed through me, as of 7 o'clock p. m. on the 27th day of December, 1943.

2. Pursuant to the Executive order, the authority and powers vested in me thereby are hereby delegated to you, subject to the limitations stated below. You may exercise such powers either personally or through such officers or civilian officials of the War Department or public or private instrumentalities or persons as you may direct, and you may authorize the successive redelegation of any of the powers hereby delegated.

3. In exercising the powers and authority hereby delegated to you, recognition will be given to the following general principles:

a. Exclusion of certain properties from taking. The provisions of the Executive order are not construed as taking possession or assuming control of non-transportation property, facilities or assets of carriers whose transportation systems were taken over by that order. It is determined that possession, control or operation by the United States of such properties are not required to prevent interruption of transportation service. To the extent that any such properties or assets might be deemed to be included within the general language of taking in the Executive order, possession and control thereof are hereby relinquished and terminated.

b. Operation of carriers by existing management. Control of the operations of the carriers will be exercised by the Government to the full extent necessary to maintain continuous and uninterrupted transportation service. Wherever the cooperation of the carrier and its personnel is assured, the existing management and organization of the carrier will be utilized, and the carrier will continue operations in the usual and ordinary course of business, as a going enterprise, in its own name, and by means of any agencies or instrumentalities now employed by the carrier, as fully as if possession and control had not been assumed by the Government, subject,

[1] E. O. 9142 appears at 8 F. R. 17395.

however, to the terms of the Executive order and to all general and special orders, rules and regulations which may be issued thereunder. Where the prompt and effective cooperation of the management and organization of the carrier is not assured, appropriate action will be taken under the terms of the Executive order. No action taken by the owners or managements of the carriers in response to the Government's request for cooperation, and nothing done in sufferance under the Executive order shall be deemed in any way to waive or impair the rights of the companies or stockholders or of bondholders, creditors and other persons having interests in the properties taken or in the profits from their operation to claim just and adequate compensation for the use, control and operation of the properties by the United States.

c. The accounts of the carriers will continue to be kept in the manner prescribed by the Interstate Commerce Commission. For convenience of accounting, the books of the carriers shall be closed as of midnight, December 31, 1943. Until otherwise directed, for the purpose of accounting the books as to the possession and control by the United States shall be opened as of January 1, 1944.

d. All personnel of the carriers, both officers and employees, are called upon by the Executive order and by this order to serve the Government of the United States, by continuing to perform their usual duties, but nothing in the Executive order or this order shall be construed as authorizing or requiring application to such personnel of the provisions of the Civil Service Act.

e. Employment, wages and working conditions. (a) Subject to the terms of the Executive order, wage scales and working conditions in effect on the effective date of the Executive order will be maintained, and full recognition will be given to the rights of the employees and all classes thereof.

(b) All deductions for the benefit of employees now being made by law or agreement, including insurance payments, Railroad Retirement and Unemployment Compensation deductions, and other deductions of every kind, and all arrangements governing the payment of wages, including war bond purchase plans, shall be continued, subject to any legal right of discontinuance.

f. Possession, control and operation of any other carrier or system of transportation pursuant to the Executive order will be taken only by my order and possession, control and operation by you on behalf of the United States of any carrier taken by or pursuant to the Executive order will be relinquished and terminated only with my written approval.

g. Suits, attachments and garnishments permitted until further order. Until otherwise ordered, the carriers shall remain subject to suit as heretofore, and consent is hereby given, as provided for in the Executive order, to the levy of attachments by mesne process, garnishment, execution or otherwise on or against the property and assets of the carriers, but no receivership, reorganization of similar proceeding affecting any carrier taken under the Executive order shall be instituted without the prior written consent of the Commanding General, Army Service Forces or his delegate. Nothing herein shall be deemed to require approval of any action authorized or required by an interlocutory or final decree of any United States court in reorganization proceedings now pending under the Bankruptcy Act or in equity receivership cases now pending.

HENRY L. STIMSON,
Secretary of War.

JACKSONVILLE GAS CO. AND AMERICAN GAS AND POWER CO.

MEMORANDUM FINDINGS AND ORDER ON FEES

At a regular session of the Securities and Exchange Commission, held at its office in the City of Philadelphia, Pennsylvania, on the 27th day of December, A. D. 1943.

This Commission[1] and the District Court of the United States for the Southern District of Florida[2] have heretofore approved the plan, as modified, of Jacksonville Gas Company for compliance with section 11 (e) of the Public Utility Holding Company Act of 1935. Estimates of fees and expenses incident to consummation of the plan, aggregating $30,000, were included in the plan as approved by this Commission and by the Court.

The Court Order dated October 14, 1942, authorized and directed Jacksonville Gas Company, among other things,

> • • • to do such acts as may be necessary or appropriate to carry out the terms and provisions of the plan, including, but without limiting the generality of the foregoing, such acts as may be necessary to
>
> • • • • •
>
> (f) Incur and pay or cause Jacksonville Gas Corporation to incur and pay, taxes, charges, expenses, compensation and fees in connection with the consummation of the plan in amounts not exceeding the sums estimated as part of the plan, subject to obtaining approval of the Commission for all payments requiring such approval under the applicable rules and orders of the Commission.

Thereafter Jacksonville Gas Company filed with this Commission Amendment No. 11 to its application for approval of the plan, increasing its estimate of fees and expenses to an aggregate of $51,297.30. Annexed hereto as Appendix 1 is a tabulation showing the estimated expenses incident to the consummation of the plan, according to the estimates included in the plan as heretofore approved and according to the revised estimates contained in Amendment No. 11.

Included in the company's revised estimates is the proposed payment to Lawrence E. Fleischman, attorney for certain debenture holders, of a fee in the amount of $500 and expenses in the amount of $1,001.12. Fleischman has filed in these proceedings a petition requesting that he be allowed, in addition to reimbursement of expenses in the above amount, a fee of $3,500. Subsequently, Fleischman filed a revised statement of expenses in the amount of $785.11.

After appropriate notice, public hearings were held and the record closed. Having considered the record, we make the following findings with respect thereto.

A condensed opening balance sheet as at February 1, 1943, of Jacksonville Gas Corporation, organized pursuant to the plan as successor to Jacksonville Gas Company, is annexed hereto as Appendix 2. After paying or reserving for all reorganization expenses per the revised estimates, and treating the reserve for such expenses as a current liability, the balance sheet shows current assets of $246,677 as against current and accrued liabilities of $129,423, a current ratio of almost 2 to 1. It appears that the new corporation is financially able to pay the proposed fees and expenses.

Under all the circumstances herein, we find that the proposed fees and ex-

It is stated that the proposed contributions will be used by these subsidiaries to create capital surplus which, together with surplus already available, will be utilized principally for making reductions in property accounts in order to restate them at "historical cost (cost to system companies first acquiring the property)," increasing existing depletion and retirement reserves, adjustments of accrued taxes, and in the case of Viking Distributing Company, for elimination a deficit in surplus as at December 31, 1937.

The adjustments which are applicable to the period prior to December 31, 1937 aggregate $19,036,891.59. The subsidiaries will charge $9,723,520.01 of this amount to Surplus Prior to January 1, 1938 and the balance of $9,313,371.58 to the capital surplus being created. The Commission being satisfied that the amounts proposed to be recorded by Columbia Gas on its books for its investments in and advances to the five subsidiaries involved are not unreasonable, and finding that the requirements of Instruction 8-C of the Uniform System of Accounts for Public Utility Holding Companies are met and that no adverse findings are necessary under section 12 of the act and Rule U-45 thereunder, and deeming it appropriate in the public interest and in the interests of investors and consumers to permit said declarations to become effective;

ORDER RELEASING JURISDICTION WITH RESPECT TO FEES AND EXPENSES

At a regular session of the Securities and Exchange Commission, held at its office in the City of Philadelphia, Pa., on the 30th day of December 1943.

In the matter of The United Light and Railways Company, Continental Gas & Electric Corporation, Iowa Nebraska Light and Power Company, and Des Moines Electric Light Company, File No. 70-717; Illinois Iowa Power Company, File No. 70-704.

Illinois Power Company, (formerly Illinois Iowa Power Company) a registered holding company, having heretofore filed a declaration and amendment thereto, pursuant to the applicable provisions of the Public Utility Holding Company Act of 1935 and the rules promulgated thereunder with respect to the sale to Continental Gas & Electric Corporation of its entire interest in Des Moines Electric Light Company and Iowa Power and Light Company; and

It appearing to the Commission that it is in the public interest that the application be granted:

The Commonwealth & Southern Corporation and Ohio Edison Company having consented to a reservation of jurisdiction by this Commission which provides that if the Commission should determine that the acquisition by Ohio Edison of its preferred shares held by The Commonwealth & Southern Corporation in the manner proposed in the declaration would not be appropriate under the standards of section 12 (c) or other applicable provisions of the act, then the transfer of the shares shall be deemed to be a contribution by The Commonwealth & Southern Corporation to the common stock equity of Ohio Edison Company, such reservation of jurisdiction also covering the accounting entries to reflect any such contribution; and

PETROLEUM CORPORATION OF AMERICA, ET AL.

NOTICE OF AND ORDER FOR HEARING

At a regular session of the Securities and Exchange Commission, held at its office in the City of Philadelphia, Pa., on the 31st day of December A. D. 1943.

In the matter of Petroleum Corporation of America, Sinclair Oil Corporation, and Adams Express Company, file No. 812-341.

Petroleum Corporation of America ("Petroleum") and Adams Express Company ("Adams"), both registered closed-end management investment companies, and Sinclair Oil Corporation ("Sinclair"), have filed a joint application for an order pursuant to sections 17 (b) and 23 (c) (3) of the Investment Company Act of 1940, exempting from the provisions of section 17 (a) and permitting under the provisions of section 23 (c) (3) of the Act, a transaction whereby Petroleum proposes to offer to each of its stockholders the right to exchange his stock for his pro rata share of each class of securities owned by Petroleum, together with his pro rata share of Petroleum's net cash, less 1% of the total value of his pro rata share of all net assets. The proposed transaction involves, in addition, the purchase by Sinclair from Petroleum, at the closing market or bid prices on the day when the offer to stockholders expires, of such portfolio stocks of Petroleum as may be sold to provide cash to be paid to stockholders in lieu of fractional interests in the portfolio securities of Petroleum allocable to such shares of stock of Petroleum as may be exchanged pursuant to the offer. The application requests an order of exemption from the provisions of section 17 (a) of the act insofar as the provisions of said section prohibit the purchase of portfolio securities from Petroleum by Sinclair, Adams, and other affiliated persons or affiliated persons of affiliated persons of Petroleum. Sinclair and Adams are affiliated persons of Petroleum by reason of the ownership of 783,776 shares and 135,600 shares, respectively, of the capital stock of Petroleum, constituting in each case more than 5% of the outstanding voting securities of Petroleum.

It is ordered, Pursuant to section 40 (a) of said act, that a hearing on the aforesaid application be held on January 10, 1944, at 10:00 a. m., Eastern War Time, in Room 318 of the Securities and Exchange Commission Building, 18th and Locust Streets, Philadelphia, Pennsylvania.

Florida Power & Light Company and American Power & Light Company having filed joint applications and declarations with amendments thereto under sections 6, 7, 9, 10 and 12 of said act relating to: the issuance and sale by Florida Power & Light Company to the public of $45,000,000 principal amount of first mortgage bonds and $10,000,000 principal amount of sinking fund debentures pursuant to the competitive bidding requirements of Rule U-50 under the said act; the issuance and sale of $5,000,090 principal amount of serial notes to certain banks and institutions; the issuance of $5,000,000 principal amount of sinking fund debentures to American Power & Light Company in exchange for $5,000,000 debentures presently held by that company; the surrender by American Power & Light Company to Florida Power & Light Company, as a capital contribution to the latter company, of $17,000,000 principal amount of the debentures, 13,477 shares of the $7 preferred stock, 10,000 shares of the $6 preferred stock, and 20,000 shares of the second preferred stock of the latter company; and the transfer by American Power & Light Company, as a capital contribution to Florida Power & Light Company, of the notes, open account indebtedness, and capital stock of Utilities Land Company (a wholly-owned subsidiary of American Power & Light Company); and these proceedings by order having been consolidated with the aforesaid proceedings instituted by the Commission; and

(1) *It is hereby ordered*, Pursuant to sections (15) (f) and 20 (a) of the Public Utility Holding Company Act of 1935 that Florida Power & Light Company shall make upon its books of account the following adjustments:

(a) Florida shall, by appropriation from earned surplus (including earned surplus made available by transfer from insurance reserve), increase its reserve for property retirements in the amount of $2,400,000 as proposed by Florida;

(3) *It is further ordered*, That Florida Power & Light Company, as a provision for the disposition of the capitalized intra-system profits ordered in paragraph (2) above to be classified in Account 107 and eliminated from the plant account by charging to earned surplus, shall each month during the calendar year 1944 retain out of, and shall restrict, earned surplus in an amount of not less than one-twelfth (1/12) of $1,815,655 until such time as a total of $1,815,655 shall have been retained and restricted and shall indicate by appropriate footnotes to all published financial statements that its earned surplus is subject to that restriction; compliance with such order so restricting surplus to be without prejudice to respondents' right to contest the classification of said $1,815,655 in Account 107 and the elimination of such item;

(4) *It is further ordered*, That pending final determination of the amount and disposition to be made of Account 100.5 items presently in the plant account of Florida, Florida shall annually, beginning with the calendar year 1944, appropriate out of earned surplus to a contingency reserve, at least $700,000, such act of appropriation to be without prejudice, however, to respondents' right to contest the validity of any definitive order with respect to such items as may ultimately be issued;

(6) *It is further ordered*, That said applications, as amended, be, and hereby are, granted, and said declarations, as amended, subject to Commission approval by further order of the terms of the bond and debenture financing which shall be determined by competitive bidding, and subject to Commission approval by further order of the terms of the serial note issue to be supplied by amendment, be, and hereby are, permitted to become effective forthwith, all subject to the terms and conditions contained in Rule U-24, and subject to the further condition that prior to or concurrently with the final closing with respect to the sale of the proposed bonds and debentures American Power & Light Company shall have made the proposed capital contributions to Florida Power & Light Company and Florida Power & Light Company shall have made upon its books of account the accounting adjustments proposed by it and hereinbefore ordered by us to be made in paragraph (1), subparagraphs (a), (b), (c) and (d) above.

(7) *It is further ordered*, That jurisdiction be, and hereby is, reserved over all fees, commissions, or other remunerations to be paid in connection with the said joint applications and declarations;

(8) *It is further ordered*, That the restriction contained in our order of July 10, 1941, which required American Power & Light Company to retain in a special account the dividends received on or about July 1, 1941 on its holdings of Florida's $7 and $6 preferred stock, is hereby terminated; and

(9) *It is further ordered*, That the requests of Samuel Okin for leave to intervene, for oral argument, and for permission to file a brief be, and hereby are, denied.

MARKET AGENCIES AT UNION STOCKYARDS, CHICAGO, ILL.

NOTICE OF PETITION FOR MODIFICATION

In re: Market agencies doing business at the Union Stock Yards, Chicago, Illinois (formerly styled C. H. Acker, doing business as C. H. Acker & Company et al.), respondents.

By orders dated January 8 and March 12, 1934, made pursuant to the provisions of the Packers and Stockyards Act, 1921, as amended (7 U. S. C. 1940 ed. 181 et seq.), maximum rates and charges for selling and buying livestock by market agencies at the Union Stock Yards, Chicago, Illinois, were prescribed. By orders dated June 28, July 8 and July 10, 1941, pursuant to petitions filed by the market agencies, the Assistant Secretary of Agriculture, with the consent of the petitioners, temporarily suspended the provisions of the orders of January 8 and March 12, 1934, for a trial period for the purpose of testing a simplified rate structure. By supplemental orders entered on June 30, 1942, December 29, 1942, and June 30, 1943, all the provisions of the orders of June 28, July 8 and July 10, 1941, as amended by an order dated November 27, 1941, were extended to December 31, 1943. Under the orders dated June 28, July 8 and July 10, 1941, the provisions of which have been extended to December 31, 1943, the petitioners have been permitted to collect and assess higher rates than the maxima prescribed in the orders of January 8 and March 12, 1934.

On or about November 30, 1943, the market agencies, members of the Chicago Live Stock Exchange (respondents herein), filed a petition, which was amended on December 30, 1943, seeking a further modification of the orders heretofore entered in this docket. In their petition, as amended, the respondents requested that a supplemental consent order be entered which would permit the respondents to continue the rates now in effect for a further period of six months from January 1 to June 30, 1944, inclusive, with the exception that the respondents also seek to have cattle and calves denominated as separate species for rate purposes. The effect of such modification would result in additional revenue to the respondents because its effect would be to place consignments of livestock containing cattle and calves into rate brackets calling for the assessment of higher rates.

It appears that public notice should be given to all interested persons of the request of the members of the Chicago Live Stock Exchange (respondents herein) for a further modification of the orders entered in this docket and to afford all interested persons, including patrons of the respondents, an opportunity to manifest their desire to be heard on the matter.

Therefore, notice is hereby given to the public and to all interested persons of the request of the members of the Chicago Live Stock Exchange (respondents herein) for a further modification of the orders entered in this docket and for the purpose of affording said respondents and all other interested persons, including patrons of the respondents, an opportunity to be heard upon the matters covered in the petition.

All interested persons who desire to be heard shall notify the Hearing Clerk, Office of the Solicitor, United States Department of Agriculture, Washington 25, D. C., within fifteen days from the date of the publication of this order.

Copies hereof shall be served on the respondents by registered mail or in person.

Done at Washington, D. C., this 31st day of December 1943.

FOUST-YARNELL STOCK YARDS

ORDER OF INQUIRY AND NOTICE OF HEARING

This proceeding is instituted pursuant to the provisions of the Packers and Stockyards Act, 1921, as amended (7 U.S.C. 1940 ed. 181 *et seq.*), hereinafter referred to as the act, and the following allegations are made:

1. Foust-Yarnell Stock Yards, a corporation (hereinafter referred to as the respondent), is engaged in the business of operating a stockyard at Chattanooga, Tennessee, known as the Foust-Yarnell Stock Yards, which has been found by the Secretary of Agriculture to be a "stockyard" within the meaning of that term as it is defined in the act, and notice of such finding has been given to the owner and to the public, as required by the act.

2. The respondent is also registered under the act as a market agency and dealer. The respondent, in the capacity of a market agency and stockyard owner, is engaged in the business of buying and selling livestock on commission and of furnishing "stockyard services", in commerce, within the meaning of that term as it is defined in the act, at the stockyards known as the Foust-Yarnell Stock Yards, located at Chattanooga, Tennessee.

3. Pursuant to the provisions of the act, the respondent has heretofore filed and put into effect schedules of rates and charges for facilities furnished and services rendered by it as a stockyard owner and market agency.

4. Upon the basis of information in the possession of the War Food Administration, there is reason to believe that the tariff schedules of respondent now in effect contain rates and charges which are unreasonable and otherwise unlawful.

It is concluded that a proceeding should be instituted, under the provisions of the act, for the purpose of determining the reasonableness and lawfulness of all rates and charges of the respondent and of any rule, regulation or practice affecting said rates and charges, and whether any services are rendered by the respondent as a stockyard owner or market agency without making a lawful charge therefor.

It is, therefore, ordered, That notice to the respondent shall be and it is hereby given that a hearing covering the matters and things alleged herein shall be held before an examiner at a time and place of which the respondent shall have at least ten days' notice. At such hearing the respondent and all other interested persons shall have a right to appear and to present such evidence with respect to the matters and things alleged as may be relevant and material.

It is further ordered, That any and all interested persons who may wish to appear and present evidence relative to the issues in this proceeding shall give notice thereof by filing a statement to that effect with the Hearing Clerk, Office of the Solicitor, Department of Agriculture, Washington 25, D. C., within twenty days from the date of the publication of this order.

It is further ordered, That a copy hereof shall be served upon the respondent by registered mail, and that this order shall be filed in the office of the Director of the Division of the Federal Register.

AMALGAMATED STEEL COMPANY

CONSENT ORDER

H. S. Meshorer, doing business as a steel warehouse under the name of Amalgamated Steel Company, at 7835 Broadway Avenue, Cleveland, Ohio, was found in an investigation conducted by representatives of the War Production Board to have violated Supplementary Order M-21-b and General Preference Order M-21-b-1 by accepting into its warehouse stock 206.8 tons of steel products in excess of its quota, between October 1st, 1941, and June 30th, 1943. H. S. Meshorer admits the violations as charged, and has consented to the issuance of this order, but the Company states that the violation was not deliberate and resulted from misunderstanding and misinterpretation of General Preference Order M-21-b:

Wherefore, upon the agreement and consent of H. S. Meshorer, the Regional Compliance Chief and the Regional Attorney, and upon the approval of the Compliance Commissioner, *It is hereby ordered,* That:

(a) During the first quarter of 1944 and the second quarter of 1944, which quarters cover the period from January 1st, 1944, to June 30th, 1944, H. S. Meshorer, his successors or assigns, doing business as Amalgamated Steel Company, or under any other name, shall not receive into his warehouse stock general steel products as defined in General Preference Order M-21-b-1, as amended, of the product group and type authorized by its Warehouse Certificate, in an amount greater than a total of 234 tons, unless hereafter specifically authorized in writing by the War Production Board.

(b) For the purposes of this order the word "steel" as used herein shall bear the same meaning as defined in paragraph (b) of General Preference Order M-21-b-1, as amended, and shall include any steel purchased from idle or excess inventories pursuant to paragraph (d) of General Preference Order M-21-b-1, as amended, the provisions of this paragraph to the contrary notwithstanding.

(c) Nothing contained in this order shall be deemed to relieve H. S. Meshorer, his successors or assigns, doing business as Amalgamated Steel Company, or under any other name, from any restrictions, prohibitions or provisions contained in any other order or regulation of the War Production Board, except in so far as the same may be inconsistent with the provisions hereof.

(d) This order shall take effect upon the date of issuance and shall expire June 30th, 1944, at which time it shall have no further force or effect.

Issued this 1st day of January 1944.

(3) Multiply the aforesaid resulting amounts by 100 percent in the case of the base for milk, and 75 percent in the case of the base for cream and milk byproducts.

(f) *Quotas for handlers who are also producers.* Quotas for each handler who is also a producer and who purchases no milk shall be computed in accordance with (e) hereof, except:

(1) His base period shall be either June or December, whichever represents his larger total deliveries; and

(2) The applicable percentages shall be 100 percent in lieu of those specified in (e) (3).

(g) *Quota adjustments.* Each handler may increase his quota for milk within any quota period by one pound of milk solids for each one pound of milk solids he reduces his quota for cream and milk byproducts.

(h) *Cream deliveries.* The units of cream delivered subject to quota in any quota period shall not exceed 100 percent of the units of cream in his base, irrespective of the milk solids content of such deliveries.

(i) *Handler exemptions.* Quotas shall not apply to any handler who delivers in a quota period a daily average of less than 250 units of milk, cream, and milk byproducts. For the purpose of this order, a unit shall be the equivalent in volume of the following: (1) One quart of milk, buttermilk, or fluid milk byproducts; (2) one-half pint of cream; and (3) one-half pound of cottage, pot, or baker's cheese.

(k) *Transfers of bases.* The market agent is empowered to transfer base from one handler to another:

(1) Upon receipt of a request in writing from both handlers; and

(2) Upon application from a handler and written notice to the Director and to both handlers, (i) to permit deliveries to a purchaser not being served by a handler whose quota reflects deliveries to such purchaser in the base period, (ii) to permit a handler to serve an account which customarily rotates among several handlers inclusive of a contract let by a public agency or institution on a bid basis, and (iii) to permit a handler to serve an account which he is serving on the effective date of this order and which was served by another handler during the base period.

(l) *Consumer priorities:* In the distribution of milk subject to quotas established hereunder, a handler shall give preference in the order listed, taking into consideration the type of purchasers served by him in the base period, to:

(1) The need of children, expectant mothers, and invalids requiring milk;

(2) Homes and retail stores handling milk for consumption off the premises; and

(3) Establishments serving milk for consumption on the premises.

(m) *Petition for relief from hardship.* (1) Any person affected by FDO 79 or the provisions hereof who considers that compliance therewith would work an exceptional and unreasonable hardship on him, may file with the market agent a petition addressed to the Director. The petition shall contain the correct name, address and principal place of business of the petitioner, a full statement of the facts upon which the petition is based, and the hardship involved and the nature of the relief desired.

(2) Upon receiving such petition the market agent shall immediately investigate the representations and facts stated therein.

(3) After investigation, the petition shall be certified to the Director, but prior to certification the market agent may (i) deny the petition or (ii) grant temporary relief for a total period not to exceed 60 days.

(4) Denials or grants of relief by the market agent shall immediately inves- Director and may be affirmed, modified, or reversed by the Director.

(n) *Reports.* Each handler shall transmit to the market agent on forms prescribed by the market agent the following reports:

(1) Within 20 days following the effective date of this order, reports which show the information required by the market agent to establish such handler's quotas;

(2) Within 20 days following the close of each quota period, the information required by the market agent to establish volumes of deliveries of milk, cream, and milk byproducts during the preceding quota period; and

(3) Handlers exempt from quotas pursuant to (i) hereof shall, upon the request of the market agent, submit the information required by the market agent to establish volumes of deliveries of milk, cream, and milk byproducts.

(o) *Records.* Handlers shall keep and shall make available to the market agent such records of receipts, sales, deliveries, and production as the market agent shall require for the purpose of obtaining information which the Director may require for the establishment of quotas as prescribed in (b) of FDO 79.

(p) *Expense of administration.* Each handler shall pay to the market agent, within 20 days after the close of each calendar month, an assessment of $0.01 per hundredweight of each of milk, milk byproducts, cream, and skim milk equivalent of cottage, pot, or baker's cheese delivered during the preceding quota period and subject to quota regulations under the provisions hereof.

(For the purpose of this order, the milk solids content of milk, milk byproducts and cream shall be computed as follows: Each hundredweight of milk, cream, or milk byproducts other than cottage, pot, or baker's cheese, shall be considered the equivalent of 9.375 pounds of milk solids plus the number of pounds of milk solids calculated by multiplying the pounds of butterfat in such milk, and cream and milk byproducts by 0.906; and each hundredweight of cottage, pot, or baker's cheese shall be considered the equivalent of 62.5 pounds of milk solids plus one pound of milk solids for each one percent of butterfat content of such cheese.)

(d) *Quota period.* Each calendar month, beginning with the effective date of this order, is hereby designated as a quota period for the sales area.

(e) *Handler quotas.* Quotas for each handler other than a sub-handler or producer-handler shall be determined as follows:

(2) Multiply the foregoing result by the number of days in the quota period; and

(3) Multiply the aforesaid resulting amounts by 100 percent in the case of the base for milk, and 75 percent in the case of the base for cream and milk byproducts.

(f) *Quotas for handlers who are also producers.* Quotas for each handler who is also a producer and who purchases no milk shall be computed in accordance with (e) hereof, except:

For the purpose of this order, a unit shall be the equivalent in volume of the following: (1) One quart of milk, buttermilk, or fluid milk byproducts; (2) one-half pint of cream; and (3) one-half pound of cottage, pot, or baker's cheese.

(2) Upon receiving such petition the market agent shall immediately investigate representations and facts stated therein.

(3) After investigation, the petition shall be certified to the Director, but prior to certification the market agent may (i) deny the petition or (ii) grant temporary relief for a total period not to exceed 60 days.

(p) *Expense of administration.* Each handler shall pay to the market agent, within 20 days after the close of each calendar month, an assessment of $0.01 per hundredweight of each of milk, milk byproducts, cream, and skim milk equivalent of cottage, pot, or baker's cheese delivered during the preceding quota period and subject to quota regulations under the provisions hereof.

The city of Columbus, Georgia, and the county of Muscogee in the State of Georgia, and the incorporated town of Phoenix-Girard located in Lee and Russell counties in the State of Alabama.

(d) *Quota period.* Each calendar month, beginning with the effective date of this order, is hereby designated as a quota period for the sales area.

(e) *Handler quotas.* Quotas for each handler other than a sub-handler or producer-handler shall be determined as follows:

(1) His base period shall be either June or December, whichever represents his larger total deliveries; and

(2) The applicable percentages shall be 100 percent in lieu of those specified in (e) (3).

(g) *Quota and adjustments.* Each handler may increase his quota for milk within any quota period by one pound of milk solids for each one pound of milk solids he reduces his quota for cream and milk byproducts.

(i) *Handler exemptions.* Quotas shall not apply to any handler who delivers in a quota period a daily average of less than 125 units of milk, cream, and milk byproducts. For the purpose of this order, a unit shall be the equivalent in volume of the following: (1) One quart of milk, buttermilk, or fluid milk byproducts; (2) one-half pint of cream; and (3) one-half pound of cottage, pot, or baker's cheese.

(l) *Consumer priorities.* In the distribution of milk subject to quotas established hereunder, a handler shall give preference in the order listed, taking into consideration the type of purchasers served by him in the base period, to:

(2) Homes and retail stores handling milk for consumption off the premises; and

(3) Establishments serving milk for consumption on the premises.

The petition shall contain the correct name, address and principal place of business of the petitioner, a full statement of the facts upon which the petition is based, and the hardship involved and the nature of the relief desired.

(2) Upon receiving such petition the market agent shall immediately investigate representations and facts stated therein.

(3) After investigation, the petition shall be certified to the Director, but prior to certification the market agent may (i) deny the petition or (ii) grant temporary relief for a total period not to exceed 60 days.

(4) Denials or grants of relief by the market agent shall be reviewed by the Director and may be affirmed, modified, or reversed by the Director.

(n) *Reports.* Each handler shall transmit to the market agent on forms prescribed by the market agent the following reports:

(1) Within 20 days following the effective date of this order, reports which show the information required by the market agent to establish such handler's quotas;

(2) Within 20 days following the close of each quota period, the information required by the market agent to establish volumes of deliveries of milk, cream, and milk byproducts during the preceding quota period; and

(3) Handlers exempt from quotas pursuant to (i) hereof shall, upon the request of the market agent, submit the information required by the market agent to establish volumes of deliveries of milk, cream, and milk byproducts.

(p) *Expense of administration.* Each handler shall pay to the market agent, within 20 days after the close of each calendar month, an assessment of 0.015 per hundredweight of each of milk, milk byproducts, cream, and skim milk equivalent of cottage, pot, or baker's cheese delivered during the preceding quota period and subject to quota regulations under the provisions hereof.

(q) *Violations.* The market agent shall report all violations to the Director together with the information required for the prosecution of such violations.

(l) *Consumer priorities.* In the distribution of milk subject to quotas established hereunder, a handler shall give preference in the order listed, taking into consideration the type of purchasers served by him in the base period, to:

(p) *Expense of administration.* Each handler shall pay to the market agent, within 20 days after the close of each calendar month, an assessment of $0.01 per hundredweight of each of milk, milk byproducts, cream, and skim milk equivalent of cottage, pot, or baker's cheese delivered during the preceding quota period and subject to quota regulations under the provisions hereof.

PART 1415—IMPORTED FOODS

DISTRIBUTION OF TEA FOR CIVILIAN CONSUMPTION

Food Distribution Order No. 21, issued by the Secretary of Agriculture on February 15, 1943 (8 F.R. 2077), is amended to read as follows:

§ 1415.1 *Distribution of tea.*—(a) *Definitions.* When used in this order, unless otherwise distinctly expressed or manifestly incompatible with the intent hereof:

(1) The term "person" means any individual, partnership, corporation, or any organized group of persons, whether incorporated or not.

(2) The term "Director" means the Director of Food Distribution, War Food Administration.

(3) The term "Commodity" means the Commodity Credit Corporation, War Food Administration.

(4) The term "packer" means any person who packs tea owned by him or who has tea owned by him packed for his account by some other person.

(5) The term "qualified distributor" means a person designated as a qualified distributor in accordance with the provisions of (c) hereof.

(b) *Restrictions.* (1) No person other than a qualified distributor shall purchase tea from Commodity; and each qualified distributor shall purchase tea only from Commodity and only in accordance with an allocation hereunder and pursuant to the provisions of this order.

(2) During the calendar year 1944, and during each subsequent calendar year, the Director shall compute the percentage of the quantity of tea of all types which each qualified distributor may purchase, in accordance with the provisions of this order, from Commodity during each calendar year. Such percentage shall be in the same proportion that each qualified distributor's average annual imports of tea of all types during the calendar years 1940 and 1941 bore to the average annual imports of tea of all types by all the qualified distributors during the calendar years 1940 and 1941.

(3) The Director shall, from time to time, during the calendar year 1944, and during each subsequent calendar year, allocate, in his discretion, to the respective qualified distributors such quantities and types of tea as may be available for sale by Commodity at such time, so as to enable such qualified distributors to fulfil, as nearly as practicable, the requirements of packers' orders received by such qualified distributors: *Provided*, That the total amount so allocated to each qualified distributor shall not, during any calendar year, exceed the total quantity of tea which is obtained by applying the qualified distributor's percentage, computed in accordance with the provisions of (b) (2) hereof, to the total quantity of tea made available for sale by Commodity during such year.

(c) *Designation of qualified distributors.* (1) The Director shall, by publication in the FEDERAL REGISTER, designate as qualified distributors those tea importers, who have indicated a willingness to act as such, and who are, in the judgment of the Director, by reason of their experience, facilities, and personnel, able efficiently to distribute tea to packers and otherwise to discharge the functions and duties which the Director may, from time to time, specify.

(2) Any importer of tea who is not designated as a qualified distributor, as aforesaid, and believes that he is qualified to act as such may submit a petition in writing with the Order Administrator within 15 days after the publication in the FEDERAL REGISTER of any list of qualified distributors. Such petition shall be addressed to Order Administrator, Food Distribution Order No. 21, Special Commodities Branch, Food Distribution Administration, War Food Administration, Washington 25, D. C. Petition for such action shall be in writing and shall set forth the pertinent facts and the reasons which the petitioner considers entitle him to be designated as a qualified distributor. If such petitioner is dissatisfied with the action taken by the Order Administrator on the petition, by requesting the Order Administrator therefor, he shall obtain a review of such action by the Director. The Director may, after said review, take such action as he deems appropriate, and such action shall be final. In case any such petitioner is designated as a qualified distributor, the quantity of tea allocated to him shall be computed in accordance with the provisions of (b) (2) and (b) (3) hereof, and the allocations for other qualified distributors shall be recomputed accordingly.

(3) The Director may at any time terminate the designation of a qualified distributor, as such, who (i) fails to enter into the contract offered by Commodity for the purchase of tea and the performance of services incident to the handling of tea, (ii) after contracting with Commodity, as aforesaid, fails to comply with the terms of such contract, or (iii) violates any provision of this order.

(4) A qualified distributor may terminate his designation as such upon giving the Director at least 30 days' written notice of such intention to terminate.

(d) *Appointment of collaborator to serve as tea allocation supervisor.* The Director may appoint a person to serve as tea allocation supervisor and, insofar as he performs functions for the United States, such person shall act under his appointment as a collaborator without compensation from the United States.

(e) *Contracts.* The provisions of this order and of any regulations or orders issued in pursuance hereof shall be observed without regard to contracts heretofore or hereafter entered into or any rights accrued or payments made thereunder.

(f) *Audits and inspections.* The Director shall be entitled to make such audit or inspection of the books, records and other writings, premises, or stocks of tea of any person and to make such investigations, as may be necessary or appropriate, in the discretion of the Director for the enforcement or administration of the provisions of this order.

(g) *Records and reports.* (1) The Director shall be entitled to obtain such information from, and require such reports and the keeping of such records by, any person, as may be necessary or appropriate, in the discretion of the Director for the enforcement or administration of the provisions of this order.

(2) Every person subject to this order shall maintain, for at least two years or for such other period of time as the Director may designate, an accurate record of his transactions in tea.

(3) The record-keeping requirements of this order have been approved by the Bureau of the Budget in accordance with the Federal Reports Act of 1942. Subsequent record-keeping or reporting requirements will be subject to the approval of the Bureau of the Budget pursuant to the Federal Reports Act of 1942.

(h) *Delegation of authority.* The administration of this order and the powers vested in the War Food Administrator, insofar as such powers relate to the administration of this order, are hereby delegated to the Director. The Director is authorized to redelegate to any employee of the United States Department of Agriculture any or all of the authority vested in him by this order.

(i) *Petition for relief from hardship.* Any person affected by this order who considers that compliance herewith would work an exceptional or unreasonable hardship on him may file a petition for relief with the Order Administrator. Such petition shall be addressed to Order Administrator, Food Distribution Order No. 21, Special Commodities Branch, Food Distribution Administration, War Food Administration, Washington 25, D. C. Petition for such relief shall be in writing and shall set forth all pertinent facts and the nature of the relief sought. If such person is dissatisfied with the action taken by the Order Administrator on the petition, by requesting the Order Administrator therefor, he shall obtain a review of such action by the Director. The Director may, after said review, take such action as he deems appropriate, and such action shall be final.

(j) *Violations.* The War Food Administrator may, by suspension order, prohibit any person who violates any provision of this order from receiving, making any deliveries of, or using tea or any other material subject to priority or allocation control by the War Food Administrator, and may recommend that any such person be prohibited from receiving, making any deliveries of, or using materials subject to the priority or allocation control of other governmental agencies. In addition, any person who wilfully violates any provision of this order is guilty of a crime and may be prosecuted under any and all applicable laws. Further, civil action may be instituted to enforce any liability or duty created by, or to enjoin any violation of, any provision of this order.

(k) *Communications.* All reports required to be filed and all communications concerning this order shall be addressed to Order Administrator, Food Distribution Order No. 21, Special Commodities Branch, Food Distribution Administration, War Food Administration, Washington 25, D. C., Ref. FDO 21.

(l) *Food Distribution Order No. 18, as amended, not abrogated or suspended.* The provisions of this order shall not be construed to abrogate or suspend Food Distribution Order No. 18, as amended (8 F.R. 1778, 3244, 8388, 9103), or Food Distribution Order No. 18-3, as amended (8 F.R. 8389, 9103, 12122, 13434).

(m) *Effective date.* This amendment shall become effective at 12:01 a. m., e. w. t., January 1, 1944.

With respect to violations, rights accrued, liabilities incurred, or appeals taken under Food Distribution Order No. 21, prior to the effective time of this amendment, said Food Distribution Order No. 21, shall be deemed to be in full force and effect for the purpose of sustaining any proper suit, action, or other proceeding with respect to any such violation, right, liability, or appeal.

(5) The term "pharmaceutical preparation" means any combination of drugs (other than cough drops) compounded for medicinal use, and which contains oil of peppermint.

(6) The term "dentifrice" means any powder, liquid, or paste, which contains oil of peppermint, and which is generally designed and intended for use in connection with (i) the cleaning of natural or artificial teeth; (ii) the massaging of the gums or palate; or (iii) the stabilizing of dentures, or for use otherwise in connection with dentures.

(7) The term "menthol" means the product, known commercially by that name, which is extracted from oil of peppermint, and which is either a liquid, crystalline, or granular compound, and which has the taste and odor of peppermint.

(8) The term "miscellaneous article" means any finished preparation or product (other than chewing gum, confectionery, pharmaceutical preparations, dentifrices, or menthol) which contains oil of peppermint, including, but not being limited to, soaps.

(9) The term "year" means the consecutive 12-month period extending from October 1 of any calendar year to September 30 of the following calendar year, both inclusive.

(10) The term "calendar quarter" means any consecutive three-month period beginning either October 1, or January 1, or April 1, or July 1 of any year.

(11) The term "Director" means the Director of Food Distribution, War Food Administration.

(b) *Restrictions on use of oil of peppermint.* (1) No person shall, in any calendar quarter, use oil of peppermint in any class of use, listed in the following schedule in excess of the quantity equal to the percentage, specified in such schedule, of his use of oil of peppermint in that same class of use during the corresponding calendar quarter in 1941:

Class of use:	Permitted percentages of 1941 use
Manufacture of chewing gum	70
Manufacture of confectionery	70
Manufacture of pharmaceutical preparations	100
Manufacture of dentifrices	75
Manufacture of miscellaneous articles	70

Any person who did not manufacture the particular product during the corresponding calendar quarter in 1941 may, upon making written application therefor to the Director and furnishing such information as the Director may require, be granted a use quota, for the manufacture of such product, for the calendar quarter or calendar quarters specified by the Director and in such amount as the Director may deem to be necessary or appropriate in the public interest and to promote the national defense. The Director is hereby authorized to grant or refuse to grant a quota to any such person who submits an application and information, as aforesaid; and the Director may modify, amend, or rescind any such quota granted by him, as aforesaid. No person shall, in any calendar quarter, use more oil of peppermint in the manufacture of menthol than the quota which has been granted to him by the Director.

(3) Any person who has, during the period between the effective date (September 13, 1943) of Food Distribution Order No. 81 (8 F.R. 12525), and the effective date (November 1, 1943) of this amendment to said order, used oil of peppermint in any class of use referred to in (1) or (2) of this paragraph (b) in an amount in excess of 30 percent of the quantity of oil of peppermint used by him in the same class of use during the corresponding period in 1941, pursuant to authorization by the Director on a petition for relief from hardship, filed in accordance with the provisions of paragraph (g) of said Food Distribution Order No. 81, shall deduct, in the manner specified in the last sentence of this paragraph (3), such amount used in excess of 30 percent of the amount used for the same purpose or purposes, during the corresponding period in 1941, from his quota of oil of peppermint for the same class of use. Any person who has, during the period between the date on which this amended order is made effective (November 1, 1943) and the date on which this amended order is issued (January 1, 1944) used more oil of peppermint in any class of use referred to in (1) or (2) of this paragraph (b) than his quota specified in this amended order for the same class of use during the calendar quarter in which such period is included, shall not, on that account, be deemed to have violated the provisions of either such original order or this amended order in any case where the Director had previously authorized, pursuant to action taken by him on a petition for relief from hardship filed in accordance with the provisions of paragraph (g) of said Food Distribution Order No. 81, such use to that extent; but any such excess amount so used shall be deducted, in the manner specified in the next sentence of this paragraph (3), by such person from his quota of oil of peppermint for the same class of use provided for in this amended order. Any excess use of oil of peppermint referred to in the two preceding sentences shall be deducted by the user from his quota of oil of peppermint for the same class of use for any subsequent calendar quarter which he may elect prior to the calendar quarter which will begin on October 1, 1944.

(4) Any person may ship oil of peppermint outside the limits of the 48 States of the United States and the District of Columbia in any case where he has obtained authorizations for such shipment as may be required by the appropriate Federal governmental organizations other than the War Food Administration.

(c) *Quota exemptions.* The restrictions as to the use of oil of peppermint, as contained herein, shall not apply, in any quota period, to any person who used oil of peppermint during 1941 in his manufacturing operations, or other uses, but whose aggregate use of oil of peppermint in such current quota period is 10 pounds or less.

(d) *Restrictions on inventory of oil of peppermint.* (1) Any person who had an inventory of oil of peppermint on November 1, 1943, which was in excess of his permitted usage of oil of peppermint for the year (as defined in (a) (9) hereof) is not required by this amended order to dispose of such excess, but he may retain and use it as permitted in (b) hereof: *Provided,* That no such person shall make any further purchase of oil of peppermint, except in accordance with the terms and conditions which are set forth in (2) of this paragraph (d).

(2) No person, other than the person who had an inventory of oil of peppermint on November 1, 1943 which was in excess of his permitted usage, as provided in (1) of this paragraph, shall, on or after November 1, 1943, own, control, or have in his possession (either personally, or through an agent, or bailee) more oil of peppermint in the aggregate during any year (as defined in (a) (9) hereof) than his quota of oil of peppermint for that year. That is, the total requirements of oil of peppermint by any person (either personally, or through an agent, or bailee) during any such year shall not, when added to the amount of oil of peppermint which he had on hand (either personally, or through an agent, or bailee) unused at the beginning of that year, exceed his quota of oil of peppermint for such year: *Provided,* That any person may carry on hand at any one time, in addition to the amount authorized in the two preceding sentences, a stock of oil of peppermint sufficient to meet his requirements for the next succeeding 90 days in manufacturing products for delivery to or for the account of the agencies or persons listed or referred to in (f) hereof. *Provided further,* That the Director may, if he shall deem it desirable to do so at any time, fix the amount of oil of peppermint which any such person may carry on hand for such non-quota use, in which event the amount so fixed by the Director shall be the maximum amount which may be carried on hand for that purpose.

(3) The restrictions set forth in (1) and (2) of this paragraph (d) shall not apply to any person in connection with oil of peppermint which he manufactures, or which he holds, in the capacity of wholesaler or dealer, for sale to others: *Provided,* That those restrictions shall apply in connection with oil of peppermint which he uses in manufacturing other products.

(e) *Carrying over of quotas.* If, in any calendar quarter, any person does not use, in any class of use, his quota of oil of peppermint, as provided for in (b) hereof, he may carry over such unused portion to the succeeding calendar quarter or quarters and use such portion during any such succeeding quarter or quarters in his discretion.

(f) *Non-quota uses.* Notwithstanding the restrictions contained in (b) hereof, and without charge to his quotas thereunder, any person may use any amount of oil of peppermint necessary for the manufacture of any product listed in (b) hereof which is to be delivered to:

(1) The Army, Navy, Marine Corps, or Coast Guard of the United States (including, but not limited to, United States Army post exchanges, United States Navy ships' service departments, and United States Marine Corps post exchanges);

(2) The Food Distribution Administration, War Food Administration (including, but not limited to, the Federal Surplus Commodities Corporation);

(3) The War Shipping Administration;

(4) The Veterans Administration;

(5) The United Service Organizations, Inc.;

(6) Any person who, pursuant to a food distribution regulation, is entitled to purchase oil of peppermint subject to this order;

(9 Any wholesaler or jobber for delivery to any of the agencies or persons listed or referred to in (1), (2), (3), (4), (5), (6), and (7) of this paragraph (f): *Provided, however,* That the responsibility shall be upon the person claiming such exemption for non-quota use to establish, to the satisfaction of the Director, that the oil of peppermint involved was actually used in the manufacture of the products delivered to one or more of the exempt agencies or persons listed or referred to above.

(g) *Contracts.* The restrictions of this order shall be observed without regard to contracts heretofore or hereafter entered into, or any rights accrued, or payments made thereunder.

(h) *Territorial extent.* This order shall apply only to the 48 States of the United States and the District of Columbia.

(i) *Audits and inspections.* The Director shall be entitled to make such audit or inspection of the books, records and other writings, premises or stocks of oil of peppermint of any person, and to make such investigations, as may be necessary or appropriate, in his discretion, to the enforcement or administration of the provisions of this order.

(j) *Records and reports.* (1) Each person who uses oil of peppermint and who used more than 40 pounds of oil of peppermint in any calendar year during 1941, 1942, or 1943 shall, within 30 days after the date of the issuance of this amended order, report to the Director on Form No. FDO 81-2 the number of pounds of oil of peppermint used by him in any of those years, and the quantity of oil of peppermint which he had on hand (either personally, or through an agent, or bailee) on December 31, 1943.

(2) The Director shall be entitled to obtain such other information from, and require such other reports and the keeping of such other records by, any person, as may be necessary or appropriate, in his discretion, to the enforcement or administration of the provisions of this order.

(3) Every person subject to this order shall, for at least two years (or for such period of time as the Director may designate), maintain an accurate record of his transactions in oil of peppermint.

(4) The reporting and record-keeping requirements of this order have been approved by the Bureau of the Budget in accordance with the Federal Reports Act of 1942. Subsequent record-keeping or reporting requirements will be subject to the approval of the Bureau of the Budget pursuant to the Federal Reports Act of 1942.

(k) *Petition for relief from hardship.* Any person affected by this order who considers that compliance herewith would work an exceptional or unreasonable hardship on him may file a petition for relief with the Order Administrator. Such petition shall be addressed to Order Administrator, Food Distribution Order No. 81, Special Commodities Branch, Food Distribution Administration, War Food Administration, Washington 25, D. C. Petition for such relief shall be in writing and shall set forth all pertinent facts and the nature of the relief sought. If such person is dissatisfied with the action taken by the Order Administrator on the petition, by requesting the Order Administrator therefor, he shall obtain a review of such action by the Director. The Director may, after said review, take such action as he deems appropriate, and such action shall be final.

(l) *Violations.* The War Food Administrator may, by suspension order, prohibit any person who violates any provision of this order from receiving, making any deliveries of, or using oil of peppermint, or any other material subject to priority or allocation control by the War Food Administrator, and may recommend that any such person be prohibited from receiving, making any deliveries of, or using materials subject to priority or allocation control of other governmental agencies. In addition, any person who wilfully violates any provision of this order is guilty of a crime and may be prosecuted under any and all applicable laws. Further, civil action may be instituted to enforce any liability or duty created by, or to enjoin any violation of, any provisions of this order.

(m) *Delegation of authority.* The Administration of this order, and the powers vested in the War Food Administrator, insofar as such powers relate to the administration of this order, are hereby delegated to the Director. The Director is authorized to redelegate to any employee of the United States Department of Agriculture any or all of the authority vested in him by this order.

(b) A seasonal work leave, for seasonal employment and residence outside the relocation area; and

(c) An indefinite leave, for indefinite employment, education, or residence outside the relocation area.

§ 5.2 *Application for leave.* Any person residing within a relocation center who has been evacuated from a military area or who has been specifically accepted by the War Relocation Authority for residence within a relocation center may apply for leave. No such person shall depart from a relocation area before receiving leave.

§ 5.3 *Proceedings upon application for leave.* (a) Short term leaves, seasonal work leaves, and indefinite leaves may be issued by the project director in accordance with the provisions of this part, as supplemented by instructions issued by the Director from time to time.

(b) Except as may otherwise be determined by the Director, every person eligible to apply for leave who is 17 years of age or older shall file an application for leave clearance before he shall be eligible for leave. After such investigation as may be prescribed by instructions issued by the Director, the project director shall forward the application to the Director with his recommendations. The Director will secure from the Federal Bureau of Investigation such information as may be obtainable and will take such additional steps as may be necessary to determine the probable effect of the issuance of indefinite leave to the applicant upon the war program and upon the public peace and security. The Director will thereupon approve or disapprove the application and instruct the project director accordingly. A person whose application for leave clearance is disapproved shall be ineligible to receive indefinite leave and shall be transferred to the Tule Lake Center in northern California. A person resident at the Tule Lake Center whose application for leave clearance is approved shall be transferred to another center.

(c) Indefinite leave may be issued prior to approval of an application for leave clearance only in accordance with instructions issued by the Director from time to time. In the case of each application for indefinite leave, the Director will cause such steps to be taken as may be necessary to satisfy himself concerning the applicant's willingness to make the reports required of him under the provisions of this part, his means of support, the conditions and factors affecting his successful maintenance of residence at the proposed destination, the probable effect of the issuance of the leave upon the war program and upon the public peace and security, and such other conditions and factors as may be relevant. The Director will issue instructions covering the issuance or denial of indefinite leave in each such case. The project director shall issue or deny indefinite leaves pursuant to such instructions.

(d) A leave shall issue to an applicant in accordance with his application in each case, subject to the provisions of this part and under the procedures herein provided, as a matter of right, where the applicant agrees to make the reports required of him under the provisions of this part and to comply with all applicable provisions hereof, where there is no reasonable cause to believe that he will not have employment or other means of support or that he cannot otherwise successfully maintain residence at the proposed destination, and where there is no reasonable cause to believe that the issuance of leave in the particular case will interfere with the war program or otherwise endanger the public peace and security.

(e) Such special conditions may be attached to the leave to be issued in a particular case as may be necessary in the public interest. The special conditions to be so attached shall be governed by instructions issued from time to time. Every leave issued under the provisions of this part shall state the conditions that are applicable thereto.

(f) The project director shall promptly notify the applicant of the approval or disapproval of an application for leave or leave clearance, and of any special conditions attached to the approval of an application for leave, with a statement of the reasons therefor. In the case where the application for leave has been disapproved, or has been approved subject to special conditions, the project director shall advise the applicant of his right to appeal under the provisions of § 5.4.

(g) An applicant shall be required to arrange with the project director, in conformity with the applicable instructions of the Director, to provide for the support of any dependents of the applicant left in a relocation center.

(h) The project director shall promptly notify the Director of the names of any persons who have failed to return to the relocation center upon expiration of leave.

§ 5.4 *Appeals; requests for reconsideration.* (a) Any applicant whose application for a short term or seasonal work leave has been disapproved or approved with special conditions under § 5.3 may submit to the project director, within ten days following receipt of notice of such action, an appeal requesting the project director to transmit the appeal and all related papers to the Director. The applicant may submit any supplemental written statement he wishes in support of the appeal. Within five days following receipt of such an appeal, the project director shall transmit the appeal and all related papers to the Director, together with any supplemental statement he believes necessary or desirable.

(b) Every person resident at the Tule Lake Center whose application for leave clearance has been disapproved shall upon written request be entitled to reconsideration of his case by the Director. Prior to such reconsideration the request shall be referred to a board of persons designated by the Director who are not employed by the War Relocation Authority in any other capacity. The board shall conduct a full investigation and make findings of fact and recommendations to the Director with respect to the disposition of the request for reconsideration. During the course of such investigation, the applicant shall be given full opportunity to be heard before the board.

(c) The Director will thereupon consider the appeal, or request for reconsideration, as if it were a proper original application, and will issue instructions for the issuance or denial of leave, or the approval or disapproval of leave clearance, as the case may be, in accordance with the applicable provisions of this part. The Director will notify the project director of his disposition of the case, and the project director shall notify the applicant accordingly.

§ 5.5 *Leave assistance; reports during leave.* (a) The project director shall provide transportation for the applicant to whom a leave has been issued to the most convenient railroad or bus station. Assistance in meeting transportation costs to destination and initial subsistence expenses may be provided, in accordance with instructions issued by the Director from time to time, to persons to whom indefinite leave has been granted.

(b) Every seasonal work leave shall require the center resident to report his arrival and every change of address to the relocation officer. Each applicant for indefinite leave shall be required to agree to notify the Director promptly of his arrival at destination, his business or school and residential addresses, and all subsequent changes in school, employment, or residence.

§ 5.6 *Modification of leave.* (a) Any center resident to whom a short term leave has been issued may submit to the project director of the relocation center in which he resides a written application for an extension of such leave for a specified period. Any center resident absent from the center under a seasonal work leave may apply to the relocation officer for an extension of such leave for a specified period. Each such application must be submitted in due time for consideration before the original leave expires. Extensions of leave shall be issued or denied upon the same grounds as applications for original leave. No short term leave shall be prolonged beyond a total period of 60 days. A seasonal work leave may be extended in recurring periods of not more than 60 days if the seasonal employment is not completed or if the applicant obtains other similar employment. There shall be no implied authorization to remain on leave pending disposition of an application for extension.

(b) Any center resident absent from the center under a seasonal work leave may apply to the relocation officer for a modification or change in the travel area specified in the leave.

(c) Any center resident may, while absent from a center under a short term leave, apply to the project director of the center for indefinite leave. Any center resident absent from a center under seasonal work leave may apply for short term leave, indefinite leave, or leave clearance through the relocation officer. Within the limits prescribed by instructions issued by the Director from time to time, applications may be made and processed while the applicant is absent from the relocation center on leave.

§ 5.7 *Restrictions on leave.* (a) No short term leave or seasonal work leave issued under the provisions of this part shall authorize the person to whom the leave is issued to be present in any place except at, or en route to or from, a destination stated in the leave, within the dates stated therein. More than one destination may be stated in the leave where necessary. Such destination shall be defined in terms of towns or counties as accurately as practicable.

(b) An indefinite leave may permit travel unlimited except as to restrictions imposed by military authorities with reference to military areas or zones, or may permit only travel within designated states, counties, or comparable areas.

(c) Whenever the military authorities of the United States require a pass or other authorization to enter any designated area, no leave shall be issued under the provisions of this part to permit entry into such area until the required pass or authorization has been obtained for the applicant. Whenever such military authorities impose restrictions on movement or conduct within the area, the continuance of such leave shall be contingent upon the observance of any such restrictions in addition to the observance of the other conditions of such leave.

(d) When any alien of enemy nationality is issued a leave under the provisions of this part, the leave shall recite that travel to the first destination has been permitted by the Department of Justice, and the project director shall notify the United States Attorney of the judicial district in which the first destination is located concerning the name, description, last residence, destination, and date of departure of such alien. Any subsequent travel within the terms of the leave may take place only with the permission of the United States Attorney for the judicial district including the new point of departure. In addition, the project director shall arrange for the alien to notify the Immigration and Naturalization Service and the Federal Bureau of Investigation of his change of address, in accordance with Department of Justice regulations controlling the conduct of enemy aliens. If such alien has been paroled by order of the Attorney General or the War Department, or released under bond or on his own recognizance pending deportation, leave shall not issue until supervisory arrangements satisfactory to the Immigration and Naturalization Service have been completed.

§ 5.8 *Expiration of leave.* (a) Any leave issued under the provisions of this part shall expire:

(1) On the expiration date stated in the leave; or

(2) On the return to a relocation center, as a resident, of the person to whom the leave has been issued; or

(3) At any time that the person to whom the leave has been issued shall violate any of the conditions applicable to such leave; or

(4) On notice from the Director, the project director, or the relocation supervisor that the leave is revoked pursuant to the provisions of paragraph (b) of this section.

(b) The Director may revoke any leave when conditions are so far changed, or when such additional information has become available, that an original application by such person for leave would be denied under the provisions of this part. The project director may revoke any short term leave and the relocation supervisor may revoke any seasonal work leave on similar grounds. When the project director or relocation supervisor revokes a leave he shall promptly notify the Director.

§ 5.9 *Definitions.* As used in this part:

(a) "Director" means the Director of the War Relocation Authority.

(b) "Project director" means the project director of the War Relocation Authority for the relocation center in which the particular applicant or person to whom a leave has been issued resides or resided at the time application was made.

(c) "Relocation supervisor" means the relocation supervisor of the War Relocation Authority for the area in which the particular person to whom a leave has been issued is to be found.

(d) "Relocation officer" means the relocation officer of the War Relocation Authority for the district in which the particular person to whom a leave has been issued is to be found. A relocation officer is under the immediate supervision of a relocation supervisor; his district comprises a territorial subdivision of the area that is within the jurisdiction of the relocation supervisor.

(e) "Relocation center" means a relocation community administered by the War Relocation Authority for occupancy by persons evacuated from military areas.

(f) "Relocation area" means the entire area, administered by the War Relocation Authority, surrounding a relocation center.

(g) "Applicant" includes the applicant for a leave and every member of his family who seeks to accompany him on the leave.

(h) "Center resident" means a person to whom a short term leave or seasonal work leave has been issued under the provisions of this part.

§ 5.10 *Effective date.* The provisions of this part shall become effective on publication in the FEDERAL REGISTER.

§ 5.11 *Forms.* Applications for leave or leave clearance, leaves, and notices provided for in this part shall be made and issued on the prescribed forms wherever such forms are issued by the Director and distributed to the appropriate offices.

Issued at Washington, D. C., the 1st day of January 1944.

D. S. MYER,
Director.

Chapter IX—War Production Board

Subchapter B—Executive Vice-Chairman

AUTHORITY: Regulations in this subchapter issued under sec. 2 (a), 54 Stat. 676, as amended by 55 Stat. 236 and 56 Stat. 176; E.O. 9024, 7 F.R. 329; E.O. 9125, 7 F.R. 2719; W.P.B. Reg. 1 as amended March 24, 1943, 8 F.R. 3666, 3696; Pri. Reg. 1 as amended May 15, 1943, 8 F.R. 6727.

PART 944—REGULATIONS APPLICABLE TO THE OPERATION OF THE PRIORITIES SYSTEM

[Priorities Reg. 1, Interpretation 3, as Amended Jan. 4, 1944]

REJECTION OF RATED ORDERS FOR FAILURE TO MEET ESTABLISHED PRICES AND TERMS

The following interpretation is issued with respect to Priorities Reg. 1:

(a) Section 944.2 of Priorities Regulation No. 1 states that a seller must sell his product to any person who presents him with a rated order. Five exceptions under which rated orders may be refused are specified in sub-section (b) of that section. The third exception is where a buyer does not "meet regularly established prices and terms of sale or payment". This exception applies to a seller who receives a rated order for quantities which are less than the minimum which he regularly sells. For example, a manufacturer who has been selling only in carload

lots may reject a rated order for a less than carload lot.

This exception applies similarly to a person who regularly sells only in multiples of a specified quantity and receives a rated order for a number which is not a multiple of that quantity. For example, a manufacturer who regularly sells his product only in standard shipping packages containing one dozen receives a rated order for 40. He may fill the whole order or he may fill it to the extent of 36 and reject it for 4.

A further problem arises when a manufacturer receives such an order with split ratings. For example, suppose the manufacturer who sells his product only in standard shipping packages of a dozen receives an order for 30 rated AA-4 and 20 rated AA-5. In such a case the general rule is that amounts in excess of a multiple of the standard shipping package ordered at higher ratings may be included with amounts ordered at lower ratings if the manufacturer wishes to adhere to his standard shipping package and not fill the order as received. He may then, in the case supposed, treat the order as one for 24 items rated AA-4 and 24 rated AA-5 and reject it for 2 of the items. Of course, he may fill the order as placed if he prefers to do so; but, if he does not he must fill it as illustrated above.

(b) The exception also applies to the seller who regularly sells only to certain types of trade purchasers, such as wholesalers, jobbers or retailers. He may reject orders from other types of purchasers but only if it is practicable to obtain the merchandise in the required quantity through regular trade channels.

(c) It should be noted that the above exception includes the requirement that "there shall be no discrimination . . . in establishing such prices or terms". This means, for example, that a seller who sells principally at wholesale but also at retail to one or more customers may not reject rated retail orders from other customers. However, if a manufacturer or wholesaler has an exclusive distributor, either for all sales or for a particular territory, he may reject orders from other purchasers provided the exclusive distributor is in a position to fill the orders promptly.

PART 1226—GENERAL INDUSTRIAL EQUIPMENT

[Limitation Order L-123 as Amended Jan. 4, 1944]

The fulfillment of requirements for the defense of the United States has created a shortage in the supply of certain critical materials used in the manufacture of general industrial equipment for defense, for private account and export; and the following order is deemed necessary and appropriate in the public interest and to promote the national defense:

§ 1226.1 *General Limitation Order L-123*—(a) *Definitions.* For the purpose of this order:

(iii) [Revoked June 7, 1943.]

(b) *Restrictions on acceptance of orders for, and production and distribution of general industrial equipment*—(1) *General restrictions.* (i) No person shall accept any order for general industrial equipment or commence production of any general industrial equipment in fulfillment of any order, whether accepted or not; unless such order is an approved order.

(ii) No person shall deliver, and no person shall accept delivery of, any general industrial equipment, except pursuant to an approved order.

(iii) The restrictions and limitations of this paragraph (b) (1) shall not apply to:

(a) The delivery of general industrial equipment by any manufacturer to any distributor to fill approved orders actually received by such distributor or to replace general industrial equipment delivered by such distributor to fill an approved order.

(b) The extension by any manufacturer of any preference rating certificate to secure materials for the production of general industrial equipment, or

(c) The delivery, prior to February 1, 1944, by any person of any general industrial equipment to a farmer, in accordance with Priorities Regulation 19.

(c) *Non-applicability to repair or maintenance.* (1) The provisions of paragraph (b) shall not apply to any order for, or delivery of, maintenance or repair parts, (i) in an amount not exceeding $1,000 for any single piece of general industrial equipment to be repaired or maintained; or (ii) in any amount for the repair of general industrial equipment when there is an actual breakdown or suspension of operations of such piece of equipment because of damage, wear and tear, destruction or failure of parts, or the like, and the essential repair or maintenance parts are not otherwise available.

(2) [Revoked February 27, 1943]

(d) *Applicability of Priorities Regulation No. 1.* This order and all transactions affected thereby are subject to the provisions of Priorities Regulation No. 1 (Part 944), as amended from time to time, except to the extent that any provision hereof may be inconsistent therewith, in which case the provisions of this order shall govern.

(e) *Applicability of other orders.* Nothing in this order shall be construed to permit any person to sell, deliver, or otherwise transfer, or any manufacturer to purchase, receive delivery of, acquire, fabricate or process in any manner, any raw materials, semi-fabricated parts, or finished parts in contravention of terms of any regulation of the War Production Board, effective at the date of any of the transactions specified in this paragraph.

(f) *Existing contracts.* Fulfillment of contracts in violation of this order is prohibited regardless of whether such contracts are entered into before or after May 26, 1942. No person shall be held liable for damages or penalties for default under any contract or order which shall result directly or indirectly from his compliance with the terms of this order.

(g) *Appeals.* Any person affected by this order who considers that compliance therewith would work an exceptional and unreasonable hardship upon him may appeal to the War Production Board setting forth the pertinent facts and the reason he considers he is entitled to relief. The War Production Board may thereupon take such action as it deems appropriate.

(h) *Communications to War Production Board.* All reports required to be filed hereunder, and all communications concerning this order, shall, unless otherwise directed, be addressed to: War Production Board, Washington, D. C. Ref.: L-123.

All persons affected by this order shall execute and file with the War Production Board, such reports and questionnaires as the War Production Board shall from time to time request.

(j) *Violations.* Any person who wilfully violates any provision of this order, or who wilfully furnishes false information to the War Production Board in connection with this order is guilty of a crime and upon conviction may be punished by fine or imprisonment. In addition, any such person may be prohibited from making or obtaining further deliveries of, or from processing or using material under priority control and may be deprived of priorities assistance by the War Production Board.

Issued this 4th day of January 1944.

INTERPRETATION 1

General industrial equipment shall be considered to be delivered, within the meaning of this order, prior to May 26, 1942, when the machinery or equipment has been placed in the hands of a common or contract carrier for shipment to the purchaser prior to May 26, 1942. (Issued June 13, 1942.)

INTERPRETATION 2

Paragraph (a) (2) defines "general industrial equipment" to mean new equipment of the kinds listed, from time to time, in List A to the order. Such equipment is deemed to be new when it has not been delivered to any person acquiring it for use. Paragraph (b) imposes restrictions on the acceptance of orders for, and commencement of production and deliveries of, general industrial equipment.

Paragraph (c) provides an exemption from the restrictions of paragraph (b) for any order or delivery of maintenance and repair parts in an amount not exceeding $1,000 for any single piece of general industrial equipment to be repaired or maintained; or in any amount for the repair of general industrial equipment when there is an actual breakdown or suspension of operations of such piece of equipment. The exemption provided in paragraph (c) is intended for such repair or maintenance parts to be used to repair or maintain any existing equipment, i. e., equipment which has been delivered for use to a user and requires repair or maintenance. The exemption is not intended to apply to spare parts for new equipment nor is it limited to the repair or maintenance of equipment delivered after the date of the order. (Issued December 14, 1942.)

INTERPRETATION 3

It has been the practice of the motor repair industry to take in trade a broken down fractional horsepower motor and repair it for redelivery to another customer, on a similar basis, rather than to engage in repair of a fractional horsepower motor at the point of operation. The sale of the fractional horsepower motor for replacement would be within the exemption provided by paragraph (c) of Order L-123 (§ 1226.1) with respect to delivery of maintenance and repair parts, if it is the practice of the seller to take in trade the broken down motor, to repair it or have it repaired where practicable, and to resell it under similar conditions. (Issued July 14, 1943.)

PART 1253—BERYLLIUM SCRAP

[Supplementary Order M-160-a as Amended Jan. 4, 1944]

The fulfillment of requirements for the defense of the United States has created a shortage in the supply of beryllium scrap for defense, for private account and for export; and the following order is deemed necessary and appropriate in the public interest and to promote the national defense:

§ 1253.2 *Supplementary Order M-160-a*—(a) *Definitions.* For the purposes of this order.

(1) "Beryllium scrap" means all copper or copper base alloy materials or objects which are the waste or by-product of industrial fabrication or which have been discarded on account of obsolescence, failure or other reason, and which contain 0.1% or more of metallic beryllium.

(2) "Producer" means Beryllium Corporation of Pennsylvania, Brush Beryllium Company, Clifton Products, Inc., and any other persons who may be so designated in writing by the War Production Board.

(3) "Approved smelter" means any person whose name appears on Schedule A attached to this order as the same may be amended from time to time.

(4) "Dealer" means any person regularly engaged in the business of buying and selling beryllium scrap.

(b) *Restrictions on use of beryllium scrap.* (1) No person other than a producer or an approved smelter, shall melt, reprocess, smelt or otherwise use beryllium scrap, unless specifically authorized so to do in writing by the War Production Board on application made by letter to the Mica-Graphite Division. Reference: M-160-a; provided, however, that a brass mill may remelt beryllium scrap generated by it and that a foundry may remelt its gates, sprues and risers, if in so doing the brass mill or foundry does not debase or contaminate the material, and if, in applying for permission to acquire beryllium copper or beryllium master alloy, it reduces the requirements on its suppliers by an amount equal to the anticipated recoverable metal. A foundry may also accept a new casting of its own production, which is found to be defective or was spoiled in ma-

chining, and recast and reship it to replace the original casting.

(2) The War Production Board may issue directives to approved smelters, producers and others who may be permitted to melt beryllium scrap, which directives may direct the exact alloy or alloys which must be produced therewith and the amount of such alloy or alloys, and may prohibit the production of certain alloys. The War Production Board may also issue directives describing the amount of secondary ingot all fabricators and foundries (either integrated or independent) may be required to blend with primary master alloy in the production of fabricated and cast shapes, and the War Production Board may, by directives, designate certain producers or smelters who shall be the only persons permitted to receive and melt beryllium scrap of certain alloys and to produce certain alloys. Directives with respect to all matters described in this paragraph (b) (2) may contain directions as to the production schedules of the persons to whom they are issued.

(c) *Segregation of beryllium scrap.* (1) Any person who in the course of manufacture generates 100 pounds or more of beryllium scrap in a plant in any month after June, 1943, shall carry out thereafter in any such plant the Beryllium Copper Scrap Segregation Program set forth in Schedule B attached to this order and made a part hereof, unless otherwise directed in writing by the War Production Board.

(2) Any person receiving beryllium scrap shall keep such scrap segregated, prior to using it in the manner permitted by paragraph (b) hereof to at least the same extent as when it was received by him; and if he redelivers such scrap he shall do so segregated at least to the same extent as when it was received by him.

(d) *Contamination of beryllium scrap.* No person shall contaminate beryllium scrap with any other material except that a producer or approved smelter may mix beryllium scrap with other metals in the production of beryllium master alloys or beryllium copper subject to the restrictions contained in any applicable directives and that a brass mill or foundry may mix beryllium scrap with other metals when using beryllium scrap to the extent permitted by the provisions of paragraph (b) (1) hereof.

(e) *Sale and delivery of beryllium scrap.* Except as otherwise specifically authorized in writing by the War Production Board, all persons generating or holding beryllium scrap shall after September 1, 1943, deliver all such scrap at intervals not to exceed 30 days (except that brass mills or foundries may retain for more than 30 days beryllium scrap which they are entitled to use under the provisions of paragraph (b) (1) hereof) in accordance with the following provisions:

(1) *Segregated plant scrap.* Unless the War Production Board has issued a directive in writing to the contrary pursuant to paragraph (e) (4) hereof, beryllium scrap generated in the course of manufacture in a plant subject to the Beryllium Copper Scrap Segregation Program by paragraph (c) (1) hereof and beryllium scrap in such plant consisting of defective or rejected material, shall be segregated in accordance with the program (Schedule B). After segregation, such beryllium scrap shall be shipped directly to any producer or approved smelter provided, however, that where the amount of such scrap of any one type required to be kept separate by the program does not amount to 200 pounds in any month, the scrap of such type may also be shipped directly to any dealer.

(2) *All other scrap.* Unless the War Production Board has issued a directive in writing to the contrary pursuant to paragraph (e) (4) hereof, any person (other than a dealer) who owns or originates any beryllium scrap which he is not required to segregate in accordance with paragraph (c) (1) of this order, shall deliver such scrap to any dealer or approved smelter and shall not use or dispose of such scrap in any other way.

(3) *Dealers' operations.* Unless the War Production Board has issued a directive in writing to the contrary pursuant to paragraph (e) (4) hereof, all dealers must deliver any beryllium scrap (whether or not deemed to be usable in "as is" form) to a producer or approved smelter; provided, however, that any dealer may sell any beryllium scrap to another dealer if, in the regular course of business, he does not currently collect sufficient beryllium scrap to make it practicable for him to sell directly to a producer or approved smelter.

(4) *Directives.* The War Production Board may issue directives to a particular person or to a class of persons directing him or them to deliver beryllium scrap of certain alloys to another specific person or to a class of persons.

(f) *Certification upon sale of segregated scrap.* The generator of beryllium scrap which is segregated as provided in paragraph (c) (1) hereof and the Beryllium Copper Scrap Segregation Program (Schedule B), shall furnish the person to whom he makes delivery of such scrap with a signed document in the form of WPB 3067, or in substantially similar form showing:

(i) The alloy number or the designation "mixed beryllium scrap" when applicable;
(ii) Form of scrap;
(iii) Weight (on a clean and dry basis, moisture content estimated, if necessary); and
(iv) The name and address of the plant where generated.

This document shall bear a notation as to the date of delivery and names and addresses of the parties to the transaction, and, in case of redelivery of such scrap, shall be endorsed and delivered to the person receiving such scrap. Any person delivering scrap segregated as provided in Part I of the Program (Schedule B), shall clearly mark it showing the alloy number or specification, form and source. No mixed beryllium scrap or beryllium scrap other than scrap segregated in accordance with Part I of the Program (Schedule B), shall be designated as "segregated scrap" by any person.

(g) *Tolling prohibited.* No beryllium scrap may be delivered or received pursuant to toll, repurchase or similar arrangement, unless such transaction is specifically authorized in writing by the War Production Board.

(h) *No acquisition or delivery in violation of order.* No person shall hereafter acquire or deliver beryllium scrap or products made therefrom if he has reason to believe such material has been or is to be used in violation of the terms of this or any other order of the War Production Board: *Provided, however,* That any producer or approved smelter may acquire beryllium scrap for any purpose permitted by this order and any directives issued hereunder at any time, irrespective of the right of the person disposing of the same to have acquired or to deliver such scrap.

(i) *Records.* Each person who participates in any transaction involving beryllium scrap shall keep and preserve for at least two years complete and accurate records as to all such transactions, which records shall be subject to inspection by the War Production Board. This record-keeping requirement has been approved by the Bureau of the Budget in accordance with the Federal Reports Act of 1942.

(j) *Reports.* Any person generating or receiving beryllium scrap in any quarter, or having in his possession beryllium scrap at the end of any calendar quarter, shall file with the Mica-Graphite Division quarterly reports on Form WPB 3066 not later than the 20th day after the end of such calendar quarter, if he is instructed so to do by instructions on Form WPB 3066, or if otherwise specifically directed by War Production Board. This reporting requirement has been approved by the Bureau of the Budget in accordance with the Federal Reports Act of 1942.

(k) *Addressing of communications.* All applications, statements, reports or other communications filed pursuant to this order or concerning the subject matter hereof, should be addressed to: War Production Board, Mica-Graphite Division, Washington 25, D. C., Reference: M-160-a.

(l) *Violations.* Any person who wilfully violates any provision of this order, or who, in connection with this order, wilfully conceals a material fact or furnishes false information to any department or agency of the United States is guilty of a crime, and, upon conviction, may be punished by fine or imprisonment. In addition, any such person may be prohibited from making or obtaining further deliveries of, or from processing or using, material under priority control and may be deprived of priorities assistance.

Issued this 4th day of January 1944.

SCHEDULE A—APPROVED BERYLLIUM SMELTERS

American Brass Company, Waterbury, Connecticut.

Wilbur B. Driver Company, Newark, New Jersey.

Riverside Metal Company, Riverside, New Jersey.

Beryllium Corporation of Pennsylvania, Reading, Pennsylvania.

SCHEDULE B—BERYLLIUM COPPER SCRAP SEGREGATION PROGRAM

I. *Segregation of beryllium scrap other than mixed beryllium scrap*—(1) *By alloy content.* Beryllium scrap (other than mixed beryllium scrap as hereinafter defined) of each individual alloy (for example, nickel or cobalt bearing scrap) shall be segregated from beryllium scrap of every other alloy.

NOTE: Scrap from plated or otherwise coated material may not be included with uncoated material of the same alloy specifications.

(2) *By form.* In addition to the above segregation on the basis of alloy content, the scrap of each alloy (other than mixed beryllium scrap as hereinafter defined) shall be segregated into four form types:

(i) "Solids from wrought shapes" generated by shearing, clipping, cutting, blanking or similar processes and also defective or rejected wrought beryllium parts.

(ii) "Casting solids" consisting of defective or rejected casting and gates, sprues, risers or similar foundry scrap.

(iii) "Wrought machinings" generated by machining, drilling, boring, turning, milling or like operations on wrought products or wrought parts.

(iv) "Casting machinings" generated by machining, drilling, boring, turning, milling or like operations on foundry products and parts made therefrom.

In no event shall solids and machinings be combined.

II. *Segregation of mixed beryllium scrap by form*—(1) *Definition.* "Mixed beryllium scrap" shall consist of beryllium scrap in the form of solids or machinings, the alloy content of which cannot be identified, or of grindings, sawings, buffings and other fines and of drosses, skimmings and sweepings.

(2) *Classification.* All mixed beryllium scrap shall be segregated into four classes as follows:

(i) Solids;
(ii) Machinings;
(iii) Sawings;
(iv) Drosses, skimmings, grindings, buffings and sweepings and other fines.

Each of the four classes of mixed beryllium scrap shall be handled separately from each other class of mixed beryllium scrap and from all other beryllium scrap.

III. *General provisions*—(1) *Official responsible for handling beryllium scrap.* Each person operating a plant generating in any month after June, 1943, 100 pounds or more of beryllium scrap, shall appoint a responsible employee to supervise the collection, segregation and handling of all beryllium scrap generated in the plant. The name of such employee shall be forwarded to the Mica-Graphite Division, Washington 25, D. C. No dealer or other person not a regular employee of the plant shall perform any such function except as the War Production Board may specifically authorize in writing.

(2) *Collection and identification.* Segregation shall be effected at the machine where the beryllium scrap is generated. Separate containers for collection and bins for storage shall be provided for each type of beryllium scrap required to be segregated by this program. All containers and bins shall be clearly marked to identify the alloy and the form of scrap for which they are intended, and they shall be kept clean, dry and in good condition, so that their contents shall be protected from contamination and the weather. Each container and bin shall be used only as a receptacle for the alloy and form of scrap for which it is designated and marked.

(3) *Identification of segregated scrap for shipment.* Each unit of segregated scrap shall, upon shipment, be clearly marked or labelled to show the alloy number or the designation "mixed beryllium scrap" where applicable, the form and the source, i. e., the plant where generated.

(4) *Obligation as regards subcontractors.* Each person operating a plant as part of his arrangement with any subcontractor to whom he furnishes beryllium copper, shall impose an obligation upon, and otherwise make every effort to see to it that, such subcontractor institutes and carries out an adequate beryllium copper scrap collection and segregation program in conformance with this schedule and Order M-160-a.

(4) "Finning bur" means any file or bur which has a shank diameter of ¼", a cutting diameter of ¼" or less, and a cutting length of 1½" or more.

(5) "Small bur" means any file or bur which has a shank diameter of $\frac{3}{16}$" or less.

(6) "Cutting diameter" means the maximum diameter of the cutting section of a rotary file which is marked dimension A in the illustrations in the attached Appendix.

(7) "Cutting length" means the maximum length of the cutting section of a rotary file which is marked dimension B in the illustrations in the attached Appendix.

(8) "Over-all length" means the maximum length of a rotary file, including the cutting length, shoulder length and shank length, which is marked dimension C in the illustrations in the attached Appendix.

(9) "Chip-breaker" means an interrupted cut in the cutting section of a rotary file.

(10) [Revoked Jan. 4, 1944]

(b) *Limitations on manufacture.* (1) On and after June 15, 1943, except as permitted by paragraph (b) (2) of this schedule, no person shall manufacture any rotary file in any size or shape other than the sizes and shapes specified in the attached Appendix, and then only as follows:

(i) Shanks for any rotary files having a cutting diameter of ½" or more shall be manufactured from carbon steel only.

(ii) The diameter of the shank for any rotary file having a cutting diameter of less than ½" shall be limited to ¼".

(iii) Where the shank is manufactured from alloy steel, the over-all length of any rotary file having a cutting diameter of less than ½" shall not exceed 2½", except that where the cutting length and shoulder length combined total 1½" or more, the shank length may be up to 1½" and the over-all length may accordingly exceed 2½".

(2) (i) Any producer may manufacture special rotary files not permitted by paragraph (b) (1) which are required to fill actual purchase orders received by the producer, but the total quantity of such special files which any producer may put into production in any month may not exceed 25% of the producer's total production in the preceding month. Total production means the total number of rotary files produced. These special rotary files may not be manufactured for the producer's stock.

(ii) Any producer now manufacturing rotary files having a cutting length shorter than that set forth in the attached Appendix may continue such manufacture subject, however, to all other limitations contained in this schedule; provided, however, that no such manufacturer shall also manufacture the same shape rotary file having the cutting length specified in the attached Appendix.

(c) *Selection of sizes for regular manufacture.* If, with respect to any shape of rotary files, it is indicated under a particular shape in the Appendix attached hereto that a certain size thereof shall be selected, each producer shall select such size as he may desire to manufacture regularly and shall forthwith give notice in writing of such selection to the War Production Board, Tools Division, Ref.: L-216 Schedule IV. The producer may thereafter apply for leave to amend the original selection, but unless and until such leave is granted by the War Production Board in writing, the original selection shall remain binding upon such producer.

(d) *Chip-breakers eliminated.* On and after June 15, 1943, no chip-breakers shall be cut in any new rotary files or in any used rotary files which are being resharpened or converted unless specifically requested by the purchaser.

Issued this 4th day of January 1944.

[Limitation Order L-216, Schedule VI as Amended Jan. 4, 1944]

VISES

§ 3114.7 *Schedule VI of Limitation Order L-216*—(a) *Definitions.* For the purpose of this schedule and the table attached hereto:

(1) "Person" means any individual, partnership, association, business trust, corporation, governmental corporation or agency, or any organized group of persons whether incorporated or not.

(2) Names of various types of vises shall have the same meaning as in Federal Specifications GGG-V-436-a, and the illustrations in such specifications shall be deemed the graphic descriptions of the vises referred to; provided, however, that none of the other provisions of such specifications shall be controlling.

(3) "Jaw cap" means the cap designed to be placed across the face of the jaw of a vise to cover the surface of the jaws.

(b) *Manufacture of jaw caps.* No person shall perform any manufacturing operation upon or sell any jaw caps made of any metal other than lead or lead base alloy.

(c) *Limitation on manufacture of vises.* (1) No person shall use in the manufacture of vises any metals other than carbon steel or cast or malleable iron, except that jaw facings may be manufactured of tool steel.

(2) No person shall manufacture any vise of any of the types listed in Table 1, except in the jaw sizes there specified.

(d) *Exceptions.* Nothing contained in paragraphs (b) and (c) of this schedule shall be deemed to prohibit the sale of jaw caps or vises which on January 4, 1944, were completely fabricated, nor to prohibit the manufacture and sale of jaw caps or vises which on January 4, 1944, had been so fabricated that completion in compliance with the provisions of this schedule would be impracticable. Each person who shall manufacture or sell any jaw cap or vise under the terms of this exception, shall keep and maintain, subject to inspection by the War Production Board, accurate records with respect to each such transaction.

(e) *Manufacture of repair parts.* Nothing contained in paragraph (c) of this schedule shall be deemed to prevent the manufacture of repair parts for vises, notwithstanding the fact that the vises for which such parts are made do not conform to the limitations set forth in this schedule. No person shall assemble repair parts so produced into a complete vise, but shall use them only for the purpose of replacing parts of vises which are broken or so badly worn that they are no longer serviceable.

(f) *Effective date of schedule.* This schedule and the attached table shall take effect January 4, 1944.

PART 3274—MACHINE TOOLS AND INDUSTRIAL SPECIALTIES

[General Preference Order E–10, as Amended Jan. 4, 1944]

ANTI-FRICTION BEARINGS

The fulfillment of requirements for the defense of the United States has created a shortage in the supply of anti-friction bearings for defense, for private account, and for export; and the following order is deemed necessary and appropriate in the public interest and to promote the national defense:

§ 3274.61 *General Preference Order E–10*—(a) *Definitions.* For the purpose of this order: (1) "Person" means any individual, partnership, association, business trust, corporation, governmental corporation or agency, or any organized group of individuals, whether incorporated or not.

(2) "Producer" means any person who is engaged in the manufacture of anti-friction bearings.

(3) "Anti-friction bearing" means any bearing employing as rolling elements balls of any size or rollers of any size or shape.

(4) "Production order" means

(i) Any purchase order or contract for one or more anti-friction bearings of any one size having a total purchase price of $500 or more, or

(ii) Any purchase order or contract for more than five hundred anti-friction bearings of any one size.

(5) "Miscellaneous order" means any purchase order or contract for anti-friction bearings other than production orders: *Provided, however,* That no person shall subdivide his purchase orders or contracts for anti-friction bearings for the purpose of coming within this definition.

(6) "Total quarterly production" means the total number of units of all types of anti-friction bearings to be manufactured by a producer in any given quarter.

(7) "Total monthly deliveries" means the total number of units of all types of anti-friction bearings to be delivered by a producer in any given month.

(8) "Continental United States" means the territory comprising the several States and the District of Columbia.

(b) *Scheduling of total quarterly production.* (1) Each producer shall schedule his total production for the four months period September, October, November and December 1943, and, beginning January 1, 1944, he shall schedule his total quarterly production of anti-friction bearings in such manner as to make available during such period or quarter 85% of his production for delivery against production orders and 15% of his production for delivery against miscellaneous orders: *Provided, however,* That these percentages allocated to production orders and miscellaneous orders, respectively, may be varied by any producer to the extent that he does not have enough unfilled purchase orders and estimated future orders reasonably anticipated to be received within the next ninety days to absorb one or the other of such percentage allocations.

(2) Notwithstanding the provisions of Priorities Regulation No. 1, any producer who shall schedule the production of a given size of anti-friction bearings to fill an order or orders therefor, delivery of which is required during any given quarter, may schedule the production of additional bearings of such size either

(i) When necessary to bring the quantity scheduled to a minimum practicable production run, or

(ii) To meet orders therefor not yet actually received but reasonably to be anticipated within the next 90 days: *Provided, however,* That in no event shall the additional quantity of bearings to be scheduled for production to meet such anticipated orders exceed the average quarterly quantity of such bearings sold by such producer during 1942.

(c) *General Scheduling Order M–293.* Anti-friction bearings now appear on Table 12 of General Scheduling Order M–293. Therefore, in addition to complying with the provisions of General Preference Order E–10, producers are subject to the provisions of General Scheduling Order M–293 including the requirement contained in that order that they file operations reports on Form WPB–1314.

(d) [Deleted Nov. 10, 1943]

(e) *Deletion and addition of purchase orders in schedules.* No producer who receives any instruction from any purchaser to withhold work on, or delivery under, any contract or purchase order for anti-friction bearings shall retain such contract or order in his schedule for more than ten days. Whenever any such contract or order has been deleted from such schedule, the producer shall immediately notify the purchaser of such action. No contract or order, which shall have been deleted from a producer's schedule pursuant to this paragraph (e), shall be reinstated in the same or any subsequent schedule for delivery on its original schedule delivery date. In the event the purchaser withdraws such instruction to withhold work on, or delivery under, any contract or purchase order, notice of such withdrawal may be treated by the producer as the placing of a new contract or purchase order for the same amount, type and size of anti-friction bearings as covered by the unfilled portion of the original contract or purchase order, and may be scheduled in the same way as a new contract or purchase order.

(f) *Allocation of deliveries against production orders and miscellaneous orders.* Each producer shall allocate 85% of his total monthly deliveries to production orders and 15% of his total monthly deliveries to miscellaneous orders: *Provided, however,* That the percentage of total monthly deliveries allocated to production orders and miscellaneous orders, respectively, by this paragraph (f), may be varied by any producer to the extent that such producer does not have sufficient unfilled purchase orders to absorb one or the other of such percentage allocations. The sequence of deliveries against production orders and miscellaneous orders within the respective percentage limitations on such deliveries imposed by this paragraph (f) shall be scheduled according to the terms of Priorities Regulation No. 1 and other applicable regulations of the War Production Board: *Provided, however,* That notwithstanding paragraph (d) of § 944.7 of Priorities Regulation No. 1, material specifically produced for an order for anti-friction bearings rated AA–5 or higher shall not be diverted and delivered under a higher rated order subsequently accepted if such material is completed at the time of the acceptance of the higher rated order or is in production and scheduled for completion within thirty days thereafter, unless such diversion is specifically directed by the War Production Board or unless the subsequently accepted order bears a rating of AAA.

(g) *Necessity for preference ratings.* No producer shall accept any purchase order for or make delivery of anti-friction bearings unless such order or delivery bears a preference rating of AA–5 or higher: *Provided,* That this restriction shall not apply to deliveries against purchase orders received prior to November 24, 1943 which bear a rating of A–10 or higher. Also, deliveries of anti-friction bearings produced in accordance with the provisions of Limitation Order L–158 or L–257 shall not be subject to this restriction.

(h) *Limitation on inventories.* No person shall accept delivery of any anti-friction bearings of any type and size if his inventory of such type and size of bearings is, or will, by virtue of such acceptance, become greater than the quantity of such item he will be required by his current practices to put into use during the succeeding sixty-day period for production, construction, operating supplies, or maintenance, or repair, or greater than a minimum practicable working inventory thereof, whichever is smaller; *Provided, however,* That the deliveries of anti-friction bearings pursuant to the following designated types of purchase orders shall be permitted to effect such an increase:

(1) Purchase orders placed by any procurement agency of the United States pursuant to the Act of March 11, 1941, entitled, "An Act to Promote the Defense of the United States" (Lend-Lease Act).

(2) Purchase orders placed by the Army, Navy, or Maritime Commission for anti-friction bearings required for bases or supply depots outside the continental United States, or for bases or supply depots within the continental United States which are maintained for emergency purposes, or to supply such bases or supply depots outside the continental United States.

(3) Purchase orders placed by distributors for anti-friction bearings, which are intended to be used as replacement parts, as defined by paragraph (b) (1) of Limitation Order L–158: *Provided,* That in no event shall such distributor's inventory of such bearings exceed the quantities specified in paragraph (h) of Limitation Order L–158.

(4) Any other purchase order specifically excepted from this restriction by the War Production Board.

(i) *End use classification.* (1) No producer shall schedule any purchase order or contract received after June 1, 1943, for production or delivery unless it contains

(i) An endorsement placed thereon by the purchaser pursuant to CMP Regulation 5 or 5A, or pursuant to an order of the P or U series, assigning preference rating assistance to a particular industry for maintenance, repair or operating supplies, or

(ii) The purchaser's allotment number placed thereon by the purchaser pursuant to CMP Regulation No. 3, or

(iii) In the case of Lend-Lease purchase orders or contracts, a statement of the foreign country for which the anti-friction bearings are purchased, or

(iv) In the case of any other purchase order or contract, if no allotment number or symbol has been assigned, a statement of the product into which such bearings are intended to be incorporated, if known to the purchaser.

(2) Producers are not required to secure any identification of end use with respect to any order placed prior to June 1, 1943, but may be required to report the product into which such bearings are intended to be incorporated, if known to the producer.

(3) Except in the case of Lend-Lease orders, no producer shall schedule production or delivery of any contract or purchase order received after November 24, 1943 for more than one thousand anti-friction bearings unless it is accompanied by a statement of the percentage of such bearings, if any, which are spares; or if no spares are included in such a purchase order, the statement "No spares included." Spares are those bearings which the purchaser does not build into the end product being produced by him but which are delivered by such purchaser as extra bearings.

(i–1) *Restrictions on disposal of excess bearings.* (1) Notwithstanding the provisions of paragraph (b) of § 944.11 of Priorities Regulation No. 1, any person who has obtained anti-friction bearings with priorities assistance who no longer requires them for the purpose for which the priorities assistance was given, may dispose of them only in one of the following ways:

(i) The bearings may be redelivered to the person from whom they were obtained if such person is willing to accept redelivery; or

(ii) The bearings may be disposed of to fill any order rated AAA; or

(iii) The bearings may be disposed of to fill any order rated AA–5 or higher placed by the Army, Navy, Maritime Commission, or War Shipping Administration, or by any prime or subcontractor of any of them, who will incorporate the bearings into, or will deliver them as spare bearings with, a product being manufactured by him.

(iv) If the quantity of bearings which he wishes to dispose of in any one calendar month had a total cost to him of $250 or less, he may dispose of them to fill any order placed with him rated AA–5 or higher; or

(v) If the quantity of bearings which he wishes to dispose of in any one calendar month had a total cost to him in excess of $250 and if they are not being disposed of pursuant to subparagraphs (i–1) (1) (i), (ii), or (iii) above, he must apply to the War Production Board for permission to dispose of the bearings. Application for such permission shall be made by letter addressed to the Bearings Section, Tools Division, War Production Board, stating the quantity and size of the bearings to be disposed of, the person, if any, to whom he wishes to dispose of them, and the purpose for which the bearings will be used by such person.

(2) Nothing contained herein shall release any person listed on Schedule A to War Production Board Directive No. 16, issued August 30, 1943, from complying with the restrictions on the transfer of certain ball bearings as there set forth.

[General Limitation Order L–79, as Amended Jan. 4, 1944]

METAL PLUMBING AND HEATING EQUIPMENT

§ 3288.31 *General Limitation Order No. L–79*—(a) *Definitions.* For the purpose of this order:

(1) "Plumbing equipment" means any fixture, material, device or apparatus, including component parts thereof, used as a unit or included in a system designed for the supply of water for drinking or sanitary purposes, for heating or storage of domestic hot water, or for the removal of waste water or water-borne wastes, and the gases therefrom, including water, gas and sewer piping, or designed for the chemical treatment of waste matter. It does not include equipment operated for general use as a public utility, equipment designed for industrial processing, or fire protection systems, or for use in aircraft, railroad vehicles or ships, or equipment using electricity as a fuel.

(2) "Heating equipment" means any material, device or apparatus, including component parts thereof, used as a unit or included in a system designed for generating, conveying, circulating, distributing, transferring, or controlling

heat, and designed for, but not necessarily limited to, heating air spaces or controlling temperature within building or other structures, excluding ships.

It shall not include critical heat exchanges as defined in L–172, fans and blowers as defined in L–260, equipment designed primarily for refrigeration or dehumidification as defined in L–38, steel power boilers of the types defined in L–117, steel boilers designed for locomotive or for marine shipboard use, equipment exterior to a building which is heated by steam or hot water distributed from a central source for general use as a public utility, equipment designed for industrial processing, equipment for generating power, equipment using electricity as a fuel, or equipment designed for heating aircraft or automotive or railroad vehicles, but it shall include trailer and caboose stoves.

It shall not include heating system controls as specified in Schedule A.

(3) "Consumer" means any person who purchases for use but not for resale any material, equipment or parts included in the definitions of "plumbing equipment" and "heating equipment" above.

(b) *Plumbing and heating equipment to be delivered only on rated orders.* On and after September 1, 1943 no person shall deliver or accept delivery of plumbing and heating equipment except on an order rated A–10 or higher.

(c) Exceptions. The restrictions of this order shall not apply to the following:

(1) Any unit of non-metallic plumbing equipment or heating equipment including any such unit of non-metallic equipment the construction or assembly of which (into the form as sold by its producer) calls for incorporation of metallic components of the kind needed to permit connection to the unit of water and waste pipes, faucets, valves, fittings, or plumbing trim.

(2) The minimum quantity of metal items or parts needed to install and hold in place any unit of the kind described in subparagraph (c) (1) including, but not limited to, nuts, bolts, screws, clamps, rivets, and other items of joining hardware (excluding chair carriers) provided such use is not prohibited by any other order of the War Production Board. This exception does not include the running of any water, steam, gas, oil or drain pipes to the unit or any metal items or parts needed to connect the unit to an existing piping system.

(3) Any item of plumbing equipment or heating equipment the cost of which to the purchaser is not more than $5.00.

(4) Plumbing equipment or heating equipment to be incorporated in a project for which the consumer has been given authority to begin construction on Form GA–235 (formerly PD–443). In such a case, the purchaser's order shall contain the following signed statement, listing the items of equipment to be sold or delivered:

The following equipment ---------- is required for the completion of the erection, construction, remodeling or rehabilitation of a building, structure or project, or additions, extensions or alterations thereof, which have been specifically authorized by the War Production Board on Form GA–235.

Dated ----------

Signed ----------

This statement shall constitute a representation to the War Production Board and to the person supplying such equipment that the stated facts are true and that the listed equipment will be used for the purpose stated.

(5) Power-driven coal stokers approved on Form WPB 1612 (formerly PD–668).

(6) Oil burners.

(7) Equipment rationed by a certificate issued by a local War Rationing Board.

(8) Plumbing equipment or heating equipment which has previously been used by a consumer.

(9) Steel and wrought iron pipe.

(d) *Applicability of other orders.* Insofar as any other order issued, or to be issued, limits the production, delivery or use of any plumbing equipment or heating equipment to a greater extent than the limits imposed by this order, the restrictions of such other orders shall govern unless otherwise specified therein.

(e) *Records.* All persons affected by this order shall keep and preserve for not less than two years accurate and complete records concerning inventories and sales.

(f) *Audit and inspection.* All records required to be kept by this order shall, upon request, be submitted to audit and inspection by duly authorized representatives of the War Production Board.

(g) *Violations and false statements.* Any person who wilfully violates any provision of this order, or who, in connection with this order, wilfully conceals a material fact, or furnishes false information to any department or agency of the United States is guilty of a crime, and upon conviction may be punished by fine or imprisonment or both. In addition, any such person may be prohibited from making or obtaining further deliveries of, or from processing or using, material under priority control and may be deprived of priorities assistance.

INTERPRETATION 1

1. Are the following items included in the definitions of plumbing and heating equipment:

Q. Water softeners and filters, water systems, pumps for water systems?

A. Yes. They are part of a system designed for the supply of water. However, other War Production Board orders also affect the sale of this equipment and to the extent to which any other order is more restrictive, the more restrictive order governs.

Q. Sump pumps and cellar drainers?

A. Yes. They are fixtures used as a unit, designed for the removal of waste water. However, this equipment is also affected by other orders of the War Production Board.

Q. Stokers under 60 lbs. per hour?

A. Yes. They are part of a system designed for producing heat.

Q. Bathroom accessories, such as soap dishes, towel racks, tooth brush holders, etc.?

A. No.

Q. Fireplace grates and irons?

A. No. These are not used as unit nor included in a system.

Q. Electric water heaters?

A. No. Equipment using electricity as fuel is specifically exempt from the definition of plumbing equipment. It is subject to Order L–65. However, there are some items used interchangeably as components of electric and non-electric heaters, and these items, when sold separately, are subject to the order.

2. May the following items be sold without preference ratings due to the fact that they are composed of non-metallic materials:

Q. Victory shower stalls complete with trim?

A. No. The trim is not needed to install and hold the fixture in place. However, a non-metallic shower stall less trim may be sold without a rating in accordance with paragraph (c) (1).

Q. China sinks with wooden under-cabinets, less trim?

A. Yes. Since the fixture is completely non-metallic, it may be sold without a rating. However, if the trim is included, a rating is required.

Q. China closet bowl with spud?

A. Yes. The spud, although made of metal is a metallic component of the type defined in paragraph (c) (1) and therefore, no preference rating is required in the sale of this fixture.

Q. A china closet tank complete with fittings?

A. No. The closet tank fittings, such as ball cocks, flush valves, float rods, etc., when incorporated into the fixture by the producer, make the fixture a restricted item which may not be sold without a rating.

3. Paragraph (c) (2) permits the sale without a rating of metal items or parts needed to install units of non-metallic plumbing or heating equipment as described in paragraph (c) (1). Does this mean that plumbing fixture fittings and trim are excepted from the restrictions of the order?

A. No. This exception relates only to items of joining hardware. The fittings and trim are component parts of plumbing equipment and are restricted under paragraph (b).

4. If the manufacturer sells a faucet to a wholesaler for $4, the wholesaler sells it to the dealer for $5.05 and the dealer sells it to the consumer for $6, when is a preference rating required?

A. Delivery of the faucet from the manufacturer to the wholesaler without a rating is permissible under paragraph (c) (3) which permits the sale of an item costing the purchaser not more than $5. However, since the item costs the dealer and the consumer in excess of $5, a preference rating is necessary before sale to them can be made.

5. Is it permissible under L–79 to sell without a preference rating a closet combination the total cost of which is $14, of which the metallic items involved cost less than $5 each?

A. If the fittings are sold as a complete unit, whether or not the fittings are listed separately on the purchase order, its sale is restricted to an order rated A–10 or better.

6. Is it permissible for one person to sell to another person 12 lavatory faucets, 12 F. O. plugs and 12 laundry tray faucets without a rating provided that each of the items listed costs the purchaser no more than $5?

A. Yes. Since each of these items costs the purchaser less than $5, there is no requirement that a preference rating be obtained before making the sale.

7. Is it permissible under paragraph (b) to return merchandise to the factory without restrictions?

A. Yes, if the transaction is in effect a cancellation of the original purchase order.

8. Are plumbing and heating materials for export restricted by the order?

A. Yes. The order restricts all sales and deliveries of plumbing and heating equipment except on an order rated A–10 or higher unless the materials are listed in one of the exceptions in paragraph (c).

9. Paragraph (c) (7) exempts from the preference rating requirement equipment rationed by the Office of Price Administration. What items included in the definitions of L–79 are being rationed by OPA?

A. The equipment listed below is now being rationed by OPA:

Coal and wood heating stoves.
Oil heating stoves (including those using kerosene or gasoline as a fuel).
Gas heating stoves and heaters.
Coal and wood cooking stoves and ranges.
Oil cooking stoves and ranges (including those using kerosene or gasoline as a fuel).
Gas cooking stoves and ranges.
Combination ranges (except those using electricity as one of the fuels).
Bungalow ranges (except those using electricity as one of the fuels).
Coal or wood laundry stoves (except those having a built-in water jacket or coils).
Conversion burners (to convert coal or wood ranges to use of kerosene or oil).
Kitchen heater ranges.
Oil table stoves.

This list is subject to change. In the future, authoritative information should be obtained by consulting OPA Ration Regulation 9A or a local War Ration Board. (Issued Sept. 25, 1943.)

PART 3292—AUTOMOTIVE VEHICLES, PARTS AND EQUIPMENT[2]

[Limitation Order L–1–e, as Amended January 4, 1944]

MOTOR TRUCKS AND TRUCK TRAILERS

Section 3292.1[2] *Limitation Order L–1–e* is hereby amended to read as follows:

The fulfillment of requirements for the defense of the United States having created a shortage in the supply of rubber, steel and other materials entering into the production of trucks, trailers, and passenger carriers for defense, for private account and for export, the following order is deemed necessary and appropriate in the public interest and to promote the national defense:

§ 3292.1 *Limitation Order L–1–e*—(a) *Definitions.* For the purposes of this order.

(1) "Motor truck" means a complete motor vehicle, or the chassis thereof, designed for operating entirely or in part on rubber tires for use either on or off the public highways in the military or commercial transportation of materials or persons, but does not include motorized fire equipment as defined in Limitation Order L–43 or passenger carriers as defined in Limitation Order L–101.

(2) "Truck-trailer" means a complete full trailer or semi-trailer, or the chassis thereof, designed for the transportation of materials or persons and to be drawn by a motor truck, but does not include integral trailer buses as defined in Limitation Order L–101.

(3) "Component" means any automotive type assembly, with the parts thereof, listed on Schedule A to this order as amended from time to time, whether to be incorporated into trucks, truck-trailers or other end products and includes military spares.

(4) "Producer" means any individual, partnership, association, corporation or other form of business enterprise engaged in the manufacture of motor trucks or trailers.

(5) "Supplier" means any individual, partnership, association, corporation or other form of business enterprise engaged in the manufacture of components.

(b) *Prohibition of production of motor trucks and trailers.* On and after January 1, 1944, no producer shall produce any motor trucks or truck-trailers either for military or non-military use, except as authorized in writing by the War Production Board.

(c) *Production to be scheduled.* The War Production Board will transmit to each producer an authorized motor vehicle production schedule on Form GA 1188, which schedule becomes a "frozen" schedule under Priorities Regulation 18. The producer must schedule his production and make his shipments so as to fill the frozen schedule without regard to preference ratings or directions of any governmental agency, other than the War Production Board. The War Production Board will as necessity arises issue specific directions to suppliers, directing the production of any component on Schedule A, both for original equipment and for replacement parts for civilian use, and establishing production and shipping schedules which will become frozen schedules under Priorities Regulation 18. *Provided,* That whenever any such specific direction is received by a supplier which would interfere with the production or shipment of previously accepted orders bearing AA–1 or higher preference ratings, or with a frozen schedule under Priorities Regulation No. 18, the supplier shall immediately notify the Automotive Division, War Production Board, in writing, and the specific direction shall not become effective pending instructions from the War Production Board. Any frozen schedule may be amended by the War Production Board in accordance with Priorities Regulation 18 or paragraph (g) of this order.

(d) *Protection of frozen schedules.* On and after January 4, 1944, except as permitted by the provisions of paragraph (b) of Priorities Regulation 18, no producer or supplier shall accept an order for any product the production of which will delay or interfere with his frozen schedule under this order.

(e) *No duplication of orders.* No producer or supplier shall place any order with one or more suppliers for a total quantity of any component on Schedule A in excess of his actual requirements of that component to fill his own production schedule.

(f) *Schedules to be filed when directed.* If no production schedule is supplied by the War Production Board as provided for in paragraph (c) above, producers when so directed by the War Production Board shall file schedules for the production and shipment of trucks and truck-trailers; and suppliers of components on Schedule A when so directed by the War Production Board shall file schedules for the production and shipment of such components, both for original equipment and for replacement parts for civilian use. In arranging the sequence of production and shipment on his schedule, the producer and the supplier shall be governed by Priorities Regulation 1, unless otherwise instructed. When the schedule has been filed it becomes a froz-

[2] Formerly Part 976, § 976.15.

en schedule under Priorities Regulation 13 and the producer or supplier shall schedule his production and make his shipments so as to fill the frozen schedule, without regard to preference ratings or directions of any governmental agency except the War Production Board.

(g) *Other scheduling provisions.* With respect to production or shipping of motor trucks, truck-trailers or components on Schedule A, both for original equipment and for replacement parts for civilian use, the War Production Board may, notwithstanding any other order, preference rating, directive, rule or regulation (except Priorities Regulation 13) of the War Production Board, or other governmental agency:

(1) Revoke or modify any authorization provided for in paragraph (b) of this order.
(2) Direct the return or cancellation of any purchase order on the books of a producer or supplier.
(3) Direct changes in the production or shipping schedule of a producer or supplier.
(4) Cancel purchase orders placed with one producer or supplier and direct that they be placed with another producer or supplier.

(h) *Preference rating of AA-1 assigned.* Producers of motor trucks and truck trailers and suppliers of components on Schedule A produced on frozen schedules under the terms of this order, are assigned a rating of AA-1 for materials entering into the production of motor trucks, truck-trailers and components on Schedule A.

(i) *Vehicles for civilian use to be subject to Conservation Order M-100.* All trucks and truck-trailers produced under the terms of this Order, except those produced on orders for the United States Army or Navy, will be subject to the rationing procedures of Conservation Order M-100.

(j) *Reports.* Producers of trucks and trailers and suppliers of components on Schedule A shall file such reports as may be required from time to time by the War Production Board.

(k) *Applicability of War Production Board Regulations.* This order and all transactions affected thereby are subject to all applicable provisions of the regulations of the War Production Board as amended from time to time except where otherwise stated.

(l) *Violations.* Any person who wilfully violates any provision of this order, or who, in connection with this order, wilfully conceals a material fact or furnishes false information to any department or agency of the United States, is guilty of a crime, and upon conviction may be punished by fine or imprisonment. In addition, any such person may be prohibited from making or obtaining further deliveries of, or from processing or using, materials under priority control and may be deprived of priorities assistance.

(m) *Appeals.* Any appeal from the provisions of this order shall be made by filing a letter in triplicate with the Field Office of the War Production Board nearest the appellant's place of business, referring to the particular provision appealed from and stating fully the grounds for appeal.

(n) *Communications.* All communications concerning this order shall, unless otherwise directed, be addressed to: War Production Board, Automotive Division, Washington 25, D. C., Ref.: Order L-1-E.

PART 1161—OIL BURNERS

[Limitation Order L-74, as Amended Jan. 4, 1944]

§ 1161.1 *General Limitation Order L-74*—(a) *Definitions.* For the purpose of this order:

(1) "Oil burner" means any devise which is designed for burning fuel oil for furnishing heat. It includes, but is not limited to the following types:

(i) Mechanical, steam or air atomizer oil burner.
(ii) Vertical or horizontal rotary oil burner.
(iii) Mechanical vaporizing oil burner.
(iv) Pot type vaporizing oil burner.

It shall include any oil burner for any boiler burner unit or for any furnace burner unit, any oil burner used as part of any water heater and any combination oil and gas burner, but does not include any oil burner used as a part of any domestic cooking appliance or of any domestic heating stove as defined in L-23-c, or any oil burner used in connection with any locomotive scheduled under L-97, or any oil burner used as a part of any commercial cooking and food and plate warming equipment as defined in L-182.

(2) "Class A oil burner" means any oil burner which is designed by the producer or approved by the Underwriters Laboratory to burn No. 5, No. 6 or heavier fuel oil, or which regardless of what grade fuel oil it burns, is designed or manufactured specifically for shipboard use or for heat processing.

(3) "Class B oil burner" means any oil burner which is designed by the producer or approved by the Underwriters Laboratory to burn No. 1 (except a Class C oil burner), No. 2, No. 3, or No. 4 fuel oil, but does not include any oil burner designed or manufactured specifically for shipboard use or for heat processing.

(4) "Class C oil burner" means any pot type vaporizing oil burner which is designed by the producer or approved by the Underwriters Laboratory to burn No. 1 fuel oil, but does not include any oil burner designed or manufactured specifically for shipboard use or for heat processing.

(5) "Fuel oil" means any liquid petroleum product commonly known as fuel oil, including Numbers 1, 2, 3, 4, 5, and 6, bunker C, diesel oil, kerosene, range oil, gas oil, or any other liquid petroleum product used for the same purposes as the above designated grades.

(6) "Replacement" means replacement of any oil burner by another oil burner.

(7) "New installation" includes an oil burner installed in a new heating plant or an oil burner installed as a conversion from any other fuel.

(8) "Producer" means any person who manufactures, fabricates or assembles oil burners.

(b) *Restrictions on producers of Class B oil burners.* No producer shall manufacture or assemble a Class B oil burner or deliver such a burner either assembled or in sets of parts except to fill an order already received, which has been approved on Form WPB-2727. He may produce or assemble such burners only to the extent necessary to fill orders on hand which he cannot fill from his inventory of completely assembled burners. Any person who wants to buy a Class B oil burner from a producer should file Form WPB-2727 in triplicate with the War Production Board, Plumbing and Heating Division, Washington 25, D. C.

(c) *Restrictions on delivery of Class B oil burners for installation; restrictions on installation.* No dealer or distributor may deliver a Class B oil burner for installation, either assembled or in sets of parts, and no person may install a Class B oil burner, except as follows:

(1) *Replacement.* A dealer may deliver any Class B oil burner from his stock for installation as a replacement, and the installation may be made, if the owner of the premises has applied for and obtained the approval of the appropriate War Production Board District office on Form WPB 1319. The dealer may deliver and the installation may be made without advanced approval from any source, if the burner to be replaced is over ten years old, or has actually broken down and is beyond repair during the season in which it is in use. No installation may be made for replacement unless the installer arranges to have the old burner scrapped or dismantled, but this requirement does not mean that the installer is entitled to take the old burner without the owner's consent or without crediting him with its value.

(2) *New installations.* Any person may deliver a Class B burner from a dealer's inventory for a new installation if the Petroleum Administration for War has specifically approved in writing the delivery of fuel oil for a Class B oil burner on the premises in question.[1] The authorization of a local War Price and Rationing Board to accept delivery of fuel oil will not be sufficient.

(3) *Food processing installations.* Any person may deliver a Class B burner from a dealer's inventory for use in raising and preparing crops, poultry, livestock and other agricultural products for market.

(4) *Burners assembled in other products.* If the War Production Board has approved the delivery of a Class B oil burner on Form WPB-2727 for physical incorporation in or assembly with another product, such as a water heater, further authority is not required for delivery of the other product, but the restrictions of L-79 (prohibiting delivery except to fill a rated order) must be complied with.

(5) *Sales to dealers.* Any dealer or distributor may sell or deliver any Class B oil burner to another dealer or distributor for resale.

(6) *Oversea shipment.* Any person may deliver a Class B burner to fill a rated order for shipment to a foreign country or a territory or overseas possession of the United States.

(d) *Restrictions on sale of Class A and Class C oil burners.* On and after January 4, 1944, Class A and Class C oil burners may be delivered only on orders bearing a preference rating of AA-5 or higher. In case of a new installation in the continental United States, application for preference rating must be accompanied by copy of authorization from the Petroleum Administration for War.[2]

(e) *General exception.* Regardless of the terms of this order, any Class B oil burner (as defined by this order as in force prior to June 28, 1943) authorized under an appeal from L-74 as in force prior to June 28, 1943, may be manufactured, fabricated, assembled and delivered.

NOTE: Paragraphs (f), (g) and (h), formerly (h), (i) and (j), redesignated Jan. 4, 1944.

(f) *Appeals.* Any appeals from the provisions of this order shall be filed on Form WPB-1477, formerly PD-500, with the field office of the War Production Board for the district in which is located the plant or branch of the appellant to which the appeal relates.

(g) *Communications.* All communications concerning this order shall, unless otherwise directed, be addressed to the War Production Board, Plumbing and Heating Division, Washington, D. C., Ref: L-74.

(h) *Violations.* Any person who wilfully violates any provision of this order, or who, in connection with this order, wilfully conceals a material fact or furnishes false information to any department or agency of the United States is guilty of a crime, and upon conviction may be punished by fine or imprisonment. In addition, any such person may be prohibited from making or obtaining further deliveries of, or from processing or using material under priority control and may be deprived of priorities assistance.

(i) *Bureau of the Budget.* The Bureau of the Budget has approved the use of Forms WPB-1319 and WPB-2727, and other reporting requirements of this order, in accordance with the Federal Reports Act of 1942.

5. Section 1 is amended to read as follows:

SECTION 1. *What this regulation does.* This regulation fixes dollar-and-cents ceiling prices on all retail sales of fresh and processed pork cuts, and on all retail sales of the following sausage products: fresh and smoked pork sausage and breakfast sausage, frankfurters, bologna, Lebanon bologna, all beef knackwurst and all beef salami, loaves, Braunschweiger, fresh and smoked liver sausage, liver cheese, liver pudding, New England, minced luncheon, Berliner or Berlin, and Polish sausage. The United States is divided into zones by this regulation and different ceiling prices are fixed for sales made in each zone and for sales made by different groups of retail stores. Your ceiling prices depend on the zone where your store is and its group and on the type and casing, wrapper or container of the sausage product you are selling. A store includes any place where pork cuts or sausage products subject to this regulation are sold at retail.

6. Section 2 (a) is amended to read as follows:

(a) You will find your ceiling prices for pork cuts on your "OPA list of retail ceiling prices for pork cuts" (Article III, section 19) and for sausage products subject to this regulation on your "OPA list of retail ceiling prices for sausage prod-

ucts covered by Maximum Price Regulation No. 336" (Article III, section 20). A copy of these lists for your zone and group will be attached to this regulation. A complete price list showing prices for both pork cuts and sausage products may be obtained from your local war price and rationing board or from your district office. (If you are a "Group 3 and 4" store, you should obtain your copy of the complete price list from your regional OPA office.)

7. Section 3 (b) is amended to read as follows:

(b) *Sausage products.* (1) On September 8, 1943, the dollar-and-cents ceiling prices fixed by this regulation take the place of all previous ceiling prices fixed by the Office of Price Administration upon retail sales of the following sausage products: fresh and smoked pork sausage and breakfast sausage, frankfurters, bologna other than Lebanon, all beef knackwurst and all beef salami. On and after September 8, 1943, you must not sell any such sausage product at a price higher than the ceiling price fixed by this regulation.

(2) On January 8, 1944, the dollar-and-cents ceiling prices fixed by this regulation take the place of all previous ceiling prices fixed by the Office of Price Administration upon retail sales of the following sausage products: Lebanon bologna, loaves, Braunschweiger, fresh and smoked liver sausage, liver cheese, liver pudding, New England, minced luncheon, Berliner or Berlin and Polish sausage. On and after January 8, 1944, you must not sell any such sausage product at a price higher than the ceiling price fixed by this regulation.

8. Section 4 is amended to read as follows:

SEC. 4. *What pork products and sausage products you may sell.* (a) On and after January 8, 1944, the only pork products and sausage products you may sell are (1) those fresh, frozen or processed pork cuts which are given dollar-and-cents ceiling prices under this regulation; (2) the following sausage products which are given dollar-and-cents ceiling prices under this regulation: fresh and smoked pork sausage and breakfast sausage, frankfurters, bologna, Lebanon bologna, all beef knackwurst and all beef salami, loaves, Braunschweiger, fresh and smoked liver sausage, liver cheese, liver pudding, New England, minced luncheon, Berliner or Berlin and Polish sausage; (3) canned pork products for which your ceiling prices are fixed by Maximum Price Regulation No. 422 or Maximum Price Regulation No. 423; (4) pork variety meats or offal (including cutlets, brains, chitterlings, liver, kidneys, tongues, lips, snouts, ears, hearts, cheek and head meat, weasand meat and heads) for which your ceiling prices are fixed by Maximum Price Regulation No. 355; and (5) the following pork and sausage products for which your ceiling prices are to remain as fixed under the General Maximum Price Regulation: uncanned sausage products (described in section 1 (b) (1) of Maximum Price Regulation No. 389 (Ceiling Prices for Certain Sausage Items at Wholesale)) not covered by Maximum Price Regulation No. 336 and quick-frozen cuts which are sold and delivered to you in the individual packages in which you sell them.

(b) The pork cuts listed in the OPA list of retail ceiling prices for pork cuts are defined in Revised Maximum Price Regulation No. 148—Dressed Hogs and Wholesale Pork Cuts. If the Office of Price Administration allows any person to make a different cut, you will receive notice when you buy that cut of the ceiling price you may charge for it at retail.

(c) The sausage products listed in the OPA list of retail ceiling prices for sausage products covered by Maximum Price Regulation No. 336 are defined in Maximum Price Regulation No. 389—Ceiling Prices for Certain Sausage Items at Wholesale.

Any sausage made by you other than the sausage described in section 1 (b) of Maximum Price Regulation No. 389 must meet the requirements for one of the kinds and types of sausage for which prices are established by this Maximum Price Regulation No. 336. Any such sausage made by you must also comply with the labeling requirements of section 4 of Maximum Price Regulation No. 389.

9. Section 5 is amended to read as follows:

SEC. 5. *Sales to eating places.* Your ceiling prices for sales of pork cuts and sausage products covered by this regulation to hotels, restaurants, institutions and other eating places selling or furnishing meals are the ceiling prices fixed by Revised Maximum Price Regulation No. 148 for pork cuts and by Maximum Price Regulation No. 389 for sausage products. Nevertheless, you may, during any month, use the ceiling prices fixed by this regulation in selling to eating places if 80 percent or more of your total dollar sales of meat during the previous calendar month were retail sales to consumers, that is, to persons who buy the pork cuts or sausage products to be eaten by themselves or their families off of your premises.

10. Section 6 is amended to read as follows:

SEC. 6. *Post your ceiling prices.* Not later than June 21, 1943, you must post at your store your official OPA list of retail meat prices, showing ceiling prices for pork cuts and sausage products. You may use an exact copy of the OPA list as long as the printing is just as legible and at least as large. Put it on or at the counter of the meat department in your store in one or more places where your customers can easily see and read it. You must have at least one list posted for each 20 feet of meat counter space. You must get your official copies of the price lists for posting or copying from your war price and rationing board or from your district OPA office. You may, if you wish, underline on the lists you post, those pork cuts and sausage products which you carry. If you display any pork cut or sausage product, as in your show case, you must post on it your selling price for that cut or product.

11. The headnote of section 6a is amended to read "Descriptive labeling requirements."

12. Section 6a (a) is amended to read as follows:

(a) On and after November 1, 1943, fresh and smoked pork sausage and breakfast sausage, frankfurters, bologna, knackwurst, including all beef sausage other than Lebanon bologna, must bear a descriptive label in accordance with the provisions of this section. On and after February 26, 1944, Lebanon bologna, loaves, Braunschweiger, smoked and fresh liver sausage, liver cheese, liver pudding, New England, minced luncheon, Berliner or Berlin and Polish sausage must bear a descriptive label in accordance with the provisions of this section. A label satisfying the requirements of this section shall appear on each one and one-half pounds of frankfurters and pork or breakfast sausage stuffed in sheep or hog casings, and once on each piece of other sausage product stuffed in casings or packed in wrappers, including but not limited to pork sausage and breakfast sausage (other than that stuffed in sheep or hog casings), bologna, loaves, all beef sausage, New England, Berliner or Berlin, liver sausage and Polish sausage. The label may be a band or tag securely affixed to the sausage product or printed or stamped upon the outside of the casing or wrapper. A similar label also shall be stamped or printed upon the outside of the carton or other immediate container in which the sausage product is placed. Enamel display cases or trays are not immediate containers.

You may not have in your store refrigerator or cooler any sausage product subject to this regulation which has not been properly labeled, except fresh or smoked pork sausage and breakfast sausage, frankfurters, bologna or knackwurst, including all beef sausage other than Lebanon bologna, bought from a seller who has received from the Office of Price Administration written authorization, pursuant to section 4 (b) (4) (i) of Maximum Price Regulation No. 389, to sell such sausage products unlabeled, which authorization in no event may extend beyond December 31, 1943.

13. Section 6a (b) (1) is amended to read as follows:

(1) The name of the kind of sausage product as used in Maximum Price Regulation No. 389 (Ceiling Prices for Certain Sausage Items at Wholesale) and in addition, if the seller desires, a trade name, provided it does not include the name of some other kind of sausage product priced under this regulation.

14. Section 6a (b) (3) is amended to read as follows:

(3) Whatever of the following letters or words are appropriate to show the kind of casing used: H. C. for hog casing; S. C. for sheep casing; B. C. for beef casing; A. C. for artificial casing, except that no such designation is required for an artificial casing on which is printed the casing manufacturer's name or trade-mark; skinless, where artificial casings have been removed by the manufacturer. Where the same price applies to the sausage product in each kind of natural casing, the letters N. C., indicating natural casing, may be used. The label need not contain a designation of the kind of casing used where the same price applies to the sausage product no matter what kind of casing, carton or wrapper is used.

15. Sections 6a (c) and (e) are hereby revoked and section 6a (d) is redesignated section 6a (c).

16. Redesignated section 6a (c) is amended to read as follows:

(c) The label must be left on the sausage product which you buy. Different types of the same kind of sausage product must not be put together in the show case. Sausage products which are alike, except for the kind of casing, container or wrapper used which affects the price, must not be put together in the show case.

17. Section 7 is amended to read as follows:

SEC. 7. *Records, sales slips and receipts.* After June 21, 1943, you shall keep the same kind of records you have customarily kept, showing the prices you charge for pork cuts and sausage products. You shall show the records to any representative of the Office of Price Administration upon request. If you have customarily given a customer a sales slip, receipt or similar evidence of purchase, you shall continue to do so. Furthermore, regardless of your previous custom, you shall, upon request by any customer, give a receipt showing the date, your name and address, the name and weight of each pork cut sold, the name, type, weight, and casing, container or wrapper identification of each sausage product sold, and the price you received for the pork cut or sausage product.

18. Section 9 is amended to read as follows:

SEC. 9. *Indirect price increases.* The price limitations set forth in this regulation shall not be evaded directly or indirectly by you; and you shall not require the purchaser to buy at any price other food products as a condition of selling pork cuts or sausage products.

19. Section 10 is amended to read as follows:

SEC. 10. *Prohibitions.* On and after April 1, 1943, the date this regulation takes effect, if you sell or deliver any pork cut or sausage product at a higher price than your ceiling price, or if you otherwise violate any provision of this regulation, you are subject to the criminal penalties, civil enforcement actions, license suspension proceedings, and suits for treble damages provided for by the Emergency Price Control Act of 1942, as amended. Also, any person, who in the course of trade or business buys from you at a price higher than your ceiling price, is subject to the criminal penalties and civil enforcement actions provided for by that act.

20. The headnote of section 17 is amended to read "Description of zones for pork cuts."

21. The headnote and first paragraph of section 17a are amended to read as follows:

SEC. 17a. *Description of zones for sausage products.* The zones for the sausage products covered by this regulation are the same as those for pork cuts except for the following zones which take the place of "Zones 8 and 9 South" and "Zones 8 and 9 North."

22. Section 20 is amended to read as follows:

SEC. 20. *OPA list of retail ceiling prices for sausage products covered by Maximum Price Regulation No. 336.*

PART 1418—TERRITORIES AND POSSESSIONS

[MPR 373,[1] Amdt. 30]

MAXIMUM PRICES IN THE TERRITORY OF HAWAII

A statement of the considerations involved in the issuance of this amendment, issued simultaneously herewith, has been filed with the Division of the Federal Register.*

Maximum Price Regulation 373 is amended in the following respects:

1. Section 14 is hereby deleted.

2. Section 41, Table XXVIII is amended to read as follows:

SEC. 41. *Table XXVIII: Maximum prices at retail for certain grocery items*—(a) *Records and reports.* Notwithstanding the provisions of section 11 of this Maximum Price Regulation 373, every person making sales of the commodities subject to this section 41 shall on and after the date any such commodity becomes subject to this regulation:

(1) Keep for inspection by the Office of Price Administration for a period of not less than one year, complete and accurate records of each purchase made by the seller, the date thereof, the name and address of the person selling to the seller, the direct cost thereof, the price paid, the quantity purchased, and

(2) Keep a "price book" and enter therein, in the case of commodities for which the maximum prices are calculated by a division or multiplication factor (not the commodities for which dollar and cent prices are specified), the net cost, the number of retail units in the customary wholesale unit (e. g. 48 cans to a case); every step in the calculation, including the division or multiplication factor used, and the resulting maximum price per retail unit. In addition to the matters set forth above, multiple outlet retail stores shall enter the quantity purchased in the price book where the ceiling price is computed on a weighted average basis. Such price book shall be available for inspection by the Office of Price Administration, or any consumer.

(b) *Prices to be marked and posted.* On and after the date any commodity becomes subject to this section 41 every person offering to sell any such commodity shall:

(1) Mark the maximum price of such commodity in a manner plainly visible

*Copies may be obtained from the Office of Price Administration.

[1] 8 F.R. 10503, 12712, 14012.

[2] 8 F.R. 3057, 4851, 6181, 9023, 12934.

[1] 8 F.R. 14812, 15368, 15489, 15524, 15594, 15662.

[1] 8 F.R. 5388, 6359, 6849, 7200, 7457, 8064, 8550, 10270, 10666, 10984, 11247, 11437, 11849, 12299, 12703, 13023, 13342, 13500, 14139.

to, and understandable by, the purchasing public. The maximum price may be marked on the commodity itself or on the shelf, bin, rack, or other holder or container upon or in which the commodity is kept, or it may be posted at the place in the business establishment where the commodity is offered for sale: *Provided*, That whichever of the above methods of posting is adopted, the maximum price of each commodity offered for sale shall be plainly visible to the purchaser at the place in the business establishment where the commodity is offered for sale, and shall not be obscured by the posted prices of other commodities, whether by use of price books or catalogs or layers of price lists or otherwise or in any other manner. The maximum price shall be stated as follows: "Ceiling Price $------"; or "Our Ceiling $------".

(2) Post in a place and manner easily accessible to and understandable by the purchasing public the price posters issued by this office, which will contain the maximum prices fixed by this regulation, wherever the sales of 50% of a retail outlet or any department thereof are priced in accordance with this regulation.

(c) *Sales slips and receipts.* Every seller of the commodities subject to this section 41, who has customarily given purchasers sales slips or receipts, shall continue to do so. Upon request from a purchaser, every such seller, regardless of previous custom, shall give the purchaser a receipt showing the date, the name and address of the seller, the commodity sold and the price received for it.

(d) *Maximum prices.* The maximum prices for the grocery items covered by this section are set forth in Tables A, B, C, D, E and F following paragraph (f) of this section. These grocery items are divided into categories. In each category maximum dollar and cents prices may be specified for certain named items. The maximum prices for all other items in each category shall be computed by dividing or multiplying (as the case may be) net cost of the item by the division factor or the multiplication factor specified in the particular category. Where delivery of an item is received at a net cost different from that of an identical item already on hand, the retailer with multiple outlets may use as his net cost for the entire inventory a weighted average net cost of the inventory on hand. Stores which do not possess multiple outlets must price each delivery separately and market the various lots on a first in first out basis. Sellers in no event may resort to pricing by means of a multiplication or division factor where a dollar and cent price is specified: *Provided, however*, That a peddler purchasing from a second wholesaler in the Territory of Hawaii (who has determined his maximum price under the provisions of section 41a (c) (5) of this Maximum Price Regulation 373) shall determine his maximum retail prices for commodities thus purchased as follows: If a minimum price for the commodity purchased is listed in dollars and cents in this section, such price is the peddler's maximum price; if the maximum price for the commodity is to be determined by means of a division or multiplication factor, said factor shall be applied to the maximum price of the primary wholesaler (from whom the second wholesaler purchased) rather than to the actual price paid by the peddler to the second wholesaler. (Second wholesalers are required by the provisions of section 41a (c) (5) of this Maximum Price Regulation 373 to furnish the peddler with a statement of the maximum price of the primary wholesaler.)

(1) *Example of use of division factor.* Assume the net cost for a case of 24 cans of Brand X is $2.64 and the division factor is .76. Dividing $2.64 by .76 yields $3.385. Dividing this figure by 24 yields 14.1 cents per can. Adjusting this figure to the nearest cent, in accordance with MPR 373, section 7, results in a maximum price of 14 cents per can.

(2) *Example of use of multiplication factor.* Assume the net cost for a case of 24 cans of Brand Y is $3.78 and the multiplication factor is 1.2. Multiplying $3.78 by 1.2 yields $4.536. Dividing this figure by 24 yields 18.9 cents per can. Adjusting this figure to the nearest cent, in accordance with MPR 373, section 7, results in a maximum price of 19 cents per can.

(e) *"Net cost" and certain transportation allowances.*—(1) *Local purchases.*—(i) *"Net cost".* In the event an item is purchased from a supplier on the same Island "net cost" means the amount paid by the retailer as shown on the invoice of his supplier, less all discounts except the discount for prompt payment. *Provided*, That, in no event may this "net cost" exceed the maximum wholesale price of the seller of the commodity according to the provisions of section 41a of this Maximum Price Regulation No. 373.

(ii) *Transportation allowances.* When a retailer located in Zones 2 and 3 of any Island, as defined by Tables B and C of this section 41 purchases any item from a wholesaler located on the same Island but outside of Zones 2 or 3, he may add the actual cost of transportation from the wholesale warehouse to his place of business incurred by him to his invoice cost to obtain his "net cost." This "net cost" may then be divided by the appropriate division factor.

(2) *Inter-island purchases.*—(i) *"Net cost".* In the event an item is purchased by a retailer from a producer, retailer, or wholesaler located on another island in the Territory of Hawaii, "net cost" means the amount paid by the retailer as shown on the invoice of his supplier, less all discounts except the discount for prompt payment. *Provided*, That in no event may this "net cost" exceed the maximum wholesale price of the commodity in the island of origin according to the provisions of section 41a of this Maximum Price Regulation No. 373.

(ii) *Transportation allowances.* After computing his maximum price on the basis of "net cost" as defined above, the retailer importing from another island may increase his maximum price by adding thereto all actual costs necessary to place the article at the shipping terminal of the island of destination, and if the retailer is located in Zones 2 or 3 of the Islands of Maui and Hawaii he may add also the actual transportation cost from the terminal to his place of business; and if the retailer is located outside of Zones 2 or 3 of the Islands of Maui and Hawaii as above defined, he may add also a local trucking charge as actually incurred but in no event to exceed $1.20 per ton by weight or measurement at the option of the retailer.

(3) *Mainland purchases.*—(i) *"Net cost".* In the event an item is imported by a retailer directly from the mainland, the "net cost" shall be the wholesale ceiling price in the island of destination computed according to the provisions of section 41a of this Maximum Price Regulation No. 373.

(ii) *Obligations of importing retailers.* Importing retailers shall be subject to all of the provisions of section 41a with respect to imports from the mainland. An importing retailer is a retailer who purchases grocery items directly from a supplier located outside of the Territory of Hawaii. If any such retailer elects not to take the mark-up, provided by said section 41a, he shall be exempt from the obligations imposed by said section 41a, and he shall determine his "costs", upon which the retail mark-up is taken, as the sum of the costs named as elements of "landed cost" in section 41a (c) (1) (i) through (vi) of this Maximum Price Regulation 373, with the exception of the trucking allowance therein provided. In lieu of such trucking allowance, he may, at his option, add instead, as one of his costs, his actual expense for such cartage from the dock to his place of business.

(d) In all cases where a specific dollar and cent ceiling price is not provided for any grocery item covered by this schedule, the ceiling price shall be computed by means of the multiplication or division factors set forth in Table A, and the "net cost", as defined in paragraph (e) of this section 41, except that:

(1) All stores in Zone 2 of the Island of Hawaii must use, in lieu of those set forth in Table A, a division factor .02 higher than those set forth; and in lieu of a multiplication factor of 1.2, a division factor of .85 shall be used. Zone 2 on the Island of Hawaii shall comprise the districts of North Hilo, Hamakua and Kau, as defined by Hawaiian Statute.

this Table and the "net cost" as defined in paragraph (e) of this section 41. This maximum price may be increased by the addition of such transportation allowances as are permitted by said paragraph (e). No commodity sold by the FSCC in the Island of Hawaii shall be regarded as an "import" regardless of its origin. Wherever a specific dollar and cent ceiling price is specified in Table A or in paragraph (b) of this Table on a FSCC item, such ceiling price shall be in effect on the Island of Hawaii.

(f) All retail grocery stores in Zones 2 or 3 of the Island of Hawaii may add 2 or 3% respectively to the maximum retail sales prices listed or computed in accordance with this Table. These additions must be made as a separate computation at the time of payment. PART 1364—FRESH, CURED AND CANNED MEAT AND FISH PRODUCTS

[MPR 364,[1] Amdt. 10]

FROZEN FISH AND SEAFOOD

A statement of the considerations involved in the issuance of this amendment has been issued simultaneously herewith and filed with the Division of the Federal Register.*

Maximum Price Regulation No. 364 is amended in the following respects:

1. Section 3 (c) is amended to read as follows:

(c) *Wholesaler's mark-up for different classes of sales.* Mark-up is the percentage over net cost set forth hereinafter for each class of wholesaler or the type of sale involved. To obtain the selling price, multiply the net cost by the percentage mark-up figure—the result added to the net cost is the selling price. The mark-up which applies in any particular sale depends on the class in which the wholesaler is and the kind of service performed in the particular sale. The classes, types of service, and mark-ups are set forth in the following paragraph (d). No wholesaler who purchases from and sells to other wholesalers may sell at a price higher than his seller's maximum price. In no event shall the price charged for a sale to a retail store or purveyor of meals include more than one primary wholesaler mark-up (regardless of whether that mark-up is taken pursuant to this section or section 2) and one retailer-owned cooperative or cash and carry or service and delivery wholesaler mark-up.

2. Section 3 (d) (1) is amended to read as follows:

(1) Primary wholesalers are wholesalers other than importers who buy frozen fish or seafood from processors or importers and distribute it for resale from cold storage warehouses to other wholesalers or to retailer-owned cooperative and chain store warehouses. In the sale of frozen fish or seafood which has been unloaded, stored and warehoused in the regular course of his business, the primary wholesaler's mark-up is 12%. In the case of sales of goods which have not been stored and warehoused, the primary wholesaler's mark-up is 7%. In the case of sales involving delivery from the processor's cold storage warehouse to the primary wholesaler's customer, there is no mark-up. In the case of sales of Atlantic Coast smelts to any wholesaler, the seller may take no mark-up over the base price listed in section 14.

3. Section 3 (e) is amended to read as follows:

(e) *Imported frozen fish and seafood.* The maximum price at which any importer may sell any imported frozen fish or seafood listed in section 14 to a person other than a retailer or purveyor of meals shall be the base price listed in section 14 for the species and style of dressing plus or minus the differential for packaging provided for in section 13, plus the actual freight to the importer's warehouse from the point at which the frozen fish or seafood enters the United States. If that freight is less than the carload rail freight rate from the shipping point in the United States closest to the foreign processor's plant to the importer's warehouse, the latter may be added in place of the actual freight. However, where frozen Atlantic Coast smelts are imported for resale in the United States, the freight from the point of shipment to the importer's warehouse, not to exceed the carload rail freight rate if such rate is available, may be added. The maximum price for sales by an importer who performs the function of a retailer-owned cooperative wholesaler, cash and carry wholesaler or service and

CINCINNATI, NEW ORLEANS AND TEXAS PACIFIC RAILWAY CO.

REROUTING OF TRAFFIC

At a session of the Interstate Commerce Commission, Division 3, held at its office in Washington, D. C., on the 3d day of January, A. D. 1944.

It appearing, that due to a derailment and partial bridge destruction on The Cincinnati, New Orleans and Texas Pacific Railway Company that carrier by railroad is unable to transport the traffic offered to it; in the opinion of the Commission an emergency exists requiring immediate action to best promote the service in the interest of the public and the commerce of the people, *It is ordered,* That:

(a) *Derailment and partial bridge destruction—rerouting of freight traffic.* The Cincinnati, New Orleans and Texas Pacific Railway Company is hereby directed to forward freight traffic routed over its lines by routes most available to expedite its movement and prevent congestion without regard to the routing thereof made by shippers and by carriers from which the traffic is received, or to the ownership of cars, and that all rules, regulations, and practices of said carriers with respect to car service are hereby suspended and superseded only as conflicting with the directions hereby made: *Provided,* That the billing covering all cars rerouted shall carry a reference to this order as authority for the rerouting.

(b) *Rates to be applied.* Inasmuch as the routing of traffic pursuant to this order is deemed to me due to carriers' disability, the rates applicable to traffic routed pursuant to this order shall be the same as would have applied had the shipments moved as originally routed.

(c) *Divisions of rates.* In executing the orders and directions of the Commission provided for in this order, common carriers affected shall proceed, even though no division agreements are in effect, over the routes authorized; divisions shall be, during the time this order remains in force, voluntarily agreed upon by and between said carriers; and upon failure of said carriers to so agree, the divisions shall be hereinafter fixed by the Commission in accordance with pertinent authority conferred upon it by the Interstate Commerce Act. If division agreements now exist on the traffic affected, over the routes herein authorized, they shall not be changed or affected by this order. (40 Stat. 101, Secs. 402, 418, 41 Stat. 476, 485, Secs. 4, 10, 54, Stat. 901, 912; 49 U. S. C. 1 (10)-(17), 15 (4)).

It is further ordered, That this order shall become effective at 12:01 a. m. January 3, 1944; that copies of this order and direction shall be served upon The Cincinnati, New Orleans and Texas Pacific Railway Company and upon the Association of American Railroads, Car Service Division, as agent of the railroads subscribing to the car service and per diem agreement under the terms of that agreement; and notice of this order be given to the general public by depositing a copy in the office of the Secretary of the Commission at Washington, D. C., and by filing it with the Director, Division of the Federal Register.

By the Commission, division 3.

PART 1010—SUSPENSION ORDER

[Suspension Order S-474]

C. H. SIMPSON AND SON

Charles H. Simpson and Joseph A. Simpson are co-partners, doing business as C. H. Simpson and Son, with offices at 1819 Carey Avenue, Cheyenne, Wyoming. The business carried on by the firm is that of electrical contractors. Without authorization from the War Production Board, on or about April 23, 1943, C. H. Simpson and Son began construction of a store building or warehouse, in Cheyenne, Wyoming, at a cost of approximately $4,000.00. This was a violation of Conservation Order L-41. In connection with this construction, C. H. Simpson and Son improperly extended an AA-3 preference rating which the firm had received for government work, and thereby obtained over $400.00 worth of critical materials to go into this private project. This was a violation of Priorities Regulation No. 3. These violations were admitted by the respondents, and inasmuch as the firm knew that general construction work was restricted by Conservation Order L-41, and in view of the fact that the firm had done considerable work as electrical contractors on government projects which involved the use of the priorities system, the violations must be deemed to have been wilful.

In committing these violations, C. H. Simpson and Son have hampered and impeded the war effort of the United States by diverting scarce materials to uses not authorized by the War Production Board. In view of the foregoing; *it is hereby ordered*, That:

§ 1010.474 *Suspension Order No. S-474.* (a) Deliveries of material to Charles H. Simpson and Joseph A. Simpson, individually, or doing business as C. H. Simpson and Son or otherwise, their successors or assigns, shall not be accorded priority over deliveries under any other contract or order, except through the extension of preference ratings which were assigned to persons other than the respondent, pursuant to a PD-3-a certificate, or an order in the P-19 or P-55 series, or a CMPL-224 authorization, unless hereafter specifically authorized in writing by the War Production Board.

(b) No allocation or allotment shall be made to Charles H. Simpson and Joseph A. Simpson, individually, or doing business as C. H. Simpson and Son or otherwise, their successors or assigns, of any material or product, the supply or distribution of which is governed by any order or regulation of the War Production Board, unless such allocation or allotment is made in connection with one or more of the certificates, orders or authorizations referred to in paragraph (a) of this order, or unless otherwise hereafter specifically authorized in writing by the War Production Board.

(c) Nothing contained in this order shall be deemed to relieve Charles H. Simpson, Joseph A. Simpson or C. H. Simpson and Son, from any restriction, prohibition or provision contained in any other order or regulation of the War Production Board, except in so far as the same may be inconsistent with the provisions hereof.

(d) This order shall take effect on January 4, 1944, and shall expire on May 4, 1944.

Issued this 28th day of December 1943.

PART 3291—CONSUMERS DURABLE GOODS

[General Limitation Order L-140-b as Amended Jan. 1, 1944 [1]]

FLATWARE AND HOLLOW WARE

§ 3291.176 *General Limitation Order L-140-b*—(a) *Definitions.* For the purposes of this order:

(1) "Flatware" means knives, forks, spoons and similar implements used for eating or serving food at the table, which have metal blades, tines or bowls as well as handles made of metal. It does not include carving sets or articles of cutlery covered by Order L-140-a, or any order in the L-30 series.

(2) "Hollow ware" means all articles commonly known as hollow ware in the trade, including but not limited to, metal table ware used for serving foods and beverages and ornamental ware, whether plated or unplated. For example, it includes coffee and teapots, and sets; sugar and cream containers and sets; berry sets, vegetable dishes and servers, gravy boats or bowls and trays, platters, trays of all types and pitchers; vases, bowls of all types, and frames for china, glass or oven-glass dishes of all types; trivets, cocktail shakers, glasses, sets and accessories; plain and vacuum lined ice containers; mustard pots and pepper and salt shakers and sets; candlesticks and candelabra. (3) "Manufacturer" means any person engaged in the business of fabricating, assembling or plating any flatware or hollow ware or any parts for such ware. A person who performs no operation except plating on another person's flatware or hollow ware is not a manufacturer.

(4) "Put into process" means to put metal into production for the first time, whether in the form of raw material or in purchased parts. It does not include buffing, wire wheel brushing, burnishing, lacquering or similar finishing of flatware or hollow ware, after plating.

(5) "Preferred order" means any purchase order, contract or subcontract for delivery to or for the account of the Army or Navy of the United States, the United States Maritime Commission or the War Shipping Administration. A purchase order placed with a manufacturer by a distributor or dealer to replace in inventory flatware or hollow ware sold on a preferred order, is also a preferred order. Orders from Post Exchanges, Ships' Service Stores, Officers' and Enlisted Men's Service Clubs on military or naval reservations are not preferred orders.

(6) "Distributor" means any person or firm other than a dealer engaged in the business of selling flatware or hollow ware not manufactured by that firm.

[1] This document is a restatement of Amendment 1 to L-140-b, which appeared in the FEDERAL REGISTER of January 4, 1944, page 78, and reflects the order in its completed form as of January 1, 1944.

(7) "Dealer" means any person who sells flatware or hollow ware at retail to members of the public for home use.

(8) "Type A flatware" means silver plated or chromium plated flatware produced on or after November 5, 1943, conforming to the specifications for Type A flatware on Table A of this order.

(9) "Type B flatware" means silver plated or chromium plated flatware produced on or after November 5, 1943, conforming to the specifications for Type B flatware on Table A of this order.

(10) "Alloy steel flatware" means graded or ungraded flatware produced from alloy steel conforming to the gauges for Type A or Type B flatware on Table A of this order.

(b) *Production and delivery of sterling silver flatware or hollow ware not restricted.* Nothing in this order restricts the production or delivery of sterling silver flatware or sterling silver hollow ware.

(c) *What flatware and hollow ware may be produced.* (1) No manufacturer shall produce any flatware except

(i) For preferred orders;

(ii) Flatware listed on Table A of this order, according to the specifications in that table;

(iii) Gold, silver, and sterling silver flatware;

(iv) Flatware produced from iron and steel in inventory or on order from the mill on November 5, 1943, if the plating specifications in Table A are followed.

(2) No manufacturer shall produce any hollow ware containing metal except

(i) For preferred orders;

(ii) Gold, silver and sterling silver;

(iii) Unalloyed iron or steel put into process before November 5, 1943, if no metal other than gold, silver and chromium is used for plating.

(d) *Production and delivery of flatware for preferred orders.* (1) On or after January 1, 1944, no manufacturer shall produce or deliver any flatware to fill preferred orders except in accordance with quotas specifically approved by the War Production Board on Form WPB-2719 (formerly PD-880).

(2) Each manufacturer must file this form with the War Production Board on or before the 15th day of November, February, May and August, according to instructions accompanying the form.

(e) *Production and delivery of flatware for other than preferred orders.* (1) During the period November 5, 1943, through December 31, 1943, no manufacturer shall put into process in the production of flatware for other than preferred orders in the aggregate more than 35% of the average quarterly amount of iron, steel and other metals in the aggregate used by him in the production of flatware during the period July 1, 1940, through June 30, 1941.

(2) On or after January 1, 1944, no manufacturer shall put into process in the production of flatware for other than preferred orders any iron, steel or alloy steel except in accordance with quotas specifically approved by the War Production Board on Form WPB-2719 (formerly PD-880). This does not apply to sterling silver flatware.

(3) Each manufacturer must file this form with the War Production Board on or before the 15th day of November, February, May, and August, according to instructions accompanying the form.

(f) *General statement of policy.* (1) It will be the general policy of the War Production Board to authorize the total production of flatware other than sterling silver flatware, for both preferred and other orders, according to approved requirements. Production which would exceed such approved requirements will not be authorized. Plants located in critical labor areas as classified by the War Manpower Commission will not be permitted to produce this flatware at a greater rate than their average production in the third and fourth calendar quarters of 1943. Production to meet the requirements determination will be allocated in less critical labor areas to the fullest extent of the available capacity.

The War Production Board will plan to divide total production of this flatware for other than preferred orders into 65% Type A flatware and alloy steel flatware and 35% Type B flatware, and will give notice to each manufacturer of the total and individual authorizations.

(2) The War Production Board will not assign preference ratings on flatware produced for other than preferred orders except on Form WPB-541 (formerly PD-1A) on orders for delivery to governmental agencies, hospitals, and educational and charitable institutions, providing that such flatware is distributed with due regard to established trade connections, needs of distributors or dealers whose usual supply has been cut off or diverted, and increased needs in certain areas. If flatware is not being distributed in this manner, ratings will be issued on WPB-547 (formerly PD-1X) or Form WPB-541 (formerly PD-1A) to take care of special cases.

(g) *Distribution of Type A flatware.* No manufacturer or distributor shall sell any Type A flatware, except

(1) Manufacturers may sell Type A flatware to fill preferred orders.

(2) Manufacturers and distributors may sell Type A flatware to hospitals, or institutions for the aged, sick or poor, prisons, educational institutions, orphanages, hotels, restaurants, canteens, clubs, cafeterias, lunch rooms, lunch counters, and similar eating places including those operated by common carriers.

(3) Manufacturers and distributors may sell Type A flatware to distributors or for export.

(4) Manufacturers and distributors may sell Type A flatware to Post Exchanges, Ships' Service Stores, Officers' and Enlisted Men's Service Clubs on military or naval reservations for use on the premises but not for resale by them.

(5) Distributors may sell Type A flatware to fill preferred orders only if they receive permission from the War Production Board in writing.

(h) *Distribution of Type B flatware.* No manufacturer or distributor shall sell any Type B flatware, except

(1) Manufacturers and distributors may sell Type B flatware to distributors, dealers for export, or direct to members of the public buying for home use.

(2) Manufacturers or distributors may sell Type B flatware to fill preferred orders only if they receive permission from the War Production Board in writing.

(i) *Distribution of alloy steel flatware.* No manufacturer or distributor shall sell any alloy steel flatware, except

(1) Manufacturers may sell alloy steel flatware to fill preferred orders.

(2) Manufacturers and distributors may sell alloy steel flatware to distributors or to the establishments and organizations enumerated in paragraph (g) (2).

(3) A manufacturer or distributor may not sell any alloy steel flatware for export.

(4) Distributors may sell alloy steel flatware to fill preferred orders only if they receive permission from the War Production Board in writing.

(j) *Special provisions concerning distribution of all flatware.* (1) No manufacturer or distributor shall sell any flatware produced after June 30, 1942 (except sterling silver flatware) for distribution free or for a nominal consideration in connection with advertising sales promotion or other similar plan.

(2) No manufacturer who has made flatware or hollow ware to fill a preferred order and cannot use it for that purpose because of overruns, rejects, cancellation of the order or any other reason shall sell it except to fill a preferred order unless he receives permission from the War Production Board on Form WPB-1319 (Formerly PD-556).

(3) No manufacturer intending to produce either Type A, Type B or alloy steel flatware for other than preferred orders, who because of some unexpected mechanical difficulty, produces flatware which does not conform to the specifications in Table A for Type A, Type B or alloy steel flatware, shall transfer or distribute such flatware, unless he receives permission of the War Production Board to make delivery after applying on Form WPB-1319 (formerly PD-556).

(k) *Repairs not limited by this order.* This order and Table A do not in any way limit the repair, plating or refinishing of used or shopworn flatware or hollow ware.

(l) *Reports.* On or before December 1, 1943, each manufacturer of flatware shall file by letter in duplicate with the War Production Board, Washington 25, D. C., Ref: L-140-b a report showing the total amount of all flatware, other than sterling silver flatware produced by him during the period January 1, 1943 through November 15, 1943, for both preferred and other orders, in dozens or gross. This report shall list knives separately from all other items of flatware. This reporting requirement has been approved by the Bureau of the Budget, in accordance with the Federal Reports Act of 1942.

(m) *Applicability of other orders and regulations.* This order and all transactions affected by this order are sub-

ject to the applicable regulations of the War Production Board. If any other order of the War Production Board limits the use of any material in the production of flatware and hollow ware to a greater extent than does this order, the other order shall govern unless it states otherwise.

(n) *Appeals.* Any appeal from this order should be made on Form WPB-1477 (formerly PD-500) and should be filed with the field office of the War Production Board for the district in which is located the plant to which the appeal relates.

(o) *Violations.* Any person who willfully violates any provision of this order or who, in connection with this order, willfully conceals a material fact or furnishes false information to any department or agency of the United States, is guilty of a crime, and upon conviction may be punished by fine or imprisonment. In addition, any such person may be prohibited from making or obtaining further deliveries of, or from processing or using, material under priority control and may be deprived of priorities assistance.

(p) *Communications.* All reports required to be filed hereunder and all communications concerning this order shall, unless otherwise directed, be addressed to the War Production Board, Consumers Durable Goods Division, Washington 25, D. C., Ref: L-140-b.

Issued this 1st day of January 1944.

(1) "Domestic sewing machine" means any sewing machine designed for household use.

(2) "Attachment" means any special purpose detachable device which is designed for use with a domestic sewing machine but which is not essential to the most simplified operation of such machine.

(3) "Sewing machine part" means any part (including, but not limited to, a needle, an electric motor, a cabinet, a portable base, a cover, a table or a stand) of a domestic sewing machine, but does not include an attachment.

(4) "Attachment part" means any part of an attachment.

(5) "Repair part" means any sewing machine part used for the purpose of repairing or replacing a similar part which through wear, tear or damage has caused a domestic sewing machine to become unfit to perform its function of sewing in the most simplified manner. Repair part shall not include any attachment part.

(6) "To produce a new domestic sewing machine" means to complete the manufacturing operations on a new domestic sewing machine other than the final assembly of the machine head into a cabinet, portable base and cover, or table and stand.

(7) "Manufacturer" means any person who produces any new domestic sewing machine or who manufactures or assembles any sewing machine part, attachment or attachment part.

(8) "Restricted period" means the period from April 25, 1942 to June 15, 1942, inclusive.

(9) "Average daily production" or "average daily manufacture" means the total production or manufacture within a specified period divided by the number of days (including Sundays and holidays) contained in such period.

(10) "Person" means any individual, partnership, association, business trust, corporation, governmental corporation or agency or any organized group of persons whether incorporated or not.

(b) *General restrictions.* (1) During the restricted period no manufacturer shall:

(i) Produce more new domestic sewing machines than 75% of his average daily production of such new machines in the year 1940 multiplied by the number of days (including Sundays and holidays) in the restricted period; or

(ii) Manufacture more new attachments of any type than 75% of his average daily manufacture of new attachments of such type in the year 1940 multiplied by the number of days (including Sundays and holidays) in the restricted period.

(2) No manufacturer shall manufacture any new sewing machine parts except that during the year 1944 a manufacturer may produce sewing machine parts for use as repair parts under the following conditions:

(i) He may put into process in the manufacture of needles not more iron and steel than 75% of the iron and steel, by weight, contained in the needles manufactured by him during the two-year period ending December 31, 1941;

(ii) He may put into process in the manufacture of sewing machine parts (other than needles) not more iron and steel than 62½% of the iron and steel, by weight, contained in the sewing machine parts (other than needles) manufactured by him for use as repair parts during the two-year period ending December 31, 1941; and

(iii) He may not put into process any non-ferrous metal except that copper and copper base alloy may be used for the purpose of conducting electricity, provided that he does not put into process more copper and copper base alloy than 50% of the amount of copper and copper base alloy, by weight, used for the purpose of conducting electricity in the sewing machine parts produced by him for use as repair parts during the two-year period ending December 31, 1941.

(3) No manufacturer shall on and after May 25, 1942, and no person other than a manufacturer shall on and after July 15, 1942, install any new sewing machine part, other than a repair part, in a new or used domestic sewing machine, except to complete the new domestic sewing machines, the production of which is permitted under the terms of paragraph (b) (1).

(4) On and after June 16, 1942, no manufacturer shall:

(i) Produce any new domestic sewing machines or (except as provided in paragraph (b) (5) of this order) assemble any new sewing machine parts for the production of such machines; or

(ii) Manufacture or assemble any new attachments or new attachment parts.

(5) Nothing in the foregoing provisions shall limit the final assembly by a manufacturer or any other person of a new domestic sewing machine head into a cabinet, portable base and cover, or table and stand: *Provided*, That such head, cabinet, base and cover, or table and stand were not produced or manufactured in violation of the terms of this or of any other order heretofore or hereafter issued by the Office of Production Management or the War Production Board.

(6) Manufacturers shall sell materials in their inventory only in accordance with the provisions of Priorities Regulation No. 13 (Part 944) and all other applicable orders and regulations.

(1) Any domestic sewing machines except in accordance with a letter of authorization from the War Production Board to be issued prior to June 14, 1943, which letter will permit the transfer without restriction of all domestic sewing machines other than those specified in paragraph (c) (2) below.

(2) Any domestic sewing machines which are required by the Army or Navy of the United States, the War Shipping Administration, the United States Maritime Commission or for lend-lease and export purposes. The domestic sewing machines not released by the letter of authorization referred to in paragraph (c) (1) above are to be held for transfer to the persons or for the purposes specified in this paragraph (2). In order to obtain a release for any of such domestic sewing machines, a specific authorization of the War Production Board is required on Form WPB-1319 (formerly Form PD-556) pursuant to an application filed on said Form. In completing Form PD-556 manufacturers are to supply all information requested in section I. Under section II fill in (a) and (e). Do not fill in (b), (c), (d) and (f). Under Section III fill in only (1) (B) and (5). Disregard (1) (A), (2), (3), (4), (6), (7) and (8).

(d) *Inventory restrictions.* No manufacturer shall accumulate for use in the manufacture of domestic sewing machines, attachments, or parts thereof inventories of raw materials, semi-processed materials, or finished parts in quantities in excess of the minimum amount necessary to maintain production of domestic sewing machines, attachments, or parts thereof at the rates permitted by this order.

(e) *Records.* All persons affected by this order shall keep and preserve for not less than two years accurate and complete records concerning inventories, production and sales.

(f) *Audit and inspection.* All records required to be kept by this order shall, upon request, be submitted to audit and inspection by duly authorized representatives of the War Production Board.

(g) *Reports.* Each manufacturer to whom this order applies shall file with the War Production Board such reports and questionnaires as such board shall from time to time prescribe.

(h) *Violations.* Any person who willfully violates any provision of this order, or who, in connection with this order, willfully conceals a material fact or furnishes false information to any department or agency of the United States, is guilty of a crime, and upon conviction may be punished by fine or imprisonment. In addition, any such person may be prohibited from making or obtaining further deliveries of or from processing or using material under priority control and may be deprived of priorities assistance.

(i) *Appeals.* Any appeal from the provisions of this order shall be filed on Form PD-500 with the field office of the War Production Board for the district in which is located the plant or branch of the appellant to which the appeal relates.

(j) *Applicability of other orders.* In so far as any other order heretofore or hereafter issued by the Office of Production Management or the War Production Board limits the use of any material in the production of domestic sewing machines, attachments, sewing machine parts or attachment parts to a greater extent than the limits imposed by this order, the restrictions in such other order shall govern unless otherwise specified therein.

(k) *Applicability of priorities regulations.* This order and all transactions affected thereby are subject to all applicable provisions of the priorities regulations of the War Production Board, as amended from time to time.

(l) *Communications.* All reports required to be filed hereunder and all communications concerning this order shall, unless otherwise directed, be addressed to the War Production Board, Consumer Durable Goods Division, Washington, D. C., Ref.: L-98.

PART 955—REGULATIONS APPLICABLE TO THE OPERATION OF THE PRIORITIES SYSTEM

[Priorities Reg. 7, Interpretation 1]

PREFERENCE RATING MUST BE FURNISHED BY THE BUYER

The following interpretation is issued with respect to Priorities Reg. 7:

Paragraph (f) of Priorities Regulation No. 7, which permits a seller to waive the buyer's certification where he knows the facts, does not allow the seller to rate an order which the buyer has not attempted to rate. If the buyer has stated the rating on the order but has not certified it, the seller may add the appropriate certification; and if the buyer has not shown the rating on the order, but has otherwise informed the seller that he wishes to apply or extend the rating, the seller may also insert it on the order.

Issued this 5th day of January 1944.

PART 3287—GOVERNMENT SERVICES[1]

[Preference Rating Order P-141, as Amended Jan. 6, 1944]

PUBLIC SANITARY SEWERAGE FACILITIES—MAINTENANCE, REPAIR AND OPERATING SUPPLIES

§ 3287.26[1] *Preference Rating Order P-141*—(a) *Definitions.* For the purpose of this order:

(1) "Operator" means any individual, partnership, association, corporation, governmental corporation or agency, or any organized group of persons, whether incorporated or not, located in the United States, its territories, or possessions, engaged in or constructing facilities for the purpose of engaging in, the operation of a public sanitary sewerage system or a public sanitary sewerage system combined with a storm sewerage system, whether or not such operator has applied the preference ratings herein assigned.

(2) "Controlled material" means steel—both carbon (including wrought iron) and alloy—copper (including copper base alloys) and aluminum, in each case only in the forms and shapes indicated in Schedule I of CMP Regulation No. 1.

(3) "Material" means any commodity, equipment, accessory, part, assembly or product of any kind.

(4) "Maintenance" means the minimum upkeep necessary to continue an operator's property and equipment in sound working condition.

(5) "Repair" means the restoration of an operator's property and equipment to sound working condition after wear and tear, damage, destruction of parts or the like, have made such property or equipment unfit or unsafe for service.

(6) "Operating supplies" means:

(i) Material which is essential to the operation of the system specified in paragraph (a) (1) and which is generally charged to operating expense account.

(ii) Material for an addition to or an expansion of sewerage system or works, other than buildings, provided that such an addition or expansion shall not include any work order, job, or project, in which the cost of material shall exceed $1,500 in the case of underground sewer or pipeline addition or extension, and $500 in the case of any other addition or expansion and provided that no single construction project shall be subdivided into parts in order to come below these limits.

(7) Material for "maintenance", "repair" and "operating supplies" includes any material which is essential to minimum service standards, and does not include material for the improvement of an operator's property or equipment through the replacement of material which is still usable.

(8) "Supplier" means any person with whom a purchase order or contract has been placed for delivery of material to an operator, or to another supplier.

(9) "Calendar quarterly period" means the several three months of the year commencing January 1, April 1, July 1, and October 1, or the operator's customary accounting period closest to such period.

(10) "Inventory" means all new or salvaged material in the operator's possession, unless physically incorporated in plant, without regard to its accounting classification, excluding, however, material which is segregated for use in additions and expansions specifically authorized under paragraph (g) (2) of this order or by an operative preference rating order or certificate issued by the War Production Board.

(b) *Preference ratings.* A preference rating of AA-1 is hereby assigned to orders to be placed by an operator for material to be used for maintenance or repair, and for operating supplies.

NOTE: Paragraph (2) deleted Jan. 5, 1944.

(c) *Controlled materials*—(1) *Steel and copper.* Subject to the quantity restrictions contained in paragraph (f) of this order, any operator requiring delivery of any controlled material, except aluminum, for maintenance, repair or operating supplies, may obtain the same by placing on his delivery order the certification required in paragraph (e) (1) (i) hereof. An order bearing such certification shall constitute an authorized controlled material order.

(2) *Aluminum.* (i) Any operator requiring aluminum in any of the forms or shapes constituting a controlled material, for essential maintenance, repair or operating supplies, where the use of other materials for the purpose is impracticable, may obtain the same from a controlled materials producer or from a distributor specifically authorized by the War Production Board to engage in the business of receiving aluminum for sale or resale, in an amount not to exceed 100 pounds from all sources during any one calendar quarterly period by placing on his delivery order the certification required in paragraph (e) (1) (i) hereof. An order bearing such certification shall constitute an authorized controlled material order.

(ii) Any operator who requires aluminum in any of the forms or shapes constituting a controlled material, in amounts aggregating more than 100 pounds from all sources during any one calendar quarterly period for use as essential maintenance, repair or operating supplies where the use of other material for such purpose is not practicable, may apply for an allotment of the amount thereof in excess of 100 pounds during any one calendar quarterly period by letter addressed to the Aluminum and Magnesium Division, War Production Board, Washington 25, D. C., Ref: P-141. The letter should contain substantially the information called for by paragraphs (d) (1) to (6) of Supplementary Order M-1-i, as amended March 10, 1943. If the application is granted, the applicant will receive an allotment number or symbol and may place an authorized controlled material order by endorsing an order with such allotment number or symbol and the certification prescribed in paragraph (e) (1) (i) hereof.

(d) *Restrictions on use of symbol and ratings.* (1) The allotment symbol and preference ratings hereby assigned shall not be used by an operator or supplier to obtain deliveries of scarce material, the use of which could be eliminated without serious loss of efficiency by substitution of less scarce material or by change of design.

(2) The preference ratings assigned by paragraph (b) hereof for maintenance, repair and operating supplies shall not be used to obtain any item included in Lists A or B of Priorities Regulation No. 3.

(e) *Application and extension of ratings; application of CMP allotment symbol*—(1) *Certification.* The AA-1 rating assigned by paragraph (b) of this order and the CMP allotment symbol MRO-P-141 may be applied by an operator to deliveries of material for use in maintenance, or repair, or as operating supplies only by use of a certification in substantially the following form:

Preference Rating AA-1, CMP Allotment Symbol MRO-P-141. The undersigned purchaser certifies, subject to the penalties of Section 35 (A) of the United States Criminal Code, to the seller and to the War Production Board, that to the best of his knowledge and belief the undersigned is authorized under applicable War Production Board regulations or orders to place this delivery order, to receive the item(s) ordered for the purpose for which ordered, and to use any preference rating or allotment number or symbol which the undersigned has placed on this order.

Name of operator

Signature of designated official

Such certification shall be signed manually or as provided in Priorities Regulation No. 7.

NOTE: Paragraph (2), formerly (3), redesignated Jan. 5, 1944.

(2) The ratings assigned by this order may be extended by a supplier in the manner provided in Priorities Regulation No. 3, and CMP Regulation No. 3.

(f) *Restrictions on deliveries, inventory and withdrawals*—(1) *Deliveries and withdrawals.* No operator shall, during any calendar quarterly period, accept delivery of any material or withdraw from inventory any material, to be used for maintenance or repair or as operating supplies or for any other purpose (except material to be segregated for use in extensions specifically authorized under paragraph (g) (2) of this order or by an operative preference rating order or certificate issued by the War Production Board), the aggregate dollar value of which shall exceed the aggregate dollar value of materials used for maintenance or repair or as operating supplies, during the corresponding calendar quarterly period of the year 1942, or at the operator's option, twenty-five per cent of the aggregate dollar value of materials used for said purpose during the operator's fiscal year ending closest to December 31, 1942.

(2) *Inventory.* No operator shall at any time, accept delivery of any material if the operator's inventory will, by virtue of such acceptance, be in excess of a practical working minimum.

(3) *Exceptions.* The provisions of paragraph (f) (1) of this order are subject to the following exceptions:

(i) An operator who, during the calendar year 1942 (or fiscal year ending closest to December 31, 1942), used for maintenance, repair, and as operating supplies, materials of the aggregate value of not exceeding $1,000 and whose estimated requirements for materials to be used for maintenance, repair and as operating supplies during any calendar year (or corresponding fiscal year) do not exceed $1,000 may, during such year, exceed the quantity restrictions prescribed by paragraph (f) (1) of this order. If the actual requirements of material for maintenance, repair and operating supplies for such year should prove to be in excess of $1,000, such operator shall not accept any deliveries of material or withdraw from inventory any material to be used for maintenance, repair or as operating supplies if such deliveries or withdrawals, when taken together with other deliveries or withdrawals within such year, would, in the aggregate, exceed $1,000. In such case the operator may apply for specific authorization to exceed such quantity restrictions pursuant to the provisions of paragraph (f) (4) hereof.

(ii) An operator may, in any calendar quarterly period, increase scheduled deliveries, and withdrawals of material required for maintenance or repair or as operating supplies over the limits prescribed in paragraph (f) (1) of this order, in proportion to the increase in the load on the system during the preceding calendar quarterly period of the year 1942 corresponding to the calendar quarterly period in question, determined by a measurement of the average daily flow for the two comparative periods: *Provided*, That in determining the average daily flow of sewage, any flow of surface storm water which enters the system shall not be taken into account.

(iii) An operator may, in any calendar quarterly period, accept deliveries of material or make withdrawals from inventory of material, necessary for the maintenance or repair of the operator's property or equipment which is damaged by acts of the public enemy, sabotage, explosion, or fire or by flood, storm or other similar climatic conditions: *Provided*, That if the restrictions of paragraph (f) (1) are exceeded because of such deliveries or use, a full report thereof shall be made within thirty days after such delivery or withdrawal, to the War Production Board.

(iv) An operator may, in any calendar quarterly period, accept delivery of material, having in the aggregate, a dollar value of not more than the dollar value of material of the same class taken from the operator's inventory for delivery to other persons authorized to accept delivery under applicable regulations of the War Production Board but only if, and to the extent that such taking has reduced the operator's inventory of material below a practical working minimum.

(v) An operator may, during any calendar year (or his fiscal year), withdraw from inventory, material, having in the aggregate, a dollar value of not more than the dollar value of usable material of the same class salvaged from plant during such year.

(vi) The provisions of paragraph (f) (1) and (f) (2) shall not apply to fuel or to chemicals for sewage treatment.

(4) The War Production Board, on its own initiative, or on application of any operator by letter, in triplicate, addressed to the Government Division, War Production Board, Washington 25, D. C., Ref: P-141, may modify the limitations on practical working minimum inventory, and on scheduling or accepting deliveries, or on use or withdrawals, set forth in this paragraph (f).

(g) *Restrictions on construction of sewerage facilities.* No operator shall construct any sewerage facilities, including but not limited to sewer pipelines, manhole structures, pumping stations, sewage disposal or treatment plants and connections, and no operator shall, in case of contract construction, accept deliveries of material for such purposes except as follows:

(1) An operator may construct an addition to or an expansion of, sewerage system or works, other than buildings: *Provided*, That such addition or expansion shall not include any work order, job or project in which the cost of material shall exceed $1,500 in the case of underground sewer pipeline addition or extension, and $500 in the case of any other addition or expansion: *And provided*, That no single construction project shall be subdivided into parts in order to come below these limits: *And further provided*, That in making house connections or extension of line to serve premises, no iron or steel pipe shall be used except the minimum quantities required in making necessary connections.

(2) An operator may construct an extension of sewerage facilities, other than buildings, to serve premises which are being built or remodeled under authority of any Preference Rating order of the P-55 series, a specific authorization issued pursuant to Conservation Order L-41 or pursuant to any Petroleum Administrative Order issued by the Petroleum Administrator for War if all of the following conditions are satisfied:

(i) The cost of material for such extension does not exceed $5,000 (but exceeds $1,500 in the case of underground sewer pipeline extension or $500 in the case of any other extension).

(ii) The extension does not duplicate an adequate service already installed.

(iii) No other operator can render the same service with lesser amounts of critical material.

(iv) The extension will not cause an overload on system including sewage disposal plants.

(v) The operator has completed Form WPB-3445 and delivered it to the builder of the premises to be served for attachment to the builder's application for L-41 approval. Preference ratings and allotment number to acquire material required for such extensions are assigned by paragraph (h) of this order.

(3) In addition to the authorization contained in paragraphs (g) (1) and (g) (2) an operator may construct sewage facilities of any kind if such construction is specifically authorized by the War Production Board. Application should be made on Form WPB-617 (formerly PD-200) or on such other form as may be prescribed. The following preference rating orders or certificates include permission for construction under this order although they do not say so: P-19-h, CMPL-127, CMPL-224. In all other cases a preference rating is not enough unless the instrument which assigns the rating also states that construction is permitted. However, any operator who prior to January 15, 1944, has been specifically authorized in writing by the War Production Board to use the lowest rating assigned to a rated project to obtain material to construct sewerage facilities to serve such project may use such rating to obtain material required for that purpose within the limits of said authorization.

(h) *Assignment of preference rating and CMP allotment symbol for extensions authorized under paragraph (g) (2).* (1) The preference rating AA-3 is hereby assigned to orders for material other than controlled material, and the abbreviated allotment number P-141-S2 is hereby assigned to orders for controlled material to be placed by an operator for use in the construction of extensions of facilities authorized by paragraph (g) (2) of this order or to replace in inventory material so used.

(2) The preference ratings and allotment number assigned by paragraph (h) (1) may be applied by an operator by using the certification provided in CMP Regulation No. 7. An order for controlled material bearing such certification and allotment number shall constitute a controlled material order.

NOTE: Paragraphs (i), (j), (k), (l), (m) and (n), formerly (h), (i), (j), (k), (l), and (m), redesignated Jan. 5, 1944.

(i) *Sales of material from inventory.* Any operator may sell to another operator, material from seller's inventory in excess of a practical minimum working inventory: *Provided*, That (1) a preference rating of AA-5 or higher assigned by this order or by any preference rating certificate, or (2) a specific direction issued by the War Production Board, is applied or extended to the operator selling such material.

(j) *Audits and reports.* (1) Each operator and each supplier who applies

[1] Formerly Part 3209, § 3209.1.

the preference ratings or allotment symbol hereby assigned, and each person who accepts a purchase order or contract for material to which a preference rating or symbol is applied, shall submit from time to time to an audit and inspection by duly authorized representatives of the War Production Board.

(2) Each operator and each such supplier shall execute and file with the War Production Board, such reports and questionnaires as said Board shall from time to time request, subject to approval by the Bureau of the Budget as required under the Federal Reports Act.

(3) Each operator shall maintain a continuing record of inventory and of segregated material in his possession and all material used by him for maintenance, repair or as operating supplies.

(k) *Communications to the War Production Board.* All reports required to be filed hereunder and all communications concerning this order shall, unless otherwise directed by the War Production Board be addressed to the War Production Board, Government Division, Washington 25, D. C., Ref: P-141.

(l) *Violations.* Any person who wilfully violates any provisions of this order or who, in connection with this order, wilfully conceals a material fact or furnishes false information to any department or agency of the United States, is guilty of a crime and, upon conviction, may be punished by fine or imprisonment. In addition, any such person may be prohibited from making or obtaining further deliveries of, or from processing or using material under priority control, and may be deprived of priorities assistance.

(m) *Revocation or amendment.* This order may be revoked or amended at any time as to any operator or any supplier. In the event or revocation, deliveries already rated pursuant to this order shall be completed in accordance with said rating, unless the rating has been specifically revoked with respect thereto. No additional applications of the ratings to any other deliveries shall thereafter be made by the operator or supplier affected by such revocation.

(n) *Applicability of regulations.* (1) Preference Rating Order P-141 is issued in lieu of Preference Rating Order P-46 in so far as it affects public sanitary sewerage systems as defined in paragraph (a) (1) hereof and any reference in any order or regulation of the War Production Board to said Preference Rating Order P-46 shall constitute a reference to orders in the P-141 series.

(2) This order and all transactions affected hereby, except as herein otherwise provided, are subject to all applicable regulations of the War Production Board as amended from time to time, *Provided*, That none of the provisions of CMP Regulations No. 5 or No. 5A shall apply to operators as defined in paragraph (a) (1) hereof, and no such operator shall obtain any material under the provisions of either of said regulations.

Issued this 5th day of January 1944.

PART 3302—SERVICE EQUIPMENT[1]

[General Limitation Order L-54-c, as Amended Jan. 5, 1944]

The fulfillment of requirements for the defense of the United States has created a shortage in the supply of certain materials used in the production of office machinery for defense, for private account and for export; and the following order is deemed necessary and appropriate in the public interest and to promote the national defense:

§ 3302.11[1] *General Limitation Order L-54-c*—(a) *Definitions.* For the purposes of this order:

(1) "Office machinery" means machinery, including attachments thereto, of the type included in Lists I, II and III attached to this order as they may be amended from time to time.

(2) "New" office machinery means office machinery which has not been delivered to any person acquiring it for use. The term shall not describe any machine which has been delivered for trial, loan, rental or demonstration at any time prior to March 14, 1942. "Used" office machinery means office machinery other than new office machinery.

(3) "Restricted office machinery" means:

(i) Any new office machinery included in List I.

NOTE: Subparagraph (3) (ii), formerly (3) (iii), redesignated Jan. 5, 1944.

(ii) Any used punched card tabulating machinery which is in, or which hereafter comes into, the possession of its manufacturer for any purpose other than mere repair or reconditioning, regardless of its age.

(4) "Manufacturer" means any person manufacturing new office machinery or sets of parts, to the extent that he is engaged in such manufacture, and shall include majority-owned sales, distribution, and manufacturing subsidiaries.

(5) "Dealer" means any wholesaler, retailer or other distributor of restricted office machinery other than a sales or distribution subsidiary of a manufacturer, and shall include any person, firm or corporation normally receiving restricted office machinery on consignment.

(6) "Delivery" means any physical transfer of restricted office machinery, and includes transfers for trial, loan, rental, demonstration or other use.

(7) "Army", "Navy" and "Maritime Commission" mean the War Department, the Navy Department, and the Maritime Commission, respectively, but shall not include any privately operated plant, shipyard, training school, or other enterprise controlled or financed by the Army, Navy, Maritime Commission, or any other agency of the United States Government, nor any plant or shipyard privately operated on a cost-plus-fixed-fee basis under the control or direction of the Army, Navy, Maritime Commission, or any other agency of the United States Government.

(8) "Lend-Lease purchaser" means any person requesting authorization to receive delivery of restricted office machinery for export to any country, the government of which is entitled to the benefits of the Act of March 11, 1941, entitled "An Act to Promote the Defense of the United States."

(9) "Sets of parts" means parts for office machinery produced at plants in the United States for shipment to foreign countries for assembly into new office machinery of the types included in List I.

(10) "Dollar value" means

(i) With respect to assembled new office machinery, the retail list price of such machinery to customers located in the United States;

(ii) With respect to sets of parts, the retail list price to customers located in the United States of the number of units of assembled machinery into which such sets of parts can be assembled.

(11) "Non-electric" machines are machines which are assembled without electric motors and which are not designed for the addition of electric motors at a future time.

(12) [Deleted Jan. 5, 1944]

(b) *Restrictions on production*—(1) *List I items.* A manufacturer may produce new office machinery included in List I, and sets of parts for export, only to fill orders approved by the War Production Board on Form WPB-1688 and Form WPB-2798 certificates, and also to maintain an inventory worth up to 20 per cent of the dollar value of similar machinery billed to customers and sets of parts exported during the calendar year 1941. This means that unless a manufacturer's inventory is below the 20 per cent figure he may not produce for inventory, even to replace what he has delivered from inventory to filled approved orders. Dollar value figures must be used in calculating production for inventory, unless the manufacturer has customarily leased his product instead of selling it. In that case, the manufacturer may base his production for inventory on the number of machines assembled and the number of sets of parts exported during 1941.

NOTE: Paragraphs (2), (4), (5) and (6), formerly (4), (5), (6) and (7); redesignated Jan. 5, 1944.

(2) *List II items.* No manufacturer shall fabricate, cause to be fabricated, or contract to purchase, parts for the assembly of any new office machinery included in List II and no manufacturer shall assemble any new office machinery included in List II.

(3) No manufacturer may buy any steel under paragraph (d) (4) of CMP Regulation No. 4 for use in the fabrication or assembly of new office machinery listed in List III.

(4) *Repair and service parts.* The restrictions upon the manufacturer of new office machinery contained in this paragraph (b) shall not apply to the manufacture of parts to be used to service or repair any kind of office machinery included in Lists I and II.

(5) *Discontinued new office machinery.* No manufacturer shall fabricate parts for any new office machinery or assemble any new office machinery of any kind which he has elected to deliver free of all restrictions pursuant to paragraph (g) of this order.

(6) *Special authorizations.* Notwithstanding the restrictions of paragraph (b) or paragraph (g) of this order, the War Production Board may from time to time in writing specifically authorize one or more manufacturers to fabricate, to cause to be fabricated, to contract to purchase, to assemble, or to manufacture in any manner, specified quantities of parts or machinery restricted by paragraph (b) or paragraph (g) or both.

(c) *Restrictions on delivery*—(1) *General restrictions.* Regardless of the terms of any contract of sale or purchase, or other commitment, or of any preference rating, or any preference rating order, no manufacturer or dealer shall deliver any restricted office machinery or sets of parts therefor (other than machines which may be delivered free of restrictions pursuant to an election under paragraph (g) of this order) except upon receipt of and pursuant to the terms of Form WPB-2798 (respecting deliveries to the Army, Navy or Maritime Commission or sets of parts for export) or Form WPB-1688 (respecting deliveries to all other persons) approved by the War Production Board.

(2) *Sequence of deliveries.* Except when specifically directed otherwise in writing by the War Production Board, the sequence of deliveries of machines authorized on Forms WPB-2798 and WPB-1688 shall be determined by the delivery dates specified on such forms. If a form specifies a delivery date prior to the date on which it is received by the supplier named therein, the form shall be treated by the supplier as calling for delivery on the day when it was received by him. If a supplier receives two or more forms specifying the same delivery date for identical machines, he shall make delivery of the machines in the order in which the forms were received by him.

(3) *Intracompany deliveries.* Without further authorization, a manufacturer may for the purpose of redelivery, but not for use, deliver restricted office machinery from one branch, division or section of his enterprise, including majority-owned sales, distribution and manufacturing subsidiaries, to another branch, division or section of the same enterprise, including majority-owned sales, distribution and manufacturing subsidiaries, except that he may not deliver to a subsidiary, branch, or other outlet located outside the United States, its territories, and possessions.

(4) *Delivery to dealers and returns to manufacturers.* Without further authorization, dealers may return restricted office machinery to any manufacturer willing to accept the same and manufacturers may accept all such restricted office machinery from dealers. Without further authorization, manufacturers or dealers may deliver restricted office machinery to dealers in the following instances only:

(i) To fill an order approved by the War Production Board on Form WPB-2798 or WPB-1688 already received by such dealer or to replace restricted office machinery delivered by such dealer from his inventory to fill an order approved by the War Production Board on any such form, *Provided*, That such dealer has furnished to the manufacturer or to the other dealer a photostat, or other certified copy, of the approved Form WPB-2798 or WPB-1688, as provided in Priorities Regulation No. 5.

(ii) To store or display such restricted office machinery on the dealer's premises in the United States, its territories and possessions, provided that the restricted office machinery so stored or displayed is in the absolute control and ownership of the manufacturer or delivering dealer and may be removed, transferred or shipped by such manufacturer or delivering dealer at any time in his discretion.

(5) *Deliveries under Utilities Order U-5.* The issuance of an authorization on Form WPB-2798 or on Form WPB-1688 to deliver a time stamp machine, a time recording machine, or collateral equipment shall constitute a preference rating of AA-5 or higher within the meaning of § 4504.1, Utilities Order U-5, for the particular items authorized to be delivered.

(6) *Special authorizations.* Notwithstanding the restrictions of paragraph (c) of this order, the War Production Board may from time to time in writing specifically authorize one or more manufacturers or dealers, or both, to deliver specified quantities of restricted office machinery.

(7) *Deliveries of non-electric machines by manufacturers.* Manufacturers may deliver non-electric adding machines and non-electric duplicating machines to the extent permitted by paragraphs (c) (1) to (c) (6) of this order, inclusive (e. g., to fill an Army, Navy or Maritime Commission order pursuant to the terms of an approved Form WPB-2798, or to fill an order for export pursuant to an approved Form WPB-1688). In addition, without further authorization, a manufacturer may deliver to purchasers within the United States, other than the Army, the Navy and the Maritime Commission, new assembled non-electric adding machines and new assembled non-electric duplicating machines worth not more than the applicable percentage of the same type of machines (both electric and non-electric) billed to his customers during the calendar year 1941. Any portion of this amount undelivered by the end of any quarter may be delivered free of restrictions during subsequent quarters to domestic purchasers, other than the agencies named, in addition to the percentage which the manufacturer is regularly entitled to deliver.

The percentage applicable to unrestricted deliveries of non-electric adding machines is in the first table. The percentages applicable to unrestricted deliveries of non-electric duplicating machines by manufacturers who make only non-electric duplicating machines are in the second table. The percentages applicable to unrestricted deliveries of non-electric duplicating machines by manufacturers who make both electric and non-electric duplicating machines are in the third table:

(8) *Deliveries of non-electric machines by dealers.* Dealers may deliver new non-electric adding machines and new non-electric duplicating machines to the extent permitted by paragraphs (c) (1) to (c) (6) of this order, inclusive (e. g., to fill an Army, Navy or Maritime Commission order pursuant to the terms of an approved Form WPB-2798, or to fill an order for export pursuant to an approved Form WPB-1688). In addition, without further authorization dealers may deliver new non-electric adding machines and new non-electric duplicating machines to purchasers within the United States, other than the Army, the Navy, and the Maritime Commission.

(d) *Special procedures and information.* (1) Private contractors engaged in construction work for the Army, Navy, Maritime Commission or Defense Plant Corporation, and private operators of any plant, shipyard, training school or other enterprise controlled or financed, on a cost-plus-fixed-fee basis or otherwise, by the Army, Navy, Maritime Commission or any other agency of the United States Government shall, when requesting restricted office machinery on Form WPB-1688, furnish a certification by the Government inspector assigned to the project (i) that no Government equipment is available for use in lieu of the equipment requested, (2) that the contractor or operator has no equipment available from any other source for use in lieu of the equipment requested, and (3) that the equipment requested is to be used exclusively by the contractor's or operator's private personnel for the duration of the project on work which

(e) *Sets of parts.* (1) No person shall deliver any sets of parts for export from the United States unless the War Production Board has authorized such delivery on Form WPB–2798. Application for authority to export sets of parts shall be made on Form WPB–2798 and shall indicate therein or by accompanying letter the number of units of new office machinery into which such sets of parts can be assembled, the model numbers of such machinery and the retail price of such machinery to customers located in the United States. Nothing in this order shall be construed to authorize any exportation without an export license.

(2) No manufacturer manufacturing and delivering sets of parts for export shall directly or indirectly import any new office machinery of the kind listed in List I, except by permission of the War Production Board in writing.

(f) *Reports.* Each manufacturer must send a monthly report to the War Production Board on Form WPB–1263. Separate reports must be made on this form with regard to non-electric adding machines and non-electric duplicating machines.

(g) *Election to cease manufacture and to deliver without restrictions.* Any manufacturer who prefers to cease manufacture of any particular kind, model or type of new office machinery and to obtain authorization to deliver his existing stock of such machinery free of the restrictions of this order, rather than to continue manufacture and delivery of such machinery subject to the terms of this order, may make application for authorization to make unrestricted delivery. Such application must set forth the kind, model or type of new office machinery to which the application relates, the model or style numbers of such machinery, the applicant's inventory of such machinery as of the date of the application and the total dollar value of such inventory. Such authorization shall extend to the manufacturer to whom it is addressed and to any dealer possessing stocks of such kind, model or type of machine; and such manufacturer shall notify his dealers of any authorization received under this paragraph.

Nothing in this paragraph (g) shall be construed to entitle any applicant to disregard any provisions of this order until specific authorization of the War Production Board in writing is received by such applicant and then only to the extent of, and subject to the conditions contained in, such authorization.

(h) *Bureau of the Budget approval.* Form WPB–2798, Form WPB–1688, Form WPB–1263 and the form of application for authorization to make unrestricted delivery of new office machinery contained in paragraph (g) have been approved by the Bureau of the Budget in accordance with the Federal Reports Act of 1942.

(i) *Violations.* Any person who wilfully violates any provision of this order, or who, in connection with this order, wilfully conceals a material fact or furnishes false information to any department or agency of the United States, is guilty of a crime, and upon conviction may be punished by fine or imprisonment. In addition, any such person may be prohibited from making or obtaining further deliveries of or from processing or using material under priority control and may be deprived of priorities assistance.

(j) *Appeals.* Any appeal from the provisions of this order shall be made by filing a letter in triplicate, referring to the particular provision appealed from and stating fully the grounds of the appeal.

(k) *Applicability of regulations.* This order and all transactions affected thereby are subject to all applicable regulations of the War Production Board, as amended from time to time.

(l) *Communications.* All communications concerning this order shall, unless otherwise directed, be addressed to the War Production Board, Service Equipment Division, Washington 25, D. C., Ref.: L–54–c.

INTERPRETATION 2

(1) An authorization to deliver restricted office machinery, issued on Form WPB–1688 or on Form WPB–2798, is not a preference rating certificate within the meaning of Interpretation No. 6 of Priorities Regulation No. 3. Accordingly, that interpretation is inapplicable to such authorizations.

(2) If permission to deliver office machinery is granted on Form WPB–2798 or on Form WPB–1688, the only person to whom the supplier may deliver the machinery is the applicant named in the form. Moreover, the supplier named in the form is the only manufacturer or dealer who is authorized to deliver the machinery to the applicant. However, other manufacturers and dealers may deliver the machinery described in the form to the supplier named in the form pursuant to paragraph (c) (4) (i) of Order L–54–c.

(3) Form WPB–1688 requires the applicant to state the "name of manufacturer" of the machinery to be delivered. This is an essential part of the description of the machinery which the War Production Board authorizes the supplier to deliver pursuant to paragraph (c) (1) of Order L–54–c. The supplier may not deliver to the applicant machinery produced by another manufacturer, even though his product is similar to the machinery produced by the manufacturer named in the form WPB–1688 approved by the War Production Board. Chapter XI—Office of Price Administration.

PART 1351—FOOD AND FOOD PRODUCTS

[RMPR 444]

COTTONSEED OIL MEAL, CAKE, SIZED CAKE AND PELLETS; COTTONSEED HULLS AND HULL BRAN; AND WHOLE PRESSED COTTONSEED

Maximum Price Regulation 444 is redesignated Revised Maximum Price Regulation 444 and is revised and amended to read as hereafter set forth.

In the judgment of the Price Administrator, the maximum prices established by this revised regulation are generally fair and equitable and comply with all provisions and will effectuate the purposes of the Emergency Price Control Act of 1942, as amended, and of E. O. 9250 and E. O. 9328.

Insofar as this revised regulation may use specifications and standards which were not, prior to such use, in general use in the trade or industry affected or insofar as their use was not lawfully required by another Government Agency, the Administrator has determined with respect to such standardization that no practical alternative exists for securing effective price control with respect to the commodities subject to this revised regulation.

A statement of the considerations involved in the issuance of this revised regulation, issued simultaneously herewith, has been filed with the Division of the Federal Register.*

§ 1351.364 *Maximum prices for cottonseed oil meal, cake, sized cake and pellets; cottonseed hulls and hull bran; and whole pressed cottonseed.* Under the authority vested in the Price Administrator by the Emergency Price Control Act of 1942, as amended, Executive Order 9250 and Executive Order 9328, Revised Maximum Price Regulation 444 (Cottonseed oil meal, cake, sized cake and pellets; cottonseed hulls and hull bran; and whole pressed cottonseed) which is annexed hereto and made a part hereof, is hereby issued.

AUTHORITY: § 1351.364 issued under 56 Stat. 23, 765; Pub. Law 151, 78th Cong.; E.O. 9250, 7 F.R. 7871; E.O. 9328, 8 F.R. 4681.

(a) $5.50 per ton (maximum markup) for sales of cottonseed oil meal, cake, sized cake, pellets or whole pressed cottonseed; and

(b) $4.00 per ton (maximum markup) for sales of cottonseed hulls or hull bran over the maximum price which he could lawfully have paid the processor, grinder, jobber or wholesaler for the quantity and quality purchased (from out of which lot the sale in question is made) delivered at his receiving point, in either case plus transportation charges actually incurred by the seller from his receiving point to his buyer's receiving point.

SEC. 13. *Maximum prices for sales of imported cottonseed oil meal, cake, sized cake or pellets or cottonseed hulls or hull bran or whole pressed cottonseed.* (a) The basic maximum price, f. o. b. the port of entry, for the sale (within the 48 states and the District of Columbia of the United States) of any imported cottonseed oil meal, cake, sized cake or pellets or cottonseed hulls shall be the maximum price for a like sale by a processor of a like quantity and quality of the domestic product produced at that domestic production plant located nearest the port of entry: *Provided,* That:

(1) If the port of entry is located in Oregon or Washington said maximum price for such sale thereof shall be the maximum price for a sale by a processor of a like quantity and quality of the domestic product f. o. b. production plant at San Francisco, California; or

(2) If the port of entry is not located in a state specifically named in section 4 (a) hereof or in Oregon or Washington said basic maximum price for such sales thereof shall be the maximum price for a like sale by a processor of a like quantity and quality of the domestic product f. o. b. production plant at Memphis, Tennessee.

(b) Jobbers, wholesalers and retailers making sales (within the 48 states and the District of Columbia of the United States) of any such imported products shall add their respective permitted markups as provided as to domestic products over the maximum price of the imported products as provided in paragraph (a) of this section.

(c) A mixed feed manufacturer in determining his maximum prices under Maximum Price Regulation 378 on his mixed feed for animals and poultry shall calculate his "cost" of any such imported products at the maximum price thereof as above provided if he purchased the same within the 48 states and the District of Columbia of the United States; and if he did not, then at the maximum price thereof as specified in paragraph (a) of this section.

SEC. 14. *Maximum prices in other cases.* (a) The maximum price for the sale of any cottonseed oil meal, cake, sized cake or pellets or cottonseed hulls or hull bran or whole pressed cottonseed by any other person of a class of seller not hereinbefore specifically provided for shall be the maximum price which the person from whom he purchased could lawfully have charged for a like sale.

(b) Notwithstanding any other provision of this regulation, sales between persons of one of the classes of sellers hereinbefore specifically provided for shall be permissible: *Provided,* That no such sales, nor sales to a person of a different class, shall be at a higher price than the maximum price hereinbefore specifically prescribed for said class of sellers.

SEC. 15. *Increases for sacks.* When any seller has bulk domestic or imported cottonseed oil meal, cake, sized cake or pellets or cottonseed hulls or hull bran or whole pressed cottonseed and desires to sell the same sacked, the foregoing maximum prices where determined on a bulk basis shall be increased at the following rates per ton:

(a) For sales of cottonseed oil meal, cake, sized cake or pellets or whole pressed cottonseed:

(1) In seller's sacks, the reasonable market value of the sacks, not exceeding any maximum price thereon at the time of the sale or delivery: *Provided,* That if the sacks were purchased from the buyer by the seller, the seller shall not charge more than the price he paid for such sacks.

(2) In buyer's new or recleaned sacks, $0.50.

(3) In buyer's sacks of any other kind, $1.00.

(b) For sales of cottonseed hulls and hull bran:

(1) In seller's sacks, the reasonable value of the sacks not exceeding any maximum price thereon plus 75 cents per ton for sacking at the time of the sale or delivery.

SEC. 16. *Sales of cottonseed oil meal, cake, sized cake or pellets or whole pressed cottonseed on basis of guaranteed minimum percentage of protein and adjustment for deficiencies.* (a) No person shall sell any domestic or imported cottonseed oil meal, cake, sized cake or pellets or whole pressed cottonseed except on the basis of a specified guaranteed minimum percentage of protein therein.

(b) If an actual analysis of any lot of domestic or imported cottonseed oil meal, cake, sized cake or pellets or whole pressed cottonseed differs from the guaranteed minimum percentage of protein therein then:

(1) If above said guaranteed minimum percentage of protein, no increase in the maximum price is permitted.

(2) If below said guaranteed minimum percentage of protein, the deficiency shall be adjusted and settled in accordance with the applicable rules of the National Cottonseed Crushers Association and the resulting figure is the adjusted maximum price thereof.

SEC. 17. *Maximum prices for export sales.* The maximum prices for export sales of cottonseed oil meal, cake, sized cake, or pellets or cottonseed hulls or hull bran or whole pressed cottonseed shall be determined in accordance with the provisions of the Second Revised Maximum Export Price Regulation.[1]

SEC. 18. *Adjustable pricing.* Any person may agree to sell at a price which can be increased up to the maximum price in effect at the time of delivery but no person may, unless authorized by the Office of Price Administration, deliver or agree to deliver at prices to be adjusted upward in accordance with action taken by the Office of Price Administration after delivery. Such authorization may be given when a request for a change in the applicable maximum price is pending, but only if the authorization is necessary to promote distribution or production and if it will not interfere with the purposes of the Emergency Price Control Act of 1942, as amended. The authorization may be given by the Administrator or by any official of the Office of Price Administration to whom the authority to grant such authorization has been delegated. The authorization will be given by order, except that it may be given by letter or telegram when the contemplated revision will be the granting of an individual application for adjustment.

SEC. 19. *Evasion.* The provisions of this regulation shall not be evaded whether by direct or indirect methods in connection with any offer, solicitation, agreement, sale, delivery, purchase or receipt of any commodity covered by this regulation alone or in connection with any other commodity or by way of commission, service, transportation or other charge, or discount, premium or other privilege or by tying-agreement or other trade understanding or otherwise.

SEC. 20. *Records and reports.* (a) Every seller subject to this regulation shall keep for inspection by the Office of Price Administration for so long as the Emergency Price Control Act of 1942, as amended, remains in effect his customary records including, if any, all bills, invoices and other documents relating to every sale or delivery of cottonseed oil meal, cake, sized cake, or pellets or cottonseed hulls or hull bran or whole pressed cottonseed after the effective date of this regulation.

(b) Upon demand every such seller shall submit such records to the Office of Price Administration and keep such further records as the Office of Price Administration may from time to time require.[2]

SEC. 21. *Enforcement.* Persons violating any provision of this regulation are subject to the license revocation or suspension provisions, civil enforcement actions, suits for treble damages, and criminal penalties as provided in the Emergency Price Control Act of 1942, as amended.

PART 1381—SOFTWOOD LUMBER

[MPR 94,[1] Amdt. 10]

WESTERN PINE AND ASSOCIATED SPECIES OF LUMBER

A statement of the considerations involved in the issuance of this amendment, issued simultaneously herewith, has been filed with the Division of the Federal Register.*

Maximum Price Regulation No. 94 is amended in the following respects:

1. In § 1381.501, paragraph (c) is deleted.

2. In § 1381.504, paragraph (b) is deleted, together with the phrase "including imports" in the section heading.

3. Section 1381.522 is amended to read as follows:

§ 1381.522 *Appendix J: Maximum prices for lumber produced in the "fringe area" and Canada and Mexico.* (a) For lumber produced in the fringe area, in Canada, or in Mexico (except as covered by paragraph (c) of this section), which is separated as to species and sold on grade, the maximum prices shall be delivered prices consisting of the f. o. b. mill prices set forth in the appropriate price tables plus an amount equal to estimated railroad freight charges based on estimated weights from Appendix K times the carload rate from the appropriate basing-point shown below to destination. ("Destination" means the final point to which the lumber moves in "direct-mill shipment" as defined in § 1381.502 (a) (1)). The basing points are:

(1) *Fringe area.* (South Dakota, Wyoming, Colorado, Utah, Nevada, Arizona, New Mexico, and that part of California within or south of the counties of Monterey, San Benito, Fresno, Madera, and Inyo):

Spokane, Washington; Klamath Falls, Oregon; or Susanville, California—whichever produces the lowest rate to destination.

(2) *Canada:* Spokane, Washington.

(3) *Mexico:* Susanville, California.

(b) Since the maximum prices established by paragraph (a) of this Section are delivered prices, no transportation additions other than "basing-point" freight to destination are permitted, and § 1381.504 does not apply. In every case the maximum price must finally be determined according to paragraph (a) above as a delivered price at final destination. As to pricing "f. o. b. mill", note the following examples—(1) In a sale to a distribution yard at the mill's shipping point, since shipping point and final destination are the same, the addition for basing-point freight may be made even though the sale has all the usual characteristics of a sale "f. o. b. mill". (2) If a wholesaler should buy "f. o. b. mill" and sell the lumber for direct-mill shipment, his maximum price is the price at final destination established under paragraph (a), and therefore the f. o. b. mill price which he pays would be less than the price receivable by the mill in example (1), depending upon the difference between the through rate from basing-point to destination and the combination of locals from basing point to mill and mill to destination.

(c) *Government purchase; Mexican pine lumber.* The maximum price for lumber produced in Mexico and imported for the account of or for direct sale to a United States Government agency or to a government contractor to whom such lumber has been allocated by C. P. A., shall be a price f. o. b. the port of entry consisting of the maximum f. o. b. mill price set forth in the appropriate price tables plus estimated railroad freight charges from Susanville, California to the port of entry, computed on the carload rate and using estimated weights given in Appendix K. Additions for further transportation beyond the port of entry may be made in accordance with § 1381.504.

This amendment shall become effective January 10, 1944.

PART 1401—SYNTHETIC TEXTILE PRODUCTS

[2d Rev. MPR 339]

WOMEN'S RAYON HOSIERY

Revised Maximum Price Regulation 339 is redesignated Second Revised Maximum Price Regulation 339 and is revised and amended to read as follows:

A statement of the considerations involved in the issuance of this Second Revised Maximum Price Regulation 339 has been issued simultaneously herewith and filed with the Division of the Federal Register.* In the judgment of the Price Administrator, the maximum prices established by this regulation are and will be generally fair and equitable and will effectuate the purposes of the Emergency Price Control Act of 1942. SECTION 1. *Ceiling prices fixed by this regulation.* This regulation fixes ceiling prices for all sales of women's rayon hosiery in the finished state or in the greige.

(a) *Finished women's rayon hosiery.* The ceiling prices for sales at retail, sales at wholesale and sales by manufacturers of finished women's rayon hosiery are set forth below in Tables I, II and III of Appendix B. Table I applies to full-fashioned hosiery. Table II applies to circular knit hosiery. Table III applies to certain special constructions.

As used in this regulation, finished women's rayon hosiery includes women's and misses' full length hosiery of less than 45 inches in length, the leg of which is made in whole or in part of rayon. It does not include hosiery in which the leg is made of rayon in combination with silk, wool or nylon.

(b) *Women's rayon hosiery in the greige.* The ceiling prices for any sale of women's rayon hosiery in the greige are fixed at $1.25 per dozen less than the manufacturers' ceiling prices for first quality finished unbranded women's hosiery as set forth in Appendix B.

As used in this regulation, women's rayon hosiery in the greige include the same kind of hosiery described in paragraph (a) except that they are in the greige rather than the finished state.

SEC. 2. *Types of sales.*—(a) *Sales at retail.* A sale at retail is a sale to an ultimate consumer. Also, sales to industrial, commercial or institutional users are sales at retail if made by a person who sells principally at retail. If not made by such a person, then they are either sales at wholesale or sales by manufacturers.

(1) *"Chain stores."* Certain sellers at retail are classified as "chain stores." As used in this regulation a chain store means a group of five or more commonly owned or controlled retail stores which, as a group, had in any calendar year since 1938 an "average percentage of initial markup" of 34% or less on women's full length hosiery. To determine this markup the chain must (i) compute the total of the initial retail prices at which all purchases of this hosiery were marked during a given year, (ii) compute the total of all invoice charges on purchases of the hosiery during the same year (figured after all discount deductions and including all transportation costs), (iii) subtract the total secured in (ii) from the total secured in (i) and (iv) divide the remainder by the total obtained in (i).

(2) *"Mail order houses".* A mail order house is an establishment selling at retail which makes offerings through catalogs or written price lists, receives orders and delivers by mail and which in any calendar year since 1938 had an average percentage of initial markup of 34% or less on women's full length hosiery. "Average percentage of initial markup" shall be computed in accordance with the provision of subparagraph (1) of this paragraph.

(b) *Sales at wholesale.* (1) A "sale at wholesale" is the sale in any quantity by an establishment which

(i) Is engaged in the business of selling women's hosiery to retailers generally, at least 50% of sales being out-of-stock (as opposed to drop shipments), and

(ii) Regularly carries representative stocks of women's hosiery belonging to it in its own place of business, and

(iii) Buys the hosiery (finished or in the greige) forming the subject of such sale after it has been knitted and assembled, and

(iv) Sells the hosiery which forms the subject of such sale to any one other than an ultimate consumer, and

(v) Continuously since January 1, 1942 has represented itself as a wholesaler, and has not represented itself as a manufacturer, and has been generally known only as a wholesaler, and not in any way known as a manufacturer, and has done business as such separately and apart from any establishment where rayon hosiery is manufactured.

(2) Where an establishment qualifies to make sales at wholesale under the foregoing definition, but directly or indirectly owns, controls, conducts or manages the business of a manufacturer or is directly or indirectly owned, controlled, conducted or managed by a manufacturer or by a person who owns, controls, conducts or manages the business of a manufacturer, it may not sell in any calendar year at ceilings for sales at wholesale, a greater proportion of such manufacturer's production than it sold in the year 1942.

*Copies may be obtained from the Office of Price Administration.

[2] 7 F.R. 8961; 8 F.R. 3313, 3533, 6178.

[3] 8 F.R. 14663, 14815, 15585, 16032, 16208, 16427.

[3] 8 F.R. 14676, 14814, 15581, 16032, 16207, 16427.

(3) Any establishment which entered the business of selling women's hosiery after January 1, 1942, which satisfies the first four subdivisions of this paragraph (b) (1) and which does not directly or indirectly own, control, conduct or manage the business of a manufacturer and which is not directly or indirectly owned, controlled, conducted or managed by a manufacturer or by a person owning, controlling, conducting or managing the business of a manufacturer, which represents itself and is generally known only as a wholesaler and is not in any way known as a manufacturer and which does business as such separately and apart from any establishment where rayon hosiery is manufactured, must make sales at ceilings no higher than for sales by manufacturers until it has sent by registered mail to the Office of Price Administration, Washington 25, D. C., a written notice which must state the seller's name and address, information showing it is qualified to make sales at wholesale under the provisions of this subparagraph (3), and its relationship or affiliation, if any, to any person engaged in the sale of hosiery. Such establishment may not make any sales at ceilings higher than for sales by manufacturers after a change in any of the qualifying conditions specified in this paragraph.

(c) *Sales by manufacturers.* "Sales by manufacturers" include any sale by a "manufacturer" as defined as follows: A "manufacturer" is a person who knits, sews or assembles rayon hosiery or for whom rayon hosiery is sewn, knit or assembled from yarn or other materials which he supplied, purchased or furnished. All sales which do not qualify as sales at wholesale or sales at retail take the ceiling prices for sales by manufacturers.

SEC. 3. *Branded full-fashioned hosiery*—(a) *Two kinds of mill prices.* Two sets of ceiling prices are fixed for sales of full-fashioned hosiery by manufacturers. One set applies to sales of "branded hosiery" (as defined below). Another set applies to sales of unbranded hosiery (that is, hosiery which does not meet the definition of "branded").

(b) *Definition of branded hosiery.* For the purpose of this regulation women's full-fashioned rayon hosiery is branded if it meets all of the following conditions:

(1) It is first quality hosiery delivered by a manufacturer directly to retail establishments under the manufacturer's trade name or trademark, and sold by the retailer to the consumer under such trade name or trademark; and

(2) The trade name or trademark under which the hosiery is known was regularly advertised by the manufacturer in either the year 1941 or 1942 in the consumer press or by some form of advertising directed to the ultimate consumer other than by advertising matter accompanying the hosiery itself; and

(3) It is delivered by a manufacturer who in each of the years 1941, 1942 and 1943 has regularly serviced retail outlets out of finished stock owned and kept on hand by the manufacturer for that purpose.

(c) *Limitation on amount of "branded" hosiery to be sold.* No manufacturer shall deliver branded rayon hosiery in any calendar-quarter year at prices above those specified for unbranded rayon hosiery in Appendix B to a greater percentage of his total sales in dozens of pairs than his "branded percentage." A manufacturer's "branded percentage" is the percentage that his deliveries of women's branded full length hosiery of all fibres bore to his total deliveries of women's full length hosiery of all fibres both finished and in the greige for the year 1941. The ceiling price for all sales in excess of the "branded percentage" is the ceiling price for unbranded hosiery.

On or before April 20, 1944 and on or before the 20th day of each July, October, January and April thereafter, every manufacturer who has delivered branded women's rayon hosiery in the previous calendar-quarter year shall file with the Consumer Goods Price Division, Office of Price Administration, Washington 25, D. C., a signed statement showing his total volume delivered (by dozens of pairs) of women's rayon hosiery for the previous calendar-quarter year, and his total volume delivered (by dozens of pairs) of branded women's rayon hosiery broken down by the brands.

(d) *Report which must be filed before selling "branded" hosiery.* Before commencing to sell any hosiery as branded hosiery, a manufacturer must complete and file with the Consumer Goods Price Division of the Office of Price Administration, Washington 25, D. C., a signed statement showing:

(1) The total number of dozen pairs of women's full length hosiery of all types which he delivered in the year 1941.

(2) The trade names and trademarks owned and used by him in each of the years 1941, 1942 and 1943 on first quality women's full length hosiery of all fibres which he delivered directly to retail establishments serviced out of his own finished stock kept on hand for that purpose.

(3) The number of dozen pairs delivered in the manner described in subparagraph (2) of this paragraph must be separately stated for each brand and the total of brands delivered in this way must be stated for each of the years 1941, 1942 and 1943.

(4) An exact statement showing dates and media of advertisements for each brand since January 1, 1941. Advertising directed to ultimate consumers (not to the trade) paid for in whole or in part by the manufacturer should be reported. Not more than ten advertisements per annum need be reported for any one brand.

(5) The amount of the "branded percentage" as defined in paragraph (c) of this section.

SEC. 4. *Maximum prices by special application*—(a) *Rayon hosiery not specifically priced.* Maximum prices for women's rayon hosiery not specifically priced in Appendix B can be established only by specific authorization from the Office of Price Administration, Washington, D. C. No person is permitted to deliver rayon hosiery for which a maximum price is not provided in Appendix B unless he receives such authorization. A seller who wants to secure a specific maximum price must file with the Consumer Goods Price Division of the Office of Price Administration, Washington, D. C. an application setting forth a description in detail of the rayon hosiery concerning which the application is made, together with a sample thereof. The seller must also submit such additional cost and construction information as may be required by the Administrator.

(b) *Hosiery specifically priced, but having additional features.* Where rayon hosiery is specifically priced in this regulation, but contains special features, a higher ceiling than that already stated may be authorized in certain exceptional cases. Higher ceilings for hosiery with special features will be established upon application where the special features are readily recognizable and where the Administrator is satisfied, from evidence submitted by the applicant that the special features will extend the useful life of the hosiery at least to the extent of the price increase. Consideration will not be given to pricing of special features the cost of which is less than 35¢ per dozen in the case of full-fashioned hosiery and 20¢ per dozen in the case of circular knit.

A seller who wants to secure such a higher than established ceiling for hosiery containing special features must file with Consumer Goods Price Division of the Office of Price Administration, Washington, D. C., an application setting forth a description in detail of the special features concerning which the application is made. The seller must also submit such additional cost and construction information as may be required by the Administrator as well as such information as the Administrator may require with respect to the added utility value of the features.

SEC. 5. *Marking and other information*—(a) *What marking must be made.* The person who first sells the hosiery in a finished state must mark it with a transfer, label, ticket or other device firmly affixed to at least one stocking of each pair of hosiery. An insert may be used by manufacturers until April 15, 1944. Other sellers may use the insert until July 15, 1944. Where delivery is made to an ultimate consumer in an envelope sealed by the manufacturer, the marking may be placed on the outside of the envelope. In such case delivery must be made to the ultimate purchaser with the envelope unopened. The marker must contain the following information:

(1) The word "ceiling" accompanied by the maximum price at retail under this regulation; (if the hosiery is sold to a person selling at wholesale the letter "W" must precede the maximum price. If the hosiery meets the definition of "branded" as stated in this regulation and is permitted to be sold at branded ceiling prices, the letter "T" must precede the maximum price);

(2) The trademark, trade name, or the Office of Price Administration registration number of the person who first sells the hosiery in a finished state; (sellers who have not already secured registration numbers may do so by writing to the Office of Price Administration, Washington, D. C.);

(3) The gauge or needle count of the hosiery;

(4) The word "proportioned" on all proportioned hosiery;

(5) The word "misses'" on all misses' hosiery;

(6) The word "out-size" on all out-size hosiery;

(7) The words "extra-long" on all viscose process hosiery 32" in length or longer and on all acetate yarn hosiery 33½" in length or longer;

(8) The word "irregulars" on all irregulars; the word "seconds" on all seconds; and the word "thirds" on all thirds. This marking of substandard hosiery must be placed on each stocking of the pair.

Information required by subparagraphs (1) and (3) above must be marked on the welt within an outlined space or block having dimensions no less than ¾" x 1½" in the case of a transfer or no less than ⅜" x ¾" in the case of a label or ticket. Two examples are set forth below:

Ceiling 81¢ 45 gauge

Ceiling—W—36¢ 260 ndls.

Any of the other information required by this paragraph may be placed on the welt provided it does not confuse or obscure the information contained in the space or block or it may be placed upon the foot of the stocking. Where inserts are permitted temporarily, all information may be placed on the insert.

(b) *Responsibility for marking.* No person who first sells the hosiery in a finished state and no retailer may deliver any hosiery covered by this regulation unless all of the marking provisions of this section are complied with. A person selling at wholesale shall not deliver hosiery which he knows or has reason to believe is improperly marked. These marking provisions do not apply to sales made to "exporters", as that term is defined in Second Revised Maximum Export Price Regulation.[2] However, exporters must mark any hosiery which they sell in the domestic market in accordance with the provisions of this section. These marking requirements likewise do not apply to retail sales of hosiery made by a manufacturer to employees.

(c) *Interim provision for sellers at retail and at wholesale.* Sellers at retail and at wholesale who on January 15, 1944 have in stock hosiery correctly marked in accordance with the provisions of Revised Maximum Price Regulation 339,[3] need not re-mark that hosiery. Retailers may continue to sell at or below the marked ceilings until April 16, 1944. Also, sellers at retail who purchase hosiery from wholesalers which has been correctly marked in accordance with the provisions of Revised Maximum Price Regulation 339 need not re-mark that hosiery and may continue to sell at or below the marked ceilings until April 16, 1944. On and after April 16, 1944, all such hosiery must be re-marked and sold pursuant to the provisions of this Second Revised Maximum Price Regulation 339.

(d) *Exceptions for certain hosiery.* Hosiery which sellers at wholesale and at retail had in stock prior to and on the effective date of this Second Revised Maximum Price Regulation 339, which was classified as "Grade B" hosiery under Revised Maximum Price Regulation 339 (issued August 23, 1943) or hosiery the production of which was formerly, but is no longer, authorized by War Production Board, shall continue subject to the ceiling prices and the marking provisions contained in the former Revised Maximum Price Regulation 339.

(e) *Other information*—(1) *Retail classification.* An establishment selling at retail unbranded hosiery purchased directly from a manufacturer shall within 10 days after receipt of written request therefor by the manufacturer, inform such manufacturer whether or not it is a mail order house or a chain store as defined in section 2 (a).

(2) *For marking.* Any person making a sale at wholesale or a sale by a manufacturer shall furnish to his purchaser within 5 days after receipt of a written request all information regarding the construction and quality of the rayon hosiery pertinent to the marking required of the purchaser.

SEC. 6. *Explanation of terms.* (a) The "gauge" of full-fashioned hosiery is the number of needles per 1½" of the needle bar on which the hosiery is knit, assuming use of the full needle bar except for a tolerance of 4 needles.

(b) The "needle count" of circular knit hosiery is the total number of needles which operate to make the stocking on the knitting cylinder of the machine on which the hosiery is knit.

(c) "Full-length hosiery" is hosiery designed to be worn with the welt above the knee.

SEC. 7. *Amendments.* Any person seeking an amendment which will have general applicability may file a petition for amendment in accordance with the provisions of Revised Procedural Regulation No. 1[4] issued by the Office of Price Administration.

SEC. 8. *When taxes may be added to ceiling price.* If a statute or ordinance permits a tax to be separately stated, the seller is permitted to charge or collect, in addition to the price, a tax on the sale or delivery of the hosiery provided he states the tax separately. This applies, however, only to a tax on a particular sale or delivery such as a gross tax or compensating use tax. Taxes on prior sales or deliveries may not be added.

SEC. 9. *Relation to other maximum price regulations*—(a) *General Maximum Price Regulation*[5]—(1) *Applicability.* The General Maximum Price Regulation shall not apply and this regulation shall apply to sales, deliveries and offers to sell women's rayon hosiery. However, the following sections of the General Maximum Price Regulation are made a part of this regulation and each seller must comply with them:

(i) Current records (§ 1499.12).

(ii) Sales slips and receipts (§ 1499.-14).

(2) *Definitions incorporated by reference.* Unless the context otherwise requires, or unless otherwise specifically provided herein, the definitions set forth in § 1499.20 of the General Maximum Price Regulation shall apply to the terms used herein.

(b) *Maximum Price Regulation 157,*[6] *172,*[7] *and Second Revised Maximum Export Regulation.* This regulation shall not apply to nor supersede transactions regulated or governed by Maximum Price Regulation 157 or 172 or Second Revised Maximum Export Price Regulation.

(c) *Licensing Order No. 1.*[8] The licensing provisions of Licensing Order No. 1 licensing all persons who make sales under price control shall apply to all sellers subject to this regulation. A seller's license may be suspended for violation of the license or this regulation. A person whose license is suspended may not during the period of suspension make any sale for which his license has been suspended.

SEC. 10. *Geographical applicability.* This regulation shall be applicable to the continental United States and to the District of Columbia, but not to the territories and possessions of the United States.

SEC. 11. *Prohibitions and enforcement*—(a) *Prohibitions.* On and after January 15, 1944, regardless of any contract or obligation, no person shall:

(1) Sell or deliver any rayon hosiery at a price higher than the maximum price permitted by this regulation; or

(2) Except as authorized in section 5 (d), sell or deliver any rayon hosiery not meeting the minimum requirements of the War Production Board; or

(3) Deliver any rayon hosiery for which a maximum price is not provided in Appendix B unless he receives from the Office of Price Administration, Washington, D. C., a specific Maximum price therefor, as provided in section 4; or

(4) Require a purchaser to buy or agree to buy any hosiery or other articles, service, package or wrapper in connection with a sale or delivery of rayon hosiery; or

(5) Buy or receive rayon hosiery in the course of trade or business at a price higher than the maximum price permitted by this regulation; or

(6) Offer, attempt, or agree to do any of the acts prohibited by this regulation; or

(7) Do any other act which directly or indirectly increases above the maximum price the consideration paid by the purchaser for the rayon hosiery. Any practice which is a device to secure the effect of a higher than ceiling price is as much a violation as an outright raising of the

[1] *How to use tables. Retailers* who meet the definition for chains and mail order houses will find the maximum prices at which they may sell rayon hosiery in column (e) above. Other retailers who buy unbranded hosiery direct from manufacturers will find the maximum prices at which they may sell rayon hosiery in column (f) and they will find in column (g) the maximum prices at which they may sell branded hosiery purchased from a manufacturer or hosiery branded or unbranded which they bought from a wholesaler. Hosiery sold "house to house" may be sold at the prices shown in column (g). Only first quality hosiery may be sold at branded ceiling prices.

Manufacturers have but two possible types of sales. When they sell "branded hosiery" (as that term is defined in Sec. 3 of the regulation) they will find their ceilings in column (c). The unbranded hosiery ceilings are found in column (b). Hosiery classed as irregulars, seconds or thirds may not be sold at "branded" ceilings. Manufacturers should likewise note that no hosiery which they sell to wholesale establishments may be sold at prices higher than those shown in column (b).

Description of premium values referred to in table 1

Premium heels and soles are those reinforced with cotton, spun rayon, or combination yarn.

Premium welts are welts made of cotton, silk, spun rayon, blended, or combination yarn.

Extra length stockings are those with a minimum length of 32" if made of viscose rayon, or 33½" if made of acetate rayon.

Lace and mesh stockings are those with a distinctive lace or mesh pattern throughout the leg portion, knit with full lace or modified lace tackle on a full-fashioned knitting machine. No lace or mesh premium may be applied to gauges finer than 51 if such premium results in a price greater than the corresponding lace or mesh price for 51 gauge.

Premium yarn construction consists of stockings, legs of which are made of spun rayon, blended, plied, or combination yarn and with premium welts and premium heels and soles.

Combination yarn is plied yarn in which filament rayon is twisted with other fibers.

Plied yarn is a yarn in which two or more separate ends of rayon yarn are combined by twisting.

Spun rayon yarn is yarn spun from rayon staple fiber.

Blended yarn is yarn which is spun from mixtures of rayon staple fiber and cotton fiber.

Outsize hosiery 14 and 14½" outsize hosiery is hosiery which

(i) is knit on 14 or 14½" needle bar using the full needle bar (with a tolerance of 4 needles);

(ii) is knit with no fashionings or narrowings in the flare;

(iii) is boarded on outsize forms in accordance with accepted trade practice.

15" and 16" outsize hosiery is hosiery which is knit on a full 15" or 16" needle bar (with a tolerance of 4 needles) and is boarded on outsize forms in accordance with accepted trade practice. No outsize premium may be applied to gauges finer than 45 if such premium results in a price greater than the corresponding price of 45 gauge.

Non-run stockings are those which are knit throughout the leg portion by one of the generally accepted methods of knitting non-run fabric. No non-run premium may be applied to gauges finer than 45 if such premium results in a price greater than the corresponding non-run price for 45 gauge.

SECTION 1. *Prohibition against sales of charcoal at higher than maximum prices.* On and after July 12, 1943, regardless of any contract or other obligation:

No person making a sale of charcoal for which maximum prices are set forth in this regulation shall sell or deliver such charcoal at prices higher than the maximum prices set forth in this regulation.

No person purchasing charcoal from a seller for whom maximum prices are set forth in this regulation shall buy or receive such charcoal in the course of trade or business at prices higher than the maximum prices set forth in this regulation.

No person shall agree, offer, solicit, or attempt to do any of the foregoing.

[NOTE: Supplementary Order No. 7 (7 F.R. 5176) provides that war procurement agencies and governments whose defense is vital to the defense of the United States shall be relieved of liability, civil or criminal, imposed by price regulations issued by the Office of Price Administration.]

[NOTE: Supplementary Order No. 31 (7 F.R. 9894, 8 F.R. 1312, 3702) provides that: Notwithstanding the provisions of any price regulation, the tax on transportation of all property (excepting coal) imposed by section 620 of the Revenue Act of 1942 shall, for purposes of determining the applicable maximum price of any commodity or service, be treated as though it were an increase of 3% in the amount charged by every person engaged in the business of transporting property for hire. It shall not be treated, under any provision of any price regulation or any interpretation thereof, as a tax for which a charge may be made in addition to the maximum price.]

SEC. 2. *Less than maximum prices.* Lower prices than those established by this regulation may be charged, demanded, paid, or offered.

SEC. 3. *Adjustable pricing.* Any person may agree to sell at a price which can be increased up to the maximum price in effect at the time of delivery; but no person may, unless authorized by the Office of Price Administration, deliver or agree to deliver at prices to be adjusted upward in accordance with action taken by the Office of Price Administration after delivery. Such authorization may be given when a request for a change in the applicable maximum price is pending, but only if the authorization is necessary to promote distribution or production and if it will not interfere with the purposes of the Emergency Price Control Act of 1942, as amended. The authorization may be given by the Administrator or by any official of the Office of Price Administration to whom the authority to grant such authorization has been delegated. The authorization will be given by order.

SEC. 4. *Relationship of this to other maximum price regulations.*—(a) *General Maximum Price Regulation.* The provisions of this regulation supersede the provisions of the General Maximum Price Regulation[1] with respect to sales and deliveries for which maximum prices are established by this regulation.

(b) *Exports; (Second Revised Maximum Export Price Regulation applicable.)* The maximum price at which a person may export charcoal shall be determined in accordance with the provisions of the Second Revised Maximum Export Price Regulation[2] issued by the Office of Price Administration.

(c) *Imports; (Revised Supplementary Regulation No. 12 applicable.)* The provisions of this regulation do not apply to purchases, sales, or deliveries of charcoal which originate outside of and are imported into the continental United States. Sales, purchases, and deliveries of such imported charcoal are governed by the provisions of the General Maximum Price Regulation, and especially Revised Supplementary Regulation No. 12.[3]

SEC. 5. *Geographical applicability.* The provisions of this regulation shall be applicable to the forty-eight States of the United States and the District of Columbia.

SEC. 6. *Records and reports.* (a) Every person making sales or purchases of charcoal after July 11, 1943 for which maximum prices are established by this regulation, shall keep for inspection by the Office of Price Administration for so long as the Emergency Price Control Act of 1942, as amended, remains in effect, accurate records of each such sale or purchase, showing the date thereof, the name and address of the seller and the buyer, the price paid or received, and the quantity of charcoal sold or purchased.

(b) Such persons shall submit such reports to the Office of Price Administration and keep such other records in addition to or in place of the records required by paragraph (a) of this section as the Office of Price Administration may from time to time require.

SEC. 7. *Evasion.* The price limitations set forth in this regulation shall not be evaded whether by direct or indirect methods, in connection with an offer, solicitation, agreement, sale or delivery of, or relating to the sale of charcoal, alone or in connection with any other commodity, or by way of commission, service, transportation, or other charge, or discount, premium, or other privilege, or by tying-agreement or other trade understanding, or otherwise.

SEC. 8. *Enforcement and licensing.*—(a) *Enforcement.* Persons violating any provisions of this regulation are subject to the criminal penalties, civil enforcement actions, license suspension proceedings, and suits for treble damages provided for by the Emergency Price Control Act of 1942, as amended.

(b) *Licensing.* The provisions of Licensing Order No. 1,[4] licensing all persons who make sales under price control, are applicable to all sellers subject to this regulation or schedule. A seller's license may be suspended for violations of the license or of one or more applicable price schedules or regulations. A person whose license is suspended may not, during the period of suspension, make any sale for which his license has been suspended.

PART 1499—COMMODITIES AND SERVICES

[Rev. SR 14 to GMPR, Amdt. 72]

USED AIRPLANES

A statement of the considerations involved in the issuance of this amendment, issued simultaneously herewith, has been filed with the Division of the Federal Register.*

Section 6.34 is added to read as follows:

SEC. 6.34 *Used airplanes*—(a) *Coverage.*[1] This section applies to all sales (except those made to the War Department or the Department of the Navy) of any airplane, powered with a single engine of not more than 500 horsepower, that has been used other than for the purpose of sale.

(b) *Maximum prices*—(1) *How to determine the maximum price.* The maximum price for any used airplane covered by this section shall be determined as follows:

(i) The seller shall first determine the base price as follows:

(a) The seller shall first find the price listed in paragraph (d) for the airplane when new. If no price is listed in paragraph (d) for the airplane, the seller shall find the price listed in paragraph (d) for the nearest equivalent new airplane of the same make. An "equivalent airplane" is one that is similar to the one being priced in size, equipment, power, condition and ability to function. If no price is listed in paragraph (d) for an equivalent airplane of the same make, the seller shall find the price listed in paragraph (d) for the nearest equivalent airplane of a different make.

(b) The seller shall then add to the price determined under (a) above the airplane manufacturers' installed list price (determined in accordance with subparagraph (2)) for any extra equipment which was installed in the airplane on the date of its acquisition when new by the original purchaser or whose date of installation cannot be determined. "Extra equipment" means any equipment which would normally be furnished only at an additional cost with the airplane listed in paragraph (d), which is used as a basis for pricing under (a) above.

(c) The seller shall then deduct from the resultant price the airplane manufacturer's installed list price (determined in accordance with subparagraph (2)) for any item of equipment with which the airplane is not equipped on the date of sale and which the manufacturer furnished at no extra cost with the airplane which is listed in paragraph (d), and used as a basis for pricing under (a) above.

(ii) The seller shall then subtract from the base price an amount for depreciation. This amount shall be determined by multiplying 8% of the base price by the number of years from the date of acquisition by the original purchaser for use of the airplane when new to the date of sale. In measuring that period of time, the number of years is to be calculated to the nearest quarter of a year and the airplane shall be deemed to be not less than one nor more than ten years old.

(iii) The seller shall then add to the resultant price the depreciated value of extra equipment installed after date of acquisition of the airplane when new by the original purchaser for use. "Extra equipment" means supplementary equipment normally furnished to the purchaser at an extra cost when he purchases the type of airplane in question. The depreciated value of extra equipment shall be determined as follows: The seller shall subtract an amount for depreciation from the airplane manufacturer's installed list price (determined in accordance with subparagraph (2)) of the extra equipment. The amount for depreciation shall be determined by multiplying 8% of this installed list price by the number of years from the date of installation of the extra equipment to the date of sale. In measuring that period of time, the number of years is to be calculated to the nearest quarter of a year and the equipment shall be deemed to be not less than one nor more than 10 years old. If the seller cannot determine the date of installation of the extra equipment, he may not add the depreciated value thereof to the depreciated value of the airplane. In such case, the extra equipment is taken into account in determining the base price in accordance with (i) above.

(iv) The seller shall then deduct an amount for the number of hours of normal engine wear since the last overhaul. This deduction shall be determined by multiplying the number of hours of use since the last overhaul of the engine by the amount set forth in the following table for an engine of the same horsepower:

Horsepower:	Amount
Less than 50	$0.20
50 to 89, inclusive	.40
90 to 145, inclusive	1.20
146 to 225, inclusive	1.45
226 to 500, inclusive	2.00

(2) *Installed list price.* The "installed list price" of any equipment shall be the first applicable of the following:

(i) The October 1, 1941, installed list price, or lacking that, the latest installed list price of the manufacturer of the airplane for the same equipment installed in the same airplane;

(ii) The October 1, 1941, installed list price, or lacking that, the latest installed list price of the manufacturer of the airplane for similar equipment installed in the same airplane;

(iii) The October 1, 1941, installed list price, or lacking that, the latest installed list price of the manufacturer of another airplane for the same equipment installed in a similar airplane;

(iv) The October 1, 1941, installed list price, or lacking that, the latest installed list price of the manufacturer of another airplane for similar equipment installed in a similar airplane; or

(v) If none of the above is applicable, the maximum price of the used airplane must be determined under paragraph (c).

(3) *Example of determination of maximum price.*

1. Price listed in paragraph (d) for the same or nearest equivalent airplane. (See subparagraph (1) (i) (a)) ------

2. Sum of airplane manufacturer's October 1, 1941, installed list prices for extra equipment installed in airplane at time of original delivery or for which installation date cannot be determined. (See subparagraph (1) (i) (b)). ------

*Copies may be obtained from the Office of Price Administration.

[1] The maximum prices established by this section apply both to airworthy and non-airworthy airplanes. However, lower prices than those established by this section may be charged, demanded, paid or offered. Accordingly, it is recognized that when a non-airworthy airplane is sold, the selling price will probably be lower than the maximum price established by this section, in order to compensate the buyer for needed repairs.

8. Item 1 plus item 2. ------
4. Sum of airplane manufacturer's October 1, 1941, installed list price for standard equipment with which airplane is not equipped at time of sale. (See subparagraph (1) (i) (c)). ------
5. Item 3 minus item 4 (Base price). ------
6. Depreciated value of item 5. (See subparagraph (1) (ii)). ------
7. Sum of the depreciated values of extra equipment installed after date of delivery to original purchaser. (See subparagraph (1) (iii)). ------
8. Item 6 plus item 7. ------
9. Deduction for hours of normal engine wear since last overhaul. (See subparagraph (1) (iv)). ------
10. Maximum price. Item 8 minus item 9. ------

(c) *Specific authorization of a maximum price.* The maximum price for any used airplane, covered by this section, that cannot be priced under paragraph (b) shall be a price, in line with the level of maximum prices established by this section, specifically authorized by the Office of Price Administration. Any seller seeking such an authorization shall file an application with the Office of Price Administration, Washington, D. C. If the seller does not file under this paragraph, the Office of Price Administration may establish a maximum price of its own accord. This price will be in line with the level of maximum prices established by this section.

PART 1407—RATIONING OF FOOD AND FOOD PRODUCTS

[RO 16,[2] Amdt. 94]

MEAT, FATS, FISH AND CHEESES

A rationale for this amendment has been issued simultaneously herewith and has been filed with the Division of the Federal Register.*

Ration Order 16 is amended in the following respects:

1. The last sentence of section 3.4 (d) is amended to read as follows:

He must, within five days after the transfer, send one copy of the certification to the board named therein, and file the other with his report on OPA Form R–1606, OPA Form R–1606 (Revised), OPA Form R–1607, OPA Form R–1609 or OPA Form R–1609 (Revised) for the reporting period in which the transfer was made.

2. Section 3.4 (e) is amended by inserting in the first sentence after the phrase "OPA Form R–1609" the phrase "or OPA Form R–1609 (Revised)".

3. Sections 4.11 (a), (b), (d) and (f) are amended by inserting the phrase ", OPA Form R–1606 (Revised) or OPA Form R–1607," after the phrase "OPA Form R–1606", and the phrase "or OPA Form R–1609 (Revised)" after the phrase "OPA Form R–1609", wherever those phrases appear therein.

4. Section 4.11 (b) is amended as follows:

a. By inserting after the phrase "on or before May 31, 1943," the following sentence:

Reports on OPA Form R–1606 (Revised), OPA Form R–1607 or OPA Form R–1609 (Revised) for reporting periods ending in November 1943, may be filed on or before January 31, 1944, and for reporting periods ending in December 1943, may be filed on or before February 15, 1944.

b. By inserting before the last sentence the following:

However, a primary distributor who reports on OPA Form R–1609 (Revised) must adopt calendar month reporting periods. If he has not been reporting on a calendar month reporting period basis, his first report on a calendar month reporting period basis on OPA Form R–1609 (Revised) must include his operations from the end of the preceding reporting period to the end of the calendar month covered in the report.

5. Section 4.11 (c) is amended by designating the text as (c) (1) and adding subparagraphs (2), (3), (4) and (5) to read as follows:

(2) A primary distributor who does not import foods covered by this order, and who does not use points to acquire such foods, must report on OPA Form R–1609 (Revised) for his reporting periods beginning after November 30, 1943, if his sales or transfers of such foods from the place where he produces them consist entirely of one or more of the following:

(i) Sales or transfers of meat he slaughtered under a War Food Administration Farm Slaughter's Permit (including meat from his livestock which he has custom slaughtered);

(ii) Sales or transfers of lard he rendered from the carcasses of swine slaughtered for home consumption (or for consumption on his premises) or slaughtered under a War Food Administration Farm Slaughterer's Permit;

(iii) Sales or transfers of butter he made from cream (or milk) which he produced, if the cream (or milk) was not neutralized or pasteurized;

(iv) Sales or transfers of cheese he made from milk which he produced; or

(v) Sales or transfers of other foods covered by this order which he produced in an amount of not more than $200 during the month covered by the report.

For reporting periods beginning between October 31, 1943 and November 30, 1943, inclusive, he may use either OPA Form R–1609 or OPA Form R–1609 (Revised). Such a primary distributor need not file a report for any month during which he made no transfer of foods covered by this order (other than loans permitted by section 3.1 (b)). However, once he reports on OPA Form R–1606 (Revised or OPA Form R–1607, he may not thereafter report on OPA Form R–1609 (Revised).

(3) Any primary distributor who is not required to report on OPA Form R–1609 (Revised) may report on OPA Form R–1607 for each reporting period beginning on or after December 1, 1943, if he does not sell or transfer, during the period covered by the report, more than $2,000 worth of foods covered by this order, if he does not import foods covered by this order, and if his acquisitions of such foods for his primary distributor operations during that period do not constitute more than 10% by weight of his total sales and transfers of such foods during the period.

(4) A primary distributor who has more than one primary distributor establishment which are or will be registered together, may file a single report on OPA Form R–1609 (Revised) or OPA Form R–1607 for those establishments only if all of them combined meet the requirements set forth in this section for reporting on such forms.

(5) Any primary distributor who is not required to report on OPA Form R–1609 (Revised) and who does not report on OPA Form R–1607 must report on OPA Form R–1606 (Revised) for each reporting period beginning on or after December 1, 1943. However, for reporting periods beginning between October 31, 1943 and November 30, 1943, inclusive, he may use either OPA Form R–1606 or OPA Form R–1606 (Revised). In addition, a primary distributor who reports on OPA Form R–1606 (Revised), who transfers canned fish, must, at the same time and in the same manner that he makes his report on OPA Form R–1606 (Revised), report on OPA Form R–1606A.

6. The first sentence of section 4.16 (a) is amended by deleting the clause "a record showing his production and processing, by weight, and his acquisitions and transfers," and substituting therefor the clause "a record showing his production, processing, acquisitions and transfers,".

7. Section 4.16 (d) is added to read as follows:

(d) A primary distributor who is required to report on OPA Form R–1606 (Revised) or OPA Form R–1607 must, for every reporting period beginning on or after December 1, 1943, keep a record at his establishment (or, if the establishment is one of a group which has been or will be registered together, at the central office for such group) showing, as of the beginning and end of each such period, the point value of his inventory, as defined in section 4.11 (e), of each of the following foods: Meat, lard, shortening, margarine, cooking and salad oils, butter, rationed cheeses, canned milk and rationed canned fish. He must also keep a similar record with respect to any item which is added to the foods covered by this order, beginning on the date the item is added.

8. Section 4.16 (e) is added to read as follows:

(e) A primary distributor who is required to report on OPA Form R–1606 (Revised) or OPA Form R–1607 must also keep (at the place where he keeps the other records required by this section) a record of the quantity and sizes of each item of canned fish in his inventory as of the beginning and end of each of his reporting periods beginning on or after December 1, 1943.

9. Section 5.8 (a) is amended by adding the following sentence at the end thereof:

(a) * * * In addition, any wholesaler who is required by section 5.10 to file reports on OPA Form R–1310, must keep at that place a copy of each such report filed by him.

10. Section 5.10 is added to read as follows:

SEC. 5.10 *Wholesalers must report inventories of canned fish*—(a) *Who must report.* Every wholesaler who transfers canned fish must file a report on OPA Form R–1310 for each reporting period set forth in section 30.3, giving all the information called for by Schedule B of that form, for items included under the heading "Canned and bottled fish and shellfish."

(b) *Where reports must be filed.* The report must be signed by the wholesaler or by his authorized agent and must be filed by mailing to the Office of Price Administration, care of the Bureau of Census, Washington, D. C., within 8 days after the end of the reporting period. The form is considered filed on time if the envelope is postmarked on or before the last day it is due.

11. The first sentence of section 9.2 (a) is amended to read as follows:

Every "primary distributor" who is required to report on OPA Form R–1606 or OPA Form R–1606 (Revised) must open a separate ration bank account for each of his "primary distributor" establishments.

12. The last sentence of section 13.2 (a) is amended to read as follows:

(a) * * * He must file reports for that establishment beginning for the reporting period in which he started operations there.

13. Section 17.7 (a) (13) is added to read as follows:

(13) Wholesalers must keep a record of canned fish inventories. (section 5.8 (e))

14. Section 17.7 (b) (33) is added to read as follows:

(33) Primary distributors must report inventories of canned fish. (section 4.11 (c))

15. Section 17.7 (b) (34) is added to read as follows:

(34) Wholesalers must report inventories of canned fish. (section 5.10)

16. Section 21.3 (a) is amended by adding at the end thereof the following:

However, a primary distributor shall attach the copy of the Shipper's Export Declaration to his report on OPA Form R–1606, OPA Form R–1606 (Revised), OPA Form R–1607, OPA Form R–1609 or OPA Form R–1609 (Revised) for the reporting period in which the export was made.

17. The last sentence of section 22.7 (c) is amended by deleting the phrase "(on OPA Form R–1606 or OPA Form R–1609)".

18. Section 30.3 is added to read as follows:

SEC. 30.3 *Reporting periods for wholesalers who transfer canned fish.* The following are the reporting periods for which wholesalers, who transfer canned fish, are required to report by section 5.10:

1. December 5, 1943 to January 1, 1944, inclusive.
2. January 2 to January 29, 1944, inclusive.
3. January 30 to March 4, 1944, inclusive.

5. April 2 to April 29, 1944, inclusive.
6. April 30 to June 3, 1944, inclusive.
7. June 4 to July 1, 1944, inclusive.
8. July 2 to July 29, 1944, inclusive.
9. July 30 to September 2, 1944, inclusive.
10. September 3 to September 30, 1944, inclusive.
11. October 1 to October 28, 1944, inclusive.
12. October 29 to December 2, 1944, inclusive.
13. December 3 to December 30, 1944, inclusive.

This amendment shall become effective January 10, 1944.

NOTE: All reporting and record-keeping requirements of this amendment have been approved by the Bureau of the Budget in accordance with the Federal Reports Act of 1942.

may be added, and the price and weight of the original size remanufactured may be used in figuring the f. o. b. maximum price where standard sizes of boards and dimension are remanufactured from larger sizes, by the same distribution yard which sells the lumber, subject to the following conditions:

(1) Any yard wishing to compute its remanufacturing charges under this paragraph (d) must make application to the Lumber Branch, Office of Price Administration, Washington, D. C., for specific permission. The applicant must show that he is unable to purchase enough standard sizes of boards and dimensions from mills or concentration yards to meet his orders. He must state total footage of softwood lumber delivered from his yard stock during each of the three months immediately preceding the date of his application. The applicant must also describe the remanufacturing facilities of his yard, including the number and capacity of resaws, planers, etc.

The remanufacturing provisions of this paragraph may be adopted by the yard as soon as application is filed. Permission may be granted by letter or telegram and may be withdrawn at any time for failure to comply with all of the provisions of this paragraph or if it appears that a yard is using it as a method of evading any other provision of this regulation.

(2) In no case will the permission granted under this paragraph be applicable in any one month to more than 30 percent of the average monthly footage of softwood lumber delivered by the yard during the 3 months immediately preceding, or to sales on which the distribution yard mark-up is greater than $5.00 and 10 percent.

(3) The total charge for ripping, resawing and/or dressing may not include an addition of more than two of these workings per piece. For example, there may be one rip and one resaw; or one resaw and one dressing charge; etc.

(4) Any yard which is granted permission to remanufacture under this paragraph must file with the Lumber Branch, Office of Price Administration, Washington, D. C., on or before the 10th day of each month a statement of the softwood footage shipped and remanufactured by it during the preceding month. Yards operating under this paragraph must keep records available to the Office of Price Administration at all times showing the amount of lumber remanufactured during any month, the nature of the remanufacturing, the size and condition of the lumber before and after remanufacturing, and any additional information which the Office of Price Administration may deem necessary to prevent evasion of the regulation.

This amendment shall become effective January 11, 1944.

NOTE: All reporting and record-keeping requirements of this regulation have been approved by the Bureau of the Budget in accordance with the Federal Reports Act of 1942.

TITLE 10—ARMY: WAR DEPARTMENT

Chapter III—Claims and Accounts

PART 30—SERVICEMEN'S DEPENDENTS ALLOWANCE

JOINT REGULATIONS UNDER SERVICEMEN'S DEPENDENTS ALLOWANCE ACT, AS AMENDED

Section 30.1 as published in the FEDERAL REGISTER, 3 August 1943 (8 F.R. 10706) is rescinded and the following new § 30.1 is substituted therefor:

§ 30.1 *Period of entitlement and payment of family allowances.* Under provisions of the Servicemen's Dependents Allowance Act of 1942, as amended, the Secretary of War and the Secretary of the Navy prescribe jointly the following regulations pertaining to family allowances:

(a) Payments of all family allowances shall be for periods of full calendar months.

(b) To insure expeditious payment of the initial family allowance:

(1) Payment shall be made on the basis of the statements of the enlisted man in the application, filed within the prescribed period, and to or on behalf of eligible dependents designated therein; and

(2) Eligibility for initial family allowance will be deemed to have existed on and from the date of entry into active service if the application indicates eligibility on the date of application.

(c) Erroneous statements or misrepresentations in applications for initial family allowances may, as determined by the Secretary of the department concerned, be the basis for recovery by charge against the pay of the applicant, or otherwise, and for disciplinary action.

(d) When an initial family allowance is paid to any dependent for the month of an enlisted man's entry into active service in a pay status, no regular

monthly family allowance shall be paid to any dependent of such enlisted man for that month. When no initial family allowance is paid, the period of entitlement and payment of the regular monthly family allowance shall begin as hereinafter prescribed.

(e) Except as otherwise provided, the period of entitlement to and payment of regular monthly family allowances, including any increases therein, shall begin as of the first day of the calendar month in which a required written application (or a notice of change in a case of increase) is filed, or the first day of the calendar month in which a dependent is acquired, whichever is later, but in no case earlier than the month of entry of the enlisted man into active service in a pay status. In case of Class B or Class B–1 dependents the period of entitlement and payment may begin as of the first day of any subsequent calendar month that the enlisted man requests.

(f) Any increase in a regular monthly family allowance in effect to a wife, or wife and children, incident to the birth of a child or additional child, shall be effective as of the first day of the calendar month during which the birth occurs notwithstanding that notice or evidence thereof is received in a subsequent month.

(g) Except as otherwise provided, the period of payment of monthly family allowance shall terminate, or payment shall be decreased, as of the end of the calendar month during which any notice is received by the disbursing officer paying the allowance of a change which terminates or limits the entitlement of the dependent or dependents to such allowance. Entitlement to family allowance shall terminate or be modified at the end of the month in which such change occurs. Checks to which there is no entitlement may be permanently withheld.

(h) Insofar as practicable the period of entitlement and payment of any Class B or Class B–1 regular monthly family allowance requested in writing by the enlisted man to be discontinued, other than by reason of change in status of dependents, shall terminate as of the end of the calendar month requested by the enlisted man or the end of the calendar month during which such request is received by the disbursing officer paying the allowance, and in no case later than the end of the next succeeding calendar month.

(i) For the purpose of determining amounts of family allowance to be paid:

(1) In cases in which no family allowance has been granted to a wife or divorced wife, the amount of family allowance payable to children shall be the amount specified in the statute where there is no wife or divorced wife;

(2) In cases in which no family allowance has been granted to a parent, the amount of family allowance payable to brothers and sisters shall be the amount specified in the statute where there is no parent;

(3) All children of an enlisted man shall be considered one family entity irrespective of differences in their custody, residence, or parentage;

(4) Parents of an enlisted man, and all his brothers and sisters irrespective of differences in their custody, residence, or parentage, shall be considered one family entity;

(5) The total amount of monthly family allowance payable to or for the benefit, respectively, of two or more children, of two parents, or of two or more brothers and sisters, shall be equally divided among the respective children, parents, or brothers and sisters or shall be otherwise apportioned and paid within the respective groups as the Secretary of the department concerned may direct.

(j) Whenever a court order or decree or written agreement of separation provides a single sum for alimony to a divorced wife or maintenance for a wife and also for the support of a child or children, the proportional share of the wife or divorced wife in such sum shall, for the purpose of carrying out the provisions of section 106 (c) of the act, be deemed to be sixty per centum thereof in the case of one child and forty per centum thereof in any case of two or more children. Regardless of any limit stated in a court order or decree or written agreement the full statutory amount of family allowance shall be payable to or on behalf of any child or children.

(k) Application of section 106 (c) (1) shall be made in those cases in which there is a lawful wife living separate and apart from the enlisted man and there is also a court order or decree or a written agreement which expressly or impliedly provides for the beginning or continuance of such living separate and apart. In construing a court order or decree or written agreement full consideration shall be given to all the facts and circumstances under which the order, decree or agreement is issued or made. A penal order for marital support or an order in a desertion case is not within this statutory limitation; in such cases the full allowance for a wife is payable.

(l) The payment of any amounts of a family allowance uncollected at the time of death of a dependent shall be made to such payee or payees, including the enlisted man when appropriate, as the Secretary of the department concerned shall deem equitable, subject to the provisions of section 115 of the act.

(m) The Secretary of the department concerned may at any time require additional evidence in any family allowance case. Failure to furnish such evidence within a reasonable time after request or any insufficiency of evidence shall constitute good cause for the discontinuance or modification of such family allowance.

These joint regulations are effective November 1, 1943; they rescind and supersede the joint regulations approved July 19, 1943.

(56 Stat. 381, 57 Stat. 577, 37 U.S.C. Sup. 201, et seq.)

Approved: December 4, 1943.

HENRY L. STIMSON,
Secretary of War.

TITLE 24—HOUSING CREDIT

Chapter VII—National Housing Agency

[NHA General Order 60-2B]

PART 702—PRIVATE WAR HOUSING OCCUPANCY AND DISPOSITION

Supersedes NHA General Order 60-2A.

The National Housing Agency is responsible for the proper occupancy of housing programmed for war workers and for the adoption of regulations assuring that war housing will be held available for eligible war workers for the duration of the national emergency declared by the President on September 8, 1939 (4 F.R. 3851). The purpose of this general order is to set forth the private housing to which occupancy standards apply, the persons who are eligible war workers for such housing, the length of time such housing must be held for their use, the conditions under which such housing may be transferred or sold, and the conditions under which occupancy standards applicable to such housing may be modified or removed.

Sec.
702.1 Private war housing to which occupancy standards apply.
702.2 Persons who are eligible war workers.
702.3 Length of time private war housing must be reserved for occupancy by eligible war workers.
702.4 Disposition of private war housing.

AUTHORITY: §§ 702.1 to 702.4, inclusive, issued under E.O. 9070, 7 F.R. 1529, 12 CFR 222.8 (c).

§ 702.1 *Private war housing to which occupancy standards apply.* (a) Private war housing to which occupancy standards apply are the following:

(1) All new housing, and the additional housing accommodations created by remodeling or rehabilitation, which received or receives priority assistance or authority to begin construction as follows:

(i) Application for priority assistance was submitted prior to February 10, 1943, on Form PD-105 and received or receives priority assistance through Preference Rating Order No. P-55, or

(ii) Application for priority assistance or authority to begin construction is submitted on or after February 10, 1943, on Form PD-105 (Revised 2-10-43) if section B thereof is executed;

(2) All new housing, and the additional housing accommodations created by remodeling or rehabilitation, which received or receives either priority assistance or authority to begin construction,

as a result of submitting an application for such assistance or authority on Form PD–200, if such application was accompanied by the form Applicant's Supplemental Certification and if such housing was not to be occupied by the owner;

(3) The additional housing accommodations created by remodeling or rehabilitation financed under Class 1 (b) of Title I of the National Housing Act;

(4) Housing financed under Class 3 of Title I of the National Housing Act for which an application was or is submitted to the local office of the Federal Housing Administration:

(i) Prior to February 10, 1943, and such application was accompanied by, or supplemented with, a War Housing Statement Form, or

(ii) On or after February 10, 1943, and the applicant also executes section B of Form PD–105 (Revised 2–10–43) in connection with such housing;

(5) Housing financed with a mortgage loan insured by the Federal Housing Administration under section 603 of Title VI of the National Housing Act for which an application was submitted to the local office of the Federal Housing Administration:

(i) Prior to February 10, 1943, and such application was accompanied by, or supplemented with, FHA Form 2004 (e), or

(ii) On or after February 10, 1943;

(6) Housing financed with a mortgage loan insured by the Federal Housing Administration under section 608 of Title VI of the National Housing Act; and

(7) The additional housing accommodations created by remodeling or rehabilitation in projects designated as "defense housing," by either the Division of Defense Housing Coordination or the National Housing Agency, in order to exempt such housing from Federal Reserve Board Regulation W.

(b) For the purposes of this general order, private war housing is "begun" on the date of submitting to the Federal Housing Administration a properly executed application for priority assistance or authority to begin construction in connection with such housing; or, if remodeling or rehabilitation of any private war housing did not receive priority assistance or authority to begin construction, such housing was "begun" either on the date a properly executed application was filed under Title I, Class 1 (b), of the National Housing Act in connection with such housing, or on the date a properly executed application for exemption from Federal Reserve Board Regulation W was submitted to a registrant in connection with such housing.

(c) For the purposes of this general order, the date of "completion" of any private war housing shall be the date upon which such housing is offered for initial rental or sale, or the date upon which such housing is first ready for immediate occupancy, whichever is later.

(d) The phrase "held for rental" includes only an ordinary landlord-tenant relationship or such a tenancy coupled with an option to purchase containing the following provisions:

(1) The tenant shall not be obligated to purchase and the option shall run only in behalf of the tenant;

(2) No payment shall be required in any one month in addition to the listed monthly payment while a tenant, which monthly payment shall not exceed the fair rental for the dwelling unit under an ordinary landlord-tenant relationship not coupled with an option to purchase;

(3) The monthly payment while a tenant shall not be in excess of rental for comparable accommodations;

(4) The total purchase price shall be a fair market price, or $6000, whichever is lower;

(5) The option may not be exercised prior to the expiration of two months' occupancy;

(6) The option shall continue in effect for at least 30 months unless sooner exercised; and

(7) The occupancy and disposition provisions shall continue to apply to such housing after the option is exercised, or terminated, for the duration of the national emergency declared by the President on September 8, 1939.

§ 702.2 *Persons who are eligible war workers.* (a) For private war housing begun on or after February 10, 1943, an eligible war worker shall be only a person who qualifies under the provisions of NHA General Order No. 60–1B.[1]

(b) For private war housing begun prior to February 10, 1943, an eligible war worker shall be only a person who qualifies under the provision of the application (and other instruments related thereto) for priority assistance or authority to begin construction, FHA insurance, or exemption from Federal Reserve Board Regulation W submitted in connection with such housing; or, at the option of the owner of such housing, a person who qualifies under the provisions of NHA General Order No. 60–1B. Private war housing for which applications for priority assistance were filed with the Federal Housing Administration before February 10, 1943, but for which quotas did not become available until on or after that date, shall not be approved after July 15, 1943 except subject to the rules applicable to private war housing so "begun" on or after February 10, 1943.

(c) The Joint Army-Navy-NHA Directive of July 16, 1942 is incorporated by reference in NHA General Order No. 60–1B, which defines indispensable inmigrant civilian war workers, who are eligible for private war housing begun on or after February 10, 1943. For private war housing begun prior to February 10, 1943, eligible war workers as defined in the standard application for such housing include "members of the armed forces". Hence members of the armed forces, including convalescents as well as those on active duty, are eligible for such housing, as well as for reference (by War Housing Centers or other appropriate placement agency) to existing private structures programmed for war workers.

[1] Not filed with the Division of the Federal Register.

§ 702.3 *Length of time private war housing must be reserved for occupancy by eligible war workers.* (a) Private war housing begun on or after February 10, 1943, shall be made available for initial occupancy, and for re-occupancy, only by eligible war workers: *Provided, however,* That at any time subsequent to 60 days after completion of such housing, the owner of such housing may petition the National Housing Agency to permit initial occupancy, or re-occupancy, as the case may be, by a person other than an eligible war worker, in accordance with NHA General Order No. 60–3C (*infra*).

(b) Private war housing begun prior to February 10, 1943, shall be made available for initial occupancy, and for re-occupancy, by eligible war workers for at least the period of time after completion specified in the application (and other instruments related thereto) for priority assistance or authority to begin construction, FHA insurance, or exemption from Federal Reserve Board Regulation W submitted in connection with such housing. Whenever any such application (or other instruments related thereto) provided for an exclusive preference to eligible war workers for a specified time, such exclusive preference shall be so given for at least such specified time; and whenever any such application (or other instruments related thereto) provided for merely a general preference to eligible war workers, at least such general preference shall be so given for at least such specified time.

§ 702.4 *Disposition of private war housing.* (a) Private war housing begun on or after February 10, 1943, shall be held for rental only to eligible war workers for the duration of the national emergency declared by the President on September 8, 1939, and, except for involuntary transfers, shall be disposed of only as follows:

(1) (i) An occupant, after two months' occupancy, may purchase the private war housing unit occupied by him subject to NHA General Order No. 60–3C.

(ii) Without conforming to (i) which precludes selling except at the option of the eligible war worker exercised after at least two months' rental occupancy, a dwelling unit in a private war housing project may be held for sale or sold to an eligible war worker as provided in NHA General Order No. 60–3C: *Provided,* That any sale so made shall take place not later than 15 days after the Federal Housing Administration makes its final Priority Compliance Inspection Report ("Completion Report") with respect to the unit (after which time the unit if not sold shall be held for rental as indicated in (i): *And provided further,* That no owner shall sell more than one-third of the units in all projects (begun on or after February 10, 1943) which he has placed under actual construction in any war housing area except such sales as are made in conformity with the requirement of holding for rental as indicated in (i): *And provided further,* That any sale made pursuant to (ii) shall be within a price range for the general types of units intended to be sold which is acceptable to the National Housing Agency. The proposed price range shall be submitted to the Federal Housing Administration in advance of sale by letter or other appropriate method, and in the case of all PD–105 applications filed on or after August 1, 1943 shall be submitted with the application.

(2) A person who will not himself occupy such housing may purchase or otherwise acquire such housing at any time, in accordance with NHA General Order No. 60–3C, *Provided,* The occupancy and disposition limitations applicable to such housing prior to such purchase or acquisition shall continue to be applicable to such housing after such purchase or acquisition.

(3) An eligible war worker under NHA General Order No. 60–1B may himself build, own and occupy a private war housing unit suitable to his needs, without complying with the rental requirements, as provided in and subject to the provisions of paragraph (a) of § 702.11 of NHA General Order No. 60–3C. Or,

(4) At any time subsequent to 60 days after completion of any such housing, the owner of such housing may petition the National Housing Agency, in accordance with NHA General Order No. 60–3C, to permit such housing to be disposed of otherwise than as provided above in this paragraph (a).

(b) Private war housing begun prior to February 10, 1943, shall be rented, sold, or transferred only in accordance with the provisions of the application (or other instruments related thereto) for priority assistance, authority to begin construction, or exemption from Federal Reserve Board Regulation W submitted in connection with such housing, except that whenever any such application for priority assistance or authority to begin construction provided that such housing could be disposed of, with the prior approval of the War Production Board, otherwise than as stated in such application, a prior approval by the National Housing Agency (instead of by the War Production Board) shall be required in order to dispose of such housing otherwise than as stated in such application. NHA General Order No. 60–3C sets forth the provisions regarding the disposition of such housing.

This order shall become effective November 17, 1943.

JOHN B. BLANDFORD, Jr.,
Administrator.

(1) (i) A dwelling unit in a private war housing project may be purchased by an occupant (initial occupant or re-occupant) after two months' continuous occupancy by such occupant.

(ii) Without conforming to (i) which precludes selling except at the option of the eligible war worker occupant exercised after at least two months' rental occupancy, a dwelling unit in a private war housing project may be held for sale or sold to an eligible war worker: *Provided,* That any sale so made shall take place not later than 15 days after the Federal Housing Administration makes its final Priority Compliance Inspection Report ("Completion Report") with respect to the unit (after which time the unit if not sold shall be held for rental as indicated in (i)): *And provided, further,* That no owner shall sell more than one-third of the units in all projects (begun on or after February 10, 1943) which he has placed under actual construction in any war housing area except such sales as are made in conformity with the requirement of holding for rental as indicated in (i), *And provided, further,* That any sale made pursuant to (ii) shall be within a price range for the general types of units intended to be sold which is acceptable to the National Housing Agency. The proposed price range shall be submitted to the Federal Housing Administration in advance of any sale by letter or other appropriate method, and in the case of all PD–105 applications filed on or after August 1, 1943 shall be submitted with the application. Any sale, either with or without prior rental occupancy, is subject to the conditions that:

(a) The sale price (except as provided in § 702.12 hereof) is not in excess of the fair market price thereof, or $6000, whichever is lower,

(b) The purchaser is an eligible war worker under the provisions of NHA General Order No. 60–1B, and

(c) The owner submits to the National Housing Agency regional representative, through the local office of the Federal Housing Administration, an agreement in the prescribed form (Form NHA 60–1), properly executed by the purchaser, stating that such purchaser will continue to occupy the dwelling unit or will hold the dwelling unit subject to all occupancy and disposition provisions set forth in NHA General Order No. 60–2B.

A sale may be made under this paragraph (a) (1) without obtaining further approval from the National Housing Agency, provided the above-mentioned Form NHA 60–1 is submitted to the National Housing Agency regional representative, through the local office of the Federal Housing Administration, immediately following such sale.

(2) Any such housing may be transferred to a person who will not occupy any part of such housing as his (or her) own dwelling, if

(i) The sale price (except as provided in § 702.12 hereof) of each dwelling unit in such housing is not in excess of the fair market price thereof, or $6,000, whichever is lower, and

(ii) The transferor submits to the National Housing Agency regional representative, through the local office of the Federal Housing Administration, an agreement in the prescribed form (Form NHA 60–1), properly executed by the transferee, stating that such transferee will hold the premises subject to all occupancy and disposition provisions set forth in NHA General Order No. 60–2B.

A transfer may be made under this paragraph (a) (2) without obtaining further approval from the National

Housing Agency, provided the abovementioned Form NHA 60–1 is submitted to the National Housing Agency regional representative, through the local office of the Federal Housing Administration, immediately following such transfer.

(3) An eligible war worker under NHA General Order No. 60–1B may file an application for priority assistance for a private war housing unit suitable to his needs, and upon approval of such application may build, own and occupy such unit without conformity to rental requirements: *Provided*, That such war worker submits satisfactory evidence to the Federal Housing Administration that he has the bona fide intention and capacity to build for himself and is not being utilized to circumvent the rental requirements which exist for his protection. Any disposition of such unit by such war worker shall be subject to the rules of disposition set forth in paragraph (a).

(b) All private war housing begun prior to February 10, 1943, the ownership of which has been transferred since such housing was begun, may be rented, sold, or otherwise disposed of at the option of the owner without exception.

(c) All private war housing begun prior to February 10, 1943, which has not been transferred since such housing was begun, may be rented, sold, or otherwise disposed of at the option of the owner except that for the duration of the national emergency declared by the President on September 8, 1939:

(1) Rentals or sales prices (except for involuntary transfer and except to the extent approved prior to February 10, 1943 by the War Production Board, or subsequent to February 10, 1943 by the National Housing Agency) shall not exceed the respective maximum amounts permitted by the conditions of the application (or other instruments related thereto) for priority assistance, authority to begin construction, or exemption from Federal Reserve Board Regulation W (7 F.R. 3351) submitted in connection with such housing; and the requirements of such application (or other instruments related thereto) with respect to occupancy preference to war workers shall be complied with; or

(2) All such housing constructed with priority assistance, or with authority to begin construction, obtained from the War Production Board by filing an application for such assistance or authority on Form PD–105 (Revised 4–23–42), or Form PD–200 accompanied by a form Applicants' Supplemental Certification if such application was for authority to begin construction of housing not to be occupied by the owner, may be disposed of, except for involuntary transfers, only as provided in such application or as follows:

(i) If such application did not provide for sale, such housing may be sold subject to the provisions set forth in paragraph (a) (1) (i) above: (*Provided*, That the purchaser may be a person who has occupied the housing continuously for two months and who is an eligible war worker either under the provisions of NHA General Order No. 60–1B or the provisions of the application for priority assistance or authority to begin construction submitted in connection with such housing), or

(ii) If such application did not provide for rent or lease-option, such housing may be rented, with or without an option to purchase, after the National Housing Agency regional representative for the area in which such housing is located has approved the initial rent or the lease-option payments for such housing. Any petition requesting such an approval of the initial rent or the lease-option payments for such housing shall be submitted to a National Housing Agency regional representative, through the local office of the Federal Housing Administration, on a properly executed Form NHA 60–3. Each National Housing Agency regional representative is hereby authorized to approve in the particular case the amount of such initial rent or lease-option payments.

§ 702.12 *Adjustment of rent or sale price.* (a) The initial rent charge prior to any occupancy or the sale price for any housing accommodations in a private war housing project may be increased over the amount provided therefor in § 702.11 of this general order only when approved by the National Housing Agency. The owner of any such housing may petition the National Housing Agency to permit an increase in rent charge or sale price at any time. Any such petition shall be submitted to the National Housing Agency regional representative, through the local office of the Federal Housing Administration, on a properly executed form NHA 60–4. Each National Housing Agency regional representative is hereby authorized to grant such relief as he deems appropriate in the particular case, provided the petition for relief shows clearly that the owner has incurred, or will incur, costs in the construction or operation of such housing, over which the owner had or has no control, in excess of the costs estimated originally in connection with such housing.

(b) Any request for permission to increase the rent charge for any private war housing after such housing has been occupied initially must be submitted to the local office of the Office of Price Administration.

§ 702.13 *Modification of occupancy and disposition provisions by regional representatives.* (a) At any time subsequent to 60 days after completion of any private war housing, the original owner, or any subsequent owner, of such housing may petition the National Housing Agency to permit such housing to be disposed of otherwise than as provided above in § 702.11 (a). Any such petition shall be submitted to a National Housing Agency regional representative, through the local office of the Federal Housing Administration with the recommendation thereof, on a properly executed Form NHA 60–2. Each National Housing Agency regional representative is hereby authorized to grant such relief to persons who so petition as the National Housing Agency Regional Representative deems appropriate, in the particular case, by relaxing the occupancy and disposition provisions applicable to such housing.

(b) Each National Housing Agency regional representative is hereby authorized on his own initiative (or on the basis of recommendations which the local office of the Federal Housing Administration may initiate) to relax the occupancy and disposition provisions applicable to any private war housing, where such action is deemed appropriate in the interests of the war housing program. When so acting, the regional representative may act without reference to whether the housing has been completed or whether it has been occupied for 60 days after completion.

(c) Any relaxation of occupancy and disposition provisions may permit a shortening of any holding period applicable to the housing involved or a liberalization of the definition of eligible war worker applicable to such housing or both; may permit a change in rent level or sale price in accordance with § 702.12 of this general order; and, in exceptional cases, where the NHA regional representative determines that there is no further need for reserving such housing for eligible war workers, the occupancy and disposition provisions may be removed entirely from such housing.

(d) Relaxation of occupancy and disposition provisions shall rest primarily upon the need to make prompt and effective use of private war housing units not needed by in-migrant war workers because of inexact forecasting in earlier programming or because of changes in contract and employment schedules after the programs were written. Relaxation in response to petitions of individual builders may be made to avoid undue hardship to the builders caused by unusual circumstances: *Provided*, That the hardship goes beyond the common hardships which result from the war and from war housing regulations: *And provided*, That on an equitable balance of all the factors the relief to the builder in the particular case would not unduly affect the war housing program in the locality.

(e) When relaxation of occupancy and disposition provisions relates to an entire locality or to a very substantial volume of private war housing, as distinguished from individual cases or relatively small volumes of housing, the regional representative shall feel free if he deems it necessary to consult with the Office of the Administrator prior to taking action. What constitutes a "very substantial volume" of private war housing varies with local conditions, but a volume amounting to more than 25 percent of the total number of private war housing units in the locality would certainly be so considered. Whether a relaxation is individual, small or substantial, the regional representative shall notify the Office of the Administrator of action taken as promptly as feasible, in order that such Office may keep abreast of current developments.

(f) When the National Housing Agency regional representative authorizes a relaxation applicable to a number of builders in the locality, the local office of the Federal Housing Administration shall be promptly notified and requested to extend prompt notification to the builders affected. The regional representative shall also send prompt notification of all relaxations to the War Housing Center in the locality.

This order shall become effective November 12, 1943.

JOHN B. BLANDFORD, Jr.,
Administrator.

[NHA General Order No. 60–5B]

PART 703—PUBLIC WAR HOUSING

OCCUPANCY

Supersedes NHA General Order 60–5 (8 F.R. 1832) and 60–5A (8 F.R. 3568).

Sec.
703.1 General policy.
703.2 Exclusive reservation.
703.3 Limited reservation.
703.4 Modification of occupancy provisions.

AUTHORITY: §§ 703.1 to 703.4, inclusive, issued under E.O. 9070, 7 F.R. 1529.

§ 703.1 *General policy.* (a) The purpose of this general order is to set forth the public war housing to which occupancy standards apply, the persons who are eligible war workers for such housing, the length of time such housing must be held for their use, and the conditions under which such housing may be made available for other purposes.

§ 703.2 *Exclusive reservation.* (a) On or after February 10, 1943, initial occupancy and re-occupancy of every dwelling accommodation in all Federally-owned or leased public war housing projects under the jurisdiction or control of NHA, or any of its constituent units,[1] shall be reserved exclusively for eligible war workers, as defined in NHA General Order No. 60–1B, except (1) with respect to 4 Lanham Act mutual ownership projects under the jurisdiction of FPHA (which are substantially completed and occupied), resident as well as in-migrant civilian war workers may be admitted to occupancy, and (2) with respect to off reservation or off post projects programmed for military or naval personnel prior to July 16, 1942 (the date of the joint directive of the War Department, Navy Department and National Housing Agency), eligible military or naval personnel, as certified by the local commandant,[2] may be admitted to occupancy: *Provided*, That preference (without a specified reservation period) has first been given to indispensable in-migrant civilian war workers.

(b) On or after February 10, 1943, initial occupancy or re-occupancy of every dwelling accommodation in all FPHA-aided public war projects[3] for which applications for priority assistance are submitted to WPB after February 10, 1943 shall be reserved exclusively for such eligible war workers, as defined in NHA General Order No. 60–1B, as are eligible for occupancy thereof under applicable state or Federal laws.[4]

(c) On or after February 10, 1943, re-occupancy of every dwelling accommodation in such Federally-owned public non-war housing projects[5] under the jurisdiction of FPHA, as the National Housing Administrator determines are suitable to provide war housing, shall be reserved exclusively for eligible war workers as defined in NHA General Order No. 60–1B.[6]

§ 703.3 *Limited reservation.* (a) Reasonable preference for occupancy by war workers (as required by the conditions under which priority assistance was granted[7]) shall be observed with respect to all FPHA-aided public war housing projects for which applications for priority assistance were submitted to WPB prior to February 10, 1943.[8] The local housing authorities that own and manage these projects shall be requested to conform, to the extent practicable, their management programs by reserving initial occupancy or re-occupancy in these projects to such eligible war workers (as defined in NHA General Order No. 60–1B) as are eligible under applicable state or Federal laws in the same manner as is required with respect to the projects described in § 703.2 (b) above.

§ 703.4 *Modification of occupancy provisions.* (a) Each National Housing Agency regional representative is hereby authorized on his own initiative (or on the basis of recommendations which the NHA constituent unit having control of the public war housing involved may initiate) to relax the exclusive reservation requirements for any public war housing, where such action is deemed appropriate in the interests of the war housing program. When so acting, the regional representative may act without reference to whether the housing has been completed or to how long it has been held available after completion. The regional representative shall give prompt notification of any such relaxation to the NHA constituent unit having control of the public war housing involved, in order that such unit may put the proposed relaxation into effect or discuss it further with the regional representative.

(b) The NHA constituent unit having control of any public war housing may relax the exclusive reservation requirement applicable to such housing, where such action is deemed appropriate in the interests of the war housing program: *Provided*, That the NHA constituent unit shall advise the National Housing Agency regional representative not less than 10 days prior to taking such action in order that the regional representative may have adequate opportunity if he so desires to require a further holding period for the housing involved. Such relaxations may be made without reference to whether the housing has been completed or to how long it has been held available after completion.

(c) Relaxation of the exclusive reservation requirements applicable to public war housing shall rest primarily upon the need to make prompt and effective use of public war housing units even when not needed for the precise types of war workers eligible under existing occupancy rules, because of inexact forecasting in earlier programming or because of changes in contract and employment schedules after the programs were written. After the exclusive reservation requirements have been relaxed, the NHA constituent unit having control of the public war housing involved shall permit such housing to be occupied in the following order of preference: (1) Eligible war workers under the existing rules; (2) eligible in-migrant military personnel, viz, enlisted men in the naval or military services of the United States or officers of the Army or Marine Corps not above the rank of Captain, and officers of the Navy and Coast Guard not above the grade of Lieutenant, Senior Grade, assigned to duty at military or naval reservations, posts or bases, or to duty at defense industries; (3) other civilian war workers (as defined in NHA General Order No. 60–1B) or eligible mil-

[1] All public war housing projects undertaken pursuant to (a) the Lanham Act (Public No. 849, 76th Congress) as amended (including conversion projects undertaken under the supervision of NHA Homes Use Service), (b) Public Acts Nos. 9, 73, 353, 77th Congress, and (c) Public Act No. 781, 76th Congress; all projects of Defense Homes Corporation; and all Federally-owned projects undertaken pursuant to Public Act No. 671, 76th Congress.

[2] In such projects, tenants are selected by the local commandant.

[3] Federally-aided local authority-owned Public Act No. 671 projects and priority assisted Public Act No. 412 projects.

[4] Tenant selection, in projects included in this paragraph (b) which are located in States that have not enacted appropriate defense or war housing legislation, is subject to low income limitations of applicable state housing legislation; and with respect to those projects which are not converted to Public Act No. 671, tenant selection is subject also to the low income limitations of the United States Housing Act and of applicable state housing legislation.

[5] FPHA-operated PWA Housing Division projects, local authority-leased PWA Housing Division projects, and non-farm housing projects transferred to FPHA from FSA pursuant to the provisions of paragraph 1 (g) of Executive Order 9070 (7 F.R. 1529).

[6] On all projects described in this paragraph (c) where there are outstanding lease or sale agreements, compliance with the provisions of this order is subject to appropriate modification of such outstanding lease or sale agreements to conform them to the provisions of this order. On all PWA Housing Division projects, compliance with the provisions of this order is subject to the obtaining of appropriate Presidential findings and conversion to Public Act No. 671.

[7] The conditions under which priority assistance for these projects were granted defined reasonable preference as meaning that each dwelling unit shall be reserved for occupancy by in-migrant or resident war workers for 30 days after the entire project is available for occupancy or 90 days from starting to take tenant applications, whichever period is longer.

[8] Includes Federally-aided local authority-owned Public Act No. 671 projects and priority assisted Public Act No. 412 projects, but excludes normal low rent housing projects under Public Act No. 412 which merely obtained civilian priority assistance without a requirement of reasonable preference for war workers.

itary personnel; or (4) (in the event there is no present or anticipated demand for occupancy by such other civilian war workers or military personnel) others eligible for occupancy as determined and prescribed by the NHA constituent unit having control of the public housing involved.

(d) When relaxation of exclusive reservation requirements is contemplated for an entire locality or for a very substantial volume of public war housing, as distinguished from individual cases or relatively small volumes of housing, the regional representative shall feel free if he deems it necessary to consult with the Office of the Administrator prior to taking action. What constitutes a "very substantial volume" of public war housing varies with local conditions, but a volume amounting to more than 25 percent of the total number of public war housing units in the locality would certainly be so considered. Whether the relaxation be individual, small or substantial, the regional representative shall notify the Office of the Administrator of action taken as promptly as feasible, in order that such Office may keep abreast of current developments.

This order shall become effective November 12, 1943.

JOHN B. BLANDFORD, JR.,
Administrator.

TITLE 32—NATIONAL DEFENSE

Chapter IX—War Production Board

Subchapter B—Executive Vice-Chairman

AUTHORITY: Regulations in this subchapter issued under sec. 2 (a), 54 Stat. 676, as amended by 55 Stat. 236 and 56 Stat. 176; E.O. 9024, 7 F.R. 329; E.O. 9125, 7 F.R. 2719; W.P.B. Reg. 1 as amended March 24, 1943, 8 F.R. 3666, 3696; Pri. Reg. 1 as amended May 15, 1943, 8 F.R. 6727.

PART 1010—SUSPENSION ORDERS

[Suspension Order S-480]

LYNN DYEING & FINISHING CO., INC.

Lynn Dyeing and Finishing Company, Inc., of 51-61 Keen Street, Paterson, New Jersey, is engaged in the business of dyeing textiles, in which it uses dyes with anthraquinone derivatives which are controlled by Conservation Order M-103. During the third and fourth quarters of 1942 and the first quarter of 1943 it used six hundred pounds of such dyes in excess of the amount allocated to it by the War Production Board. Such excessive use was the result of gross negligence in failing to comply with the conditions of the allocation made to the company on October 31, 1942, together with its purchase of such dyes in the first quarter of 1943 although no quota had been assigned to it for that period. Its conduct must be deemed wilful.

The present quota for anthraquinone Class C dyestuffs contained in Conservation Order M-103 is expressed in dollars, rather than pounds, and the formula is, in substance, $1.50 to the pound.

These violations of Conservation Order M-103 have hampered and impeded the war effort of the United States by diverting scarce materials to uses unauthorized by the War Production Board. In view of the foregoing, it is hereby ordered, that:

§ 1010.480 *Suspension Order No. S-480* (a) During each of the first three calendar quarters of 1944, Lynn Dyeing and Finishing Company, Inc., its successors or assigns, shall abstain from receiving in any quarter, and no person shall sell or deliver to Lynn Dyeing and Finishing Company, Inc., its successors or assigns, anthraquinone Class C dyestuffs of a value in excess of the difference between its duly allotted quota for such period, calculated in dollars, and the sum of three hundred ($300) dollars, unless otherwise authorized in writing by the War Production Board.

(b) Nothing contained in this order shall be deemed to relieve Lynn Dyeing and Finishing Company, Inc., its successors or assigns, from any restriction, prohibition or provision contained in any other order or regulation of the War Production Board, except in so far as the same may be inconsistent with the provisions hereof.

(c) This order shall take effect on issuance and shall expire on September 30, 1944.

Issued this 5th day of January 1944.

Recording Secretary.

PART 944—REGULATIONS APPLICABLE TO THE OPERATION OF THE PRIORITIES SYSTEM

[Priorities Reg. 3, Int. 8]

ELECTRONIC INTERCOMMUNICATING SYSTEMS AND WIRE INTERCOMMUNICATING SYSTEMS

The following interpretation is issued with respect to Priorities Reg. 3:

List B of Priorities Regulation 3 (§ 944.23) forbids the use of blanket MRO ratings to obtain electronic intercommunicating systems or wire intercommunicating systems. This restriction applies only to getting systems not yet installed. Therefore, blanket MRO ratings may be used to obtain repair parts and materials for existing intercommunicating systems. Also, those blanket MRO ratings which may be used for minor capital additions, may within prescribed dollar limits be used to add stations to an existing intercommunicating system to bring it to its designed capacity. Thus, if an intercommunicating system is designed for 16 stations, with only 12 stations originally installed, four stations may be added by the use of blanket MRO ratings. However, an expansion beyond the 16 stations, or any enlargement of or an extension beyond the designed capacity, may not be obtained by use of blanket MRO ratings.

In conjunction with the above interpretation, it should be pointed out that a related item, signal and alarm equipment, also appears on List B of Priorities Regulation 3. With respect to signal and alarm equipment, blanket MRO ratings may be used to get parts and materials for repair and maintenance of existing equipment. However, since signal and alarm equipment is generally installed without a specific margin of unused designed capacity, no additions or extensions by the use of blanket MRO ratings are permitted.

APPENDIX

Specifications for Valves and Valve Parts

The following specifications govern the manufacture of valves and valve parts. These specifications do not purport to contain any recommendations regarding the most efficient or safe use of any valve or valve parts covered herein.

Certain of the terms used in this appendix (including the terms valves and valve parts) are defined in the body of this order, L-352. In addition, certain exceptions are made, and certain obligations imposed upon producers and others. You should, therefore, be thoroughly familiar with the body of the order before reading this appendix.

PART 1

Iron Gate, Globe, Angle, Cross, and Check Valves and Valve Parts

1. *Standard size schedule: Iron valves.* (a) Valves shall be manufactured only in the pressure classes listed in Table 1 and in the particular sizes, specified in Table 2, which are comprehended within the size range specified in Table 1 for the particular pressure class:

TABLE 1

[All size ranges are inclusive]

Primary [1] pressure classifications in pounds per square inch		Gates (inches)			Globe and angle (inches)		Lift check (inches)		Swing check (inches)

	600	2 to 6	3 to 12							3 to 12	

[1] The primary pressure classification designates a class of valves and does not necessarily mean that all sizes in a given class carry the primary pressure classification. American Standards Association standards and manufacturers practice frequently reduce the pressure ratings as size increases and may not always rate valves for both steam and water.

[2] In sizes 3" and smaller the 150# and 300# primary pressure classification valves are included as substitutes for brass valves. Flanged valves may be rated in accordance with the American Flange Standard used.

NOTE: Other valve end connections in common use on the date of issuance of this order, including among others, the types known as Victaulic, Dresser and Universal, may be manufactured, but only in accordance with the specifications listed in Table 1. For the purposes of this order, "common use" means use by at least ten companies.

PART 3208—SCHEDULED PRODUCTS

[General Scheduling Order M-293, Dir. 1 under Table 8, as amended]

PRODUCTION OF BOILERS FOR STOCK

The following Direction is issued pursuant to Table 8 of General Scheduling Order M-293:

In order to conserve materials and manufacturing facilities for the production of land power boilers, boiler units and auxiliaries listed on Table 8 of General Scheduling Order M-293, and to prevent the accumulation of duplicate stocks of such boilers, units and auxiliaries in the hands of manufacturers, dealers and warehouses, the following Direction under Table 8 of M-293 is issued:

(1) Notwithstanding the provisions of Priorities Regulation 1, or of paragraphs (c) (2) and (d) (2) of General Scheduling Order M-293, no manufacturer shall, without specific authorization from the War Production Board, begin production of any boiler, boiler unit or auxiliary listed on Table 8 of General Scheduling Order M-293, which the manufacturer knows, or has reason to believe, will be held in the stock of any manufacturer, wholesaler, dealer or any other person rather than shipped directly for installation.

(2) Application for specific authoriztion may be made either by letter or by notation on the Form WPB-1790 which the manufacturer files to show his proposed shipping schedule.

Issued this 6th day of January 1944.

PART 3270—CONTAINERS

[Supplementary Order L-103-b as Amended Jan. 4, 1944]

GLASS CONTAINER AND CLOSURE QUOTAS

Section 3270.36 *Supplementary Order* L-103-b is amended to read as follows:

§ 3270.36 *Supplementary Order L-103-b.*

What This Order Does

This order lists the only products which may be commercially packed in new machine-made, glass containers or with new metal closures. It specifies closure materials and sets forth the number of glass packages and metal closures which may be used for each listed product. In addition, some restrictions are placed upon the manufacture of closures.

The order limits "commercial packs" only. Although there are certain manufacturing restrictions, the use of glass containers or metal closures for home canning purposes is not affected.

Likewise, the provisions of this order cover only *new* glass containers and closures. Used containers, or closures are not limited. However, closures which are fabricated from used closures—that is, where the used closures are a production material—are regarded as new closures made of "waste" and are governed by the pertinent provisions of this order.

Definitions of the various terms used in this order appear in paragraph (x) hereof.

Restrictions On Use of Glass Containers and Closures

(Note exceptions from these restrictions in paragraphs (p) through (v)).

(a) *Prohibited acceptances and uses of glass containers and closures.* No packer shall accept delivery of or use any new glass container, or any new metal closure for packing any product not listed in a schedule of this order.

(b) *Limitations on acceptance and use of glass containers and closures.* Likewise, during any calendar year beginning with 1944, no packer shall accept delivery of or use, for packing any product which is listed in a schedule of this order, more new glass containers or more new metal closures (other than closures made from waste) than his quota for that product. However, jobbers or retailers may obtain closures and glass containers and resell them in conformity with the provisions of this order.

(c) *Closure materials.* No packer shall accept delivery of or use, for packing any product, new metal closures made of any material except those permitted for that product in the schedules of this order. However, blackplate closures (including rejects) may be used wherever tinplate or terneplate is specified, and frozen plate may be used wherever tinplate, terneplate or blackplate is specified. Likewise, closures made of waste may be used in accordance with the following paragraph:

(d) *Closures made of waste.* Closures made of waste shall not be used for packing any product not listed in the schedules attached to this order. Closures made of waste may be used in addition to specified quotas for listed products.

(e) *Home canning jars.* No packer shall pack any commodity in a home canning jar. (Note that the use of these jars for home canning is not restricted).

Quotas

(f) *General.* Closure and glass quotas are stated separately in the attached schedules, and are not necessarily the same for any given product.

Quotas are not interchangeable as between listed products. That is, a packer who packs two products, product A and product B, must compute his quota (in the manner described in the following paragraph (g)) for each product separately. He cannot allot any portion of his quota for product A to product B, even if he does not pack his full quota of product A.

Furthermore, quotas may not be transferred from one packer to another except as provided in Priorities Regulation 7A.

(g) *Computation of quotas.* In most cases where this order provides a quota for the packing of any product, it does so, in the attached schedules, by stating a percentage figure followed by a calendar year—for instance, 100% 1943. Where this appears in the "glass quota" column opposite a product, it means, unless otherwise specified, that a packer's glass container quota for that product during 1944 and subsequent calendar years is computed as follows:

(1) He takes the number of new glass containers which he used for packing that product during the named base year.

(2) He subtracts the number of new glass containers which he used for packing that product during the named base year and which were quota exempt under the provisions of any prior order of the War Production Board or under any previous amendment of this order.

(3) He multiplies the resulting figure by the applicable percentage.

Identical rules apply to the computation of closure quotas, except that unless otherwise specified they are based on the number of new metal closures used during the specified base period.

The schedules of this order provide that the quotas for some products are based on the number of new metal closures or new glass containers accepted rather than those used during the specified base period. Here again, the method of computation, described in this paragraph, applies, except that the word "accepted" should be substituted for the word "used" in steps 1 and 2 above. Only the new metal closures or the new glass containers which a packer actually accepted delivery of and those which were invoiced to him during the applicable base period may be included in his quota base in such cases. But, for the purpose of making charges against quota, a packer must include the new metal closures and the new glass containers which he actually accepts delivery of, and those which are set aside for him or held by another party for his account—whether or not they are actually invoiced to him.

In a few cases, the schedules of this order set forth special rules, not covered by the above, for the computation of quotas for particular products. Such rules must be followed, and supersede the general statements contained in this paragraph (g) to the extent that they conflict with them.

(h) *Use of quotas.* As indicated above, most quotas are based on past use. The word "use" refers only to the actual filling operation in the case of glass and the actual capping operation in the case of closures. Therefore, to the extent that a person did not do this directly during the base period, he has no quota, despite the fact that he may have supplied the actual packer with the product, closures, containers, etc. After December 31, 1943, any packing done for him must be within the quota of the person performing the actual filling and capping operation.

In the case of products whose quotas are based upon acceptances, a person is deemed to have "accepted" glass containers or closures (for the purpose of computing quotas) only to the extent that he himself actually took possession of them or had them invoiced to him. If he did not do this during the base period, he has no quota, and the rules stated in the preceding paragraph of this paragraph (h) apply.

Packers who use or accept new glass containers or metal closures for packing products for the account of others, as well as for their own account, must conduct both operations within their own quotas. Without a special appeals grant under this order, they cannot regard their use or acceptances of glass containers and metal closures for the account of others as an addition to their quotas. This is true even where the other person may represent to the packer that he has a quota which he is not using himself.

On the other hand, packers are entitled to include, in their own quota bases, their use or acceptances of new glass containers or new metal closures, for the account of others during the specified base periods.

Restrictions on Sale and Delivery of Class Containers and Closures

(i) *General restrictions.* No person shall sell or deliver any glass containers or closures which he knows, or has reason to believe, will be accepted or used in violation of any provision of this order.

(j) *Export deliveries.* During any calendar year, no person shall sell or deliver more empty new glass containers or more new metal closures to persons outside of the 48 States of the United States and the District of Columbia than he sold or delivered to such persons during 1943.

(k) *Certificates.* No person shall sell or deliver any new glass containers or new metal closures except under a purchase order or contract validated by the delivery to such person of a purchaser's certificate, signed manually, or as provided in Priorities Regulation 7.

This certificate shall be in substantially the form attached hereto as Exhibit A in the case of sales or deliveries of all glass containers, and of all metal closures except malt and non-alcoholic beverage closures. Attention is called to the fact that this certificate, once filed by a purchaser with a supplier, covers all future deliveries from that supplier to that purchaser.

The certificate should be in substantially the form attached hereto as Exhibit B, where sales or deliveries of malt or non-alcoholic beverage closures are concerned. This certificate differs from Exhibit A in that it must be filed with each purchase order for beverage closures in order to validate the order.

(l) *Outstanding certificates.* Certificates previously filed with a supplier under any previous amendment of this order, shall remain valid insofar as sales or deliveries of glass containers are concerned. Exhibit A certificates previously filed under order M-104, shall remain valid insofar as closure (other than malt or non-alcoholic beverage), deliveries are concerned. In either of the above cases, no new certificate need be filed by any purchaser to validate his orders placed with the supplier to whom the previous certification was made.

(m) *Cases where certificates need not be filed.* No certificates shall be required for the sale or delivery of home canning jars or home canning closures, nor shall any certificates be required for the sale or delivery of any kind of glass containers or closures to: (1) Retailers, for resale empty or unused; or (2) persons purchasing closures or glass containers from retailers.

(n) *Standard certifications.* The standard certification provided for in paragraph (d) of Priorities Regulation 7, cannot be used in place of the certifications provided by this order; nor may the certifications provided by this order be waived in accordance with paragraph (f) of Priorities Regulation 7.

Restrictions Relating Solely to Manufacture of Closures

(o) *Closure material* (1) No person shall use any zinc, aluminum, tinplate, terneplate, blackplate, frozen plate, waste-waste or waste for the manufacture of the following types of closures:

(i) Cover caps which serve as a protective or decorative closure in addition to any original sealing medium (other than paraffin) such as another closure.

(ii) Double shell or semi-double shell caps.

(iii) Two-piece closures when both pieces are made of metal, except as permitted in paragraph (o) (2).

(2) No person shall use any zinc, aluminum, tinplate, terneplate, blackplate, or wire for the manufacture of any closure of the home canning type, except as, and to the extent permitted in Schedule VII attached to this order. No closure manufactured pursuant to Schedule VII shall knowingly be sold to, or used by, any person for packing any product for sale.

(3) No person shall use any tinplate, terneplate or blackplate heavier than 90 pounds per base box for the manufacture of crown caps. This restriction does not apply to rejects, frozen plate or waste-waste.

(4) No person shall use for the manufacture of closures any tinplate with a tin coating in excess of 1.25 pounds per base box; and all persons manufacturing closures shall, to the greatest extent available, use 0.50 tinplate for the manufacture of closures for which tinplate is permitted by the provisions of this order.

(5) No person shall use any wire for the manufacture of paperboard disc plug caps, having a diameter of two inches or less, for milk bottles.

Exceptions Pertaining to Both Glass Containers and Closures

(p) *Deliveries to certain agencies and persons.* Nothing in this order shall prohibit the purchase, acceptance of delivery, or use (such use to be in addition to any quota specified in the schedules attached to this order) of glass containers or closures by any of the following persons or by any person for packing any product to be delivered to or for the account of any of the following persons:

(1) Army, Navy, Marine Corps, Maritime Commission, or War Shipping Administration of the United States (including persons operating vessels for

such Administration or Commission for use thereon).

(2) Any person for packing products for retail sale or distribution through post-exchanges, sales commissaries, officers' messes, servicemen's clubs, ship service stores, or outlets; provided same are located at Army or Navy Camps, are not operated for private profit and are established primarily for the use of Army or Navy enlisted personnel within Army or Navy establishments or on Army or Navy vessels.

(3) American Red Cross, United Service Organizations, or such other nonprofit Defense Recreation Committees, engaged in the operation of recreation centers in the 48 States of the United States or the District of Columbia solely for military personnel, as are certified to be within the exemption provided by this paragraph (p) (3) by the Office of Defense Health and Welfare Services, OEM.

(4) Any agency of the United States purchasing for a foreign country pursuant to the Act of March 11, 1941, entitled "An Act to Promote the Defense of the United States" (Lend-Lease Act).

(q) *Special provisions in schedules relative to exempt deliveries to certain agencies and persons.* The schedules of this order contain certain limitations on the exception provided by the preceding paragraph (p) in the case of certain products—as, for instance, ice cream mix and malt and nonalcoholic beverages. In such cases, the provisions of the schedules are controlling and supersede paragraph (p) to the extent that they conflict therewith.

Exceptions Relative to Glass Containers Only

(r) *Small users.* The restrictions of this order which pertain to glass containers shall not apply to any person during any calendar year in which he accepts no more than a total of five hundred ($500.00) dollars worth (cost price to him) of empty new glass containers for all products.

(s) *Large size glass containers.* The restrictions of this order which pertain to glass containers shall not apply to any glass container with a capacity larger than 140 fluid ounces.

(t) *Glass containers manufactured prior to the date of this order.* The restrictions of this order shall not prevent any person's acceptance or use, for a product not listed in the schedules of this order, of any glass container manufactured before January 1, 1944, if the glass container in question was originally manufactured for the purpose of packing an unlisted product, or was originally manufactured for packing a listed product but has a capacity not permitted for that product in the attached schedules of this order. This paragraph does not permit the quota free use of glass containers for listed products regardless of when the containers were manufactured.

(u) *Quota free use of certain glass containers in inventory of packer on or before December 31, 1943.* To the extent that as of January 1, 1944, a packer had in his possession, empty glass containers which he was permitted to accept under paragraphs (b) (c) and (d) of order L–103–b as amended November 1, 1943, (excluding containers which he was permitted to accept under paragraph (e) of that order), he may use them during 1944 for packing any listed product in addition to his quota for that product. Nothing in this paragraph shall permit the quota free use of glass containers "borrowed" against anticipated 1944 usage, in accordance with paragraph (e) of this order as amended November 1, 1943.

Exceptions Pertaining to Closures Only

(v) *Small users.* The restrictions of this order which pertain to closures shall not apply to any person during any calendar year in which he accepts no more than five thousand new metal closures for all products.

Prior Appeals

(w) *Appeals granted prior to December 31, 1943 under Order M–104 and Order L–103–b.* All appeals granted prior to December 31, 1943 under orders L–103–b and M–104 are cancelled and shall be ineffective on and after January 1, 1944. Therefore, after that date, no person shall accept delivery of or use or shall manufacture, sell or deliver any new glass container or any new metal closure except in accordance with the provisions of this order—unless he receives a new grant on appeal after January 1, 1944.

SCHEDULES—GENERAL EXPLANATION

Schedules I through VI list the only products which may be packed in new glass containers or with new metal closures. Schedule VII relates to the manufacture of home canning closures.

The data set forth in the two "quota" columns, opposite each product, indicate the number of new glass containers and new metal closures (determined in accordance with the general rules set forth in paragraph (g) of Order L–103–b), which may be used for packing that product. However, any special quota provisions which these schedules make applicable to any product, are controlling to the extent that they conflict with paragraph (g).

The "X" mark which appears opposite each product in one of the columns headed "closure material" indicates that, except as listed hereafter, only closure made of the specified material may be used to pack that product. The general exceptions from this rule are:

(i) Closure made of blackplate (including rejects) may be used, within quotas, wherever tinplate or terneplate is specified.

(ii) Closures made of frozenplate may be used, within quota, wherever either tinplate, terneplate or blackplate is specified.

(iii) Closures made of waste may be used in addition to specified quotas for list 1 products.

All special provisions of these schedules relating to closure materials for specific products must be followed, and control to the extent that they conflict with the above.

All size specifications for glass containers set forth in these schedules must be followed in addition to the provisions of Order L–103 and its schedules.

Attention is called to paragraphs (p) through (v) of Order L–103–b which establish limited exceptions to the provisions of this order. Here again, any special provisions which these schedules contain relative to quota exceptions—as in the case of ice cream mix and certain beverages—must be observed.

SCHEDULE I—FOODS

No product packed in a can shall be repacked for sale in a glass container by the same or a different person, in the same or a different form, except as follows (or as otherwise specifically permitted in this schedule):

(i) When required for the packing of other products, pineapple may be repacked from No. 10 cans. Grape juice, grape pulp, citrus peel and pulp may be repacked from reusable cans, 5-gallons or larger. Apricots and peaches, solid pie pack, may be repacked from No. 10 cans or larger. No. 10 cans cut under this provision must be properly cleaned and returned to the nearest detinning plant.

(ii) Tomato paste, tomato pulp or puree, and tomato sauce may be repacked from No. 10, or from 5-gallon or larger reusable cans when required for packing other products, or for repacking in different form (other than in the form of tomato paste or tomato pulp or puree), but none may be repacked in the same form. No. 10 cans cut under this provision must be properly cleaned and returned to the nearest detinning plant.

Closures made of aluminum may be used for any product listed in this schedule to the extent that the packer used aluminum closures for the same product in 1941. However, all aluminum closures must be used within, and charged to, the quotas established by this schedule. Closure manufacturers must obtain permission from the Administrator of Order M-1-i to receive aluminum plate.

PART 3285—LUMBER AND LUMBER PRODUCTS

[Conservation Order M-361, Direction 1]

DELIVERIES OF SOUTHERN YELLOW PINE LUMBER TO FARM MACHINERY MANUFACTURERS

The following direction is issued in accordance with Order M-361, paragraph (d):

(a) This direction tells how a manufacturer of farm machinery may get the restricted Southern yellow pine lumber he needs for production material without having to file on Form WPB-2720.

(b) A manufacturer of farm machinery must endorse the following certificate on his purchase orders:

All restricted Southern yellow pine lumber covered by this purchase order or contract is required in order to enable me to fulfill an authorized production schedule for the production of farm machinery and equipment. Delivery may be made to me under Direction 1 to Order M-361, with the terms of which I am familiar.

Purchaser

By ---
Duly authorized official

Date ---

(c) Any producer may sell, ship, or deliver restricted Southern yellow pine lumber (either directly or through one or more intervening persons) to fill any order or contract bearing such a certificate, just as if the order were certified in the way prescribed by paragraphs (b) (1) or (b) (2) of Order M-361. The use of the above form of certificate by the buyer and delivery by the producer is subject to all the terms and conditions of M-361 with respect to certified orders, so far as applicable. No one may use the certificate to get more lumber than the minimum necessary to fulfill his authorized schedules for the production of farm machinery, or to get lumber for any use except as production material: for example, no one can get lumber under this direction for boxing and crating his product. The inventory restrictions of paragraph (c) of Order M-361 are waived so long as the above restrictions are complied with.

(d) Manufacturers of farm machinery who get Southern yellow pine lumber under this direction shall report by letter, ten days after the end of each quarter, to the War Food Administration, Office of Materials and Facilities, Washington, D. C., stating their inventories of Southern yellow pine for production material at the beginning of the quarter, the amount delivered to them for production material during the quarter, and the amount used for production material during the quarter, whether obtained under this direction or in some other way. This reporting requirement has been approved by the Bureau of the Budget in accordance with the Federal Reports Act of 1942.

(e) Manufacturers of farm machinery do not have to get restricted Southern yellow pine lumber under this direction unless they want to. They may get it in any other way that is allowed under M-361. For example, a small manufacturer who buys from a mill producing less than 10,000 board feet a day may prefer not to change his arrangement. Manufacturers who buy from a limited number of sources may prefer to file on WPB-2720.

(f) "Farm machinery" means farm machinery and equipment as defined in Orders L-257 and L-257-a. "Production material" means material for the production of farm machinery.

Issued this 6th day of January 1944.

(c) Any producer may sell, ship, or deliver restricted hardwood lumber (either directly or through one or more intervening persons) to fill any order or contract bearing such a certificate, just as if the order were certified in the way prescribed by paragraphs (b) (1) or (b) (2) of Order M-364. The use of the above form of certificate by the buyer and delivery by the producer is subject to all the terms and conditions of M-364 with respect to certified orders, so far as applicable. No one may use the certificate to get more lumber than the minimum necessary to fulfill his authorized schedules for the production of farm machinery, or to get lumber for any use except as production material: for example, no one can get lumber under this direction for boxing and crating his product. The inventory restrictions of paragraph (c) of Order M-364 are waived so long as the above restrictions are complied with.

(d) Manufacturers of farm machinery who get restricted hardwood lumber under this direction shall report by letter, ten days after the end of each quarter, to the War Food Administration, Office of Materials and Facilities, Washington, D. C., stating their inventories of restricted hardwood for production material at the beginning of the quarter, the amount delivered to them for production material during the quarter, and the amount used for production material during the quarter, whether obtained under this direction or in some other way. This reporting requirement has been approved by the Bureau of the Budget in accordance with the Federal Reports Act of 1942.

(e) Manufacturers of farm machinery do not have to get restricted hardwood lumber under this direction unless they want to. They may get it in any other way that is allowed under M-364. Suppliers who customarily resell exclusively on small orders shall not be subject to the limit on total small orders imposed by paragraphs (c) (2) (i) (ii) and (iii) above.

(d) *Defense plant production exemption.* Formaldehyde, hexamethylenetetramine and pentaerythritol produced by any department or agency of the United States Government, or produced in any plant owned by any agency of the United States Government, and which is delivered to and consumed by any such department, agency or plant, may be so used and delivered without specific authorization under this order, notwithstanding the provisions of paragraph (b) (1).

PART 3293—CHEMICALS [1]

[Allocation Order M-291, as Amended Jan. 6, 1944]

POTASH

The fulfillment of requirements for the defense of the United States has created a shortage in the supply of potash for defense, for private account and for export; and the following order is deemed necessary and appropriate in the public interest and to promote the national defense:

§ 3293.386 [1] *Allocation Order M-291* — (a) *Definitions.* (1) "Potash" means the following primary potash salts: muriate of potash, sulfate of potash, sulfate of potash-magnesia and run-of-mine potash.

(2) "Potassium oxide" (hereinafter referred to as "K_2O") means the highly caustic oxide of potassium. As such it does not exist commercially but is used as a standard unit of measure in determining the relative value of potash salts.

(3) "Muriate of potash" means the chloride salt of potassium. In commerce it is offered in two grades: muriate of potash containing 48 to 52 per cent K_2O, and high grade muriate of potash containing 58 to 62.7 per cent K_2O.

(4) "Sulfate of potash" means commercial potassium sulfate, a potash salt containing approximately 48 per cent or more K_2O, chiefly as sulfate. It does not include recrystallized salt.

(5) "Sulfate of potash-magnesia" means a potash and magnesia salt containing from approximately 18 to 25 per cent K_2O and 18 to 25 per cent sulfate of magnesia.

(6) "Run-of-mine potash" (also known as manure salts and kainit) means potash salts containing a high percentage of chlorides and containing more than 18 and less than 48 per cent K_2O.

(7) "Producer" means any person engaged in the production of potash and includes any person who has potash produced for him pursuant to toll agreement.

(8) "Distributor" means any person who, for his own account or as agent or broker for any producer, sells potash in any form. The term includes importers but does not include any manufacturer (including any fertilizer manufacturer) to the extent that he uses potash as one of his raw materials, any person who purchases potash exclusively for sale at retail, or any governmental agency which delivers fertilizers to farmers.

(9) "Supplier" means a producer or distributor.

(10) "Period" means one of the three periods specified in paragraphs (a) (11), (a) (12) and (a) (13).

(11) "Period One" means April 1, 1943 through May 31, 1943.

(12) "Period Two" means June 1, 1943 through March 31, 1944

(13) "Period Three" means April 1, 1944 through May 31, 1944.

(b) *Restrictions on deliveries and use.* (1) On and after April 1, 1943 no supplier shall deliver potash to any person, and no person shall accept delivery of potash from a supplier except as specifically authorized or directed by the War Production Board.

(2) Authorizations or directions with respect to quantities of potash which may be received in any period will be issued by the War Production Board as soon as possible after the receipt of the applications called for by paragraph (e) (1) hereof. Thereafter, after persons so authorized to receive potash have placed with producers or distributors their orders for potash within the totals provided in such authorizations and such producers and distributors have made application pursuant to paragraph (e) (3) to make delivery to such persons, the War Production Board will issue to each producer or distributor authorizations with respect to deliveries to be made. The War Production Board may, however, at any time, at its discretion, and notwithstanding the provisions of paragraph (c) hereof, issue directions with respect to deliveries to be made or accepted or with respect to the use or uses which may or may not be made of potash to be delivered or then on hand. Insofar as authorizations or directions relate to the quantities of particular grades of mixed fertilizer to be manufactured from potash or to the quantity of potash to be made available for direct application to the soil, such authorizations or directions will so far as practicable be issued in conformity with needs for grades of mixed fertilizer or for potash as determined by the Director of Food Production of the Department of Agriculture.

(3) Each person specifically authorized to accept delivery of potash shall use such material for the purpose authorized and only for such purpose except as otherwise specifically directed by the War Production Board.

(c) *Exceptions to requirement for specific authorization.* Notwithstanding the provisions of paragraph (b) (1) hereof, specific authorization of the War Production Board shall not be required for:

(1) Acceptance of delivery by any person from all sources in any period of not more than 5 tons of potash for each month of such period, in terms of K_2O content;

(2) Delivery by any supplier in any period to any person who shall have furnished to such supplier a certificate in substantially the following form:

The undersigned hereby certifies that the potash hereby ordered to be delivered in Period ---------- [insert One, Two or Three] does not, taken with all other potash delivered or to be delivered from all sources in such period, exceed 5 tons for each month of such period, in terms of K_2O content.

Name of purchaser

By---------- ----------

Authorized official Title

Date

The above certificate shall constitute a representation to (but shall not be filed with) the War Production Board. Such certificate shall be signed by an authorized official, either manually or as provided in Priorities Regulation No. 7. The receipt of such certificate shall not authorize the delivery of such potash by a supplier where he knows or has reason to believe the same to be false, but in the absence of such knowledge or reason to believe, he may rely on the certificate;

(3) Delivery by any supplier to any person in any period prior to the receipt of any specific authorization or direction of the War Production Board with respect to deliveries to be made in such period of not more than 20% of the quantity of any potash salt delivered by such supplier to such person during the corresponding period in the 12 months ending March 31, 1943. Any person delivering or receiving potash delivered in any period pursuant to this paragraph (c) (3) shall charge the amount so delivered or received against the amount which he is or may be specifically authorized or directed to deliver or receive in such period, and against any amount which may be delivered or received pursuant to paragraphs (c) (1) and (c) (2);

(4) Delivery by any supplier to any person, and acceptance of delivery by any person from any supplier, of any undelivered balance under any contract which provides for completion of delivery prior to April 1, 1943;

(5) Delivery by any supplier to any person, and acceptance of delivery by any person from any supplier, of any potash which such supplier has been directed by specific direction of the War Production Board to deliver to such person prior to May 1, 1943.

(4) "Supplier" means a producer or distributor.

(b) *Restrictions on deliveries.* (1) On and after the applicable effective date stated in Appendix A, no supplier shall deliver a subject chemical to any person except as specifically authorized or directed in writing by War Production Board. No person shall accept delivery of a subject chemical which he knows or has reason to believe is delivered in violation of this order.

(2) Authorizations or directions as to deliveries to be made by suppliers in each calendar month will generally be issued by War Production Board prior to the beginning of such month, but may be issued at any time. They will normally be issued on Form WPB–2947 (formerly PD–602) which is to be filed by the supplier with War Production Board as explained in paragraph (g) below.

(3) If a supplier is authorized or directed by War Production Board to deliver a subject chemical to any specific customer or group of customers, but is unable to make the delivery either because of receipt of notice of cancellation or otherwise, the subject chemical shall revert to inventory, and shall not be delivered, or used, without further instructions.

(c) *Exceptions for small deliveries.* (1) Specific authorization in writing of War Production Board is not required for delivery by any supplier to any person in any calendar month of a subject chemical in a quantity not exceeding the quantity stated in Column 3 of Appendix B.

(2) On and after February 1, 1944, no supplier shall use more than 1000 pounds of cyanide (computed on 96% basis) during any calendar month except as specifically authorized in writing by the War Production Board, upon application pursuant to Appendix B.

(e) *Small order exemption.* (1) Any person may accept delivery of 1000 pounds or less of cyanide (computed on 96% basis) in the aggregate from all suppliers in any calendar month without restriction under this order, if acceptance of such delivery will not cause his inventory to exceed 200 pounds (computed on 96% basis) or a 45-day supply, whichever is greater.

(2) A supplier may fill small orders for 1000 pounds (computed on 96% basis) or less of cyanide, if he delivers not more than this quantity to any customer in any calendar month, and if the total amount delivered on all small orders does not exceed the following:

(g) *Duration of authorization for delivery.* If it is not practicable for a supplier to make all deliveries in the month for which authorized, he may complete them as early as practicable in the next month, but the purchaser must place his purchase order before the end of the authorized month and may not require postponement of delivery beyond 10 days after the authorized month.

(h) *Duration of authorization for use.* Each person specifically authorized to accept delivery of cyanide upon application under Appendix B shall use the cyanide for that use within 45 days after receipt of the authorization or of the cyanide allocated for the use, whichever is later. What is not used in this period shall not be used for any purpose until further authorized for use from inventory.

(i) *Notification of customers.* Each supplier is requested to notify his regular customers as soon as possible of this order, but failure to receive such notice shall not excuse any person from complying with the terms hereof.

(j) *Miscellaneous provisions.*—(1) *Applicability of regulations.* This order and all transactions affected hereby are subject to all applicable War Production Board regulations, as amended from time to time.

(2) *Orders M-164 and M-165.* On and after February 1, 1944, cyanide shall not be subject to the provisions of synthetic ammonia General Preference Order M-164 (§ 3293.206, formerly § 1264.1) or of cyanamid General Preference Order M-165 (§ 3293.211, formerly § 1265.1).

(i) A delivered price at the point of exit shall be such that the cost to the purchaser at that point for like quantities and classifications of cement is not in excess of what it was or would have been to a domestic purchaser of the same class for delivery to such purchaser completed between March 1 to 15, 1942. Such price shall be calculated upon the basis of the prices, pricing practices, freight practices, trade discounts, charges (including package charges), allowances, and deposits (other than deposits on cloth bags which may be required in a reasonable amount so long as the refund equals the deposit) most favorable to purchasers in effect, published, listed, or quoted by the seller during the period March 1 to 15, 1942, but upon the basis of the freight rates in effect at the time of any shipment made subsequent to September 23, 1942.

(ii) A price f. o. b. mill in bulk not in excess of the price listed in paragraph (b) (ii) of this section for the Bureau of Mines District in which the mill is located.

(2) *Sales to exporters.* The maximum price for cement sold by a manufacturer to an exporter (a person who buys cement for his own account for sale to a purchaser outside the United States), shall be, except as provided below, the highest of the following:

(i) A price at the destination designated by the purchaser not in excess of the maximum price established under paragraph (a) of this section for a domestic sale at such destination by a mill whose normal market area includes such destination, or

(ii) A price f. o. b. mill in bulk not in excess of the price listed in paragraph (b) (ii) of this section for the Bureau of Mines District in which the mill is located.

(a) The manufacturer may use the alternative pricing method set forth in paragraph (2) (ii) above only if he indicates on the billing that the price has been determined in accordance with § 1346.104 (c) (2) (ii) of this Maximum Price Regulation No. 224 and secures an affidavit from the purchaser that the cement purchased will not be resold in the normal course of trade to a person other than a foreign purchaser, and the manufacturer retains such affidavit in his possession for a period of two years and makes it available for inspection by the Office of Price Administration.

(3) A delivered price may be charged under paragraph (ii) of paragraphs (c) (1) and (2) of this section equal to the f. o. b. mill price plus freight charges incurred by the manufacturer in making delivery to the point of destination: *Provided*, That if the seller makes delivery with his own facilities he may add to the f. o. b. mill price the charges which he customarily made for such transportation services during the period March 1 to 15, 1942, but in no event to exceed the lowest common carrier charge for such shipment by the mode of transportation employed.

(4) The maximum prices established under this paragraph (c) are subject to trade discounts, quantity differentials, charges (including package charges) allowances, and deposits (other than deposits on cloth bags which may be required in a reasonable amount so long as the refund equals the deposit) most favorable to domestic purchasers of the same class, which the manufacturer had in effect, published, listed, or quoted, during the period March 1 to 15, 1942: *Provided, however*, That the manufacturer may add an amount to his maximum domestic price to compensate for export packaging costs in excess of those incurred on domestic sales.

(5) The maximum prices under paragraph (c) (1) (ii) and (2) (ii) may be increased to the extent that a cash discount is offered to purchasers under conditions as favorable as were offered by the seller during the period March 1 to 15, 1942: *Provided*, That during the period of the war emergency a reasonable period of grace sufficient to permit routine handling shall be allowed to any war procurement agency within which to avail itself of the cash discount.

(6) The differentials from the price of American Society for Testing Materials Types 1 and 2 Portland cement which prevailed on March 15, 1942, with respect to American Society for Testing Materials Type 3 Portland cement (high early strength cement), white cement, oil-well cements, masonry cement, and other cement, shall be added to or subtracted from, as the case may be, the maximum selling prices established under this paragraph for American Society for Testing Materials Types 1 and 2 Portland cement, to determine the maximum prices for such other cements.

This Amendment No. 4 to Maximum Price Regulation No. 224 shall become effective January 11, 1944.

NOTE: The record keeping requirements of this amendment have been approved by the Bureau of the Budget in accordance with the Federal Reports Act of 1942.

PART 1367—FERTILIZERS

[2d Rev. MPR 135,[1] Incl. Amdt. 1]

MIXED FERTILIZER, SUPERPHOSPHATE AND POTASH

Section 10 (a) (4) and Schedules C, D, G, I, J, M, N, O and Q are amended; a paragraph is added before Schedule A and paragraph (f) is added to Schedule K by Amendment 1, effective January 11, 1944, so that 2d Revised Maximum Price Regulation 135 shall read as follows:

In the judgment of the Price Administrator, it is necessary and proper to establish maximum prices for sales to consumers of mixed fertilizer, superphosphate and potash which differ from and supersede such maximum prices established under Revised Maximum Price Regulation No. 135, as amended.[2]

The maximum prices established herein are not below the average prices of mixed fertilizer, superphosphate and potash sold to consumers during the year 1941. They do however meet the minimum required by law being above their average prices on September 15, 1942 only to the extent of intervening unabsorbable increases in costs of production and distribution. The Price Administrator has made adjustments for such relevant factors as he has determined and deemed to be of general applicability. So far as practicable, the Price Administrator has advised and consulted with representative members of the industry affected by this regulation.

Such specifications and standards as are used in this regulation were, prior to such use, in general use in the fertilizer industry and have previously been promulgated and their use lawfully required by another Government agency.

A statement of the considerations involved in the issuance of this Second Revised Maximum Price Regulation No. 135 has been issued simultaneously herewith and filed with the Division of the Federal Register.[3]

§ 1367.31 *Maximum prices of mixed fertilizer, superphosphate and potash when sold to consumers.* Under the authority vested in the Price Administrator by the Emergency Price Control Act of 1942, as amended, Executive Order No. 9250 and Executive Order No. 9328, Second Revised Maximum Price Regulation No. 135, Mixed Fertilizer, Superphosphate and Potash, which is annexed hereto and made a part hereof, is hereby issued.

AUTHORITY: § 1367.31 Second Revised Maximum Price Regulation No. 135, issued under 56 Stat. 23,765; Pub. Law 151, 78th Cong.; E.O. 9250, 7 F.R. 7871; E.O. 9328, 8 F.R. 4681.

SEC. 5. *Prohibited practices; general.* Any practice which is a device to get the effect of a higher-than-ceiling price without actually raising the dollars-and-cents price is as much a violation of this Second Revised Maximum Price Regulation No. 135 as an outright overceiling price. This applies to changes in credit practices and cash discounts, and to devices making use of commissions, services, transportation arrangements, premiums, special privileges, tying-agreements, trade understandings and the like.

SEC. 6. *Records and reports.* (a) Every person (including a dealer, agent or other person) making a sale of mixed fertilizer, superphosphate, or potash, in quantities of 250 pounds or more, to a consumer, after November 22, 1943, shall keep for inspection by the Office of Price Administration for so long as the Emergency Price Control Act of 1942, as amended, is in effect, complete and accurate records of each sale, showing the date thereof; and name and address of the buyer, of the person (including an agent) making the sale, and of the manufacturer of the mixed fertilizer, superphosphate or potash; the quantity, grade and kind of the mixed fertilizer, superphosphate or potash sold; the bags or containers in which delivered; the price charged or received therefor; the terms of payment (time, cash, discounts, etc.); and the method and conditions of delivery.

(c) Persons affected by this Second Revised Maximum Price Regulation No. 135, shall submit such other information to the Office of Price Administration as it may, from time to time, require, in order to effectuate the purposes of the Emergency Price Control Act of 1942, as amended.

SEC. 7. *Enforcement.* (a) Persons violating any provision of this Second Revised Maximum Price Regulation No. 135 are subject to the criminal penalties, civil enforcement actions, suits for treble damages, and proceedings for revocation of licenses provided for by the Emergency Price Control Act of 1942, as amended, and Executive Order No. 9250.

C.

SEC. 8. *Petitions for amendment and application for adjustment*—(a) *Amendments.* Persons seeking any modification of this Second Revised Maximum Price Regulation No. 135 or an adjustment or exception not provided for herein may file petitions for amendment in accordance with the provisions of Revised Procedural Regulation No. 1,[8] issued by the Office of Price Administration.

(b) *Government contracts.* (1) The term "government contracts" is here used to include any contract with the United States or any of its agencies, or with the government or any governmental agency of any country whose defense the President deems vital to the defense of the United States under the terms of the Act of March 11, 1941, entitled "An Act to Promote the Defense of the United States." It also includes any subcontract under this kind of contract.

(2) Any person who has made or intends to make a "government contract" and who thinks that a maximum price in this Second Revised Maximum Price Regulation No. 135 is impeding or threatens to impede production of mixed fertilizer, superphosphate, or potash which is essential to the war program and which is or will be the subject of the contract, may file an application for adjustment in accordance with Procedural Regulation No. 6.[9] A copy can be had at any office of the Office of Price Administration.

(3) As soon as the application is filed, deliveries may be made at the requested price, subject to refund if the requested price is disapproved or lowered. The seller must tell the buyer that the delivery is made subject to this refund.

(4) Any manufacturer who is requested by a governmental agency, or a contractor on a governmental project, to submit a bid on, and offer to supply, a grade and kind of mixed fertilizer, superphosphate or potash on which the manufacturer had not established a maximum price, may quote a price, offer for sale, sell and deliver, such commodity to the governmental agency or contractor on a governmental project upon the condition that if the price is later disapproved by the Office of Price Administration, the manufacturer shall forthwith make the appropriate refund to the governmental agency, or its fiscal or disbursing office, or to the contractor on the governmental project, from whom he received payment for the commodity.

[NOTE: Supplementary Order No. 28 (7 F.R. 9619; 8 F.R. 7256) provides for the filing of applications for adjustment or petitions for amendment based on a pending wage or salary increase requiring the approval of the National War Labor Board.]

SEC. 9. *Adjustable pricing.* Any person may agree to sell at a price which can be increased up to the maximum price in effect at the time of delivery; but no person may, unless authorized by the Office of Price Administration, deliver or agree to deliver at prices to be adjusted upward in accordance with action taken by the Office of Price Administration after delivery. Such authorization may be given when a request for a change in the applicable maximum price is pending, but only if the authorization is necessary to promote distribution or production and if it will not interfere with the purposes of the Emergency Price Control Act of 1942, as amended. The authorization may be given by the Administrator or by any official of the Office of Price Administration to whom the authority to grant such authorization has been delegated. The authorization will be given by letter or telegram when the contemplated revision will be the granting of an individual application for adjustment.

1. Section 1 is amended to read as follows:

SECTION 1. *Prohibition against dealing in coal tar at higher than maximum prices.* On and after August 20, 1943, regardless of any contract or other obligation (except as provided in section 3a):

No producer shall sell or deliver coal tar in quantities of 50 gallons or more at a price higher than the maximum price established by this regulation;

No person shall buy or receive coal tar from producers in quantities of 50 gallons or more in the course of trade or business at a price higher than the maximum price so established; and

No person shall agree, offer, solicit, or attempt to do any of the foregoing.

2. A new section 3a is added to read as follows:

SEC. 3a. *Inapplicability of price regulation to transactions under certain types of contracts—(a) Participating contracts.* Nothing in this Maximum Price Regulation No. 447, or in the General Maximum Price Regulation, shall apply to sales or deliveries of coal tar pursuant to a participating contract: *Provided*, That within 30 days following the close of each calendar quarter, the buyer of any coal tar subject to such contract shall submit a written report to the Chemicals and Drugs Branch, Office of Price Administration, Washington, 25, D. C., containing the information required by paragraph (b) hereof.

"Participating contract" is defined in section 9 of this regulation.

(b) *Information required as a condition for exemption of transactions under participating contracts.* The report required by paragraph (a) hereof shall contain the following items of information:

(1) The name of the seller and the location of the seller's plant from which the coal tar was obtained.

(2) The total amount, in gallons, of coal tar purchased during the preceding calendar quarter.

(3) The price per gallon, if any, set forth in the participating contract as the base price to which adjustments are to be applied by the terms of such contract.

(4) The price per gallon for coal tar purchased during the calendar quarter as determined under the adjustment provisions of such contract. In the event that the contract calls for final adjustment and settlement at the end of a period longer than a calendar quarter, the report shall so state, indicating the duration of such longer period.

(5) In the event that final adjustment of price and settlement under a participating contract should cover a period longer than a calendar quarter, the report covering the calendar quarter in which such final adjustment and settlement is required to be made by the contract shall contain the information above required in subparagraphs (1), (2), (3) and (4) for such longer period.

(c) *Barter type contracts.* Exemptions from this Maximum Price Regulation No. 447 and the General Maximum Price Regulation may be authorized by the Office of Price Administration for transactions pursuant to contracts in which the seller of coal tar agrees to barter coal tar in return for fuel oil furnished to him by the buyer of the coal tar. Any such authorization may contain such terms or conditions as are deemed necessary or appropriate in order to comply with or effectuate the purposes of the Emergency Price Control Act of 1942, as amended. The authorization may be given by the Administrator or by any official of the Office of Price Administration to whom the authority to grant such authorization has been delegated. The authorization will be given by order.

(3) The maximum price for any article listed and described in subparagraph (a) (1) of this section which the retailer purchases from a mainland jobber or wholesaler shall be 1.50 times the sum of the wholesaler's or jobber's invoice price plus the amounts set forth in subdivisions (ii), (iii), (iv), (v), and (vi) of subparagraph (b) (2) of this section.

(g) *Maximum prices for assorted job lot merchandise.* In cases where a wholesaler or retailer purchases an assorted job lot of merchandise invoiced to him for a single or blanket price, he may make application to the Office of Price Administration for approval of his own allocation of the cost of such merchandise to the different articles involved. Such application shall show the resulting maximum wholesale or retail prices determined on the basis of such allocated costs.

(h) *Maximum prices for certain merchandise purchased at lower than manufacturer's maximum price.* In cases where a wholesaler or retailer purchases from a manufacturer or wholesaler located outside the Territory of Hawaii any article listed and described in subparagraph (a) (1) of this section, at a price lower than the manufacturer's maximum price and lower than a price which the purchaser previously paid for the same or similar merchandise, and where such lesser price was paid by reason of the size of the purchase or the seasonal nature of the goods, application may be made to the Office of Price Administration for a maximum price for resale of the merchandise, which maximum price is based upon the higher price previously paid to such manufacturer, and the appropriate multiple provided by the section. Any such application must be accompanied by the invoice for the goods in question and the invoice establishing the former higher price, or other evidence of a similar nature.

8. Section 52 (b) (6) is amended, (b) (9) and (c) (9) are added to read as follows:

(6) *Manufacturing-wholesalers and manufacturing-retailers.* The maximum price for sales at wholesale of any article listed and described in paragraph (a) of this section which the wholesaler or retailer makes or has made for him from materials owned by him shall be computed by multiplying the sum of the costs of manufacturing by 1.15. The costs of manufacturing shall include only: (i) the wholesale price of the material, which for the wholesaler shall be no higher than his maximum wholesale price for such material and for the retailer shall be the actual cost of the material to him which may in no case be higher than the wholesale price, (ii) the sewing charges as listed with this office under Maximum Price Regulation 20 of the Military Governor of the Territory of Hawaii or Maximum Price Regulation 165 of the Office of Price Administration, and (iii) the maximum price permitted under this regulation for any block prints which may be printed on the articles by or for the manufacturing-wholesaler or manufacturing-retailer.

(b) (9) *Allowance for block printing.* Where a wholesaler block prints or has block printed for him any article covered in this section he may, for the purpose of determining the maximum price under this regulation, add to the manufacturer's selling price the maximum price permitted by this regulation for such prints.

(c) (9) *Allowance for block printing.* Where a retailer block prints or has block printed for him any article covered in this section he may, for the purpose of determining the maximum price under this regulation, add to the manufacturer's selling price or wholesaler's selling price, depending on the source of purchase, the maximum price permitted by this regulation for such prints.

9. Section 53 (b) (6) is amended, (b) (9) and (c) (9) are added to read as follows:

(6) *Manufacturing - wholesalers and manufacturing - retailers.* The maximum price for sales at wholesale of any article listed and described in paragraph (a) of this section which the wholesaler or retailer makes or has made for him from materials owned by him shall be computed by multiplying the sum of the costs of manufacturing by 1.15. The costs of manufacturing shall include only: (i) the wholesale price of the material, which for the wholesaler shall be no higher than his maximum wholesale price for such material and for the retailer shall be the actual cost of the material to him which may in no case be higher than the wholesale price, (ii) the sewing charges as listed with this office under Maximum Price Regulation 20 of the Military Governor of the Territory of Hawaii or Maximum Price Regulation 165 of the Office of Price Administration, and (iii) the maximum price permitted under this regulation for any block prints which may be printed on the articles by or for the manufacturing-wholesaler or manufacturing-retailer.

(b) (9) *Allowance for block printing.* Where a wholesaler block prints or has block printed for him any article covered in this section he may, for the purpose of determining the maximum price under this regulation, add to the manufacturer's selling price or wholesaler's selling price, depending on the source of purchase, the maximum price permitted by this regulation for such prints.

(c) (9) *Allowance for block printing.* Where a retailer block prints or has block printed for him any article covered in this section he may, for the purpose of determining the maximum price under this regulation, add to the manufacturer's selling price or wholesaler's selling price, depending on the source of purchase, the maximum price permitted by this regulation for such prints.

AUTHORITY: § 1499.2252 issued under 56 Stat. 23, 765; Pub. Law 151, 78th Cong.; E.O. 9250, 7 F.R. 7871; E.O. 9328, 8 F.R. 4681.

SECTION 1. *Sales of Western contract logging services at higher than maximum prices prohibited.* (a) On and after January 11, 1944, no person shall sell or provide Western contract logging services, and no person shall buy or receive contract logging services in the course of trade or business, at prices higher than the maximum prices fixed by this regulation; and no person shall agree, offer, or attempt to do any of these things.

(b) Prices lower than the maximum prices may be charged and paid.

SEC. 2. *What services are covered.* (a) This regulation covers under the term "logging services" all services in connection with the transportation and production of logs, bolts, pulpwood and other primary forest products, including all operations in connection therewith, such as hauling, road construction, felling, bucking, cutting, skidding, yarding, peeling, loading and reloading, etc. It also covers the transportation of gravel, building materials, machinery and the like when performed solely in connection with a logging operation. "Primary forest products" include all logs, bolts, pulpwood, chemical wood, posts, poles, piling, hewn railroad ties, mine materials (other than sawn), etc.; but does not include firewood. It includes booming and rafting when performed by the log producer but not when rendered as a separate service.

(b) "Western" contract logging services means only those performed west of the 100th meridian in the continental limits of the United States, namely in Washington, Oregon, California, Nevada, Idaho, Utah, Arizona, Montana, Wyoming, Colorado, New Mexico, and the western portions of North Dakota, South Dakota, Nebraska, Kansas, Oklahoma and Texas.

(c) The term "contract logging service" covers only services rendered by independent contractors who do not own the stumpage. It does not include transactions where commodities, as distinguished from services, are sold; in that case, the ceiling on logs, pulpwood, etc., governs the transaction.

SEC. 3. *Maximum prices.* (a) The maximum prices on Western contract logging services shall be the difference between the ceiling price[1] on the logs, bolts, pulpwood or other primary forest products, and the stumpage cost of those items, compared at the delivery points specified in the appropriate regulations and on the basis of the same scale. For example, if the ceiling price on a given type of log is $20.00 per M delivered to towable waters and the stumpage cost on the same scale rule is $4.50 per M, the ceiling on the complete contract logging service of delivering logs from stump to towable waters would be $15.50 per M; if under the contract only a portion of a service is rendered, such as loading, transportation, etc., the price of that portion shall not exceed the delivery point price minus stumpage (or, in this example, $15.50) less all other costs of producing the logs from stump to delivery point.

(b) If more than one primary forest product is cut or where species or items of different value are cut, the total stumpage cost of each primary forest product, species, or species group, shall be determined in accordance with the usual bookkeeping practice of the buyer of the services. These amounts shall then be deducted from the total value at ceiling prices of each of those primary forest products or species. The remainders then constitute the ceiling price on the contract logging service for each item, species or different primary forest product. On lump sum transactions, however, the total stumpage cost may be deducted from the total estimated value at ceiling prices of all the primary forest products to be cut, and that remainder will represent the maximum lump sum amount which can be paid for the contract logging of all those products.

(c) Where only a portion of a complete logging service is rendered, as where only loading or transportation is performed, the cost of that portion when added to all other costs of logs delivered

* Copies may be obtained from the Office of Price Administration.

[1] Where the transaction is subject to Maximum Price Regulation 348, but dollars-and-cents prices have not been established in the particular area, then the maximum price established under section 3 of that regulation. If there are no purchased log transactions, see paragraph (f) of section 3 of this regulation.

to the consuming mill or delivery point, including the stumpage cost, must not exceed the ceilings established on the logs or other primary forest products produced.

(d) Where more than one portion of a tract or holding in not more than four counties and belonging to a single owner is being operated by contract loggers, the test of paragraph (a) will be met if the total of all the logging contracts plus the total cost of all the stumpage being cut does not exceed the total value at the applicable ceilings of the products into which the stumpage is made.

(e) "Stumpage cost" means the actual cost or book value of the timber being cut. "Stumpage" means all timber (whether green or dead, standing or down) of all species, classes and sizes, which has not been severed from the stump. In cases where only portions of larger tracts are being cut, the buyer of the service may allocate a value to the particular portion in accordance with his usual bookkeeping practice. The portions so allocated, however, must "average-out" so that the value assigned the whole tract is not less than actual cost or book value.

(f) If there are no specific maximum prices on any of the logs, bolts, pulpwood, chemical wood or other primary forest products, and no maximum price can be computed under Maximum Price Regulation 284, Revised Maximum Price Regulation 161 or section 3 of Maximum Price Regulation 348, the buyer and seller should join in requesting the Lumber Branch, Office of Price Administration, Washington, D. C., to establish a contract logging price. The Lumber Branch may establish the maximum price by letter or telegram.

(g) Any contracts on a formula, percentage or any basis other than a specific price, must contain a maximum limitation which meets the requirements of this section.

(h) The buyer of the service must file the report required by section 6 (b) covering each contract for logging services as defined herein.

SEC. 4. *Revision of contracts.* The Lumber Branch may, at any time during the continuance of the contract, require its revision, if it appears that the price established does not meet the test of section 3 or that the stumpage cost assigned by the buyer of logging services is abnormally low in relation to current market values, and that this abnormality results in a contract logging maximum price as high as to cause a shortage of contract logging services for other buyers requiring these services. Before such action is taken, the parties shall be given 15 days' notice in order that they may have an opportunity to file objections to the proposed revision.

SEC. 5. *Previous contracts.* Any contracts on logging services either established or adjusted under Maximum Price Regulation No. 165, prior to the effective date of this regulation remain in effect in accordance with their terms until and unless revised under section 4. A report covering each such contract as required by section 6 (b) shall be filed by the buyer of the service within 10 days of the effective date of this regulation.

SEC. 6. *Records and reports.* (a) All buyers of contract logging services must keep a record of the name and address of the contractors used, the price established, location of operation involved, actual stumpage cost and all other costs assigned to the particular tract or portion being cut under the contract, as well as copies of the contracts. These records must be kept for so long as the Emergency Price Control Act remains in effect, for inspection by the Office of Price Administration.

(b) Buyers of contract logging services shall file with the Lumber Branch, Office of Price Administration, Washington, D. C., one copy of Form 675–678 for each logging contract made. In the case of contracts existing when this regulation takes effect, the form shall be filed within 30 days of that effective date. As to all contracts made after this effective date, the form shall be filed within 15 days of the date of execution of the contract.

SEC. 7. *Petitions for amendment.* Any person seeking an amendment of any provision of this regulation may file a petition for amendment in accordance with the provisions of Revised Procedural Regulation No. 1, issued by the Office of Price Administration.

SEC. 8. *Enforcement.* Persons violating any provisions of this regulation are subject to the criminal penalties, civil enforcement actions and suits for treble damages provided for by the Emergency Price Control Act of 1942.

SEC. 9. *Licensing.* The provisions of Licensing Order No. 1,[1] licensing all persons who make sales under price control, are applicable to all sellers subject to this regulation. A seller's license may be suspended for violations of the license or of one or more applicable price schedules or regulations. A person whose license is suspended may not, during the period of suspension, make any sale for which his license has been suspended.

SEC. 10. *Prohibited practices*—(a) *General.* Any practice which is a device to obtain the effect of a higher-than-ceiling price without actually raising the price is as much a violation of this regulation as an outright overceiling price. This applies to devices making use of commissions, services, transportation arrangements, premiums, special privileges, tying agreements, trade understandings, and the like.

(b) The following is among the specific practices prohibited:

(1) Attempting to evade this regulation by selling stumpage to the contractor at less than a fair market value and repurchasing it in the form of logs, pulpwood, or other primary forest products.

SEC. 11. *Geographical applicability.* This regulation applies in so much of the 48 states of the United States and the District of Columbia as lies west of the 100th meridian.

[1] 8 F.R. 13240.

This regulation shall become effective January 11, 1944.

NOTE: All reporting and record-keeping requirements of this regulation have been approved by the Bureau of the Budget in accordance with the Federal Reports Act of 1942.

Issued this 5th day of January 1944.

Administrator.

PART 1351—FOOD AND FOOD PRODUCTS

[MPR 490,[1] Amdt. 3]

EDIBLE TREE NUTS

A statement of the considerations involved in the issuance of this amendment, issued simultaneously herewith, has been filed with the Division of the Federal Register.*

Maximum Price Regulation No. 490 is amended in the following respects:

1. Section 2 (a) (10) is added to read as follows:

(10) "Net delivered cost" means the amount the seller pays for the item being priced (in a purchase which is customary for him in quantity, type of supplier, receiving point and means of transportation), less all discounts allowed him except the discount for prompt payment. However, the expense of local trucking or unloading is not included.

2. Section 8 (e) is redesignated section 9 and is amended to read as follows:

SEC. 9. *Sales by wholesalers and retailers*—(a) *In-shell items.* (1) The maximum price in each case for the in-shell items listed in section 8 (b), in sales by wholesalers, is the seller's net delivered cost of the most recent delivery to him before January 5, 1944, of the item being priced, multiplied by 1.15.

(2) The maximum price in each case for the in-shell items listed in section 8 (b), in sales by retailers who customarily purchase from wholesalers or wagon wholesalers, is the seller's net delivered cost of the first delivery to him after January 5, 1944, of the item being priced, multiplied by 1.35. Until that time, his maximum price is his maximum price in effect just prior to January 3, 1944.

For retailers who customarily purchase from persons other than wholesalers and wagon wholesalers, the seller's maximum price in each case is his net delivered cost of the most recent delivery to him before January 5, 1944, of the item being priced, multiplied by 1.35.

(3) In any case where a wholesaler's or retailer's customary type of supplier of the item being priced is another wholesaler or retailer, as the case may be, his maximum price shall not exceed his supplier's maximum price.

(4) For any item of which a wholesaler or retailer has not received a delivery before January 5, 1944, the maximum price shall be his net delivered cost of the first delivery of the item on or after that date, multiplied by the applicable mark-up.

(b) *Shelled, roasted, or salted items.* (1) The maximum price in each case for the shelled, roasted or salted items listed in section 8 (b), in sales by wholesalers and retailers, is the highest price charged by the seller for the item to the same class of purchasers (as explained in section 8 (c), above) during the period October 25 to October 30, 1943, inclusive.

(2) If any seller named in the preceding paragraph did not deliver or offer to deliver the item being priced during the period October 25 to October 30, 1943, his maximum price shall be his net delivered cost of the first delivery of the item to him after that period, plus the difference between his net delivered cost and his selling price for the most closely comparable item which he sold during that period to the same class of purchasers (converted to the same selling unit) or, if he did not sell a comparable item, the highest price charged for the same item during that period by the most closely competitive seller to a purchaser of the same class.

3. Section 8 (f) is redesignated section 8 (e).

4. Section 8 (g) is redesignated section 8 (f) and is amended to read as follows:

(f) *Sales by wagon wholesalers.* (1) The maximum price which a wagon wholesaler may charge for an item is the net delivered cost of the most recent delivery to him before January 5, 1944, (or if none, then the first delivery) of the item being priced, multiplied by 1.25.

(2) A "wagon wholesaler" is one who purchases the item being priced and distributes it to retailers or to commercial, industrial or institutional users from an inventory stocked in trucks or other conveyances which are under the supervision of driver salesmen who make delivery at the time and place of sale.

5. Section 9 is redesignated section 10, and paragraph (c) thereof is deleted.

6. Section 10 is redesignated section 11.

This amendment shall become effective January 5, 1944.

For the purposes of this regulation only one producer branch and one country shipper branch shall be recognized in any single business performing several marketing operations, but each merchandiser branch, constituted as a distinct and segregated branch or unit, may take one of the permitted merchandiser's markups and no more.

SEC. 13. *Sales by the Commodity Credit Corporation.* (a) Notwithstanding any other provision of this regulation the Commodity Credit Corporation may sell, and any person may buy from the Commodity Credit Corporation, wheat at prices higher than those specified herein if such sale or purchase is necessary in order to comply with laws applicable to the Commodity Credit Corporation.

SEC. 17. *Licensing.* The provisions of Licensing Order No. 1 [1] licensing all persons who make sales under price control are applicable to all sellers subject to this regulation. A seller's license may be suspended for violations of the license or of one or more applicable price schedules or regulations. These provisions do not apply to any producer selling wheat produced by him.

SEC. 18. *Adjustable pricing.* Any person may agree to sell at a price which can be increased up to the maximum price in effect at the time of delivery; but no person may, unless authorized by the Office of Price Administration, deliver or agree to deliver at prices to be adjusted upward in accordance with action taken by the Office of Price Administration after delivery. Such authorization may be given when a request for a change in the applicable maximum price is pending; but only if the authorization is necessary to promote distribution or production and if it will not interfere with the purposes of the Emergency Price Control Act of 1942, as amended. The authorization may be given by the Administrator or by any official of the Office of Price Administration to whom the authority to grant such authorization has been delegated. The authorization will be given by order, except that it may be given by letter or telegram when the contemplated revision will be the granting of an individual application for adjustment.

SEC. 20. *Petitions for amendment.* Any person seeking a modification of any provision of this regulation may file a petition for amendment in accordance with the provisions of Revised Procedural Regulation No. 1.[2]

SEC. 21. *Exempt sales.* Whenever circumstances of emergency make the purchase of wheat by the United States or any of its agencies imperative and it is impossible to secure or unfair to require immediate delivery at the maximum price which would otherwise be applicable, such purchases and deliveries may be made pursuant to the provisions of section 4.3 (f) of Revised Supplementary Regulation No. 1 to the General Maximum Price Regulation.

SEC. 22. *Adjustment of maximum price containing a fraction of a cent.* If a maximum price determined under this regulation results in a fraction of a cent other than ½ of a cent or multiple thereof, the same may be increased to the next higher ⅛ of a cent.

(d) The discounts for the grades mentioned in Tables Ia, IIa and IIIa are cumulative. For example, wheat grading No. 2 garlicky is subject to a discount of at least 1 cent for grading No. 2 plus a further discount of at least 3 cents for grading "garlicky" or a minimum total discount of 4 cents per bushel.

(e) The formula prices mentioned in Tables I, II and III shall be decreased 3 cents per bushel for sales in any of the terminal cities mentioned in said tables without transit billing annexed to the lot sold.

3. *Formula prices at interior rail points.* (a) The price per bushel for any wheat, bulk, at any interior rail point in Area A shall be that maximum price specified in Appendix A, Tables I, II and III which, less transportation charges at the lowest published domestic carload rail transportation rate from that interior rail point to any terminal city, will result in the highest price at said interior rail point, plus, if the wheat sold at said interior rail point is accompanied by transit billing usable beyond said interior rail point, the value of the transit billing. This value shall be calculated at the difference between the amount of the transportation charges, deducted from the appropriate terminal city's maximum price in calculating a maximum price for said interior rail point as above provided, and the rail transportation charges payable on the transit billing or movement of wheat from said interior rail point to said terminal city.

(b) The formula for any wheat per bushel, bulk, at any interior rail point in the following areas shall be as follows:

(1) In Alabama, Mississippi, Florida, Georgia, North Carolina, South Carolina, in Tennessee east of the Western boundaries of Campbell, Anderson, Roane, Rhea and Hamilton counties, Virginia, West Virginia, Delaware, New Jersey, the New England States and the Eastern Shore of Maryland south of a line drawn east and west through Chesapeake City, the formula price at Chicago, Illinois or St. Louis, Missouri, as above set forth, plus the transportation cost at the lowest domestic carload rail proportional rate from Chicago or St. Louis to the interior rail point in question, whichever is lower.

(2) In Arizona, the formula price at Kansas City, Missouri, plus 17 cents per bushel.

(3) In New Mexico, except in Quay, Debaca, Curry, Roosevelt, Chaves, Lea, Eddy, Guadelupe, Lincoln and Otero counties, the formula price at Kansas City, Missouri, less 16¾¢ per bushel, plus the lowest flat carload rail rate from Lamar, Colorado to the interior rail point in question.

(4) In Colorado west of Larimer, Boulder, Gilpin, Clear Creek, Park, Fremont, Custer, Huerfano and Las Animas counties, the formula price at Kansas City, Missouri less 12 cents per bushel.

4. *Formula prices at interior non-rail points.* The formula price for any wheat, bulk, at any interior non-rail point shall be the maximum price set forth in section 3 of this Appendix A at the rail point (either interior rail point or terminal city, as the case may be) nearest thereto by the most usually traveled route, less transportation charges from said interior non-rail point to said rail point: *Provided*, That if a commercial elevator or warehouse for the purchase and handling of grain is operated at a non-rail point, the formula price at that point shall be the same as that at the nearest rail point.

5. *Formula prices for mixed wheat.* The formula price per bushel, bulk, for mixed wheat at any terminal city or interior point shall be the appropriate maximum price for the class and grade of wheat predominating in the mixture at such terminal city or interior point adjusted for the moisture and protein content in the mixture in accordance with the tables in Appendix A less (unless the mixture consists wholly of hard red winter and hard red spring wheats or wholly of soft red winter and white wheats or is of the subclasses of Amber Mixed Durum or Mixed Durum) two cents per bushel.

6. *Formula prices for mixed grain.* The formula price per bushel, bulk, for mixed grain containing more than 50 per cent of wheat at any terminal city or interior point shall be determined by multiplying the percentage of each such grain in the mixture by the appropriate maximum price thereof at such terminal city or interior point, or, if there is no such maximum price for a particular grain, by the reasonable market value thereof at such terminal city or interior point, and adding the results, less 5 cents per bushel.

This regulation shall become effective January 4, 1944.

NOTE: The record keeping provisions of this regulation have been approved by the Bureau of the Budget in accordance with the Federal Reports Act of 1942.

SECTION 1. *What this supplementary order does.* This supplementary order establishes maximum prices at which government agencies shall sell food commodities and exempts from price control sales of food by government agencies to the persons and organizations listed in section 7. This supplementary order does not, however, establish maximum prices for the sale by government agencies of any food commodity which is not otherwise subject to price control, nor does it cover sales which are, by express reference to government agencies or any government agency, specifically governed by the provisions of other orders or price regulations unless the sale is exempted from price control by the operation of section 7.

*Copies may be obtained from the Office of Price Administration.

SEC. 2. *Where this supplementary order applies.* The provisions of this supplementary order shall be applicable only to the 48 states of the United States of America and to the District of Columbia.

SEC. 3. *What this supplementary order permits.* Lower prices than those established by this supplementary order may be charged, demanded, paid or offered, whether by way of discounts, allowances or otherwise.

SEC. 4. *What this supplementary order prohibits.* On and after January 12, 1944, regardless of any contract, agreement or other obligation, no government agency or official or employee of a government agency shall sell, deliver or purchase, or cause to be sold, delivered or purchased, for the account of any government agency, food commodities at a price higher than the maximum prices established by this supplementary order, and no person in the course of trade or business shall buy or receive such foods at a price higher than the maximum prices established by this supplementary order; and no person shall agree, offer, solicit, or attempt to do any of the foregoing.

SEC. 5. *Definitions*—(a) *Government agency.* For the purposes of this supplementary order the term "government agency" shall include the United States Government or any department, agency, commission, corporation or other such instrumentality of the United States Government.

(b) *Food or food commodity.* For the purposes of this supplementary order, the term "food" or "food commodity" shall mean all commodities or products, simple, mixed or compound, or complements to such commodities or products that are or may be eaten or drunk by either humans or animals, irrespective of other uses to which such commodities or products may be put, and at all stages of processing from the raw commodity to the product thereof in a vendible form for immediate consumption. Furthermore, the term shall include tobacco, all starches, sugars, vegetable and animal fats and oils, and all other commodities which may be designated by the Administrator of the Office of Price Administration upon request of the War Food Administrator.

(c) *Person.* The term "person" includes an individual, corporation, partnership, association, government agency or any other organized group of persons as hereinbefore defined or the legal successor or representative of any of the foregoing.

(d) *Definitions of the Emergency Price Control Act of 1942, and the General Maximum Price Regulation.* Unless the context requires otherwise, the definitions of section 302 of the Emergency Price Control Act of 1942, as amended, and of the General Maximum Price Regulation, as amended, shall apply to the terms used in this supplementary order.

SEC. 6. *Sales not covered by this supplementary order.* This supplementary order shall not apply to, supersede, or in any other way affect any provision of other orders or price regulations which:

(a) Excludes from price control the sale of any food commodity by any government agency; or

(b) Establishes maximum prices for the sale of food by government agencies by express reference to such government agencies and not by mere residual clauses or by the common definition of the term "person" to include government agencies. However, if the sale under such provision is exempted from price control by section 7, the provisions of section 7 shall govern the sale.

SEC. 7. *Sales exempt from price control.* Irrespective of the provisions of any other price regulation, or order, no government agency shall be required to abide by or conform to any maximum or ceiling prices in the sale of food to:

(a) Any other government agency; or

(b) Any foreign government or agency of a foreign government; or

(c) Any relief organization for donation or export sale.

SEC. 8. *Non-exempt sales*—(a) *How to determine the maximum price.* Any sale of food commodities by government agencies which is not excluded from the operation of this supplementary order by section 6, or exempted from price control by section 7, shall be subject to the following maximum or ceiling prices:

(1) *Sale to the producer, processor, or manufacturer from whom the food was purchased.* The resale of food to the producer, processor, or manufacturer from whom purchased shall be at a price not to exceed the buyer's maximum selling price for the food in the quantity and at the place and season that delivery is made or at the price paid[1] for it by the government agency originally purchasing the food, whichever is the higher.

(2) *Sale to other producers, processors or manufacturers of the same or a similar food commodity.* (i) The sale of food to other producers, processors, or manufacturers of the same food commodity shall be at a price not to exceed the buyer's maximum selling price for the food in the quantity and at the place and season that delivery is made.

(ii) The sale of food to a producer, processor, or manufacturer of a similar food commodity shall be at a price not to exceed the maximum price at which its producer, processor, or manufacturer, if he can be readily ascertained, could sell the food in the quantity and at the place and season that delivery is made. If the producer, processor, or manufacturer is not readily ascertainable, then the sale shall be at a price not to exceed the buyer's maximum selling price for the food in the quantity and at the place and season of delivery under the price regulation covering that specific food commodity.

(3) *Sales to distributors other than manufacturers, processors, or producers.* (i) The sale of food to a distributor dealing in the same food commodity, other than a manufacturer, processor, or producer, shall be at a price not to exceed the highest maximum price the distributor could pay any of his usual suppliers for the food in the quantity and at the place and season that delivery is made.

(ii) The sale of food to a distributor who deals in a similar but not in the same food commodity, other than a manufacturer, processor, or producer, shall be at a price not to exceed the highest maximum price which the most closely competitive distributor of the same class could pay any of his usual suppliers for the specific food commodity being sold in the quantity and at the place and season that delivery is made. If, however, the distributor's maximum price cannot be determined by the foregoing method, the sale shall be at a price not to exceed the maximum price at which the food could be sold in the quantity and at the time and season of delivery to the distributor by his usual supplier under the price regulation covering the specific food commodity being sold.

(4) *Sales to all others.* The sale of food to anyone who does not produce, process, manufacture, or distribute the same or a similar food commodity shall be at a price not to exceed (1) the price which the government agency originally purchasing it paid[1] for the food commodity or (2) such price as is necessary to reflect to producers or growers the higher of the minimum prices required by section 3 of the Emergency Price Control Act of 1942, as amended, whichever is the higher.

(b) *When unusual packaging costs may be added to the maximum prices.* The government agency may add the cost of special or unusual packaging of the food commodity to the maximum price as computed under the appropriate paragraph of this section only when, and to the extent that, such packaging is of value to the buyer. If the special or unusual packaging is of no value to the buyer, however, the maximum price which the government agency may receive shall be the maximum price computed under the appropriate paragraph of this section for the food commodity in its usual packaged form, and the purchaser shall not then be required to pay for extra packaging costs incurred by the government agency for the packaging of the commodity in any other than its usual form.

SEC. 9. *Liability of officials of government agencies.* Officials of government agencies making sales under the paragraphs of section 8 are exempted from any liability for the violation of any of the maximum price ceilings prescribed herein if they have obtained from the buyer a sworn certificate attesting to the buyer's maximum or ceiling price for the food commodity as computed under the provisions of the appropriate paragraph

[1] The "price paid" is to be determined in the same manner, whether by averages or otherwise, usually used to compute such prices.

of section 8 and have sold the food commodity at a price not in excess of the certified maximum price.

SEC. 10. *Enforcement.* All persons, other than government agencies, violating any provision of this supplementary order are subject to the criminal penalties, civil enforcement actions and suits for treble damages provided for by the Emergency Price Control Act of 1942, as amended.

This Supplementary Order No. 81 shall become effective January 12, 1944.

Issued this 6th day of January 1944.

Acting Administrator.

Approved: December 28, 1943.

TITLE 34—NAVY

Chapter I—Department of the Navy

PART 13—SERVICEMEN'S DEPENDENTS ALLOWANCE

JOINT REGULATIONS UNDER SERVICEMEN'S DEPENDENTS ALLOWANCE ACT, AS AMENDED

Section 13.1 as published in the FEDERAL REGISTER 3 August 1943 (8 F.R. 10764) is rescinded and the following new § 13.1 is substituted therefor:

§ 13.1 *Period of entitlement and payment of family allowances.* Under provisions of the Servicemen's Dependents Allowance Act of 1942, as amended, the Secretary of War and the Secretary of the Navy prescribe jointly the following regulations pertaining to family allowances.

(a) Payments of all family allowances shall be for periods of full calendar months.

(b) To insure expeditious payment of the initial family allowance:

(1) Payment shall be made on the basis of the statements of the enlisted man in the application, filed within the prescribed period, and to or on behalf of eligible dependents designated therein; and

(2) Eligibility for initial family allowance will be deemed to have existed on and from the date of entry into active service if the application indicates eligibility on the date of application.

(c) Erroneous statements or misrepresentations in applications for initial family allowances may, as determined by the Secretary of the department concerned, be the basis for recovery by charge against the pay of the applicant, or otherwise, and for disciplinary action.

(d) When an initial family allowance is paid to any dependent for the month of an enlisted man's entry into active service in a pay status, no regular monthly family allowance shall be paid to any dependent of such enlisted man for that month. When no initial family allowance is paid, the period of entitlement and payment of the regular monthly family allowance shall begin as hereinafter prescribed.

(e) Except as otherwise provided, the period of entitlement to and payment of regular monthly family allowances, including any increases therein, shall begin as of the first day of the calendar month in which a required written application (or a notice of change in a case of increase) is filed, or the first day of the calendar month in which a dependent is acquired, whichever is later, but in no case earlier than the month of entry of the enlisted man into active service in a pay status. In case of Class B or Class B–1 dependents the period of entitlement and payment may begin as of the first day of any subsequent calendar month that the enlisted man requests.

(f) Any increase in a regular monthly family allowance in effect to a wife, or wife and children, incident to the birth of a child or additional child, shall be effective as of the first day of the calendar month during which the birth occurs notwithstanding that notice or evidence thereof is received in a subsequent month.

(g) Except as otherwise provided, the period of payment of monthly family allowance shall terminate, or payment shall be decreased, as of the end of the calendar month during which any notice is received by the disbursing officer paying the allowance of a change which terminates or limits the entitlement of the dependent or dependents to such allowance. Entitlement to family allowance shall terminate or be modified at the end of the month in which such change occurs. Checks to which there is no entitlement may be permanently withheld.

(h) Insofar as practicable the period of entitlement and payment of any Class B or Class B–1 regular monthly family allowance requested in writing by the enlisted man to be discontinued, other than by reason of change in status of dependents, shall terminate as of the end of the calendar month requested by the enlisted man or the end of the calendar month during which such request is received by the disbursing officer paying the allowance, and in no case later than the end of the next succeeding calendar month.

(i) For the purpose of determining amounts of family allowance to be paid:

(1) In cases in which no family allowance has been granted to a wife or divorced wife, the amount of family allowance payable to children shall be the amount specified in the statute where there is no wife or divorced wife;

(2) In cases in which no family allowance has been granted to a parent, the amount of family allowance payable to brothers and sisters shall be the amount specified in the statute where there is no parent;

(3) All children of an enlisted man shall be considered one family entity irrespective of differences in their custody, residence, or parentage, shall be considered one family entity;

(5) The total amount of monthly family allowance payable to or for the benefit, respectively, of two or more children, of two parents, or of two or more brothers and sisters, shall be equally divided among the respective children, parents, or brothers and sisters or shall be otherwise apportioned and paid within the respective groups as the Secretary of the department concerned may direct.

(j) Whenever a court order or decree or written agreement of separation provides a single sum for alimony to a divorced wife or maintenance for a wife and also for the support of a child or children, the proportional share of the wife or divorced wife in such sum shall, for the purpose of carrying out the provisions of section 106 (c) of the act, be deemed to be sixty per centum thereof in the case of one child and forty per centum thereof in any case of two or more children. Regardless of any limit stated in a court order or decree or written agreement the full statutory amount of family allowance shall be payable to or on behalf of any child or children.

(k) Application of section 106 (c) (1) shall be made in those cases in which there is a lawful wife living separate and apart from the enlisted man and there is also a court order or decree or a written agreement which expressly or impliedly provides for the beginning or continuance of such living separate and apart. In construing a court order or decree or written agreement full consideration shall be given to all the facts and circumstances under which the order, decree or agreement is issued or made. A penal order for marital support or an order in a desertion case is not within this statutory limitation; in such cases the full allowance for a wife is payable.

(l) The payment of any amounts of a family allowance uncollected at the time of death of a dependent shall be made to such payee or payees, including the enlisted man when appropriate, as the Secretary of the department concerned shall deem equitable, subject to the provisions of section 115 of the act.

(m) The Secretary of the department concerned may at any time require additional evidence in any family allowance case. Failure to furnish such evidence within a reasonable time after request or any insufficiency of evidence shall constitute good cause for the discontinuance or modification of such family allowance.

These joint regulations are effective 1 November 1943; they rescind and supersede the joint regulations approved 19 July 1943.

Secretary of War.

NORTH PLATTE PROJECT, NEBRASKA-WYOMING

RECOMMENDATIONS OF THE BUREAU OF RECLAMATION WAGE BOARD TO THE SECRETARY OF THE INTERIOR

The Bureau of Reclamation Wage Board adopted on September 13, 1943, a schedule of wage rates for the powerhouse, power line and substation operation and maintenance employees of the Bureau of Reclamation on the North Platte Project. This schedule was approved by the Acting Secretary on September 21. New information recently submitted by the project requires the addition of certain wage rates to the schedule heretofore approved.

The Bureau of Reclamation Wage Board finds that the hourly rates listed below are prevailing for similar work in the vicinity of the North Platte Project and recommends them for your adoption.

Labor classification	Prevailing basic hourly rate on private work	Recommended basic hourly rate for B/R employees
Machinist, maintenance	$1.15	$1.15
Machinist's helper, maintenance	.75	.75
Line patrolman's helper	.79	.79
Truck driver, maintenance	.75	.75
Laborer, power or irrigation system	.62	.62
Laborer, senior	.79	[1].79

[1] Restricted to present incumbent; no other employment to be made in this classification.

It is the understanding of the Wage Board that Bureau of Reclamation employees of the classes above specified, paid in accordance with this schedule, are in recognized trades or occupations and will receive overtime pay on the basis of one and one-half times the basic hourly rate for all time worked in excess of forty hours in any one week. Refer to forty-hour week Act (Sec. 23, Act of March 28, 1934; 48 Stat., 522.)

No reduction in current rates. The Wage Board recommends that no present employee of the Bureau of Reclamation suffer a reduction in his basic hourly wage rate as a result of the promulgation of these recommendations.

The Wage Board recommends that all employees of the Bureau of Reclamation on the North Platte Project, except those allocated to grade, and except those classified or reclassified in accordance with the schedule approved September 21, 1943, mentioned above, be classified or reclassified in accordance with the schedule herein recommended, effective as of the beginning of business on January 1, 1944. The Board further recommends that all positions at this project not allocated to grade and for which job titles are not listed in the schedule herein recommended, or in said schedule approved September 21, 1943, be abolished.

The foregoing recommendations approved and adopted by the Bureau of Reclamation Wage Board this 6th day of December 1943.

Stoker	9.35	4.68	3.05
Nut and slack	7.70	3.85	

(ii) *Special sales and services*—(a) *Carry or wheel service.* If buyer requests such service, the dealer may charge not more than $1.00 per ton for such service.

(b) *Sack coal.* For splint coal in sacks the dealer may charge not more than 56¢ for 100 pounds and 31¢ for 50 pounds at the yard, plus 15¢ per sack if the dealer furnishes the sack. No deliveries of sack coal will be required if in quantities of less than 200 pounds. If the dealer delivers sack coal, he may charge not more than 68¢ per 100 pounds delivered, plus 15¢ per sack if the dealer leaves the dealer's sack with the purchaser.

(c) *Yard sales.* When the purchaser picks up coal at the dealer's yard, the dealer must reduce his domestic price at the rate of $1.00 per ton.

(d) *Quantity.* When the purchaser purchases in carloads, the dealer must reduce his domestic price $1.00 per ton on all grades except stoker coal, on which the reduction must be 50¢ per ton.

(e) *Delivery zone.* For deliveries beyond the corporate limits of the City of Durham, North Carolina, and within a hauling distance of ten miles thereof, the dealer may add not more than 10¢ per ton per mile, said mileage to be determined by the actual highway mileage from the city limits to the point of delivery by the most direct highway route. Dealer may make a minimum charge of 50¢ per ton for any delivery beyond the city limits of Durham, North Carolina.

(f) *Sales tax.* The State sales tax of 3% may be added to the prices established by this order.

(g) *Credit.* No additional charges over the prices provided in this order may be made for the extension of credit.

(d) *Ex parte 148 freight rate increase; transportation tax*—(1) *The freight rate increase.* Since the Ex Parte 148 freight rate increase has been rescinded by the Interstate Commerce Commission, the dealer's freight rates are the same as those of December 1941. Therefore, no dealer may increase any schedule price on account of freight rates.

(2) *The transportation tax.* Only the transportation tax imposed by section 620 of the Revenue Act of 1942 may be collected in addition to the maximum prices set by this order provided the dealer states it separately from the price on the statement given to the buyer under paragraph (j) (2). (This tax need not be stated separately in sales to the United States or any agency thereof—see Amendment 12 to Revised Maximum Price Regulation 122.) No part of this tax may be collected in addition to the maximum prices on sales of quarter-ton or lesser quantities or on sales of any quantity of bagged coal.

(e) *Addition of increase in supplier's prices prohibited.* The maximum prices set by this order may not be increased by a dealer to reflect increases in purchase costs or in supplier's maximum prices occurring after the effective date hereof; but increases in the maximum prices set hereby to reflect such increases are within the discretion of the Administrator.

(f) *Power to amend or revoke.* The Price Administrator or Regional Administrator may amend, revoke, or rescind this order, or any provision thereof, at any time.

(g) *Petitions for amendment.* Any person seeking an amendment to this order may file a petition for amendment in accordance with Revised Procedural Regulation No. 1 except that the petition shall be filed with the Regional Administrator and acted upon by him.

(h) *Applicability of other regulations.* Every dealer subject to this order is governed by the licensing provisions of Supplementary Order No. 72. This provides in brief that a license is granted to all persons selling, at retail, comodities for which maximum prices are established. The license may be suspended for violation in connection with the sale of any commodity for which maximum prices are established. If a dealer's license is suspended, he may not sell any such commodity during the period of suspension.

(i) *Records and reports.* Every person making a sale of solid fuel for which a maximum price is set by this order shall keep a record thereof showing the date, the name and address of the buyer, if known, the per net ton price charged, and the solid fuel sold. The solid fuel shall be identified in the manner in which it is described in the order. The record shall also separately state each service rendered and the charge made for it.

It is not necessary that these maximum prices be filed with the War Price and Rationing Boards.

(j) *Posting of maximum prices; sales slips and receipts.* (1) Each dealer subject to this order shall post all the maximum prices set by it for all his types of sales. He shall post his prices in his place of business in a manner plainly visible to and understandable by the purchasing public. He shall also keep a copy of this order available for examination by any person inquiring as to his prices for solid fuel.

(2) Every dealer selling solid fuel for sales of which a maximum price is set by this order shall, within thirty days after the date of delivery of the fuel, give to the buyer a statement showing: the date of the sale, the name and address of the dealer and of the buyer, the kind, size and quantity of the solid fuel sold, the price charged and separately stating, any item which is required to be separately stated by this order. This paragraph (j) (2) shall not apply to sales of quantities of less than quarter-ton or to sales of bagged coal unless the dealer customarily gave such a statement on such sales.

(3) In the case of all other sales, every dealer who during December, 1941, customarily gave buyers sales slips or receipts shall continue to do so. If a buyer requests of a seller a receipt showing the name and address of the dealer, the kind, size and quantity of the solid fuel sold to him or the price charged, the dealer shall comply with the buyer's request as made by him.

(k) *Enforcement.* (1) Persons violating any provision of this order are subject to civil and criminal penalties, including suits for treble damages, provided for by the Emergency Price Control Act of 1942, as amended.

(2) Persons who have any evidence of any violation of this order are urged to communicate with the Raleigh District Office of the Office of Price Administration.

(l) *Definitions and explanations.* When used in this Order No. G-14, the term:

"Direct delivery" of bagged fuel or any fuel in quarter-ton or lesser lots always means delivery to the buyer's storage space.

(5) "Carry or wheel service" refers to the movement of fuel to the buyer's bin or storage space by wheelbarrow, barrel, sack or otherwise from the seller's truck or from the point of discharge therefrom when made in the course of "direct delivery".

(8) "High volatile bituminous coal" and "low volatile bituminous coal" refer to coal produced in certain sections of the producing district specified herein.

(9) "Egg, stove, stoker, etc." sizes of bituminous coal refer to the size of such coal as defined in the Bituminous Coal Act of 1937, as amended, and as prepared at the mine in accordance with the applicable minimum price schedule promulgated by the Bituminous Coal Division of the United States Department of the Interior and in effect (or established) as of midnight August 23, 1943. Where the applicable minimum price schedule does not make specific mention of any size designated in this Order, such size designation shall refer to the sizes of bituminous coal sold as such during December, 1941, in the area covered by this Order.

(10) Except as otherwise provided herein or as the context may otherwise require, the definitions set forth in §§ 1340.355 and 1340.266 of Regulation No. 122 shall apply to terms used herein.

(m) *Effect of order on Revised Maximum Price Regulation No. 122.* To the extent applicable, the provisions of this order supersede Revised Maximum Price Regulation No. 122.

Such service shall be separately stated in the dealer's invoice, sales slip or receipt.

(i) A service charge not to exceed 75¢ per ton may be charged for the service described as job, carry or wheel-in service, in the case of all solid fuels except coke.

(ii) On sales of coke a service charge of not to exceed $1.00 per ton may be added.

Therefore, no dealer may increase any schedule price on account of freight rates.

(2) *The transportation tax.* Only the transportation tax imposed by section 620 of the Revenue Act of 1942 may be collected in addition to the maximum prices set out by this order provided the dealer states it separately from the price of the fuel and lists it separately on any invoice, sales slip or receipt given to the buyer. (This tax need not be stated separately on sales to the United States or any agency thereof. See Amendment No. 12 to Revised Maximum Price Regulation No. 122). No part of this tax may be collected in addition to maximum prices on sales of ¼ ton or lesser quantities.

(j) *License.* (1) Every dealer subject to this order is governed by the licensing provisions of Supplementary Order No. 72. This provides in brief that a license is required of all persons selling at retail commodities for which maximum prices are established. A license is automatically granted. It is not necessary to apply for the license, but a dealer may later be required to register. The license may be suspended for violation in connection with the sale of any commodity for which maximum prices are established. If a dealer's license is suspended, he may not sell any such commodity during the period of suspension.

(k) *Records and reports.* (1) Every person making a sale of solid fuel for which a maximum price is set by this order shall keep a record thereof showing: the date, the name and address of the buyer, if known, the price charged and the kind and size of fuel sold. The fuel shall be identified in the manner in which the fuel is described in this order: The record shall also state separately each service rendered and the charge made for it.

(l) *Posting of maximum prices; sales slips and receipts.* (1) Each dealer subject to this order shall post all the maximum prices set by it for all types of sales. He shall post his prices in his place of business in a manner plainly visible to and understandable by the purchasing public. He shall also keep a copy of this order available for examination by any person inquiring as to his prices for solid fuel.

(2) In the case of all sales covered by this order every dealer who during December, 1941, customarily gave buyers sales slips or receipts shall continue to do so. In any case if a buyer requests of a seller a receipt showing the name and address of the dealer, the kind, sizes and quantity of the solid fuel sold to him on the price charged, the dealer shall comply with buyer's request and furnish such sales receipt.

(m) *Enforcement.* (1) Persons violating any provision of this order are subject to civil and criminal penalties, including suits for treble damages, provided for by the Emergency Price Control Act of 1942, as amended.

(vii) Using any other device by which a price higher than your maximum price is obtained either directly or indirectly.

(j) *An increase in your supplier's prices does not authorize you to increase your prices.* You must not increase the specific maximum prices established for you by this order to reflect in whole or in part any subsequent increase to you in your supplier's maximum prices for the fuel covered by this order. These specific maximum prices established for you by this order reflect all of the increases in the maximum prices of your supplier to the date hereof. Chapter XI—War Food Administration (Distribution Orders)

[FDO 79-102, Amdt. 1]

PART 1401—DAIRY PRODUCTS

DELEGATION OF AUTHORITY TO MARKET AGENTS IN THE ADMINISTRATION OF FOOD DISTRIBUTION ORDERS FOR THE CONSERVATION AND DISTRIBUTION OF FLUID MILK AND CREAM

Pursuant to Food Distribution Order No. 79 (8 F.R. 12426), dated September 7, 1943, as amended, and to effectuate the purposes thereof, Food Distribution Order No. 79-102 (8 F.R. 16313), issued by the Director of Food Distribution on November 30, 1943, is amended as follows:

1. By adding as (5), in § 1401.135 (b) the following provision:

(5) To permit a determination of a handler's quotas as follows:

(i) Divide by 20 the total pounds of milk solids delivered by the handler in the base period within the sales area in the form of milk, and in the form of cream and milk byproducts, after excluding quota exempt deliveries;

(ii) Multiply the above results by the number of days in the quota period; and

(iii) Multiply the aforesaid resulting amounts by 100 percent in the case of milk solids delivered in the form of milk, and 75 percent in the case of milk solids delivered in the form of cream and milk byproducts: *Provided*, That the fluid volume of cream delivered subject to quota in any quota period shall not exceed 100 percent of cream deliveries of this character in the base period, irrespective of the milk solids content of such deliveries. (For the purpose of this order, the milk solids content of milk, and cream and milk byproducts shall be computed as follows: Each hundredweight of milk, and cream and milk byproducts other than cottage, pot, or baker's cheese, shall be considered the equivalent of 9.375 pounds of milk solids plus the number of pounds of solids calculated by multiplying the pounds of butterfat content in such milk, and cream and milk byproducts by .906; and each hundredweight of cottage, pot, or baker's cheese shall be considered the equivalent of 62.5 pounds of milk solids plus one pound of solids for each one percent of butterfat content of such cheese.)

2. By adding as (6) in § 1401.135 (b) the following provision:

(6) To permit each handler whose deliveries are governed by the quota determination described in (b) (5) hereof to increase his quota for milk in any quota period by one pound of milk solids for each one pound of milk solids he reduces his quota for cream and milk byproducts.

The provisions of this amendment shall become effective at 12:01 a. m., e. w. t., January 1, 1944. With respect to violations of said Food Distribution Order No. 79-102, rights accrued or liabilities incurred prior to the effective time of this amendment, said Food Distribution Order No. 79-102 shall be deemed to be in full force and effect for the purpose of sustaining any proper suit, action, or other proceeding with respect to any such violation, right, or liability.

§ 270.4 *Incorporation by reference.* (a) A registered investment company may incorporate by reference as an exhibit, in any registration statement, application or report filed with the Commission, any document or part thereof previously or concurrently filed with the Commission pursuant to any act administered by the Commission. The incorporation may be made whether the matter incorporated was filed by such registered company or any other person. If any modification has occurred in the text of any such document since the filing thereof, the company shall file with the reference a statement containing the text of any such modification and the date thereof. If the number of copies of any document previously or concurrently filed with the Commission is less than the number required to be filed with the registration statement, application or report which incorporates such document, the company shall file therewith as many additional copies of the document as may be necessary to meet the requirements of the registration statement, application or report.

(b) A registered investment company may incorporate by reference, in any registration statement, application or report filed with the Commission, any financial statement or part thereof previously or concurrently filed with the Commission pursuant to any act administered by the Commission, if it substantially conforms to the requirements of the form on which such registration statement, application or report is filed. The incorporation may be made whether the matter incorporated was filed by such registered company or any other person. If a certificate of an independent public accountant or accountants is required to accompany a financial statement in any registration statement, application or report, the incorporation by reference of a certificate previously or concurrently filed will not be deemed a compliance with such requirements unless the written consent of the accountant or accountants to such incorporation is filed with the registration statement, application or report.

(c) In each case of incorporation by reference, the matter incorporated shall be clearly identified in the reference. An express statement shall be made to the effect that the specified matter is incorporated in the registration statement, application or report at the particular place where the information is required.

(d) Notwithstanding any particular provision permitting incorporation by reference, no registration statement, application or report shall incorporate by reference any exhibit or financial statement which (1) has been withdrawn, or (2) was filed in connection with a registration under the Investment Company Act of 1940, or a registration on a national securities exchange, which has ceased to be effective, or (3) is contained in a registration statement or report subject, at the time of the incorporation by reference, to pending proceedings under section 8 (b) or 8 (d) of the Securities Act of 1933 (C. 38, sec. 8, 48 Stat. 79; C. 686, sec. 301, 54 Stat. 857; 15 U.S.C. 77h), section 8 (e) of the Investment Company Act of 1940 (sec. 8 (e), 54 Stat. 805; 15 U.S.C. 80a–8), or to an order entered under any of those sections.

(e) Notwithstanding any particular provision permitting incorporation by reference, the Commission may refuse to permit such incorporation in any case in which in its judgment such incorporation would render the registration statement,

application or report incomplete, unclear, or confusing. (Sec. 6 (c), 54 Stat. 802; 15 U.S.C. 80a–6; sec. 38, 54 Stat. 841; 15 U.S.C. 80a–38) [General Rules and Regulations, Rule N-4, effective January 5, 1944]

§ 270.2a–3 *Definition of "investment adviser" of an investment company for purposes of section 12 (d) (3).* The term "investment adviser" of an investment company, for purposes of paragraph (3) of section 12 (d) of the act, shall not be deemed to include a bank, as defined in section 2 (a) (5) (sec. 2 (a), 54 Stat. 791; 15 U.S.C. 80a–2) of the act: *Provided*, That nothing herein contained shall permit any registered investment company or any company or companies controlled by such registered investment company to purchase or otherwise acquire any security issued by or any other interest in the business of any bank which is an investment adviser or such registered investment company or controlled company. (Sec. 2 (a), 54 Stat. 790; 15 U.S.C. 80a–3; sec. 6 (c), 54 Stat. 802; 15 U.S.C. 80a–6; sec. 38 (a), 54 Stat. 841; 15 U.S.C. 80a–38) [General Rules and Regulations, Rule N-2A–3, effective January 5, 1944]

(Sec. 10 (f), 54 Stat. 807; 15 U.S.C. 80a–10; sec. 6 (c), 54 Stat. 802; 15 U.S.C. 80a–6; sec. 38 (a), 54 Stat. 841; 15 U.S.C. 80a–38) [General Rules and Regulations, Rule N-10F–2, effective January 5, 1944]

TITLE 32—NATIONAL DEFENSE

Chapter IV—Selective Service System

PART 603—SELECTIVE SERVICE OFFICERS

[Amdt. 201, 2d Ed.]

COMPOSITION AND APPOINTMENT OF BOARD OF APPEAL

Pursuant to the authority contained in the Selective Training and Service Act of 1940, as amended, Selective Service Regulations, Second Edition, are amended in the following respect:

1. Amend § 603.22 to read as follows:

§ 603.22 *Composition and appointment.* For each board of appeal area, a board of appeal, normally of five members, shall be appointed by the President, upon recommendation of the Governor. The members shall be male citizens of the United States who are not members of the land or naval forces; they shall be residents of the area for which their board is appointed; and they should be at least 38 years old. The board of appeal should be a composite board, representative of all activities of its district, and as such should include one member from labor, one member from industry, one physician, one lawyer, and, where applicable, one member from agriculture. If the number of appeals sent to one board becomes too great for the board to handle without undue delay, additional groups of five members similarly constituted shall be appointed to the board by the President, upon recommendation of the Governor. Each such group shall have full authority to act for the board on all cases assigned to it by the board. Each group shall act separately. An additional member to supervise and coordinate the work of all the groups of a board of appeal may be appointed by the President, upon recommendation of the Governor.

2. The foregoing amendment to the Selective Service Regulations shall be effective immediately upon the filing hereof with the Division of the Federal Register.

Chapter IX—War Production Board

Subchapter B—Executive Vice-Chairman

AUTHORITY: Regulations in this subchapter issued under sec. 2 (a), 54 Stat. 676, as amended by 55 Stat. 236 and 56 Stat. 176; E.O. 9024, 7 F.R. 329; E.O. 9125, 7 F.R. 2719; W.P.B. Reg. 1 as amended March 24, 1943; 8 F.R. 3666, 3696; Pri. Reg. 1 as amended May 15, 1943, 8 F.R. 6727.

PART 1010—SUSPENSION ORDERS

[Suspension Order S–447]

AMERICAN HEATING COMPANY

Albert P. Mergardt, doing business as American Heating Company, Washington, D. C., is engaged in the business of selling and installing new metal plumbing and heating equipment as defined in Limitation Order L–79. On June 17, 1943, he was investigated by the War Production Board and was advised that he was not conforming to regulations and that he must do so. During the month of August, 1943, he made numerous sales of new metal plumbing and heating equipment including tank hot water heaters, to ultimate consumers at a price in excess of $5.00 each on orders which did not bear a preference rating. These deliveries constituted violations of Limitation Orders L–79 and L–185. On or about September 1, 1943, he applied a preference rating of A–10 under Preference Rating Order P–84 to a purchase order for radiators, which radiators were not to be sold on rated orders or to replace heating equipment sold on such orders. The application of this rating, therefore, constituted a violation of Preference Rating Order P–84. At the time of the transactions set forth above, Albert P. Mergardt had in his possession copies of Limitation Order L–79 and Preference Rating Order P–84 and had been advised of their significance, and, therefore, the aforesaid acts were wilful violations of these two orders.

These violations of Limitation Order L–79 and L–185 and Preference Rating Order P–84 have diverted scarce materials to uses not authorized by the War Production Board and have hampered and impeded the war effort of the United States. In view of the foregoing, it is hereby ordered, that:

§ 1010.447 *Suspension Order No. S–447.* (a) Albert P. Mergardt, doing business as American Heating Company or otherwise, his or its successors and assigns, are hereby prohibited from selling or delivering to any person any new metal plumbing or heating equipment as defined in Limitation Order L–79 except on orders which bear a preference rating of AA–3 or higher, unless hereafter specifically authorized by the War Production Board.

(b) Deliveries of material to Albert P. Mergardt, doing business as American Heating Company or otherwise, his or its successors or assigns, shall not directly or indirectly be accorded priority over deliveries under any other contract or order and no preference ratings shall be assigned, applied or extended to such deliveries by means of preference rating certificates, preference rating orders, general preference orders or any other orders or regulations of the War Production Board unless such deliveries are to fill orders bearing a preference rating of AA–3 or higher, unless hereafter specifically authorized in writing by the War Production Board.

(c) No allocation or allotment shall be made to Albert P. Mergardt, doing business as American Heating Company or otherwise, his or its successors or assigns, directly or indirectly, of any material or product the supply or distribution of which is governed by any order of the War Production Board, unless such allocation or allotment is to be used to fill orders bearing a preference rating of AA–3 or higher, unless hereafter specifically authorized in writing by the War Production Board.

(d) Nothing contained in this order shall be deemed to relieve Albert P. Mergardt from any restriction, prohibition or provision contained in any other order or regulation of the War Production Board, except in so far as the same may be inconsistent with the provisions hereof.

(e) This order shall take effect on January 7, 1944, and shall terminate on April 30, 1944.

Issued this 1st day of January 1944.

Recording Secretary.

PART 1315—RUBBER AND PRODUCTS AND MATERIALS OF WHICH RUBBER IS A COMPONENT

[RPS 87,[1] as Amended, Incl. Amdt. 9]

SCRAP RUBBER

The preamble, §§ 1315.1261 (a) (3), 1315.1263 Table III are amended, and §§ 1315.1261 (a) (5), (6), 1315.1263 (h), (i) are added by Amendment 9, effective January 6, 1944, so that Revised Price Schedule No. 87, as Amended, shall read as follows:

In the judgment of the Price Administrator it is necessary and proper to establish specific and uniform maximum prices for sales of scrap rubber. In the judgment of the Price Administrator the maximum prices established by this revised price schedule are and will be generally fair and equitable and will effectuate the purpose of the Emergency Price Control Act of 1942, as amended. A statement of the considerations involved in the issuance of this revised price schedule, issued simultaneously herewith, has been filed with the Division of the Federal Register.[2]

Insofar as this schedule uses specifications and standards which were not, prior to such use, in general use in the trade or industry affected, the Price Administrator has determined with respect to such specifications that no practicable alternative exists for securing effective price control with respect to the commodities subject to this schedule.

(b) *Other consuming mills.* (1) For any sale of scrap rubber of the kinds specified in Tables I and II to any consumer for use in a consuming mill not located in one of the consuming centers listed in Tables I and II, the applicable maximum prices shall be those set forth in Tables I and II for the one of the consuming centers there listed to which the freight charge on scrap rubber from such consuming mill is lowest. If to any such consuming mill the freight charge on scrap rubber from two or more of the consuming centers listed in Tables I and II is equal, and it is not lower from any of the others, the maximum prices applicable to sales for consumption in such mill shall be the prices set forth in Tables I and II for the one of those consuming centers with equal freight rates whose maximum prices are lowest.

(2) For any sale of scrap rubber of the kind specified in Table III to any consumer for use in a consuming mill not located in a consuming center, the applicable maximum prices shall be those set forth in Table III.

(c) *Scrap rubber not meeting grade specifications.* The highest grade or quality of each kind of scrap rubber is defined by the specifications set forth in the footnotes to Tables I, II and III of paragraph (a) of this section. All prices listed represent respectively the maximum prices for the highest grade or quality of each kind as so defined. The presence of one or more of the objectionable features specified in the respective grade or quality specifications shall be deemed to lower the quality of the particular kind of scrap rubber sold. Any sale of scrap rubber of lower quality than that specified in Table I, II or III for the respective kind shall be made at an appropriate differential, below the maximum price for that kind listed in Table I, II or III and commensurate with the difference in quality involved.

(d) *Delivered prices.* The prices specified in this Appendix are the maximum prices that may be paid by any consumer, or charged by any person, for scrap rubber sold to a consumer and delivered to the consumer's mill. The maximum prices set forth shall include all transportation costs. If the seller does not deliver the scrap rubber to the consumer's mill, the maximum prices shall be the maximum prices specified in paragraphs (a), (b) and (c) of this section, less the lowest applicable published charges for transportation by rail, water or truck carrier to the consumer's mill, or if no such charges are published, the direct costs actually involved in transporting the scrap rubber to the consumer's mill.

[NOTE: Supplementary Order No. 31 (7 F.R. 9894; 8 F.R. 1312, 3702, 9521) provides that: "Notwithstanding the provisions of any price regulation, the tax on transportation of all property (excepting coal) imposed by section 620 of the Revenue Act of 1942 shall, for purposes of determining the applicable maximum price of any commodity or service, be treated as though it were an increase of 3% in the amount charged by every person engaged in the business of transporting property for hire. It shall not be treated, under any provision of any price regulation or any interpretation thereof, as a tax for which a charge may be made in addition to the maximum price."]

(e) *Packing.* (1) The prices specified in this Appendix represent maximum prices for scrap rubber that is packed as follows:

(i) Mixed and headless tires, solid tires and bicycle tires may be shipped bundled or loose in cars.

(ii) All other kinds of scrap rubber shall be packed in bags, bales or bundles, with each kind packed separately. Each bale or bundle shall weigh not less than 500 pounds nor more than 1500 pounds and shall be well and securely bound.

[Subparagraphs (i) and (ii) as amended by Am. 3, 7 F.R. 8700, effective 10-31-42]

(2) Any sale of scrap rubber not packed in accordance with the provisions of this paragraph must be made at appropriate differentials below the maximum prices specified in paragraphs (a), (b) and (c) of this section.

(f) *Premiums for large deliveries on sales contracted for prior to June 26, 1942.* In any sale of scrap rubber, contracted for prior to June 26, 1942, as to which, under the provisions of § 1315.1260 (f) of Revised Price Schedule No. 27 in effect at the time of making such contract, a premium in addition to the listed maximum prices was allowed to be charged and paid, any premium that could properly have been added under the provisions of said § 1315.1260 (f) may be charged and paid, though delivery is not completed until on or after June 26, 1942. In sales contracted for on or after June 26, 1942, no premium shall be added to the listed maximum prices for large deliveries.

[Paragraph (f) added by Am. 2, 7 F.R. 8002, effective 6-26-42]

(g) *Maximum prices for hard rubber scrap and for certain bicycle inner tubes.* Anything in this regulation to the contrary notwithstanding, the maximum price for (1) hard rubber scrap and (2) bicycle inner tubes sold for the manufacture of rubber bands shall be determined in accordance with the provisions of the General Maximum Price Regulation. In applying those provisions to sales and deliveries by the Rubber Reserve Company, other persons who were dealing in scrap rubber during March 1942 shall be deemed to be competitive sellers of the same class as the Rubber Reserve Company.

[Paragraph (g) added by Am. 5, 8 F.R. 5986, effective 5-13-43 and amended by Am. 8, 8 F.R. 11039, effective 8-13-43]

(h) *Maximum prices for pneumatic casing carcass fabric sold for certain uses.* Anything in this schedule to the contrary notwithstanding, the maximum price for pneumatic casing carcass fabric suitable for use in the manufacture of tire patches or retiners or as material from which to stamp or cut shoe soles, when sold for such uses, shall be 8 cents per pound, delivered, regardless of the gauge or number of plies of thickness.

(i) *Maximum prices for certain sales of specially sorted scrap rubber.* A seller of scrap rubber articles (except tires, tire parts and inner tubes) who wishes to establish a higher maximum price than the maximum price set forth in Table III for such scrap rubber articles, may do so pursuant to this paragraph where:

(1) Such articles of scrap rubber are specially sorted; and

(2) They are to be sold to a consumer for use in the manufacture of rubber products other than reclaimed rubber.

The seller shall file a report with the Office of Price Administration, Washington, D. C., which must include the following information:

(1) The name and address of the seller.

(2) The name and address of the proposed purchaser.

(3) A description of the scrap rubber and the use to which such scrap rubber articles will be put by the purchaser.

(4) A statement of the actual cost per pound, or, if actual costs are not available, of the estimated costs per pound of sorting and handling such scrap rubber articles.

(5) The proposed maximum price and a statement of the reasons why such price is believed to be fair and equitable.

The seller may sell or deliver such specially sorted scrap rubber articles at his proposed maximum price at any time after mailing his report. However, he may not receive payment in excess of the maximum price that would otherwise be established under Table III until the Office of Price Administration approves the proposed maximum price in writing or until 20 days have elapsed after the mailing of the report without the Office of Price Administration disapproving of the proposed maximum price. If the Office of Price Administration disapproves of the proposed maximum price, it will designate a different maximum price in writing. The seller may not receive payment at a price in excess of that so designated. The maximum price, either approved or designated in the manner just set forth, shall be the maximum price for all subsequent sales to purchasers of the same class. However, after the 20-day period, the Office of Price Administration may establish in writing a different maximum price, not to apply retroactively.

[Paragraph (h) and (i) added by Am. 9, effective 1-6-44]

PART 1432—RATIONING OF CONSUMERS' DURABLE GOODS

[RO 9A,[1] Amdt. 5]

STOVES

A rationale for this amendment has been issued simultaneously herewith and has been filed with the Division of the Federal Register.*

Ration Order 9A is amended in the following respects:

1. Section 3.1 (a) is amended to read as follows:

(a) Any place other than a "manufacturing establishment", where a "person" regularly "acquires" and "transfers" "stoves covered by this order," is a "dealer establishment" if the sales or other transfers from there are made primarily to "consumers." Such a place is a "distributor establishment" if the sales or other transfers from there are made primarily to persons other than consumers or primarily to supply one's own establishments. However, if such a place is used by a person to keep stoves just to supply his own establishments, that place is a distributor establishment only if it supplies:

(1) At least two of his own distributor establishments, or

(2) At least three of his own dealer establishments.

NOTE: The term "manufacturing establishment" is explained in section 4.1.

2. Section 4.1 is amended to read as follows:

SEC. 4.1 *Explanation of the term manufacturing establishment and manufacturer.* (a) Any place where a "person" makes or assembles any "stoves covered by this order" for sale or "transfer" is, as to those stoves, a manufacturing establishment. Any other place where a person gets stoves from his manufacturing establishment for sale or transfer primarily to persons other than consumers is, as to those stoves, a part of that manufacturing establishment.

(b) Any person who has a manufacturing establishment is called a manufacturer.

CONSTRUCTION IN MONTANA

RECOMMENDATIONS OF GRAZING SERVICE WAGE BOARD TO SECRETARY OF THE INTERIOR

Pursuant to the order of the Secretary of the Interior dated June 15, 1943, and entitled Wage Fixing Procedures, Field Employees, Grazing Service, Department of the Interior, the Grazing Service Wage Board has determined prevailing wage rates for field employees of the Grazing Service who are not allocated to grade under the Classification Act of 1923, as amended, and who are engaged in construction in Region 6 of the Grazing Service. Region 6 is composed of the State of Montana. Extensive wage rate investigations have been made by the Wage Board.

The Grazing Service Wage Board finds that the hourly wage rates listed below are appropriate for construction work in the State of Montana and recommends them for your adoption:

It is the understanding of the Wage Board that the Grazing Service employees paid in accordance with this schedule will receive overtime pay on a basis of one and one-half times the basic hourly rate for all time worked in excess of forty hours in any one week. Refer to forty-hour week Act (Sec. 23, Act of March 28, 1934; 48 Stat. 522).

The Wage Board recommends that all field employees of the Grazing Service in Region 6 not allocated to grade and engaged in construction be classified or

reclassified in accordance with the foregoing scshedule, effective at the beginning of the first pay period following the date of approval by the Secretary. The Board further recommends that all positions not allocated to grade and for which job titles are not listed above be abolished.

The Wage Board recommends that no person employed by the Grazing Service shall receive a reduction in basic wage rate due to promulgation of the recommended rates listed above.

The foregoing recommendations approved and adopted by the Grazing Service Wage Board this 10th day of December, 1943.

SEVEN PATENTS, INCLUDING NO. 1,656,804

Under the authority of the Trading with the Enemy Act, as amended, and Executive Order No. 9095, as amended, and pursuant to law, the undersigned, after investigation:

1. Having, on October 2, 1942, vested, pursuant to Vesting Order Number 201, as property in which nationals of a foreign country or countries had interests, the property described as follows:

All right, title, interest, including all accrued royalties and all damages and profits recoverable at law or in equity from any person, firm, corporation or government for past infringement thereof, in and to the patents, among others, identified in Exhibit A attached hereto and hereby made a part hereof;

2. Having thereafter discovered that the patent designated in such Vesting Order Number 201 and in said Exhibit A attached hereto as No. 1,777,234, was correctly described in such vesting order except for its number which should have been No. 1,777,235;

3. Having thereafter received a claim executed by American Lumber and Treating Co. (herein called Altco) on Form APC-17 in which Altco claims that at the time of the aforesaid vesting on October 2, 1942, it was the sole legal owner of each and all of the aforesaid patents and of all right, title and interest therein;

4. Finding, as a result of further investigation conducted subsequent to October 2, 1942, that each of said patents and all right, title and interest therein were on October 2, 1942, owned by Altco, and that the latter was at that time and at all times since then has been and now is a corporation organized under the laws of the State of Delaware, having its principal place of business in Chicago, Illinois, and not acting or purporting to act directly or indirectly for the benefit or on behalf of, and not controlled by nor a cloak for, any designated enemy country or national thereof;

5. Determining that the aforesaid vesting was effected by the undersigned under mistakes of fact;

6. Having received no other claim (except the one hereinbefore mentioned in subparagraph 3), or notice of claim, on Forms APC-1, APC-2, APC-16, APC-17 or otherwise, to any of said patents, or to any interest in any of such patents, or arising as a result of such vesting order; and having no knowledge of any interest in any of such patents held by any national of any foreign country;

7. Having neither assigned, transferred or conveyed to anyone any of such patents or any part of any thereof or any interest in any thereof, nor issued any license with respect to any thereof nor in any manner created in any thereof any right or interest in any person whomsoever;

8. Determining that the error committed in vesting such patents should be corrected by assigning and conveying said patents to Altco, and that such disposition of the latter's claim, being for the purpose of correcting mistakes made in vesting such patents originally, does not require the filing of any further claim or any further hearing;

9. Having made all determinations and taken all action required by law; and

10. Determining that under the aforesaid circumstances the disposition hereinafter effected is in the interest of and for the benefit of the United States;

hereby orders that the aforesaid patents be assigned to Altco.

Now, therefore, the undersigned hereby, without warranty, assigns, transfers and conveys to American Lumber and Treating Co., Chicago, Illinois, the following described property:
